Become an employable graduate

UNSW is career-focused education. We equip you with the skills, opportunities and support that will ensure you excel well into your future. That's why our graduates now work with some of the most enviable employers and global organisations, such as Google, Unilever, Ernst & Young, Microsoft, Rio Tinto, HSBC, Slater & Gordon, NASA, UNESCO and Oxfam.

We prepare you for lifelong career success

Develop your flexible, lifelong career plan
From day one, you can turn to our experts for professional advice and learn how to seize opportunities throughout your career. We’ll help you:
- Recognise and build on your professional strengths.
- Identify your opportunities and plan a career path.
- Think critically and creatively for lifelong career success.

Make an impact with employers
Your knowledge, skills and experience combine to demonstrate why a company should hire you. You will learn how to express your professional best with:
- Internships and practical experiences integrated into your studies.
- Strong online presence, resume and cover letter writing skills.
- The ability to understand and respond to complex interview questions.

Connect with mentors to support your success
With professional development woven into your studies, you will be inspired by influential people and build networks with future employers. Take advantage of:
- Personalised career mentoring that offers connections, support and insights.
- Introductions to exciting companies at industry networking events.
- Internships and experiences that build your confidence and reputation.

“Coming out of uni there was so many transferable skills like being a good communicator, a team member, presenting well, these kind of skills that you’ve built up over the years studying here [UNSW] are so easily transferrable into the workforce.”

Catherine Hu, UNSW Business School Alumna and Customer Solutions Manager for TikTok

You can make this happen
UNSW Careers supports you with expert personalised career planning, mentoring, and job-seeking skill development. Visit careers.unsw.edu.au

Work Integrated Learning at UNSW builds practical work experience opportunities like internships into your degree. Visit wil.unsw.edu.au
Transform ideas into reality

Grow your ideas with leading entrepreneurial support

If you’re passionate about starting your own business, UNSW is the university for you. We have one of the biggest student and alumni start-up programs in Australia, the UNSW Founders Program. You can turn your ideas into a reality with:

- One-on-one mentoring with expert start-up coaches
- Interactive workshops in cutting-edge facilities
- Accelerator programs to help you gain investment and launch your own business
- Networking events where you meet business founders, leaders and entrepreneurs

UNSW Founders
Australia’s most comprehensive university entrepreneurship program. Visit founders.unsw.edu.au

“‘The Founders program fast-tracked our growth by putting us in touch with industry experts and mentors that have been crucial to our product development and business strategy. We’ve gained not only exposure to the start-up industry as a whole, but it has made us think more globally. The funding, office space and resources provided have been invaluable to us succeeding on our journey.”

Vanessa Zhao, UNSW Founders alumna

Vanessa and three of her classmates launched Yellowbox as a part of the UNSW Founders 10x Accelerator program. Yellowbox is a technology start-up specialising in smart-lock systems and since its launch with UNSW it has now expanded internationally.

Change the world with bold ideas and quality research

We’re passionate about research, changing lives and making real-world impact. That is why UNSW is ranked number one in Australia for research quality and impact*. It can start with just one bold idea and result in outcomes that positively impact societies, economies and the environment.

Solar power (photovoltaics): We broke the record for the conversion efficiency of a silicon solar cell. We’re home to the world’s fastest solar-powered car. Our campuses are now powered by 100% solar electricity.

The world’s first quantum computer: Using silicon, UNSW is one of the global leaders in the race to build a quantum computer. We’ve also established the world’s first undergraduate degree in quantum engineering.

COVID-19: Our researchers are tackling the COVID-19 pandemic through social policy, public health, immunology, biosecurity and infectious disease intelligence. We have established a Rapid Response Research Fund to aid numerous projects, while a leading team of UNSW researchers are currently working on the frontline with the state’s health department.

Climate Change: Among several world-first climate research projects, we have established the Climate Change Research Centre with one to the largest research facilities of its kind in Australia. We are proudly the #1 university for meeting the UN’s Sustainable Development Goal for Responsible Consumption and Production."*

*Times Higher Education University Impact Rankings, 2020
Scholarships, rewarding your ambition

UNSW is the university for you:

Our scholarships aren’t just based on your grades – UNSW values leadership skills, extracurricular interests and your passion to study with us. Our international scholarships and awards will help you to gain financial support, recognition of your academic excellence and they’ll help you stand out to future employers.

International Scientia Coursework Scholarship
Alongside academic merit, we want you to show us your passion to become a leader, how you’ve engaged in extracurricular interests, and share with us why UNSW is the university for you.

What you receive:
• a full scholarship on your tuition fees or,
• AUD$20,000 per annum for the minimum duration of your program.

You’ll also have access to networks and support including ‘fast-tracked’ applications for campus accommodation, awards and networking events and guaranteed entry into the UNSW Professional Development Program.

Australia’s Global University Award
If you have strong academic merit and are passionate about achieving your goals through your university study, you will be considered for Australia’s Global University Award.

What you receive:
• AUD$10,000 for one year or,
• AUD$5,000 for one year

UNSW Global Academic Award
This Award is for students with strong academic records who complete the UNSW Global Foundation Studies program.

What you receive:
• AUD$10,000 for one year or,
• AUD$5,000 for one year

For all eligibility requirements, instructions on how to apply, or to explore all the scholarships available, visit scholarships.unsw.edu.au.

“The scholarship has enabled me to focus on my studies plus freedom to enjoy life as a student and discover my interests through various student societies. It’s encouraged me to go beyond my limits and to become a person I would like to be.”

Weiss Li,
Bachelor of Commerce (Accounting & Finance)
Feel safe and welcome

G’day. Hello. Hi. How’s it going? Aussies are known for being friendly and you will find a smile wherever you go. Feel safe and welcome as you join our vibrant and multicultural communities all over Sydney that span social, religious and cultural collectives.

Sydney has been ranked one of safest cities in the world*. Additionally, our public health response to COVID-19 is considered one of the most effective, worldwide. You can feel secure and safe about your choice to live here. It will feel like a home away from home, no matter where you’re from. The best bit about our multicultural city? The food. Explore Chinatown, Spice Alley, Little Italy and an array of fresh food markets all within easy reach. Who knows what new treats you could discover?

Jumpstart your career connections in the business capital of Australia

Sydney is home to more global firms than any other Australian city. As a gateway to Asian economies, you’ll find many valuable networking opportunities to help you stand out in the global job market. With UNSW’s career support services, you’ll feel confident about establishing new professional networks.

Take a break from the books

There’s always something fun and exciting happening in Sydney – from concerts at the Opera House, to free events including Vivid light and musical festival, Chinese New Year celebrations and the multicultural Parramasala. Join an impromptu beach volleyball game on Coogee Beach or grab some friends for some photo-worthy moments in the Chinese Garden of Friendship.

Or if you’re more into sport, we host world-class sporting events including cricket, soccer and rugby. For the more artistic visitors, there are theatre productions, concerts and festivals (many of them free!) to keep you entertained and inspired all year round. Get among it and join fun in Sydney.

Sydney is more than just a pretty face. It offers countless business and career opportunities – it’s Australia’s financial and economic powerhouse. There’s always something to do in Sydney, and UNSW is right in the heart of it all.

Come join us.

Welcome to Sydney

Sydney is one of the best and that’s not just according to us. It’s ranked as the third most livable city in the world*. We’re known as one of the most diverse and inclusive cities in the world – made up of global citizens. The differences you bring are appreciated and we look forward to welcoming you.

Sydney is more than just a pretty face. It offers countless business and career opportunities – it’s Australia’s financial and economic powerhouse. There’s always something to do in Sydney, and UNSW is right in the heart of it all.

Welcome to Sydney.

On a budget? No worries. There are lots of affordable indoor and outdoor activities to enjoy in Sydney. Pop into a free art gallery, catch a movie at the local cinema, try a coastal walk, snorkel or surf at the beach, or enjoy a budget-friendly lunch or dinner in one of our neighbouring suburbs. Feel confident to try new hobbies with lots of UNSW student social clubs to join.

Explore Sydney’s surroundings

Sydney is all about the outdoors. And it’s more than just beaches. Head to one of our beautiful parks for an outdoor picnic with friends. If you want to go further afield, the Blue Mountains to the west of Sydney, the Royal National Park to the south or stunning Palm Beach in the north are great for a getaway. Don’t forget our beautiful beaches minutes from the UNSW Sydney campus. Fall in love with Sydney when you study in the heart of it.

Take a quick tour

Top student city
We’re in the top 10 Best Student Cities* based on safety, welcoming international students as well as cost of living.

A swimmer’s paradise
There are over 100 beaches in Sydney spanning from harbourside alcoves filled with rockpools to the calm waters at Balmoral and Camp Cove. Or give surfing a go at the famous Bondi and Coogee beaches.

Cultural melting pot
Almost a third of our population were born overseas making us a truly multicultural city. Immerse yourself in community cultural or religious events throughout the year – including student events on campus.

Enjoy our style
Sydneysiders like to shop – particularly with local Australian designers. Head to nearby Paddington to discover boutique shops. Wander over to Surry Hills to find one-of-a-kind streetwear or visit the Sydney CBD for all the top labels and luxury brands.

Experience the Australian bush
There is a lot of green space in Sydney to enjoy. In the south of the city you can find one of Australia’s first national parks, the Royal National Park, home to unique Australian plants, jaw-dropping coastal views and ancient Aboriginal art dating back thousands and thousands of years.

Art meets nature
Australia’s largest outdoor sculpture exhibit, Sculpture by the Sea, is held at Bondi Beach every year with large sculptures set against the backdrop of the cliffs and sea. Often featuring UNSW Art & Design Students’ work. Get the selfie stick out for this. You won’t want to miss a photo opportunity.

*QS Best Student Cities, 2019
UNSW has the best of Sydney right at its doorstep. The bubbling food and retail hub in the city centre is just a short trip on the light rail. For fresh ocean breezes, head to Bondi and Coogee, which are only a short bus trip from campus. Up for some sightseeing? The famous Sydney Opera House and Sydney Harbour Bridge are so close, you can visit them any time you want.

Take advantage of the public transport system. There’s trains, buses, ferries and light rail options at all hours of the day. Getting to the main campus is easy with a new Light Rail network that will drop you at our doorstep. Or if you want to make the most of beautiful Sydney, jump on a bike or choose to walk. Take it all in at your own pace.

Make it your home
Join the student community living on or nearby campus. Not only will you have this easy access to Sydney city and beaches, you will be in walking distance to your lecture halls, meet people from around the world and make lifelong friends. For information on university accommodation, please see pages 24 – 25 or visit accommodation.unsw.edu.au.
Get the full experience

University is about discovering the best version of yourself. At UNSW, there’s so many opportunities for you to explore and grow, and with each new experience, you will discover new things about yourself and what motivates you to succeed. You will make friends in clubs and societies and enjoy fun events on and off campus.

Scan the QR code to see where UNSW can take you.

Make your studies work for you

The innovative UNSW3+ academic calendar gives you the flexibility to choose your own study path. There are three 10-week teaching terms, plus an optional five-week summer term. You can choose to schedule terms with a lighter study load or pick up an additional course to fast-track your graduation or make room for an extended internship. Plus, UNSW3+ gives you the opportunity to join UNSW at one of the three intakes throughout the year (February, June or September), depending on your degree. For more information, visit student.unsw.edu.au/calendar.

Open doors with a double degree

Get more choice, more career options and more knowledge with a double degree. Despite the name, it doesn’t mean double the time or workload. Combine your passions to stand out when you graduate. Explore the different combinations of programs in this guide or at degrees.unsw.edu.au.

A place to make new friends

Students from all backgrounds are what makes our campus so rich and diverse. There’s plenty of activities and opportunities to find your place in the community. With over 300 clubs and societies for everything from sport to religion, everyone is welcome. Arc, UNSW’s student-led organisation and home to many of our student clubs, hosts year-round parties and events (in person and online), sporting competitions and practice, volunteering opportunities, health and wellness sessions… the list goes on. Find your friends at arc.unsw.edu.au.

Discover your favourite places

UNSW’s campus has everything you could need all in one place. You’ll find dozens of cafes and restaurants, banks, ATMs, a post office, supermarket, medical facilities, libraries, sporting facilities and more! When it’s time to hit the books, there are indoor computer labs and outdoor study areas, so you can find the right vibe to suit your study style – all with free and fast Wi-Fi.
We’re here for you – every step of the way

We’re known as one of the friendliest universities in Australia according to students and parents alike. We have a range of support and development services to guide you from your first day through to graduation.

Feel safe and welcome
The health and safety of our students is our number one priority. We have strict cleaning protocols in line with health authority guidelines. There is an on-campus health clinic, support for mental health, and wellbeing services designed specifically for students. We also provide 24/7 security services and have an app to help: StaySafe@UNSW.

Arriving in Sydney
With new-arrival workshops, campus tours, and even meeting you at the airport, our dedicated International Student Welcome Centre will make you feel at home with UNSW.

Help from a mate
Before you arrive, be matched with a Cultural Mentor, who is your new senior student ‘buddy’ and will answer all your questions on UNSW and Sydney. After you arrive, your mentor can help you learn about Australian culture, customs and settling into student life at UNSW.

Our International Student Advisors provide personalised advice and information on university life, student visas, wellbeing and academic performance. They’re ready to chat online now or meet you in person.

We have peer support mentors, special support programs for young students under 18 years of age and Arc, our student-led organisation, runs the ‘Great Mates’ program where you can chat with experienced, senior international students. Plus, there is lots of helpful information online, visit student.unsw.edu.au/international.

Academic skills support
UNSW students have access to free online resources, academic skills workshops, individual consultations with Academic Language & Learning Facilitators, exam preparation advice, and more. We also offer a dedicated Learning and Careers Support Hub for your academic support needs. For more information, visit student.unsw.edu.au/skills.

Scan the QR code to see where UNSW can take you.
Feel at home with a range of award-winning accommodation on and off campus at UNSW. Live within walking distance of your lecture halls, meet people from around the world, and make lifelong friends.

Accommodation at UNSW
Make friends from around the world and take comfort in the same extensive cleaning protocols that keep you safe on campus when you choose to live at UNSW. Save the commute, go home for lunch – there’s so much to love about living at UNSW.

Colleges
Live among students from all over the world including your fellow Aussies. Choose from full board, partially catered, and self-catered accommodation and options including male only, female only, and mixed male and female accommodation. Most colleges cater for dietary requirements like halal, kosher and vegetarian.

Apartments
Apartments offer independent-style living for students from all walks of life. There are apartments on and off campus and costs vary depending on the number of rooms and the location.

Private accommodation options

Rental property
Choose from numerous private rental properties located in the surrounding suburbs of UNSW. You can rent a furnished or unfurnished property. Be sure to consider additional expenses such as electricity, gas, telephone and Wi-Fi. Costs vary but usually range from AUD$250 – AUD$350 per student per week in a shared house or apartment.

Homestay
Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in a private home plus breakfast and dinner. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You’ll need to arrange your own food, cooking, cleaning, laundry and telephone costs. Costs vary but usually range from AUD$250 – AUD$350 per student per week.

Temporary accommodation
We recommend having three to four weeks before classes begin to arrange private housing. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges or furnished apartments ranging from AUD$45 – AUD$300 per day.

Private student housing assistance
UNSW’s International Student Housing Assistance (ISHA) team can help you look for temporary or private accommodation if UNSW accommodation isn’t available when you apply. For more information, visit student.unsw.edu.au/housing-assistance

Living on campus compared to living off campus
We’ve compiled indicative costs of living on campus compared to living independently factoring in everything you need to consider from food to transport, so you can make an informed choice about where you’ll live when you study with UNSW.

The Kensington Colleges

Under 18s
Arrangements must be made for students under 18 years of age according to Australian Government regulations for the welfare of international students under 18. For more information, visit student.unsw.edu.au/visa18

Living on campus compared to living off campus
We’ve compiled indicative costs of living on campus compared to living independently factoring in everything you need to consider from food to transport, so you can make an informed choice about where you’ll live when you study with UNSW.

Living costs are indicative only and will vary based on the location, number of people you live with and the condition of the housing.

For more information, visit student.unsw.edu.au/approximate-weekly-costs and studyinaustralia.gov.au/global/live-in-australia/living-costs

*Costs will vary depending on the type of accommodation and catering offered.

Career success
UNSW graduates succeed. They’re earning the highest median salaries of graduates from Sydney-based and Go8 universities*. Many are making contributions to the world’s most admired enterprises and organisations. Others are disrupting the status quo, launching brands and start-up businesses that make a real difference. That’s because we support your career success from day-one.

Work Integrated Learning
Get real-world experience and industry connections as part of your degree. Our dedicated Work Integrated Learning team will work with you to find the right professional placements and internships.

Build professional networks
Whichever sector you want to move into, you will be able to take advantage of our faculty’s connections to thousands of industry partners. You will work with and learn from staff who are not only practicing in your field, but who are also leading and shaping the future of your industry.

Career Ready Mentoring Program
In your final year, this program will connect you with leading professionals in your field who will support your career development as you transition into work.

Gain a global mindset
As part of our diverse community of students, staff, alumni and industry partners from around the world, you will build a global network. Studying at an internationally renowned university, you will learn the communication and professional skills to move into global careers and drive solutions to challenges that go beyond borders.

*QILT Graduate Outcomes Survey 2020

Experiences to shape your future
We’re dedicated to helping you create a university experience that aligns with your ambitions and values. We will listen to and work with you to understand your goals and support you to pursue those through industry connections, social networks, hands-on experiences and world-class campus facilities.

Our campuses and facilities

Kensington Campus
Located between the global metropolis of Sydney’s CBD, and its world-famous beaches, UNSW’s Kensington campus hosts hundreds of clubs, societies and networking events. It’s home to Australia’s most comprehensive entrepreneurship program – UNSW Founders.

Paddington Campus
Our Art & Design campus in inner city Sydney is a renowned creative hub. Studying here, you will have access to an unmatched array of studio, workshop and gallery spaces, as well as state-of-the-art digital production technology.

Design Futures Lab
Purpose-built to inspire exploration and innovation in architecture, design and the built environment using emerging technologies.

Esme Timbery Creative Practice Lab
Our multi-arts production and performance hub contains the latest digital production technology to facilitate creative collaboration across media and the arts.
Shape your degree around your interests and gain in-depth knowledge in the fields you’re passionate about with our flexible Bachelor of Arts degree. With over 35 subject areas to choose from, you will unravel the complexities facing today’s world and be equipped with a career-ready skill set so you can channel your passion into action and make a genuine impact on society.

Majors
The following subject areas are also available as Minors:
- Asian Studies
- Chinese Studies
- Creative Writing
- Criminology (Law)
- Economics (Business)
- English
- Environmental Humanities
- European Studies
- Film Studies
- French Studies
- Geographical Studies
- German Studies
- Global Development
- History
- Human Resource Management (Business)
- Indigenous Studies (Nura Gii)
- International Business (Business)
- International Development
- Japanese Studies
- Korean Studies
- Linguistics
- Media, Culture and Technology
- Music Studies
- Philosophy
- Politics and International Relations
- Sociology and Anthropology
- Studies in Psychology (Science)
- Theatre and Performance Studies

Minors
The following subject areas are only available as Minors:
- Art History and Theory
- Australian Studies
- Indonesian Studies
- Italian Studies
- German Studies

Career opportunities
You will gain sought after skills that ensure your adaptability in today’s fast-paced world. Our graduates can be found all over the globe in a range of industries including diplomacy, social justice, publishing, international affairs, media, politics, business and entrepreneurship, the arts and creative industries, education, journalism, university and public administration, advocacy and campaign strategy, research and academia.

Structure
Major (10 courses)
- Business Component (8 courses)
- Minor (4 courses)
- Electives (2 courses)

Double degree options
- Advanced Mathematics (Hons)

- Commerce
- Computer Science
- Economics
- Education (Secondary)
- Engineering (Hons)
- Environmental Management
- Fine Arts
- Law
- Media (Communication & Journalism)
- Media (PR & Advertising)
- Media (Screen & Sound Production)
- Medical Studies/Doctor of Medicine
- Music
- Science
- Social Work (Honours)

Bachelor of Arts and Business

Learn to think critically, creatively and strategically while gaining expertise in key areas of business studies including marketing, management and business law. This broad knowledge and skill base will give you an unique advantage as you enter the professional world, where diverse interdiscipinary skills are increasingly in demand. Combine your passion for the arts, sciences and humanities with an understanding of business in this unique degree.

Structure
Major (10 courses)
- Business Component (8 courses)
- Minor (4 courses)
- Electives (2 courses)

Double degree options
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Commerce
- Computer Science
- Economics
- Education (Secondary)
- Engineering (Hons)
- Environmental Management
- Fine Arts
- Law
- Media (Communication & Journalism)
- Media (PR & Advertising)
- Media (Screen & Sound Production)
- Medical Studies/Doctor of Medicine
- Music
- Science
- Social Work (Honours)

Bachelor of International Studies

Critically examine how the world is changing around you with a focus on exploring contemporary global issues from a variety of different perspectives including international relations, foreign affairs, human rights and foreign policy. Our degree responds to a growing demand for graduates who are equipped to meet the challenges of a rapidly changing global environment including language proficiency, intellectual flexibility and interpersonal skills. You will also learn through experience by undertaking a year long Overseas Study Program in your third year.

Structure
International Studies Core (4 courses)
- Language Studies Core (4 courses)
- Regional and Specialist Electives (4 courses)
- Minor (4 courses)
- Electives & General Education (8 courses)
- Overseas Study Program

Double degree options
- Law
- Media (Communication & Journalism)
- Media (PR & Advertising)
- Media (Screen & Sound Production)
Bachelor of Politics, Philosophy and Economics

Explore current global issues in this exciting degree which draws together perspectives of three critical yet varied disciplines. UNSW is the only university in Sydney and one of a handful in Australia to offer this degree, which prepares you to make social change on a global scale. You’ll be taught by leading experts from UNSW Arts, Design & Architecture and UNSW Business School and make valuable local, regional and global contacts through hands-on learning opportunities.

Career opportunities
See yourself working in industries worldwide including government agencies (including foreign affairs), political parties and lobby groups, public services, NGOs and social activist organisations. The Bachelor of Politics, Philosophy and Economics is a world-renowned degree that carries considerable recognition among various organisations and potential employers. Graduates become globally recognised leaders and commentators in all aspects of public life.

Double degree options
- Law

Politics, Philosophy and Economics

Sociology and Anthropology

Politics and International Relations

Media, Culture and Technology

International Business (Business)

Bachelor of Social Science

Gain the skills you need to affect policy, drive social change and make a real difference in the world. As a social scientist, you will learn and develop the knowledge and skills to analyse, challenge and gain insight into complex social, environmental and political problems. As part of your degree you will apply your knowledge of social theory and research to a practical Work Integrated Learning experience and discover firsthand what it is like working in the field of social science.

Career opportunities
Social science skills can be applied in a range of settings: government, non-government, not-for-profit, social enterprise and collectives. Our graduates are highly successful in gaining employment in diverse roles and areas such as community development, health, the environment, research and policy analysis, political advising, organisational management, marketing and market research, corporate affairs management and private consulting.

Double degree options
- Advanced Science (Honours)
- Law
- Science
- Social Work (Honours)

Art Theory Major

Study themes
- Art and Embodiment
- Art and Institutions
- Art, Science, and Technology
- Local and Global Art

Career opportunities
You’ll have the flexibility to work in a broad range of creative industry roles including arts and cultural management, policymaking and administration, galleries, libraries, archives and museums, creative direction, planning and production, art and design criticism, communications and journalism, cultural and creative research and scholarship, multi-platform publishing and distribution, curatorial, festival and event management, design thinking and management, public programming and engagement, entrepreneurship, strategy, creative social enterprise and startups.

Creative Arts and Media

Bachelor of Fine Arts

Develop your creative skills and knowledge with the Bachelor of Fine Arts. Taught by our internationally-recognised staff of artists and scholars, you’ll develop your independent artistic practice in a rigorous and supportive community of artists and thinkers. Two distinct majors are available allowing you to focus on Studio Practice or Art Theory.

Double degree options
- Art
- Advanced Science (Hons)
- Commerce
- Education (Secondary)
- Law
- Science

Studio Practice Major

Structure
Core Studio (6 courses)
+ Studio Specialisation (6 courses)
+ Electives & General Education (8 courses)

Studio specialisations
Choose two of the following disciplines to specialise in:
- Drawing
- History & Theory
- Photography
- Sculpture
- Studio Practice
- Visual Arts

Career opportunities
Gain specialist skills to work in contemporary art practice including commercial gallery representation, public funding and commissioned work, art direction and advertising, arts and cultural administration and policymaking, arts education and training, arts writing and publishing, commercial and news photography, curating and artistic program management, exhibition planning, design and installation, entertainment, digital media and technology industries, film and television production, site activation and public art.
Bachelor of Media Arts

Program code 4013
CRICOS code 89264G
Duration 3 years
(+ 1 year Honours option)
Entry February, June and September
Estimated first year tuition A$7,440
Units of credit (per year/total) 48/144
Assumed knowledge None

Structure
Core Studio (4 courses)
Studio Specialisation (6 courses)
History & Theory (4 courses)
Professional Practice/Experience (2 courses)
Elective & General Education (8 courses)

Career opportunities
Our graduates are equipped with the creative and practical skills to pursue a career in a range of media industries including animation design and production, online and mobile media, user experience and related environments, game development and production, digital publishing, advertising and communications, digital strategy, film and television production, multi-platform media development and production, sound design, composition and production, scientific imaging and visualisation, media strategy and planning, entrepreneurship, innovation and media startups.

Double degree options
- Computer Science
- Education (Secondary)

Bachelor of Communication and Journalism

Program code 3454
CRICOS code 86436G
Duration 3 years
(+ 1 year Honours option)
Entry February, June and September
Estimated first year tuition A$7,304
Units of credit (per year/total) 48/144
Assumed knowledge None

Structure
Communication and Journalism (6 courses)

Career opportunities
Our graduates are equipped with the creative and practical skills to pursue a career in a range of media industries including animation design and production, online and mobile media, user experience and related environments, game development and production, digital publishing, advertising and communications, digital strategy, film and television production, multi-platform media development and production, sound design, composition and production, scientific imaging and visualisation, media strategy and planning, entrepreneurship, innovation and media startups.

Duration 3 years
(+ 1 year Honours option)
Entry February, June and September
Estimated first year tuition A$7,144
Units of credit (per year/total) 48/144
Assumed knowledge None

Structure
Interactive Media Lab, Paddington campus

Career opportunities
With their practical, creative and conceptual skills in screen and sound-based media, and a sophisticated understanding of the contemporary industry environment, our graduates have pursued successful careers in television and film production, sound and music design, editing, screenwriting, film criticism and research.

Double degree options
- Arts
- International Studies
- Law
- Music

“Before starting uni I was looking at future careers and the world of media seemed the right choice for me. The Bachelor of Media in Communication and Journalism allowed me to study what I’m passionate about – engaging, observing and writing about events and people’s experiences. The internship I completed during my degree gave me the confidence and connections I needed to secure my first job in the industry.”

Claire Keenan, Bachelor of Media (Communication and Journalism)
Bachelor of Music

Develop your talents in a diverse range of musical genres, as a solo performer, teacher, composer or electronic artist. Ensure your future in the changing world of music by exploring music in interdisciplinary contexts including ethnomusicology, film, production, teaching, gaming and immersive media. Experience a supportive and inspiring environment in which your talent and passion for music will reach their full potential including our state-of-the-art Esme Timbery Creative Practice Lab which has been purpose built to provide a creative and contemporary space in which to hone your talents.

Structure

Music Creative Practice | Intensive pre-professional training in performance or composition.

Musicology | Studies in historical musicology, ethnomusicology and the psychology of music.

Sonic Arts | Develop foundational technical, aesthetic and theoretical skills in sound.

Music Pedagogy | Specialist study in studio music teaching and preparation for further music education studies.

Career opportunities

Become a highly skilled musician with specialist knowledge in music history, culture and analysis, as well as practical skills in arrangement, composition, performance and production. Our graduates can be found working in performance, private teaching, recording, arts administration, music journalism, arranging and composing.

Double degree options

• Advanced Science (Honours)
• Arts
• Commerce
• Education (Secondary)
• Engineering (Honours)
• Law
• Media (Communication & Journalism)
• Media (PR & Advertising)
• Media (Screen & Sound Production)
• Science

Admission

All applicants must complete an audition to gain entry to the Bachelor of Music. Audition information and the online application form can be found on the School of the Arts and Media website at arts.unsw.edu.au/sam.

If you are a student of exceptional musical ability, you may be able to enter directly into Year 2 of the Bachelor of Music: The admission process for the Advanced Entry Scheme builds on top of the existing audition process for the degree and involves the submission of additional documentation and a live audition.

Bachelor of Design Environment Studies

This degree prepares you for a professional career in architecture and other design-based industries. You will learn to design buildings that meet the needs of communities and individuals, while considering the physical environment, materials and technologies, sustainability, culture and the human experience. This is your launchpad into designing and creating the built environment.

Career opportunities

This degree is the first step to becoming an architect. Following this, you can complete the Master of Architecture and continue the pathway towards becoming a registered Architect. Career opportunities include professional architect or architectural technologist in government, private or commercial practice and multidisciplinary design, architectural consulting, heritage architectural services, spatial design, environmental consultancy, architectural critique, and academic research.

Study areas

• Architecture Design Studio
• Climate and Environmental Design
• Communications
• Computer Modelling and Building Information Modelling
• Drawing and Model Making
• History of Architecture
• Materials and Technologies
• Structures and Construction

Professional accreditation

The Bachelor of Architectural Studies is the undergraduate pathway to the accredited postgraduate Master of Architecture degree which has professional recognition from the NSW Architects Registration Board.

Program code: 3261
CRICOS code: 061903M
Duration: 3 years
Entry: February and September
Estimated first year tuition: $47,280
Units of credit per year (total): 48/144
Assumed knowledge: None

Structure

Core: (11 courses)
• Design Studio (5 courses)
• Interdisciplinary Learning (2 courses, with students from other disciplines)
• Electives & General Education (3 courses)

Design and Built Environment Bachelor of Design

With a future-focused, studio-based and research-led approach, the Bachelor of Design will equip you with the knowledge and skills to understand how design-led solutions enable people to perform at their best. In this degree you will integrate digital and physical production, critical thinking, emerging technologies, design research and entrepreneurship.

Studio specialisations

Choose two of the following disciplines to specialise in:

• Graphics | Engage with the manipulation of image and type for applications including publications, visual identity and digital spaces.
• Textile | Advance the rich histories of textiles to form an experimental practice in textile design, wearable art, costume and fashion design.
• Object | Bring together ceramic, furniture and jewellery design to explore materiality, form and practice.
• Interaction | Learn to design interactive experiences for digital systems, products, websites, environments and services preparing for a career in User Experience (UX).
• 3D Visualisation | Delve into the computer-generated world learning key technologies such as virtual reality systems.
• Experience | Explore the way people experience and interact with space and design for fields such as exhibitions, events and performing arts.

Program code: 4822
CRICOS code: 007965F
Duration: 3 years (+ 1 year Honours option)
Entry: February, June and September
Estimated first year tuition: $57,440
Units of credit (per year/total): 48/144
Assumed knowledge: Visual Arts

Structure

Core Studio (6 courses)
• Studio Specialisation (8 courses)
• History & Theory (4 courses)
• Professional Practice/Experience (2 courses)
• Electives & General Education (4 courses)

Double degree options

• Commerce
• Education (Secondary)
• Media (PR & Advertising)
UNSW-Tongji Double Degree in Architecture

Program code 3264
CRICOS code 88833J
Duration 4 years
Entry February
Estimated first year tuition AS41,388
Units of credit (per year/total) 48/192
Assumed knowledge None

Progress your architectural career at the global level. This unique double degree, taught in English at both UNSW and Shanghai’s Tongji University, prepares you for professional practice in both Australia and China. On completion you will be eligible to apply for postgraduate studies in Architecture at either university.

Career opportunities
This degree prepares you for work in both China and Australia. Upon completion of an accredited Master’s degree, you’ll be ready to pursue careers as a professional architect in government, private or commercial practice and multidisciplinary design, architectural consulting, building science and architectural or environmental consultancy.

Study areas
• Architecture Design Studio
• Climate and Environmental Design
• Communications
• Computer Modelling and BIM
• Drawing and Model Making
• History of Architecture
• Materials and Technologies
• Structures and Construction

Professional accreditation
The UNSW-Tongji Double Degree in Architecture is an undergraduate pathway to the accredited postgraduate Master of Architecture degree which has professional recognition from the NSW Architects Registration Board.

Entry
Students commence this double degree at Tongji University. The Tongji academic year commences in September. For more information on Tongji Double Degree entry, visit be.unsw.edu.au/tongji

Note: This degree is only available for high school leavers. Students who are currently enrolled in architecture degrees will not be eligible to apply.

This degree is not available to citizens of China; this includes residents of Taiwan, Hong Kong, Macao and Macao and Macao.

Bachelor of Landscape Architecture (Honours)

Program code 3381
CRICOS code 088764F
Duration 4 years
Entry February
Estimated first year tuition AS41,848
Units of credit (per year/total) 48/192
Assumed knowledge None

Landscape architects transform the world around us, planning and designing the shared environments in which we live, work, travel and play. In this professionally accredited degree, through coursework and work experience, you’ll study built and natural urban systems as the basis for designing liveable, healthy, sustainable and resilient cities.

Career opportunities
This degree will give you the knowledge and practical skills to create sustainable and beautiful environments in urban and rural settings. Our graduates can be found working across the globe in landscape architecture in private practice, government, and commercial firms, landscape planning and management, designing in construction, or in project management and strategic planning.

Structure
Core (13 courses)
• Landscape Studio (18 courses)
• Interdisciplinary Learning (2 courses, with students from other disciplines)
• Electives & General Education (5 courses)

Professional accreditation
The Bachelor of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA).

Study areas
• Communication
• Landscape Design
• Ecological Processes
• Environmental Technology and Practice
• History and Theory
• Landscape Engineering Principles
• Plants and Design

Bachelor of Interior Architecture (Honours)

Program code 3256
CRICOS code 88833J
Duration 4 years
Entry February and September
Estimated first year tuition AS41,480
Units of credit (per year/total) 48/192
Assumed knowledge None

From the scale of rooms to cities, this degree trains you to develop creative solutions to aesthetic challenges in the built environment. You will learn about interior environments including all aspects of their structural, spatial, social and material assembly, then discover how to put your skills and knowledge into professional practice.

Career opportunities
This degree will prepare you for a rewarding career in interior architecture in architecture and design firms, private consultancy in residential, retail, workplace, commercial or hospitality spaces, corporate interior design specialists in multi-storey residential, retail, hospitality, medical, hotel or exhibition design. Many of our graduates also manage their own interior architecture or design practices.

Study areas
• Communications
• Computer Modelling
• Design Studio
• History and Theory
• Materials
• Professional Practice
• Technical Drawing and Model Making
• Technology

Minors (Optional)
• Computerised Design
• Construction Management
• Industrial Design
• Landscape Architecture

Professional accreditation
The Bachelor of Interior Architecture is recognised by the Interior Designers’ Interior Architecture Educators Association (IDEA). Graduates are eligible for membership to the International Federation of Interior Architects/Designers (IFI) and Design Institute of Australia (DIA).

Bachelor of Construction Management and Property

Program code 3332
CRICOS code 088764F
Duration 3 years
Entry February and September
Estimated first year tuition AS41,848
Units of credit (per year/total) 48/192
Assumed knowledge None

In this degree you’ll develop broad knowledge and skills across the management of property development, construction and design work, construction site operation and project management as well as quantity surveying.

Career opportunities
This degree will give you the skills to manage the delivery of complex construction projects. You’ll be able to work in various roles across construction planning and management, project management, property development, property valuation, asset management or analysis, surveying and estimating, and consulting on construction, real estate, or specialised legal advice.

Study areas
• Building Construction
• Building Science Materials and Structure
• Construction Technology
• Economics and Law
• Facilities Management
• Property Development
• Quantity Surveying

Professional accreditation
The Bachelor of Construction Management and Property is accredited by The Australian Institute of Quantity Surveyors (AIAQ) and The Royal Institution of Chartered Surveyors (RICS). Students completing the additional one-year Honours program will also receive accreditation from The Australian Institute of Building (AIB).

“I wanted to study at UNSW because of its positive learning environment, reputation within the construction industry, and motivated educators who bring their unique experiences in the classroom to support our learning. While studying I attained a cadetship in the construction industry. It was a real light bulb moment when I was able to bring classroom concepts to work, and use them to make sense of real life situations”

Haeza Arshi, Bachelor of Construction Management and Property
Bachelor of City Planning (Honours)

Program code: 3082
CRICOS code: 088837E
Duration: 4 years (+ 1 year Honours option)
Entry: February, June, September
Estimated first year tuition: AS41,979
Units of credit (per year/total): 48/192
Assumed knowledge: None

Structure:
Core (26 courses):
• Work Integrated Learning (5 courses)
• Interdisciplinary Learning (2 courses, with students from other disciplines)
• Prescribed Elective & General Education (5 courses)
• Thesis (1 course)

Career opportunities:
You can expect to choose to work within a range of industries spanning urban planning, architecture, engineering, manufacturing and construction, and also animation and gaming environments. The professions you can choose from include design specialist, digital optimisation consultation, software solutions development, digital production management, and data analysis.

Professional accreditation:
The Bachelor of City Planning (Honours) is accredited by the Planning Institute of Australia (PIA).

Double degree options:
• Law

Study areas:
• City Economics
• Environmental Science
• Heritage Studies
• Planning History
• Planning Law
• Planning Theory and Methodology
• Sociology
• Transport Planning
• Urban Design

Bachelor of Industrial Design

Program code: 3387
CRICOS code: 098445E
Duration: 3 years (+ 1 year Honours option)
Entry: February and September
Estimated first year tuition: AS41,979
Units of credit (per year/total): 48/192
Assumed knowledge: None

Structure:
Core (10 courses):
• Design Studio (6 courses)
• Interdisciplinary Learning (2 courses, with students from other disciplines)
• Electives & General Education (4 courses)

Career opportunities:
Prepare for an exciting industrial design career, including working in product design for multidisciplinary design teams such as architectural and engineering consultancies, or within the manufacturing industry for consumer and public access products such as electrical, transport, scientific, medical, retail, furniture or telecommunications. You can also pursue a career in brand marketing or designing multimedia content.

Professional accreditation:
Bachelor of Industrial Design graduates are eligible for membership of the Design Institute of Australia (DIA).

Study areas:
• 3D Designing
• Commerce and Marketing
• Computer Aided Design (CAD)
• Design Studio
• Materials and Manufacturing
• Science and Engineering

Bachelor of Arts/Bachelor of Education (Secondary)

Program code: 4885
CRICOS code: 07852B
Duration: 4 years (+ Honours options)
Entry: February and September
Estimated first year tuition: AS37,808
Units of credit (per year/total): 48/192
Assumed knowledge: English

Professional accreditation:
This degree is professionally recognised by NSW Education Standards Authority (NESA).

Study areas:
• Aboriginal Studies
• Indigenous Studies
• Ancient History
• Drama
• English
• English as an Additional Language or Dialect (EAL/DA)
• Geography

Teaching specialisations:
• Business Studies
• Economics

Bachelor of Education

Program code: 3462
CRICOS code: 07996K
Duration: 4 years (+ Honours options)
Entry: February and September
Estimated first year tuition: AS43,320
Units of credit (per year/total): 48/192
Assumed knowledge: English and Mathematics

Career opportunities:
Teaching is a stable and rewarding career choice with ongoing demand for skilled educators. Our Bachelor of Education is nationally accredited by the NSW Education Standards Authority (NESA), which allows you to teach for both government and non-government secondary schools. Our graduates are widely accepted as exemplary teachers throughout Australia as well as internationally. Many of our graduates also pursue career opportunities outside secondary school teaching including working in community education, cultural institutions and tertiary education.

Professional accreditation:
This degree is professionally recognised by NSW Education Standards Authority (NESA).

Study areas:
• Aboriginal Studies
• Indigenous Studies
• Ancient History
• Drama
• English
• English as an Additional Language or Dialect (EAL/DA)
• Geography

Teaching specialisations:
• Business Studies
• Economics
Bachelor of Design/Bachelor of Education (Secondary)

Program code 4866
CRICOS code 092279C
Duration 4 years
Entry February and September
Estimated first year tuition A$42,570
Units of credit (per year/total) 48/216
Assumed knowledge English

Teaching specialisations
- Visual Arts
- Business Studies

Bachelor of Economics/Bachelor of Education (Secondary)

Program code 4858
CRICOS code 075694B
Duration 4 years
Entry February and September

System Analysts
Taxation Specialists

Join the club
Life at UNSW Business School is about more than lectures and tutorials. Our business clubs and societies introduce you to people who share your interests and passions. UNSW Business Society (BSOC) is the largest society at UNSW and hosts over 75 events a year, including first year camp and mentoring to help you settle in, progressing to career fairs with industry and a range of upskilling opportunities with your peers, designed to help you explore and design your future career path. With over 25 clubs and societies affiliated with the Business School, you’ll be able to join clubs aligned to your career aspirations from Economics Society to the Accounting Society, or the Marketing Analytics Society – and many more!

Career Accelerator
Our distinctive degrees bring the boardroom to the classroom with a range of hands-on professional learning opportunities, exclusive to UNSW Business School. Career Accelerator career development and experiences ensure you graduate career-ready, prepared to hit the ground running in the workplace.

Internships
Get real-world business experience while earning credit towards your studies with an internship. Career Accelerator unlocks exclusive experiences with our industry partners, while also giving you the option to find your own internship or take on a practical social entrepreneurship or strategic consulting project.

Professional Networking
Get personalised advice from experienced industry professionals as part of our ten-week, structured Career Mentoring Program with industry leaders. Hear challenges, trends and opportunities at our Business Insights events where experienced professionals share their thought leadership with our students. Grow your network of peers by participating in career development workshops, attending career showcases, or joining a Community Wednesday event. Our student clubs and societies hold regular industry events, upskilling workshops, lecture review sessions and social and professional networking events.

Global Opportunities
Experience business around the world with our range of global opportunities, including short overseas electives, practicums and international exchanges. Through our Global Business Practicum, you can do a practical consulting project in thriving international business hubs including Mumbai, Bangkok, Shanghai or Tel Aviv. (Note: Global Business Practicums are offered virtually while travel restrictions are in place).

Bachelor of Business

Program Code: 3582
CRICOS Code: 08009M
Duration: 3 years (+ 1 year honours option)
Entry: February, June and September
Estimated first year tuition: AS$ 3586
Units of credit (per year/total) 48/144
Assumed knowledge: Mathematics

Structure
First Year Business Core Courses (Integrated First Year)

- One or Two Business School Majors
- Work Integrated Learning (Professional Development)
- General Education
- Graduate Portfolio

The Bachelor of Business provides you with a broad and dynamic discipline where you can develop and analyse information to effectively advise organisations, business, and individuals in strategic decision making. The Bachelor of Business is professionally accredited by CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), the Chartered Institute of Management Accountants (CIMA) and the Institute of Public Accountants (IPA).

Business Schools
Accounting | Accounting is a broad and dynamic discipline where you can develop and analyse information to effectively advise organisations, business, and individuals in strategic decision making. The Bachelor of Business is professionally accredited by CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), the Chartered Institute of Management Accountants (CIMA) and the Institute of Public Accountants (IPA).

Business Analytics | Business Analytics produces and communicates actionable findings and insights from organisational data using descriptive, predictive and prescriptive analytics. This major has an emphasis on the ethical and legal issues of data governance, along with statistical modelling, programming and database management.

Business Economics | Become an expert in finance as you examine the behaviours of individuals, firms and governments and the effect of their choices on living standards. Collecting and analysing data, economists make recommendations to federal and state government departments, international organisations and the private sector.

Finance | Finance is a high-stakes, fast-moving industry requiring decisive strategy in the face of uncertainty. Learn how businesses raise capital, how people distribute their savings among different investments and how finance makes public policies and decisions. This major can be used towards the Financial Adviser Standards and Ethics Authority (FASEA) accreditation dependent on course selection. It is also approved under the Chartered Financial Analyst (CFA) Institute's University Affiliation Program.

Financial Technology | FinTech creates, enhances and disrupts financial services through methods including peer-to-peer lending and robo-advice to decentralised finance, such as Bitcoin. FinTech identifies industry needs and sits at the cutting edge of progress.

Human Resource Management | Develop strategic thinking in employee engagement, employment relations, organisational change, staff planning and development, health and safety, organisational behaviour and performance management. This major is accredited by the Australian Human Resource Institute.

Information Systems | Information Systems helps businesses operate and thrive in the digital age. You will learn to develop, implement and manage information technology solutions including databases, enterprise systems, business intelligence systems, social media, networks and infrastructure to support business operations.

International Business | Today’s global business ecosystem is highly competitive, with companies operating in markets across cultures and countries. Master the art of managing multinational as you craft strategies that consider the economic, social, legal, political and cultural contexts of global business.

Marketing | Grow an organisation by aligning people to your organisational and product advantage. Marketers work in all stages of a product’s life cycle including motivation and new product development. This includes campaign planning and execution through to digital and marketing analytics to optimise campaign and product choices.

Taxation | Taxation is the foundation that all modern societies are built on. Every individual, business, organisation and government agency interacts with the taxation system. Tax experts are highly sought after in all types of industries across a range of sectors. Delve into the intricate system of legislation and policy to understand the implications and influence of taxation on organisations.

The Bachelor of Business will provide you with a broad and dynamic discipline where you can develop and analyse information to effectively advise organisations, business, and individuals in strategic decision making. The Bachelor of Business is professionally accredited by CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), the Chartered Institute of Management Accountants (CIMA) and the Institute of Public Accountants (IPA).

Business School Majors

Accounting: Focuses on the financial and non-financial aspects of business operations, with courses in financial reporting, taxation, and auditing.

Business Analytics: Focuses on data analysis, data interpretation, and predictive analytics to help businesses make informed decisions.

Business Economics: Focuses on the economic theories and principles that underpin business operations.

Finance: Focuses on the financial management of businesses, including investments, financial markets, and corporate finance.

Human Resource Management: Focuses on the management of people and their relationships within organizations.

Information Systems: Focuses on the design, development, and management of information systems.

International Business: Focuses on the management of international business operations and the cultural and legal challenges of operating in different countries.

Marketing: Focuses on the development and execution of marketing strategies to promote products or services.

Taxation: Focuses on the theory and practice of taxation in different countries and jurisdictions.

The Bachelor of Business (International) will provide you with a cross-cultural perspective of business, preparing you for a career in the global economy. You’ll gain in-depth knowledge of the global business environment and be able to identify and analyse business problems in different cultures. You’ll learn to apply your business knowledge to a variety of international settings, preparing you for a career in the global business environment.

Career opportunities
The Bachelor of Business (International) will provide you with a cross-cultural perspective of business, preparing you for a career in the global economy. You’ll gain in-depth knowledge of the global business environment and be able to identify and analyse business problems in different cultures. You’ll learn to apply your business knowledge to a variety of international settings, preparing you for a career in the global business environment.

Professional accreditation
The Bachelor of Business (International) is professionally accredited by CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), the Chartered Institute of Management Accountants (CIMA) and the Institute of Public Accountants (IPA).

Structure
First Year Business Core Courses (Integrated First Year)

- One Business School Major
- International Studies Courses
- Elective Courses or Second Business School Major
- Overseas Exchange
- Work Integrated Learning
- Graduate Portfolio

Structure
Actuarial Studies Core Courses
- Actuarial Studies Electives
- Elective Courses or Second Business School Major

Actuarial studies are in demand across industries in analytics roles. You’ll be eligible for membership to various professional organisations depending on the major that you complete.

Double degree options
- Actuarial Studies
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Aviation (Management)
- Computer Science
- Design
- Economics
- Education (Secondary)
- Engineering (Honours)
- Fine Arts
- Information Systems
- Law
- Material Science and Engineering (Honours)
- Media (PR & Advertising)
- Music
- Science

“I am incredibly grateful for the opportunities I have been given at UNSW. It is a truly world-class university. I have gained invaluable skills and knowledge that I believe will help me succeed in my future career.”

Mohona Chakraborty, India
Bachelor of Commerce
Bachelor of Engineering (Honours)

Career opportunities
With a Bachelor of Actuarial Studies, you’ll be in demand across industries in analytics roles. You can work in sectors like insurance and superannuation as an Actuarial Analyst, Asset Management Trainee, Business Consultant, Credit Analyst, Data Analyst, Forecasting Analyst, Investment Banker, Insurance Analyst, Risk Assessment Officer, Statistical Research Analyst, Superannuation Advisor and Wealth Management Analyst.

The Bachelor of Actuarial Studies is a three-year program that provides you with a broad and dynamic discipline where you can develop and analyse information to effectively advise organisations, business, and individuals in strategic decision making. The Bachelor of Actuarial Studies is professionally accredited by CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), the Chartered Institute of Management Accountants (CIMA) and the Institute of Public Accountants (IPA).

Mohona Chakraborty, India
Bachelor of Commerce
Bachelor of Engineering (Honours)
Bachelor of Economics

Program code 3543
CRICOS code 001920G
Duration 3 years
(± 1 year Honours option)
Entry February, June and September
Estimated first year tuition A$44,880
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Economics is an influential social science which explores how society can best use finite resources - like time, money and effort. Economics is not just about money, but about improving wellbeing. Using powerful concepts, logic, data, and a rigorous mathematical and statistical toolkit, Economists study how people respond to various incentives when they decide how to allocate scarce resources. The outcomes of these studies impact life-changing policies, which means the skills and insights you’ll develop in this degree are prized by decision-makers in business and government worldwide.

Career opportunities
You will be highly sought after by policymakers in government at all levels, private sector employers in all industries, not for profits and international organisations to work as an analyst, researcher, forecaster, journalist, advisor, and many other roles. You can open-up more career paths by completing the Bachelor of Economics (Honours) degree or combining economics with studies in business, banking, law, or science.

Majors
In this degree you select at least one economics major:
- Economics
- Econometrics
- Financial Economics

And a second major from the economics majors OR the list of Business School majors OR a minor from the below:
- Accounting
- Business Analytics
- Finance
- Financial Technology
- Human Resource Management
- Information Systems
- International Business
- Languages
- Marketing
- Mathematics (Science)
- Psychology (Science)
- Statistics
- Taxation (sample list)

Double degree options
- Actuarial Studies
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Education (Secondary)
- Law
- Science

Professional accreditation
You will be eligible for membership to various professional organisations according to the major you complete.

Bachelor of Information Systems

Program code 3970
CRICOS code 068782C
Duration 3 years
Entry February, June and September
Estimated first year tuition A$44,880
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Data and technology drive almost every aspect of organisations today. From goals to strategies to functions - information systems are crucial to business operations. The Bachelor of Information Systems will develop specialist skills, knowledge and experience in information systems. This degree gives you the foundation to develop and implement IT solutions for a range of businesses.

Career opportunities
You’ll be able to work as a Business Analyst, Business Intelligence Systems Developer, Cyber Security Specialist, e-Commerce Specialist, IS Development Specialist, IS/IT Architect, IS/IT Consultant, IT Infrastructure Developer, Network developer, Network and Systems Analyst, Management Consultant and Technical Manager.

Majors
- Information Systems

Double degree options
- Commerce
- Actuarial Studies

Professional accreditation
This degree is accredited by the Australian Computer Society (ACS) for provisional membership at the Professional Level. You’ll also be eligible for SAS accreditation after studying specific elective courses within the Bachelor of Information Systems.

Structure
Info. Systems Core and Elective Courses
- Business School Core Courses
- Elective Courses

The Place, study spaces for business students
Empower yourself at a globally renowned engineering faculty, where passion, diverse perspectives and a hands-on approach create solutions for a better world.

- Set yourself apart studying at the #1 Engineering Faculty in Australia* with the largest range of disciplines, including emerging areas like Quantum and Renewable Energy Engineering.
  *QS Rankings by Subject 2020

- Improve lives with exciting, real-world projects in our unique Challeng program. Connect with students, academics and companies to gain the technical and professional skills needed to thrive.

- Enrich your studies through our diverse and inclusive student community. Our clubs and societies brings students together for professional development programs and networking opportunities.

For more information, visit engineering.unsw.edu.au
Real-world engineering
From day one, you will develop your abilities as an engineer, in the classroom and through hands-on practical experience. Build valuable industry networks and contacts with our unparalleled industry connections while you study. Learn from industry leaders, create and design projects in our Makerspaces and participate in student projects. You can attend industry recruitment events and go on international exchange, giving you valuable real-world experience to prepare you for a successful career.

Meeting global challenges
Make a positive difference in the world when you combine your passion and creativity to meet global challenges. You will have access to the world’s best facilities and research to help you reframe global problems and engineer innovative solutions for individuals and communities.

The ChallENG Program
The ChallENG Program connects you with academics and industry partners as part of exciting, real-world, project-based learning initiatives. ChallENG prepares you for your future career through practical learning experiences that are valued in the real-world. You will expand your professional expertise through a multidisciplinary learning approach that develops your technical and design skills. Many of the ChallENG projects earn academic credit (for-credit-elective) or are eligible for Industrial Training.

For more information, visit challeng.unsw.edu.au

Industrial Training
Industrial Training is a major component of your engineering education. It gives you real experience in an engineering environment and shows how your learning is applied in practice. For Industrial Training, you’ll undertake 60 days of work experience in your chosen field of study.

For more information, visit unsw.to/industrial-training

Student societies
Make friends with other students and expand your professional network: join our flagship Engineering Society (EngSoc) and Women in Engineering Society (WIEsSoc). Our full range of societies offer professional development programs and social activities throughout the year.
Bachelor of Science (Computer Science)

Program code 3778
CRICOS code 015784F
Duration 3 years (+ 1 year Honours option)
Entry February, June and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
16 Computer Science Courses
  8 Electives
  4 General Education Electives
  Possible Minor in Accounting, Finance, Information Systems, Marketing, Maths, Psychology

Career opportunities
You can work in a variety of fields including bioinformatics, pharmaceutical, agricultural, financial, banking and finance, big data, consulting, development, digital services, education, health, information technology, logistics, research, software engineering and computer security.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Economics
- Engineering (Honours)
- Law
- Media Arts
- Science

Bachelor of Engineering (Honours)

Program code 3707
CRICOS code 06815E
Duration 4 years
Entry February, June and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics and Physics (except where specified)

Structure
28 Courses in your chosen discipline
  2 Electives
  2 General Education Electives
  68 days Industrial Training

Combining mathematics, natural sciences and computing, this degree is the foundation for specialisations pathways into different engineering disciplines. You’ll learn through engineering design and research projects as well as professional practice, management and research for your thesis. There’s flexibility in the first year if you haven’t decided on your desired engineering major.

Flexible first year stream
The Bachelor of Engineering (Honours) program includes a Flexible First Year stream. If you want to study engineering but aren’t sure what engineering discipline you’d like to pursue, you can study different areas to appeal to you without making a decision until the end of your first year. This is ideal if you want to be an engineer but aren’t sure which direction to take.

Career opportunities
You can pursue a career as a Chemical and Materials Engineer, Chemist, Food and Wine Scientist, Production Manager (Manufacturing), Production or Plant Engineer, Product Tester, Research and Development Manager.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Economics
- Engineering Science
- Law
- Music
- Science

Aerospace Engineering (Honours)

Immerse yourself in the science and practice of air and space flight with this exciting degree. Learn how to design, operate, and make advanced analyses of air and space vehicles in studies that draw on our strong research and industrial expertise. In your final year you’ll work on aircraft design and research projects.

Study areas
- Aeronautics
- Flight Mechanics
- Structures

Career opportunities
You’ll be able to work in a number of fields such as the space industry, national security, transportation, airlines, maritime construction and consulting.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Economics
- Engineering Science
- Law
- Music
- Science

Bioinformatics Engineering (Honours)

Assumed knowledge
Mathematics and Chemistry

Master the foundations of bioinformatics, a field at the intersection of computing and life sciences. You’ll learn how to develop technologies for storing, extracting, organising and interpreting genetic information.

Study areas
- Biology
- Computing
- Data Management
- DNA Data Analysis
- Genomics and Genetics
- Machine Learning
- Mathematics
- Web App Programming

Career opportunities
You can work for professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Economics
- Engineering Science
- Law
- Music
- Science

Chemical Engineering (Honours)

Assumed knowledge
Mathematics, Physics and Chemistry

This broad degree covers the critical steps in a product’s creation, from the pure chemistry to the economics. You will discover how to design and develop chemical processes and equipment, optimise and control industrial operations, work with nanoparticles, determine environmental effects and pollution control.

Study areas
- Chemical Engineering
- Chemical Reaction Engineering
- Advanced Thermodynamics and Separation
- Process Dynamics and Control
- Process Design
- Polymers

Career opportunities
You can work in a variety of fields including food and drink development, environmental management, mining and minerals, oil and gas, paper and packaging, pharmaceuticals, water treatment and recycling.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Computer Science
- Economics
- Engineering Science
- Law
- Music
- Science

Chemical Product Engineering (Honours)

Assumed knowledge
Mathematics, Physics and Chemistry

With a focus on product design and development, Chemical Product Engineering is the new frontier for chemical engineers. You will graduate from this degree with everything you need to create products across a wide range of industries.

Study areas
- Industrial Chemistry
- Chemical Reaction Engineering
- Organic and Inorganic Chemistry
- Advanced Thermodynamics and Separation
- Polymer Science

Career opportunities
You can work in fields such as chemical and materials engineering, chemical engineering and technology, research and development, as well as in fields related to these areas.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Computer Science
- Economics
- Engineering Science
- Law
- Music
- Science

Civil Engineering (Honours)

Civil engineers are responsible for projects that enhance the overall quality of life for individuals and communities. In this degree you will learn how to design, construct, manage, operate and maintain the infrastructure that supports modern society.

Study areas
- Civil Engineering
- Engineering Construction and Management
- Geotechnical Engineering
- Structural Engineering
- Transport Engineering
- Water Engineering

Career opportunities
You can work for professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Economics
- Engineering Science
- Law
- Music
- Science

"I always had a keen interest in studying engineering but was overwhelmed by how vast the field is. The Flexible First Year Program allowed me to have a little taste of the different streams I was interested in without extending my degree by an extra year. One of my most exciting experiences so far has been taking part in the design and manufacturing process of a light installation that was displayed in Vivid 2019. It was amazing to see how the theory we learned could be applied to build something tangible!"

- Felice Tan, Bachelor of Engineering (Honours) Electrical Engineering / Bachelor of Commerce
Mechanical Engineering (Honours)

Mechanical engineers have the ability to conceptualise and actualise almost anything that moves, from the smallest biomedical sensor to giant wind turbines. Mechanical engineers apply scientific and engineering knowledge to design machines that solve society’s biggest problems.

Study areas
- Structural Engineering
- Fluid Dynamics
- Heat Transfer
- Materials Science
- Noise and Vibration
- Power Generation

Career opportunities
There is a high demand for Mechanical Engineering graduates in a wide range of industries. You can work in areas such as power generation, transport, construction, mining, manufacturing, insurance and appliances.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Mechanical and Manufacturing Engineering (Honours)

Bridge the gap between innovative designs and their execution with Mechanical and Manufacturing Engineering. You will learn how to design and manage the construction, operation and maintenance of equipment used in many industries. As a mechanical engineer you’ll work across all aspects of daily life, from driving, to technology to housing.

Study areas
- Computer Aided Manufacturing (CAM)
- Computer Aided Design (CAD)
- Fluid Dynamics
- Materials Science
- Mechanics of Solids
- Process Technology and Automation
- Process Modelling and Simulation
- Reliability and Maintenance Engineering
- Thermodynamics

Career opportunities
You can work in industries such as automotive, aerospace, defence, mining, cargo handling and agriculture. You can also work in designing and manufacturing consumer devices and technology such as mobile phones, video-game consoles and biomedical devices.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Mechatronic Engineering (Honours)

You will learn the full spectrum of smart machine design in this degree. Graduate with skills in autonomous system development such as self-operating robots and vehicles, and a thorough knowledge of industrial automation. You can apply this knowledge across the evolving field of smart machines and systems.

Study areas
- Computing
- Control Systems
- Electronics
- Mechanical Design
- Microprocessors
- Robotics

Career opportunities
As a mechatronic engineer you can work in industries such as manufacturing, automotive, aerospace, defence, mining, cargo handling and agriculture. You can also work in designing and manufacturing consumer devices and technology such as mobile phones, video-game consoles and biomedical devices.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Photovoltaics and Solar Energy (Honours)

Immerse yourself in the manufacture and use of solar cells that capture and convert sunlight into electricity. Study technology development, manufacturing, quality control, reliability, policy and system design. This degree prepares you for varied work in an industry that’s creating a more sustainable future.

Study areas
- Cell Interconnection and Encapsulation
- Manufacturing
- Photovoltaics
- Policy Development
- Quality Control
- Reliability and Life-Cycle Analysis
- Renewable Energy Technologies
- Solar Cell Applications
- Solar Energy
- Technology Development

Career opportunities
You can work in fields including manufacturing, quality control and reliability, computer-aided design of devices and systems, policy formulation, programs developing countries, solar cells and system design.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science
Mining Engineering (Honours)

Gain a comprehensive understanding of how complex mining systems work together and pursue a career that meets the global need for minerals. Build a solid foundation of engineering principles and the essential elements of mining, including geomechanics, ventilation, mine planning and minerals processing.

Study areas
- Geotechnical Engineering
- Mine Design and Planning
- Mining Engineering
- Mining Management and Sustainability
- Mining Systems
- Mining Technologies
- Stock Breakage

Career opportunities
You can work in areas such as drilling, project management, sustainability, quarry and tunneling, community relations and management consulting in mining companies, investment firms, finance, banking and government organisations.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Petroleum Engineering (Honours)

Specialise in solving problems and designing technologies for use deep underground. In this degree you will learn to apply practical science to the challenges and problems associated with oil and gas exploration, drilling and production. You’ll engage in the socio-political context of the industry throughout your study.

Study areas
- Computer Modelling and Simulation of Oil and Gas Resources
- Drilling Engineering
- Formation Evaluation
- Integrated Field Development
- Natural Gas Engineering
- Petroleum Geology and Geostatistics
- Petroleum Economics
- Reservoir Engineering

Career opportunities
You can gain employment in the oil and gas industry, oil service companies, resource development, computer-modernised modelling, environmental organisations, as well as banking and finance.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Renewable Energy Engineering (Honours)

Explore the best ways to use renewable energy technologies in this innovative degree. From solar thermal systems and photovoltaics to winds and biomass, draw on UNSW’s extensive resources to prepare for work in this growing industry.

Study areas
- Biomass
- Energy Efficiency and Appliances
- Geothermal Systems
- Hydro Turbine
- Photovoltaics
- Renewable Energy
- Solar Architecture
- Solar Thermal Systems
- Tidal and Wave Energy
- Wind Power

Career opportunities
You can work in a wide range of fields and companies in designing, installing and operating renewable energy generating systems such as wind, solar, biomass or hydro systems. Other career paths include the construction of energy efficient technology or buildings, policy, programs for developing countries and research organisations.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Surveying (Honours)

Enjoy working indoors and outdoors in surveying that supports construction, infrastructure engineering and mapping and monitoring landscapes. In this degree you will learn how to use GPS, laser scanners, mapping drones and surveying robots to create high-definition 3D models of the built and natural environments.

Study areas
- Engineering and Mining Surveying
- Geodetic Surveying and Land Law
- Modern Geodesy
- Navigation and Earth Observation
- Precise GPS/IONEX Positioning
- Satellite and Airborne Imaging
- Surveying Applications and Design
- Business Management
- Sustainable Land Development and Management
- Water and Soil Engineering

Career opportunities
Work in fields including urban and rural development, oil and gas exploration, mining and engineering construction, climate change monitoring, land management and planning, cadastral surveying and land law, hydrographic surveying as well as aerial imaging and cartography.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Music
- Science

Software Engineering (Honours)

Become an expert in creating high-quality, reliable software systems. You will discover the processes, methods and tools for the design and development of these sophisticated systems, from code-writing to delivery. This degree will give you hands-on experience in software specification, design, implementation and testing with workshops for team-based projects.

Study areas
- Programming
- Software Engineering
- Software Development
- Software Process
- System Design

Career opportunities
You can pursue a career with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or start-ups.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Music
- Science

Telecommunications (Honours)

In this degree you will learn about the theory and application of a broad range of telecommunications systems such as telephone and data networks, radio and TV, satellites and deep space applications. You will learn how to design, develop and maintain the transmission of information using different methods across the world.

Study areas
- Data Communications Systems
- Data Encoding
- Compression and Encryption
- Satellite and Optical Fibre Networks
- Viva-Communication Systems

Career opportunities
You can pursue a career with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or start-ups.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Music
- Science

Bachelor of Civil Engineering with Architecture (Honours)

Build on your civil engineering bachelor’s degree with courses in the related field of architecture. Establish a foundation in architectural principles and learn about the connection between architects and engineers. Get inspiration to become a conceptual thinker with a hybrid of aesthetic and structural expertise.

Program code 3635
CRICOS code 09549H
Duration 4 years
Entry February
Estimated first year tuition A$546,924
Units of credit (per year/ total) 48/192
Assumed knowledge Mathematics and Physics

Structure
Civil Engineering discipline, Including Thesis project in final year
- Architecture subjects
- 68 day Industrial Training

Assumed knowledge
Mathematical Lisa
Bachelor of Food Science (Honours)

Program code 3661
CRICOS code 00188I
Duration 4 years
Entry February, June and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/240
Assumed knowledge Mathematics, Chemistry and Physics

Structure
28 courses in Food Science
+ 2 Electives
+ 2 General Education

Bachelor of Engineering (Honours)/Master of Biomedical Engineering

Program code 3736
CRICOS code 08591B
Duration 5 years
Entry February and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/240
Assumed knowledge Mathematics and Physics; for Biomechanics: Mathematics, Chemistry and Physics; for Chemical and Chemical Engineering: Mathematics, Chemistry and Mathematics; for Bioinformatics: Mathematics, Chemistry and Physics; for Software: Mathematics only

Structure
Integrated Electrical Engineering Bachelor and Master degree, including two theses
+ Minor (4-6 courses)
+ 1 Free elective
+ 60 days Industrial Training

You will extend your knowledge whilst working on innovative projects in this five-year Electrical Engineering degree. You can also study a minor in areas such as mechatronics, computing, commerce, photovoltaics, music, satellite systems, mathematics, psychology or nuclear engineering. With around 35 undergraduate and postgraduate electives to choose from – the widest choice in Australia – you can tailor your degree to suit your interests.

Study areas
• Accounting
• Business Economics
• Computing
• International Business
• Finance
• Management
• Human Resource Management
• Languages
• Marketing
• Mathematics
• Internet of Things
• Music
• Photovoltaics
• Physics
• Psychology

Career opportunities
You can work in a variety of fields such as electronics, quantum computing, networking, power distribution, and robotics and control. Potential employers include energy service industries, large private industrial companies such as transport manufacturers, aerospace companies, mining companies, infrastructure service companies, electronics, networking and computing companies and small, innovative private firms that specialise in new technologies, services or products.

This degree is accredited by Engineers Australia.

Bachelor of Engineering (Honours)/Master of Biomedical Engineering

The Bachelor of Engineering (Honours) component of this double degree provides a solid background in mathematics, natural sciences and computing. In the Master of Biomedical Engineering you’ll learn principles for the development of technologies and solutions in healthcare-related fields such as implantable bionic and robotic surgery.

Disciplines
• Biomechanics Engineering
• Chemical Engineering

Career opportunities
You can pursue careers with pharmaceutical companies, hospitals, scientific research institutions in fields such as medical device manufacturing and biotechnology.

This degree is accredited by Engineers Australia.

Structure
Bachelor degree
+ 12 Master of Biomedical Engineering courses
+ 1 Free Elective
+ 60 days Industrial Training

You can pursue a career in food technology, food science, safety and quality. As a Food Scientist, you can tailor your degree to suit your career goals such as food product design, professional food practice and food systems management in addition to completing a postgraduate thesis. You will be able to use your skills as a Food Scientist to address humanitarian issues. The Humanitarian Science and Technology minor gives you the opportunity to apply your knowledge to real humanitarian issues, addressing challenges recognised by the UN Sustainable Development Goals and international humanitarian relief efforts.

Degree curriculum is approved by the Institute of Food Technologists.
Law & Justice

Tackle tomorrow’s big challenges by immersing yourself in the real-world application of law and justice. Sharpen your mind by exploring complex ideas and learn from a faculty that’s driven by an ethos of justice for all.

Study at a Law faculty ranked 13th in the world and 1st in Sydney.*

*QS World University Rankings by Subject 2021.

Graduate job-ready and navigate your career opportunities with dedicated support from a careers service that is exclusively for Law & Justice students.

Embody our ethos of justice for all and gain insight into the criminal justice system through real world experience.

For more information, visit law.unsw.edu.au

Join a top global law faculty

Ranked 13th in the world*, UNSW Law & Justice has been a leader in progressive and rigorous legal education and research for 50 years. We are also home to the highest-ranking Criminology program in NSW** with an above world standard rating.

*QS World University Rankings by Subject 2021
**Excellence in Research for Australia 2018

Benefit from interactive classes

Build confidence in your ideas and develop strong relationships with your teachers and peers in our small interactive classes. Our student-focused, interactive teaching environments give you the chance to ask questions, expand your ideas and sharpen your critical and analytical mind. Be part of an innovative learning environment that pioneered Australian legal education.

Join our societies

Form new friendships, excel in your studies and develop your professional skills and passion for social justice. UNSW Law Society is one of Australia’s most respected student-run law organisations while UNSW Criminology Society has a strong history advocating for social justice.

Extensive clinics and internships

Apply what you learn in the classroom to real life practice with the wide range of practical experiences available. From helping members of the local community at our on-campus community legal centre to undertaking a credit-based work placement at a criminal justice agency, our students put theory into practice.

Global opportunities

Add a global experience into your degree. You can do an exchange, an overseas elective course or an internship abroad. Overseas electives and exchange can take you to places like Brazil, China, India, Switzerland, USA or Vanuatu. There are more than 80 exchange destinations at leading universities around the world.

Exclusive careers service

Secure a rewarding job at the end of your degree with support from our dedicated careers service. With extensive experience working as lawyers and criminologists in Australia and overseas, our careers team collaborates with employers, recruitment agencies and UNSW alumni to source and promote opportunities for students.

End-to-end legal education

Completing a Bachelor of Laws is your first step towards becoming a lawyer, followed by Practical Legal Training (PLT). All law graduates in Australia must complete PLT to practise as a lawyer. UNSW’s PLT is the Graduate Diploma in Legal Professional Practice (GDLPP), so you can graduate with all the qualifications you need to launch your legal career.

Step 1 – Complete your Bachelor of Laws (LLB).
Step 2 – Complete your GDLPP at UNSW*.
Step 3 – Apply to the Supreme Court for admission to practice.

For more information, visit law.unsw.edu.au/plt

*Important note for international students. This program is not CRICOS registered. International students will require a valid visa other than a student visa (e.g. a temporary graduate visa) to be eligible to apply to this program.
The Bachelor of Laws (LLB) is a double degree program, which means you pursue your legal studies with a bachelor’s degree in a non-law field of study. This increases your understanding of the wider social implications of law. Our student-focused, interactive teaching approach emphasises experiential learning to teach you analytical and practical skills needed in a wide range of careers.

Please note: While there is no assumed knowledge for the Bachelor of Laws component of your double degree, there may be assumed knowledge for the non-law component. Please check with the relevant faculty for this detail.

Career opportunities

We prepare our students for successful careers not only in law but across a wide range of industries and professions including the arts, business, community service, diplomacy, education, engineering, financial services, media, science, urban planning, government and non-government organisations. Our graduates are highly sought after by major law firms, private and public sector institutions in key areas of legal practice including banking and finance law, commercial law, criminal law, intellectual property law, international law, litigation, media law and public and administrative law.

Professional recognition

As a graduate of a top-15 global law faculty, the UNSW Bachelor of Laws (LLB) is in your key to seeking admission to the legal profession. The UNSW LLB is accredited by the Legal Profession Admission Board (LPAB) and satisfies the academic component for admission to practice in the Supreme Court of NSW. In addition, in order to be admitted to practice you will also have to complete practical legal training (PLT) which you can do through UNSW’s Graduate Diploma in Legal Professional Practice (GDLP).

Certificates to practice as a solicitor or barrister are granted by the NSW Law Society and NSW Bar Association respectively.

To practice law in other countries you must satisfy the academic and accreditation criteria in the particular jurisdiction. Always refer to the relevant authority or admitting body in your home country, or the country where you intend to practise, regarding the recognition of the UNSW law degree for registration purposes.

## Bachelor of Criminology and Criminal Justice

**Sample structure**  
- Criminology Core and Electives  
- Social Science Core  
- Free Electives and General Education

**Career opportunities**  
Our Criminology degree combines knowledge with real-world practice, ensuring you’re well-equipped for a career in the criminal justice sector. Your future opportunities include working with federal and state police, prisons and probation, or a career as a policy analyst in research. Our graduates can be found in diverse roles across policing, corrections, national security, intelligence, crime prevention, insurance and customs.

**Double degree options**  
- Law  
- Social Work (Honours)

---

> “Having to really develop your worldview and getting challenged every day to think – ‘How do I feel about this? What’s my opinion? I loved it so much.”  

– Meg Greenwood a Bachelor of Criminology & Criminal Justice alumna
Prepare yourself for the future of health and join a community focused on improving life for all.

You will research and make discoveries, build analytical and communication skills and develop a creative, open-minded approach to medicine and health.

Experience hands-on clinical training, interacting with patients and health professionals in some of Australia’s largest hospitals and health organisations, from the first year in many of our degrees.

Make a difference as you apply your skills to real patients and global health problems. Join a supportive community focused on improving health outcomes for everyone.

*Our Medicine students graduate with a Bachelor of Medical Studies and a Doctor of Medicine, launching them into their first year of intern medicine. With further study and training, graduates can pursue careers in areas including gastroenterology, plastic and reconstructive surgery, general medicine, pediatric medicine, ophthalmology, medical research and non-medical roles such as consulting.
Study the most in-demand degree
The Bachelor of Medical Studies/Doctor of Medicine is our most popular degree for aspiring medical professionals due to the quality of training by accomplished researchers, teaching staff and clinicians. Secure a place in this highly sought-after program to stand out from the pack and set yourself up for an exciting career in medicine.

Learn from leaders in the field
We’re driven by innovation and excellence in health and medicine. UNSW ranks 45th in the world for Medicine* and is among Australia’s leaders in medical education and research. Learn from world leaders in the fields of cancer, neuroscience, mental health, addiction, infectious disease, immunity and inflammation, and non-communicable disease including cardiovascular disease.

*QS World University Rankings by Subject 2021

Access world class biomedical and clinical training facilities
Experience clinical training in some of Australia’s largest metropolitan and rural hospitals. You will benefit from UNSW’s leadership role in the Sydney Health Randwick Precinct. You will have access to cutting-edge learning environments, which use research to create positive impacts in the community.

Hands-on learning
Immerse yourself in hands-on learning with patient interactions from year one in many of our degrees. Your practical study will help you develop as a skilled health professional and innovative clinician with strong research and teamwork skills.
Bachelor of Medical Studies/Doctor of Medicine

This award-winning double degree is the most in-demand undergraduate degree for high school leavers in NSW. Starting with your first course, you’ll be learning in real hospitals and within our state-of-the-art Clinical Skills Centre, gaining hands-on experience and vital clinical skills to tackle the constantly evolving and complex issues in the medical industry. You’ll become a life-long learner with a high level of professionalism and an outcomes-based approach to your practice.

Although the entire program needs to be completed, it can be broken down into two parts - the BMed and the MD components. The program consists of:

Bachelor of Medical Studies (BMed)
Collaborative learning and teamwork are cornerstones of the Bachelor of Medical Studies. Phase 1 begins with the Foundations course, which includes basic medical and social science examining the human life cycle, social, ethical and legal issues. You’ll also sharpen your clinical and communication skills from Phase 1. In Phase 2 you’ll have increased clinical exposure through hospital placements combined as well as ongoing learning in biomedical sciences.

Doctor of Medicine (MD)
The MD includes the Independent Learning Project (ILP) or Honours followed by clinical courses in internal medicine, surgery, psychiatry, primary care, obstetrics, gynaecology and paediatrics. There’s also an elective clinical course, which you can undertake interstate or overseas. Phase 3 consists of ten eight-week courses with a clinical focus and includes relevant content from the biomedical sciences and the social sciences. When you complete these phases, you’ll receive a provisional registration so you can begin a hospital internship before being recognised as a medical practitioner.

Career opportunities
Graduates who obtain full registration from the Medical Board of Australia are able to work as medical practitioners in hospitals and private practices. Further study and experience will allow you to specialise in a specific area of medicine, such as general practice, paediatrics, cardiology, oncology, general surgery, orthopaedics, pathology, radiology, or psychiatry. There are also career opportunities in medical research, health policy and medical education.

What I love about the medicine faculty, and UNSW as a whole, is that they really encourage you to become involved in student life and have a healthy study-life balance. There are so many different societies to join and new ones starting all the time.”

Rashmi Jayathilake, Bachelor of Medical Studies/Doctor of Medicine

Program code 3985
CRICOS code 07423G
Duration 6 years
Entry February
Estimated first year tuition AS$76,488
Units of credit (per year/total) 48/288
Assumed knowledge English

Majors
• Medical Studies
• Doctor of Medicine

Professional recognition
After completing the formal degree requirements for the award of the BMed/MD degrees, you’ll be provisionally registered by the Medical Board of Australia to work for at least one year in selected hospitals in an internship before obtaining final registration as a medical practitioner. Please note that international students are not guaranteed an internship position.

For further information on medicine entry visit med.unsw.edu.au/med-how-to-apply.

Double degree options

Bachelor of Exercise Physiology

Program code: 3871
CRICOS code: 06674A
Duration: 4 years
Entry: February
Estimated first year tuition: A$48,408
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics and Chemistry

Structure
- Exercise Science
- Exercise Physiology
- Clinical Practice
- Research Internships

Play a vital role in the prevention and management of chronic disease and injury and pursue rewarding careers in a range of clinical work environments including public and private hospitals, aged care facilities, physical activity programs and workplace health and rehabilitation. You'll benefit from expert training in the medical sciences and gain clinical practice within our faculty.

This degree provides you with a comprehensive education in health and exercise – from foundational courses in chemistry and molecular biology, to anatomy, physiology and pathology. In the final stages of your degree, you'll undertake advanced clinical exercise physiology specialisations tailored to your preferred career and have the opportunity to complete research internships with experts in the field.

Majors
- Exercise Physiology

Career opportunities
Exercise Physiologists work in private practice, hospitals, medical clinics, or research in the area of exercise for the prevention and management of chronic disease such as musculoskeletal and neuromotor disorders, and cardiopulmonary and metabolic conditions.

Graduates can also work as an Accredited Exercise Physiologist (AEP) in a gym or create their own business in the industry. This program can also prepare students for postgraduate studies in physiotherapy.

Professional recognition
The UNSW Bachelor of Exercise Physiology is accredited with Exercise and Sports Science Australia (ESSA) as the national governing body for the Exercise Physiology profession.

Upon graduation, you will be eligible for the dual ESSA qualifications of Accredited Exercise Scientist and Accredited Exercise Physiologist.

Bachelor of International Public Health

Program code: 3880
Duration: 3 years (dual mode and online)
Entry: February, June and September
Estimated first year tuition: A$23,520
Units of credit (per year/total): 48/144
Assumed knowledge: English

Structure
- Introduction to Global and Public Health
- Core Public Health Disciplines
- Electives and Public Health Capstone (Project or Internship)

Want to address global health issues and join passionate health professionals working across borders? Unlike other Australian undergraduate public health programs, the Bachelor of International Public Health (BIPH) is internationally integrated with courses aimed at improving the health of populations worldwide. Courses focus on infectious disease challenges, Indigenous and environmental health, women and children’s health, and global chronic disease prevention. You will also complete a capstone experience in the final year. This may include the option of either an internship placement or research project.

You can study the BIPH entirely online so you can study from your home country, wherever you are in the world. You can also study select courses on campus and learn in a way that best suits you. The degree includes unique coursework from two of the world’s leading universities – UNSW Sydney and Arizona State University (ASU).

Career opportunities
Graduates will be equipped with essential skills for a career in international public or population health: epidemiology, health promotion, surveillance and disease prevention. That career could involve contributing to population health programs in local or state health departments, or designing and/or evaluating interventions to reduce the burden of disease while working in multinational and development agencies. You may be interested in pursuing a research career in public health or seek higher studies, such as a graduate medical program, a Master program or PhD.

Majors
- International Public Health

Bachelor of Vision Science

Program code: 3181
CRICOS code: 09296A
Duration: 3 years
Entry: February
Estimated first year tuition: A$48,748
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics, Chemistry, Physics and English

Vision Science is the study of the mechanisms that allow us to see the world. You will learn about the sensory processes that underlie vision and the development and use of vision-related technologies. This degree develops scientists who understand how we see and interact with our world. You'll develop a deep understanding of a broad range of areas including sensation and perception, psychophysics, optics, anatomy and functioning of the eye, ocular–visual disorders, introductory pharmacology, visual aids and dispensing, the consulting room interface, research design and methods and experimentation.

Career opportunities
You will be equipped with core skills and in-depth knowledge to work in eye health sector spanning clinical settings, health promotion in government and non-government organisations and the ophthalmic industry.

You can work in wide range of optics, vision science and ophthalmology research laboratories that develop vision-correction devices such as contact lenses, spectacles, intraocular implants, imaging, and drug development.

You may be interested to pursue further study in a clinical discipline in optometry, orthoptics or rehabilitation for people with vision impairment (Diploma in Orientation and Mobility) or seek higher studies with an honours year, leading to a Master’s or PhD.

Bachelor of Vision Science/Master of Clinical Optometry

Program code: 3182
CRICOS code: 09296A
Duration: 5 years
Entry: February
Estimated first year tuition: A$48,748
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics, Chemistry, Physics and English

This degree combines the theory behind vision science with the clinical art of primary eye care. Graduates can register as an optometrist in Australia. You’ll study the physiology of the eye, the diagnosis and management of people with ocular disease or with special needs (children, low vision, sports vision, workplace needs), the psychophysics of vision and the neuroscience of the brain.

Career opportunities
You can pursue a career as an optometrist, and develop interest and experience in paediatric optometry, contact lenses, public health, sports vision or low vision rehabilitation. You can also seek careers in eye and vision research or as a consultant to ophthalmic industries.

Professional accreditation
Graduates of this program can register as an Optometrist in Australia.

Structure
- Vision Science Core Courses
- General Education Non-Science Courses
Science

Think big and form deeper connections with our world. Allow your curiosity to be inspired as you discover your own path, exploring areas of science to acquire the skills needed for tomorrow’s workforce.

Tailor your degree at one of the largest and most diverse science faculties in Australia, where your choices include flexible double degrees and cross-disciplinary options.

Join a community of world-leading researchers and inspiring educators who are using science to improve lives and communities around the world.

Reach your career goals with industry relevant skills and training. Tap into our network of 400+ industry and research partners to start building your own professional connections.

Career outcomes

- Analytical Chemists
- Astronomers
- Aviation Consultants
- Biochemists
- Biomedical Engineers
- Biotechnologists
- Climate Scientists
- Data Scientists
- Materials Scientists
- Mathematicians
- Medical Scientists
- Pathologists
- Pharmacologists
- Physicists
- Pilots
- Psychologists
- Statisticians
- Wildlife biologists
Embrace a career with impact
The brightest minds come together to learn, explore and discover at UNSW Science. Join a vibrant and welcoming community that prepares you for real-world challenges and future leadership opportunities. In our technology-centric world, there’s increased demand for skilled scientists in a range of careers. Benefit from our leading industry partners and begin your journey to achieve your career goals and make an impact.

Learn from world-class teachers
Study with innovative, passionate and world-renowned educators, including quantum physicist and 2018 Australian of the Year Professor Michelle Simmons AO, Nobel Laureate Sir Fraser Stoddart, leading marine ecologist and Dean of Science, Professor Emma Johnston AO, and groundbreaking recycling scientist Professor Veena Sahajwalla.

Make profound scientific discoveries
Collaborate, explore and achieve with world-class laboratories, clinics and simulators giving you the tools to explore new limits and make meaningful scientific discoveries to benefit society.
Bachelor of Advanced Science (Honours)

Are you an innovative thinker with exceptional scientific knowledge and skills? This is the degree for you. It includes advanced courses and an Honours year to challenge only the brightest minds. The Advanced Science (Honours) program has 26 majors to choose from and an honours year that includes a supervised research project.

Career opportunities
- You can work in a range of settings including public sector research in universities and government institutes such as the CSIRO.
- Other careers include private sector research in pharmaceuti
cals and biotechnology companies, public policy, health and environmental related non-profits, market research and product development, management, technical and environmental consulting, data analytics, medical sales and science communication.

Majors
- Advanced Physical Oceanography
- Advanced Physics
- Anatomy
- Bioinformatics
- Biology
- Biotechnology
- Chemistry
- Climate Dynamics
- Climate Systems Science
- Earth Science
- Ecology
- Genetics
- Geography
- Immunology
- Marine and Coastal Science
- Materials Science
- Mathematics
- Microbiology
- Molecular and Cell Biology
- Neuroscience
- Pathology
- Pharmacology
- Physiology
- Psychology
- Sport Science
- Vision Science

Double degree options
- Arts
- Commerce
- Computer Science
- Economics
- Engineering (Honours)
- Fine Arts
- Law
- Music
- Social Science

Bachelor of Science (International)

Scientists today need to be experts in their field and work collaboratively with scientific professionals around the world. This degree focuses on a Science major combined with cross-cultural skills, knowledge and understanding. It includes subsidised study overseas at a UNSW partner university.

Career opportunities
- This is a flexible degree with a broad range of career options you can pursue in Australia and overseas. You can be employed in a variety of science and technology-based roles in management, research, communications and policy development within international government and non-government organisations, and private sector companies.

Majors
- You'll need to complete one approved Bachelor of Science (International) major and one language minor from the available disciplines.

Science discipline areas
- Refer to Bachelor of Science.

Bachelor of Science

If you want a career in science but aren’t sure which field to choose, this flexible degree is for you. Choose what interests you from a broad range of courses and expand your general understanding of scientific principles in your first year. Then choose from a wide selection of majors in your second and third year of study.

Career opportunities
- Exciting roles in business, industry, government and universities await you. You can work in areas as diverse as pharmaceutical and medical research, public policy, occupational health and safety, environmental research and industry, new product manufacturing, forestry, science, patent law, cognitive science, oceanography, food manufacturing, science education and communication, meteorology, optics and applications of mathematics and statistics in the finance industry.

Majors
- Anatomy
- Bioinformatics
- Biology
- Biotechnology
- Chemistry
- Earth Science
- Ecology
- Food Science
- Genetics
- Geography
- Immunology
- Marine and Coastal Science
- Materials Science
- Mathematics
- Mathematics for Education
- Microbiology
- Molecular and Cell Biology
- Neuroscience
- Pathology
- Pharmacology
- Physiology
- Psychology
- Statistics
- Vision Science

Double degree options
- Actuarial Studies
- Arts
- Commerce
- Computer Science
- Economics
- Engineering (Secondary)
- Engineering (Honours)
- Fine Arts
- Law
- Music
- Social Science

Bachelor of Science and Business

You can change the world for the better when you pursue a business career in a scientific industry. This degree is two-thirds Science and one-third Business. You’ll graduate with skills required to work in the scientific industry as well as an understanding of commercial environments.

Career opportunities
- You can work in a variety of research, communication, leadership and management roles in science and technology-based public and private sectors. You’ll be skilled in the commercial applications of scientific research giving you a competitive edge among other graduates. Examples include brand manager, product development manager, medical sales and technical specialist and marketing and communications specialist. Recent UNSW Science graduates have started a variety of successful science-based commercial businesses.

Majors
- Anthropology
- Bioinformatics
- Biology
- Biotechnology
- Chemistry
- Earth Science
- Ecology
- Food Science
- Genetics
- Geography
- Marine and Coastal Science
- Materials Science
- Mathematics
- Mathematics for Education

Double degree options
- Law
Bachelor of Aviation (Flying)

Program code 3980
CRICOS code 017027G
Duration 3 years
Entry February and September
Estimated first year tuition A$647,760 (does not include flying fees)
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Aviation Flying Core Courses
+ General Education
Non-Science Courses

Dreaming of becoming a pilot? You will learn the science behind aviation as well as earn your flying licences. You’ll combine the study of theory with up to 200 hours of flight training and about 30 hours of simulator training. Our aviation management courses will prepare you for the demands of industry roles.

Career opportunities
This degree will provide you with the skills and accreditation to work as a pilot for regional or major commercial airlines, training centres, charter flights or as an aviation surveyor.

Professional accreditation
This degree is professionally recognised.

Important information
You will need to pay for the flight training costs portion of this degree. In 2022, the anticipated standard cost of flight training to obtain the minimum of a Commercial Pilot Licence (CPL), Instrument Rating - Multi Engine Aeroplane, and ATPL (Frozen) is A$319,530 (some elective fees and extra flying fees may apply). Additional flying costs are incurred depending on your choice of third year flying practicum and if more than the 200 flight hours are required to achieve proficiency in any aspect of the flight training.

Admission
In addition to your ATAR (or equivalent), Aviation (Flying) requires an internal application directly to and interview with the UNSW School of Aviation. If successful, you’ll need to obtain a Class 1 Civil Aviation Authority (CASA) medical examination before flying commences in your second year.

Bachelor of Aviation (Management)

Program code 3981
CRICOS code 018567B
Duration 3 years
Entry February, June and September
Estimated first year tuition A$547,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Aviation Management Core Courses
+ Aviation Elective Courses
+ Free Electives (from any faculty at UNSW)
+ General Education
Non-Science Courses

Immerse yourself in the practices of aviation management in this degree. You will undertake a range of courses in management areas such as operations management, aviation economics, law and regulations, airline marketing and safety. Please note this degree does not provide training or accreditation to work as a pilot.

Career opportunities
You will gain the skills you need to manage various aspects of airlines, freight companies, regulatory authorities, defence forces or airports. Specific roles you could pursue include Air Freight Manager, Airport Planner, Flight Crew Scheduler, Aviation Consultant, Flight Analyst, Flight Safety Investigator, Aviation Revenue Manager and Airport or Fleet Planner.

Double degree options
• Commerce

Bachelor of Biotechnology (Honours)

Program code 3953
CRICOS code 088871C
Duration 4 years
Entry February, June and September
Estimated first year tuition A$547,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics and Chemistry

Structure
Biotechnology Core Courses
+ Biotechnology Elective Courses
+ Free Electives (from any faculty at UNSW)
+ General Education
Non-Science Courses
+ 1 Year Honours

Biotechnologists work at the forefront of pharmaceuticals, food, industrial chemicals, crop and livestock farming, environmental clean-up and forensics.

In this four-year degree, you will begin with the fundamentals of science. Building upon this core knowledge you’ll delve deeper into the multidisciplinary world of biotechnology, with courses including molecular biology, microbiology, chemistry and genetics. An Honours year will then extend your research and critical thinking skills. You will join a research team in the School of Biotechnology and Biomolecular Sciences to complete a supervised research project and thesis.

Career opportunities
Become a scientist or researcher with medical, biological or pharmaceutical research organisations. Our graduates are working as research and development managers, clinical trial associates, in government regulation and policy, industry regulatory affairs and intellectual property management. You can also pursue career opportunities in marketing, sales, biotech investment and finance, and business development.

Bachelor of Data Science and Decisions

Program code 3959
CRICOS code 009858J
Duration 3 years
Entry February and September
Estimated first year tuition A$547,040
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Data Science Core Courses
+ Major
+ Free Electives (from any faculty at UNSW)
+ General Education
Non-Science Courses

As billions of devices feed data to central databases, businesses and governments require experts to interpret that data. In this degree you’ll gain the theoretical and practical skills required to unlock insights within data to help make informed decisions and address business challenges. Your education will combine mathematical methods, statistics, computing and business decisions with essential communication skills so you can effectively interpret and present data.

Career opportunities
From industries as varied as health, defence and finance, to agriculture, media and technology, there is a growing reliance on data science professionals to deliver meaningful business insights. Upon graduation you’ll be able to pursue a career as a Business Analyst, Data Scientist, Data Engineer, Data Analyst, Data Manager, Data Archivist, Database Administrator, Forecast Modeler, Reporting Analyst, Statistician and University Educator.

Majors
• Business Data Science
• Computational Data Science
• Quantitative Data Science

Double degree options
• Law
Bachelor of Environmental Management

Environmental scientists help shape policy and regulations to create sustainable solutions to environmental problems. You will learn the theory and practical skills needed to influence environmental decisions by learning how to create a balance between economic, social and environmental concerns. Hands-on learning experiences will empower you to tackle real-world problems.

Career opportunities
You can work as an Environmental Consultant, Policy Developer or Researcher within industry or government. Potential employers may include National Parks and Wildlife Service or the Environmental Protection Authority.

Bachelor of Life Sciences

Life Sciences brings together biological, environmental and medical sciences. If you're curious about life, from the way things work at the molecular level to the study of entire ecosystems, this degree is perfect for you. It's also a pathway to postgraduate study, especially in the health and medical fields.

Career opportunities
Open the door to a wide range of careers with a degree in life sciences. Work in conservation and environmental protection, work in food and beverage companies.

Majors
- Anatomy
- Biology
- Biological Chemistry
- Botany
- Ecology
- Genetics
- Immunology
- Marine and Coastal Science
- Microbiology
- Molecular and Cell Biology
- Pathology
- Pharmacology
- Physiology
- Psychology

Non-Science, Courses

Bachelor of Materials Science and Engineering (Honours)

To create high-performance materials such as metals, ceramics, polymers and composites, you need a solid background in Materials Science. This degree will put you at the forefront of innovation, developing lighter, greener and stronger materials.

Career opportunities
You can work in areas such as fundamental scientific research, manufacturing and materials processing, quality control, safety, the environmental impact of materials and the commercialisation of materials technologies. In Australia and around the world, graduates work in fields of nanotechnology, biomaterials and electronic materials.

Majors
- Ceramic Engineering
- Functional Materials
- Materials Engineering
- Physical Metallurgy
- Process Metallurgy

Double degree options
- Commerce
- Engineering Science in Chemical Engineering
- Master of Biomedical Engineering

Professional Accreditation
This degree is accredited by Engineers Australia.

- Engineering Science in Chemical Engineering
- Master of Biomedical Engineering

Professional Accreditation
This degree is accredited by Engineers Australia.

Bachelor of Medical Science

Medical Science is the foundation that the practice of medicine is built on. Medical science uncovers how the body functions – reactions to disease, drugs, treatments, and the role of genetics. The degree can prepare you for a career in biomedical research and graduate medical or paramedical studies.

Career opportunities
You can work in fields such as medical research, paramedical professions, health policy, medical laboratory science, pathology and forensic science, patents and intellectual property, market research and product development, and in pharmaceutical and biotechnology industries.

Bachelor of Medicinal Chemistry (Honours)

Program code: 3009
CRICOS code: 088848B
Duration: 4 years
Entry: February
Estimated first year tuition: A$47,740
Units of credit per year/total: 48/192
Assumed knowledge: Mathematics and Chemistry

Structure:
- Medicinal Chemistry Core Courses
- Medicinal Chemistry Electives
- Free Electives (from any faculty at UNSW)
- General Education Non-Science Courses
- 1 year Honours

Explore biology, biochemistry, pharmacology and essential chemistry techniques in this multidisciplinary degree. Your study will encompass all aspects of new drug design and development, from concept to clinic stages. In your Honours year, you’ll complete a supervised research project.

Career opportunities
You’ll have the skills in modern molecular biology and pharmacology supported by a comprehensive background in chemistry, with relevant synthetic skills necessary for synthesising complex drug candidates. You’ll be needed in local and global pharmaceutical companies involved in modern drug design, as well as in research, government and education sectors.

Double degree options
- Law

Bachelor of Psychological Science

Program code: 3415
CRICOS code: 072286A
Duration: 3 years
Entry: February and September
Estimated first year tuition: A$47,740
Units of credit per year/total: 48/144
Assumed knowledge: Mathematics

Structure:
- Psychology Core Courses
- Optional Complementary Major
- Free Electives (from any faculty at UNSW)
- General Education Non-Science Courses
- 1 year Honours

Psychology has rapidly become one of the most relevant fields of study for clinicians and corporate professionals. This degree combines an accredited three-year degree in Psychology with a complementary major in related areas including marketing, human resource management, criminology, linguistics, philosophy, vision science and neuroscience.

Career opportunities
Psychologists are employed in a broad range of areas including advertising, counselling, development, management consultancy, human resource management, recruitment, training and development, industrial relations, banking, journalism, marketing, business and retail management and statistical and data analysis.

Double degree options
- Law

Professional accreditation
This is an Australian Psychology Accreditation Council (APAC) accredited 3-year undergraduate sequence in Psychology. This program is the first step on the six-year pathway to becoming a registered professional psychologist.

Bachelor of Science (Advanced Mathematics) (Honours)

Program code: 3066
CRICOS code: 088843G
Duration: 4 years
Entry: February, June and September
Estimated first year tuition: A$47,740
Units of credit per year/total: 48/192
Assumed knowledge: Mathematics

Structure:
- Major: Science (Advanced Mathematics)
- Science Electives
- Free Electives (from any faculty at UNSW)
- General Education Non-Science Courses
- 1 year Honours

Are you a high achiever with a keen mind wanting to specialise in mathematics? If you're interested in the increasing range of quantitative careers in areas such as finance and environmental modelling, this degree offers a strong foundation. The four-year degree combines advanced coursework with an Honours-level research project.

Career opportunities
You will be able to pursue professional opportunities in banking, insurance and investment, environmental modelling, oceanography, meteorology, computing, information technology, government, education and research.

Double degree options
- Actuarial Studies
- Arts
- Commerce
- Computer Science
- Economics
- Engineering (Honours)
- Law

Majors:
- Pure Mathematics
- Advanced Statistics
- Applied Mathematics
- Pure Mathematics

- **IB Diploma**: Minimum of 1 point is required for the majority of programs.

- **IB Diploma**: No points is required for the majority of programs.
Entry requirements

To gain entry to UNSW, you will need to meet both the academic entry requirements and the English language requirements.

Academic entry requirements

High school studies

Direct entry applicants to UNSW must hold acceptable high school qualifications for admission. At a minimum, you must have a qualification considered equivalent to a Year 12 qualification (completion of high school) in Australia. Some of the qualifications UNSW accepts are listed on pages 100-103. If your qualification is not listed, contact us to check whether it is recognised: enquiry.unsw.edu.au

UNSW Global pathway programs

UNSW Global offers pathway programs for international students who do not meet the entry requirements for a UNSW degree program, or whose high school qualifications are not recognised by UNSW. After completing a UNSW Foundation Studies Program in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. After completing a 12-month UNSW Diploma, you can enrol directly into the second year of the selected degree program in Commerce, Computer Science, Engineering or Science. Students who complete the Diploma as well as their undergraduate degree will graduate with two UNSW qualifications. For further information about UNSW Global pathway programs, see pages 26-29 or visit unswglobal.unsw.edu.au

Recognised prior study

Prior study can be recognised for applicants with diplomas from recognised institutions. Entry is based on academic achievement during your studies. If you intend to use a diploma or equivalent as a pathway to UNSW, we recommend you confirm accreditation before committing to a program. To confirm whether your study can be recognised, visit enquiry.unsw.edu.au

University transfer

To transfer from your current university to UNSW you must have completed at least one year (full-time equivalent) of tertiary study at a recognised university. Entry will be based on academic results during these studies. Your high school results may also be taken into consideration for your admission to UNSW.

To confirm the admission and whether your studies can be recognised, visit enquiry.unsw.edu.au

English language entry requirements

If English is not your first language, you must provide evidence that your English language ability meets our requirements. You must submit results from an acceptable English language test taken in the last two years prior to starting your studies at UNSW.

The following table outlines some common English qualifications. UNSW also accepts a number of English language tests and English preparation courses which can be undertaken to meet the university’s English language requirements.

For further information about UNSW’s English language requirement policy, visit unsw.edu.au/elp

Improve your English language skills

Prepare for success at UNSW and your global career

UNSW Global’s English pathway courses are designed to help you improve your skills so you can meet the English language requirements for a UNSW degree. You will learn English language skills for success at university and in your global career. If you want to study an undergraduate or postgraduate degree, there’s an English pathway for you.

For more information, visit unswglobal.unsw.edu.au/English

Why study an English pathway at UNSW Global?

• Flexibility with a range of courses at different levels to suit your needs.
• Study at Australia’s first university languages centre.
• Learn from 50 years of experience in language teaching.
• Access world-class university facilities and social surroundings and study on UNSW Sydney campus.

English pathway options

University English Entry Course (UEEC)
UNSW Global’s University English Entry Course will help you meet the UNSW English language entry requirements. Depending on your current level of English, you may need to complete a 10, 15 or 20-week course.

For more information, visit unswglobal.unsw.edu.au/ueec

Tertiary Orientation Program (TOP)
UNSW Global’s Tertiary Orientation Program (TOP) is a 5-week course that helps you prepare for Australian university culture, understand university requirements and develop academic English skills for success at university. You need to have achieved an IELTS 6.5 or equivalent, and have a full offer from UNSW to be eligible for this course.

For more information, visit unswglobal.unsw.edu.au/top

For more information on how to apply, visit unswglobal.unsw.edu.au/apply or contact UNSW Global’s admission office, admissions@unswglobal.unsw.edu.au

English Language Programs CRICOS Provider code 01020K,
University English Entry Course CRICOS course code 080692D,
Tertiary Orientation Program CRICOS course code 084609E
UNSW Global CRICOS Provider Code 01020K
How to apply

Step 1
Choose your program
Choose your program at degrees.unsw.edu.au or from the pages of this guide and make a note of the program code.

Step 2
Check your entry requirements
You need to meet your chosen program’s entry requirements (see page 32 for the requirements specific to your program). You also need to meet UNSW’s English language requirements (see page 108 or visit unsw.edu.au/elp).

Step 3
Submit your application online
Submit your application at UNSW Apply Online: apply.unsw.edu.au. Click ‘Register now’ and fill out your details. Upload your supporting documents and pay your application fee.

Step 4
Track your application
Once you have submitted your application you will be able to easily track its progress via your Apply Online account. You will also be able to upload any additional documents we need.

Once you have provided all the necessary documentation, it should take two to three weeks for UNSW to assess your application.

Step 5
We will send you a letter of offer
We will notify you of the outcome of your application via email. If your application is successful, you will receive a full offer, or a conditional offer if more steps are required. If you are receiving assistance with your application, your nominated agent will also receive a copy of the email.

Step 6
Accept your offer
If you receive a full offer, you will also receive an email with a link to your personalised offer page. Your page will guide you through the process of accepting or deferring your offer. Once you have accepted and paid your deposit, you will receive an electronic Confirmation of Enrolment (eCoE).

Step 7
Enrol online
Once enrolment for your degree is available, you can enrol in your degree and courses online at Accept Online, acceptsonline.unsw.edu.au.

Need help?
If you have any questions regarding your application, go to enquiry.unsw.edu.au.

Other ways to apply
You can also apply to UNSW at a conference or event where we’re attending, or through a UNSW agent located in your country. Find out more at unsw.edu.au/study.

Application deadline
You should submit your completed application as early as possible to ensure it will be processed in time for your preferred term. Some high-demand programs such as Engineering, and faculties with limited places such as Medicine, may have an earlier application deadline or may have an earlier commencement date.

For more information go to applyonline.unsw.edu.au.

A wide range of scholarships are available for international students.

UNSW undergraduate scholarships
UNSW scholarships for international students provide financial support to cover some of the costs associated with your study. Scholarships recognise students who demonstrate academic achievement or other outstanding qualities such as leadership skills or contributions to the wider community. To be considered for a scholarship, you must submit a separate application in addition to your admission application.

Other scholarship providers
There are many scholarships offered by organisations other than UNSW including the Australian Government, industry partners and organisations in your home country.

Australian Government scholarships
Australia Awards are international scholarships and fellowships funded by the Australian Government offering the next generation of global leaders an opportunity to undertake study, research and professional development. For more information, visit australiaawards.gov.au.

Step 1
Search
Visit scholarships.unsw.edu.au. Make sure you select ‘international’ in the residency search box to see the list of scholarships available to you.

Step 2
Register
Before applying for your chosen scholarship, first register an account by following the instructions on the page. You need to have lodged an application for admission at UNSW to be able to register and apply for a scholarship.

Step 3
Apply
To apply, log in using your registered login and password. Double check the requirements as some scholarships may have specific questions or require supporting documentation.

Step 4
Submit
Submit your application by the due date. Don’t forget to check the website regularly for application deadlines and updates.

Please check our website regularly for any new scholarships that may become available.

For more information about UNSW Scholarships, visit scholarships.unsw.edu.au.
## Tuition fees for undergraduate degrees

Each degree is different and so are the costs. This guide gives you an idea of potential fees.

* Indicative fee only.

Because each student’s study choices are different, it’s impossible to provide a definitive cost of studying at UNSW. Here are a few things to consider when calculating your expected fees.

### Fees are course-based
Fees for international students are set according to the course (subject) and not the program. The fees reflect the relative cost of delivering the course and are calculated per unit of credit (UOC). For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.

### Fees vary each year
Fees for courses (subjects) change from year to year. The tuition fees above are for students commencing in 2021. The fees for 2022 are indicative only; fees may change during the program. Actual fees for 2022 will be released in late 2021.

Visit [student.unsw.edu.au/fees/international](http://student.unsw.edu.au/fees/international)

Fees are charged based on the year of commencement
For example, if you start in Term 3 (September) 2021, the fees for the first term will be calculated at 2021 rates. Your second term (i.e. Term 1 2022) will be calculated at 2022 rates. If you’re required to complete a course again, you will be charged at the rate applicable to the year you re-take the course.

### Estimating your tuition fees
While it isn’t possible to give a fixed annual fee for each program, it’s possible to provide an estimate. Estimates for each program are outlined in the undergraduate degrees section, starting on page 32.

You can also calculate your own expected fees on the following page. Most programs will require 48 units of credit (UOC) per year. Most courses (subjects) are 6 UOC. General Education course fees are charged at the rate set by the relevant faculty. As an example, GENT0803 – Introduction to Australian Cinema will be calculated using the Faculty of Arts, Design & Architecture – Arts rate.

For more information about the UNSW fees policy, including refund of fees and overpayments, visit [student.unsw.edu.au/fees/international](http://student.unsw.edu.au/fees/international)

**Total tuition fees (AUD$)**

- 2021: $112,560
- 2022: $115,560
- 2023: $118,560

**Non-tuition fees**

- $3000

**Total indicative program fee (AUD$)**

- $115,560

*Indicative fee only.

Other study-related costs

Some programs and courses have costs which are additional to the tuition fees, such as costs relating to laboratory kits, equipment, and field trips. Textbooks are not considered compulsory, but we recommend budgeting around AUD$1,000 per year for books. An estimate of your total costs (tuition and other study-related costs) will be shown on your Confirmation of Enrolment Form (CoE) that will be issued on acceptance of an offer of admission to UNSW.

Living costs

Living costs vary depending on each student’s requirements. We estimate a single international student will need a minimum AUD$22,000 per year to cover general living expenses. This does not include the costs of large non-essential items like electrical equipment or a car. In addition, you will need at least AUD$2,000 when you arrive in Sydney to cover initial expenses such as a rental bond payment, security deposit, electricity, gas, and telephone connection fees, and basic furniture and household items.

For more information, visit studyinaustralia.gov.au/global/live-in-australia/living-costs

Overseas student health cover

If you’re in Australia on a student visa you will need to pay for health insurance through the Overseas Student Health Cover (OSHC) scheme and maintain insurance for the duration of your visa.

All international students must be covered by health insurance from the date they arrive in Australia until the date they depart, regardless of when they start or complete their program. It is your responsibility to ensure your health insurance policy matches your arrival and departure dates.

The only exception is for students from Belgium, Norway, and Sweden who are covered by CSN or Kammarkollegiet. These students will need to provide proof of official health insurance cover from their home government provider.

There are five registered providers of OSHC: The five registered providers are Medibank Private (UNSW’s preferred overseas student health cover provider), Allianz Global Assistance, Bupa Australia, nib Health Funds Ltd and Australian Health Management. Medibank OSHC will pay benefits towards your medical and hospital treatment, medically necessary ambulance transport and most prescription medicines. Be aware that there may be some exclusions for pre-existing conditions, and you may have to serve a waiting period to receive some services. Some services are not covered by Medibank’s policies. These include optical, physiotherapy, dental and some pharmaceuticals. If you want to be covered for these expenses, you will need to take out additional insurance.

United States financial aid

We are authorised by the United States (Department of Education) to administer Federal Direct Loans for eligible students studying at UNSW. If you are eligible for this support, the UNSW Financial Aid Office will be able to help you with your application.

For more information, visit international.unsw.edu.au/financial-aid

International student loans

If you are from Canada, Sweden, Norway, Denmark, or the UK and have applied for a student loan or grant from your home country, we can help you certify your enrolment at UNSW.

Please send the Certification Form to financialaid@unsw.edu.au

For more information, visit international.unsw.edu.au/for-us-students
UNSW is committed to providing you with a world-class education both online and in person. We’ve transitioned our courses to online teaching and replicated as many aspects of our campus community as possible into the virtual space for times where travel restrictions apply.

As a potential future student, this means you can commence your studies with us no matter where you are in the world and then join us on campus when possible. If you do commence your studies outside of Australia, in most cases, you will find your core compulsory courses are offered online and you will have a choice of elective options. However, there are some programs with components that cannot currently be completed remotely. This may be due to the need for specialist equipment, or in some cases, because of the requirements of external accrediting organisations. If you wish to study one of these programs remotely, your graduation may be delayed depending on when you are able to travel to Australia.

Similarly, UNSW has worked to develop appropriate processes and support for Work Integrated Learning (WIL) placements to be conducted remotely in a work at home capacity if you commence your studies outside of Australia. However, in some circumstances, it may not be possible to conduct WIL placements remotely. This may be due to the need for clinical placements, adequate insurance cover or, in some cases, because an external accrediting organisation requires the placement to take place in Australia.

If you do commence your studies outside of Australia, you must travel to Australia once travel restrictions are lifted to complete the remainder of your program. UNSW recommends that you apply for a student visa as soon as possible. If your application for a student visa is refused and you are unable to complete your degree program, you will be granted a refund of any unspent portion of your deposit. No refund can be granted for tuition fees for courses already completed, or for courses you remain enrolled in after the census date.

For more international student information on UNSW’s response to COVID-19, visit covid-19.unsw.edu.au/information-students

## Deferrals, suspensions and cancellations

If you have a UNSW offer in a certain term and wish to defer (i.e. delay commencing to a future term), please visit student.unsw.edu.au/defer as soon as possible and before the commencement date stated on your offer.

The University can suspend or cancel your enrolment for a number of reasons including misbehaviour and unsatisfactory academic progress. For more information please visit student.unsw.edu.au/academic-progression/international-students.

Please note that any deferrals, suspensions or cancellations may affect a student visa or visa application.

## COVID-19 information for future students

UNSW is committed to providing you with a world-class education both online and in person. We’ve transitioned our courses to online teaching and replicated as many aspects of our campus community as possible into the virtual space for times where travel restrictions apply.

As a potential future student, this means you can commence your studies with us no matter where you are in the world and then join us on campus when possible. If you do commence your studies outside of Australia, in most cases, you will find your core compulsory courses are offered online and you will have a choice of elective options. However, there are some programs with components that cannot currently be completed remotely. This may be due to the need for specialist equipment, or in some cases, because of the requirements of external accrediting organisations. If you wish to study one of these programs remotely, your graduation may be delayed depending on when you are able to travel to Australia.

Similarly, UNSW has worked to develop appropriate processes and support for Work Integrated Learning (WIL) placements to be conducted remotely in a work at home capacity if you commence your studies outside of Australia. However, in some circumstances, it may not be possible to conduct WIL placements remotely. This may be due to the need for clinical placements, adequate insurance cover or, in some cases, because an external accrediting organisation requires the placement to take place in Australia.

If you do commence your studies outside of Australia, you must travel to Australia once travel restrictions are lifted to complete the remainder of your program. ## Deferrals, suspensions and cancellations

If you have a UNSW offer in a certain term and wish to defer (i.e. delay commencing to a future term), please visit student.unsw.edu.au/defer as soon as possible and before the commencement date stated on your offer. The University can suspend or cancel your enrolment for a number of reasons including misbehaviour and unsatisfactory academic progress. For more information please visit student.unsw.edu.au/academic-progression/international-students. Please note that any deferrals, suspensions or cancellations may affect a student visa or visa application.
We look forward to welcoming you

From social clubs to the classrooms, you’ll uncover your true potential through life-changing experiences and a career-focused education from a global top university.

Now, more than ever, the world needs people committed to making a difference. People ready to explore, question, research, challenge and lead. The world needs you.

From university to real-world impact

Khushaal chose to study with UNSW Law because of the importance it placed on social justice. As a graduate lawyer, he’s taking the first steps to build a career through which he’ll be able to tackle the issues he’s passionate about and make a real difference.

Can’t want to join us?

Get a sneak peek at what it’s like studying at UNSW by joining one of our many events. See the events schedule at experience.futurestudents.unsw.edu.au/international. Or you can take a tour of UNSW campuses right now with a 360 degree virtual tour.

Scan the QR code and watch alumnus Khushaal Vyas’s story.

Scan the QR code and take a virtual walk through UNSW campuses.
