Welcome to Deakin

G’day and welcome!

Each year thousands of students from around the world choose Australia as their study destination, and you too could soon be on your way to join them. Like Australia, Deakin University offers a safe and welcoming environment, and we support you at every step to ensure you not only succeed at your studies, but also enjoy your Deakin experience.

World-class degrees

When you study a Deakin degree you will be ready to take your next step with confidence and gain the experience you need to succeed. With a wide range of study areas to choose from, Deakin can help you find the right degree to advance your career.

Career focus

We want to ensure you gain the exposure and experience you need to graduate with confidence. At Deakin you will find there is a practical focus across all our programs. We prepare our students to progress their career by providing practical instruction on real-world problems, career guidance and work experience opportunities. You can learn more about this in the course pages of this guide.

Campus locations

Experience life in Australia at one of Deakin’s campuses located in: Melbourne, Geelong and Warrnambool. Our four modern campuses are right on the doorstep of some of Australia’s most popular destinations. When you study here, you will discover both incredible scenery and wildlife, and a welcoming and engaging culture. Deakin also offers programs through our innovative online Cloud Campus.

Scholarships

Deakin offers different scholarships to assist high-achieving international students throughout their studies, and you may be eligible. Learn more at deakin.edu.au/scholarships.

Trimester system

At Deakin we run on a trimester system. This means that our programs may offer intakes in March (Trimester 1), July (Trimester 2) and November (Trimester 3). This system gives you the option of completing your degree sooner, if you choose to study three trimesters in a single year. You will find more information on Trimesters in the course pages of this guide.

Impressive subject rankings

Deakin is among the best in the world across many study areas, including:

• 3rd in the world for Sport Science*
• 30th in the world for Nursing^*
• 31st in the world for Education^*

*ShanghaiRankings Global Ranking of Sport Science Schools and Departments 2020

Your Deakin home

As a Deakin student you can study at one of our four campuses, or our innovative online Cloud Campus. You will find a unique study experience at each of our campuses. The local communities that surround Deakin are friendly, safe and full of life, creating the perfect study environment.

Melbourne Burwood Campus

The Melbourne Burwood Campus is Deakin’s largest. A short trip from Melbourne’s central business district, Burwood offers the perfect balance between city lifestyle and suburban comfort. On campus you will find impressive buildings and world-class facilities, a wide range of learning and social spaces, and a relaxed atmosphere. If you enjoy getting outdoors between classes, the Melbourne Burwood Campus also sits alongside parkland, which is great for walking, jogging and cycling.

On-campus accommodation
Indicative weekly rates: A$259–A$326
deakin.edu.au/pg-burwood

Geelong Waurn Ponds Campus

At Deakin’s Geelong Waurn Ponds Campus, you are surrounded by expansive grounds and impressive new buildings. It offers state-of-the-art engineering, medical and sport facilities, including some of the most advanced research spaces in the world.

On-campus accommodation
Indicative weekly rates: A$236–A$249
deakin.edu.au/pg-waurn-ponds

Geelong Waterfront Campus

Located in the heart of Geelong, the Geelong Waterfront Campus has spectacular views of the bay. Used as wool stores in the 19th century, this campus has been converted to create an impressive, modern space that offers an inspiring study environment.

On-campus accommodation
Indicative weekly rates: A$259–A$288
deakin.edu.au/pg-waterfront

Geelong Waurn Ponds Campus

At Deakin’s Geelong Waurn Ponds Campus, you are surrounded by expansive grounds and impressive new buildings. It offers state-of-the-art engineering, medical and sport facilities, including some of the most advanced research spaces in the world.

On-campus accommodation
Indicative weekly rates: A$236–A$249
deakin.edu.au/pg-waurn-ponds

Warrnambool Campus

Become a part of a close community where students and lecturers have the opportunity to get to know each other and work closely together. Deakin’s Warrnambool Campus is close to beautiful surf beaches and popular tourist attractions, and you will experience a sense of community that extends across the whole of Warrnambool. For those looking for an occasional jolt of big city excitement, trains run four times a day to Melbourne.

On-campus accommodation
Indicative weekly rates: A$212–A$215
deakin.edu.au/pg-warrnambool

Cloud Campus (online)

As a leading provider of distance and online education for more than 40 years, Deakin has a unique understanding of students who need to study from afar.

Our Cloud Campus is virtual and vibrant. You will have access to lectures and resources and can participate in live-streamed seminars and class discussions. Chat with lecturers and students in real time, and submit assignments easily and efficiently. It is your choice of when, where and how you study. You can be confident that you will receive the same quality education as an on-campus student.

Studying online means you need to be a disciplined, independent and organised learner. Our Cloud Campus comes with orientation sessions, tailored support services, easy-to-use digital tools and resources, and a dedicated ‘student success coach’ to keep you on track.

deakin.edu.au/pg-cloud

Living in Melbourne

A welcoming community
Living in Melbourne means you will become a part of an international community. People from all over the world call the city their home.

Many activities
Enjoy live music at Federation Square, or ride a bike along the Yarra River trail. Visit the native animals at the Melbourne Zoo, or spend mornings exploring the Queen Victoria Market tasting fresh and local produce. With so much to see and do, you will never be bored in Melbourne.

Living in Geelong

Be the ocean
Just a short train ride from Melbourne, Geelong is a coastal city located near some of Australia’s best surf beaches. Take a break from your studies and head to the Surf Coast, where you can enjoy a swim or surf in the pristine water.

Support the local team
Engage with the local community at GMHBA Stadium where the Geelong Cats – an Australian Football League (AFL) team and partner of Deakin – play their exciting games. You might even become a fan!

Living in Warrnambool

Made for exploring
Set along one of the country’s most scenic coastlines, Warrnambool is the place to be for exploring Australia’s famously unique plant and animal habitats.

A cost-effective choice
For students concerned about expenses, Warrnambool offers a lower cost of living than Melbourne and Geelong without sacrificing quality.
Beyond tuition fees, there are a number of other costs you need to consider before deciding to study in Australia.

The Australian Government provides average living cost estimates for international students living and studying in the Australian state of Victoria. Costs vary depending on where you choose to live. For example, living in Melbourne is slightly more expensive than living in Geelong or Warrnambool. The information to the right lists some of these estimated costs but for more detailed information visit studyinaustralia.gov.au.

Overseas Student Health Cover

In addition to tuition fees, all on-campus international students are required to pay Overseas Student Health Cover (OSHC). The amount payable will be included in your Letter of Offer – you will receive this from Deakin if your application is successful.

Scholarships

You may be eligible for a range of scholarships through Deakin and through other organisations, including the Australian Government. Deakin offers specific scholarships to support high-achieving students. These include:

- Deakin Vice-Chancellor’s International Scholarship, which offers a 100% or 50% tuition fee reduction for the normal duration of your course.
- Deakin International Scholarship, which offers a 25% tuition fee reduction for the normal duration of your course.

Both scholarships recognise students with consistently high academic performance who have the potential to make a valuable contribution to the University. Deakin also offers scholarships related to certain study areas, degrees, campuses and countries. For a full list of scholarship opportunities open to international students, and information on how to apply, visit deakin.edu.au/pg-scholarships.

Accommodation

- Hostels and guest houses: A$90 to A$150 per week
- Shared rental: A$95 to A$215 per week
- On campus at Deakin (inclusive of amenities): A$259 to A$326 per week
- Homestay: A$235 to A$325 per week
- Rental: A$185 to A$440 per week

Other living expenses

- Groceries and eating out: A$140 to $280 per week
- Gas, electricity: A$10 to A$20 per week
- Phone and internet: A$15 to A$30 per week
- Public transport: A$30 to A$60 per week
- Car (after purchase): A$150 to A$260 per week
- Gym membership: A$30 to A$100 per month
- Netflix: A$10 to A$20 per month
- Coffee: A$3 to A$6 per cup
- Haircut: A$10 to A$100 each visit

Minimum cost of living

The Australian Government Department of Home Affairs has financial requirements you must meet in order to receive a student visa for Australia. From 23 October 2019 the 12-month living cost is:

- You: A$21,041 per year
- Partner or spouse: A$7,362 per year
- Child: A$3,152 per year

All costs are in Australian dollars.

Destination Australia Scholarship

If you study at Deakin’s Warrnambool Campus you may be eligible for the Australian Government’s Destination Australia Scholarship. This scholarship supports study and living expenses and is valued at A$15,000. Learn more at education.gov.au/destination-australia.
Deakin wants you to have a meaningful learning experience. That is why we offer a complete range of support services, from orientation and welcome sessions to academic support and social activities.

How we support you

Get started
We make it our priority to ensure that as a new student you make a smooth transition into life at Deakin.

Our welcome program includes:
- airport pick-up
- orientation program
- workshops
- social events
- study groups
- opportunities to get involved in campus life
- plus additional orientation activities for students who live on campus.

Students helping students
We have student mentors available to help you with academic, practical and social matters as part of Deakin’s Students Helping Students program. Plus, many student mentors are international students themselves!

Cutting-edge digital support
Deakin Genie is an award-winning mobile app that helps you keep on track with your studies. As a Deakin student, you can use Deakin Genie to keep a calendar of upcoming classes and assignments, set goals for the year and motivate yourself to achieve them, and access support services and learning tools from around the University. Deakin Genie is so advanced that it works to predict your needs and questions before you think to ask!

Accommodation options

Deakin is here to support you when it comes to finding accommodation in Australia. Whether you want to live on campus or nearby in a local community, we are here to help.

On-campus accommodation
Living on campus is the best way to immerse yourself in the Deakin experience. We offer accommodation across all our campuses with various lease lengths available. Life on campus is affordable, COVID-safe, convenient and secure – it is the perfect place to meet new people and live close to where you study.

Living on campus is affordable, utility bills and internet are included in the fee, and there is no accommodation bond.

Indicative weekly rates: $5285–$5362* deakin.edu.au/pg-accom

New accommodation precinct: Geelong Waurn Ponds Campus
In 2021 Deakin opened 32 brand new townhouses at the Geelong Waurn Ponds Campus with each housing 10 occupants.

Medical accommodation precinct
The Geelong residences provides 10 self-contained individual modular units for School of Medicine students. Each pod houses three people. There are also seven townhouses specifically for Doctor of Medicine students, each having two bedrooms with ensuite bathrooms.

Homestay
As a Deakin student you can also consider staying with a host family. This is a great way to learn more about living in Australia and to improve your English.

deakin.edu.au/pg-homestay

Off-campus accommodation
Deakin can assist you in searching for off-campus accommodation using our Houseme database. This can be accessed at studystays.deakin.edu.au. You will find a variety of rental opportunities, including long-term, short-term and casual options. You can also access a range of free self-help resources to find out:
- when to start your accommodation search and how to go about it
- the costs associated with off-campus accommodation
- things to consider at property inspections
- locations around each campus
- rights and responsibilities when renting in the Australian state of Victoria.

Accommodation service inclusions
- A private bedroom, which is furnished (including a bed and desk), carpeted, heated and has Wi-Fi.
- Shared kitchen, bathrooms, spacious living and dining room, and air conditioning.
- Social, personal, academic and sporting activities calendar.
- Support from Deakin residential management and administration team, and 24-hour security.

Join the club
Getting involved in university life is a great way to meet new people, take on new challenges, and look after your health and fitness. As a Deakin student you can join more than 150 clubs and societies across all campuses. We have a diverse range of clubs, including sporting, academic, health, religious and many more.

deaquin.edu.au/pg-clubs

Deakin Medical Centres are located on all campuses and provide medical and nursing healthcare and advice to students.

- If you feel homesick or lonely you can talk with a Deakin counsellor or chaplain who are located at each campus.
- Deakin is a safe place. Regardless, security officers are on duty 24 hours a day, seven days a week across all our campuses. You will also have access to a free SafeZone app that connects you to Deakin’s security division.
- Deakin offers a number of services and initiatives to ensure everyone feels welcome, including the Disability Resource Centre (DRC) and Deakin University Student Association (DUSA).

Deakin offers a range of services to help you stay healthy and safe, and to promote personal wellbeing.

Research at Deakin is concentrated on the most important global challenges. With top minds, world-class facilities and international networks, we test, refine and develop solutions to help improve the lives of individuals, businesses and communities. Our postgraduate courses are taught by leading researchers and informed by the cutting edge research we undertake.

By working towards a higher degree by research at Deakin, you will become part of a community devoted to success and mutual support. Research at Deakin is divided into five themes that together advance knowledge, better humanity and preserve our planet:

- Improving health and wellbeing
- Creating smarter technologies
- Building safe and secure communities
- Advancing society, culture and the economy
- Enabling a sustainable world

Improving health and wellbeing

Our world-class research in health and wellbeing supports healthy ageing across the life span. Deakin researchers are involved in a broad range of studies that address individual and population health challenges — engaging with communities and Deakin partners to solve real-world challenges.

In 2018 the Australian Research Council’s Excellence in Research for Australia (ERA) ranked 100% of the research undertaken by our Faculty of Health at "above or well above world standard."

Deakin’s health research spans five broad areas, focussed within three Research Institutes and two Strategic Research Centres (SRCs). The Institute for Physical Activity and Nutrition investigates prevention and management of chronic disease; the Institute for Health Transformation works to improve value, equity and impact in health and care, while the Institute for Mental and Physical Health and Clinical Translation advances world-leading research into the causes and impact of psychiatric, musculoskeletal, metabolic and other disorders.

Early emotional development and sport science are the focus of our SRCs, while several other centres at Deakin support world-class health research. These include two NHMRC Centres (Food Retail Environments and Innovative Therapies for Psychiatric Disorders); a WHO Collaborating Centre for Obesity Prevention; Deakin Health Economics; The Centre for Quality and Patient Safety; and the National Centre for Farmer Health.

Creating smarter technologies

A world leader in materials science research, including carbon and short fibre, metals and steel, electromaterials, corrosion, nanotechnology, and composite materials, Deakin is home to state-of-the-art engineering and design facilities such as the unique Carbon Nexus research plant in Geelong.

Our researchers are investigating innovative techniques and more efficient storage systems in response to critical energy challenges facing society. We designed a solar power microgrid that supplies about half the energy required at the Geelong Waurn Ponds Campus and serves as a world-class teaching and research platform.

Data is crucial to decision-making.

In analytics and machine learning areas, our novel algorithms have been used in forensics, safety and security, environmental management, and defence. Researchers are helping to transform industry sectors ranging from healthcare (accurate risk prediction from patient data), to advanced manufacturing (efficient optimisation of expensive processes) and digital agriculture (smart phenomics).

Our research laboratories are integrating cutting-edge technology, human-centred designs, construction engineering and architecture to solve real-world problems and contribute to a socially, economically and environmentally viable built environment.

Building safe and secure communities

Researchers across many disciplines are focused on building safe and secure communities, from finding ways to boost community resilience, to developing cutting-edge cyber security systems or solutions for Australian defence.

The risk of individuals becoming radicalised to violent action is growing across the political spectrum. Researchers at the Alfred Deakin Institute (ADI) take a deeply participatory and collaborative approach with communities, organisations and government to develop translational knowledge that reduces the appeal and take-up of violent extremism.

At a time of unprecedented adoption of digital technology, our researchers are helping government, critical infrastructure providers and businesses to mitigate cyber-physical security threats. Deakin’s national leadership in cyber security research is testament to the success of our cyber-ecosystem, which includes the Centre for Cyber Security Research and Innovation (CSRI), Cyfiss – the Southern Hemisphere’s only dedicated cyber security accelerator; the Institute for Intelligent Systems Research and Innovation (IISRI); Deakin Energy; the Applied Artificial Intelligence Institute (AAI); and the Centre for Supply Chain and Logistics.

Our expertise underpins impactful research across cybersecurity and artificial intelligence; organisational and protective security; information warfare; digital forensics; privacy; identity and trust management. CSRI researchers are informing cyber security legal frameworks and policies, and developing security technologies for cyber-safe connected vehicles that will revolutionise Australia’s transport system.

IISRI researchers are pioneering intelligent technologies encompassing tele-operated autonomous systems, unmanned aerial/ground vehicles, and virtual/reality systems to enhance situational awareness and the capacity to anticipate and respond to critical events. Our contribution to national defence and security is helping to safeguard Australia.

Advancing society, culture and the economy

Humanities and social sciences scholars at Deakin undertake outstanding, internationally recognised research in diverse fields for the social good. These include political and ethical theory, contemporary histories; cultural heritage and museum studies; human ecology; religious and social change; criminal justice reform; cybercrime; humanitarian and disaster relief; international and community development; state, national and regional politics and policy issues; international relations; and democracy and democratisation. Much of our research in these domains takes place within the nationally recognised Alfred Deakin Institute for Citizenship and Globalisation (ADI), the Centre for Humanitarian Leadership (CHL) and the Contemporary Histories Research Group (CHRIG).

Supported by the Research for Educational Impact Strategic Research Centre, our education researchers focus on generating distinctive, high quality and impactful ‘research for education’ rather than ‘research on education’. Research here centres on four main areas:

- Children, Young People and their Communities
- Curriculum, Assessment, Pedagogy and Digital Learning
- Education, Policy and Governance
- Science, Technology, Engineering and Mathematics Education

Research in the Faculty of Business and Law focuses on themes of Business and Society, Business and Technology, Capital Markets, and Small and Medium Enterprises. Research is carried out in and across a number of discipline areas:

- Accounting, Economics, Finance
- Information Systems or Business Analytics
- Management, Marketing and Law

Enabling a sustainable world

Deakin’s ecologists and evolutionary biologists are helping to protect Australia’s vulnerable flora and fauna from disease, rapid development and climate change. Through every project in this field, our research drives outcomes that address global environmental and sustainability issues.

In the areas of bio and nanotechnology, research is being conducted into the synthesis, use and safety of nanoparticles for a range of industries, including agriculture, biomass refining and circular economy, medicine and food, along with the development of an array of new sustainable products.

Our marine researchers have developed the purpose-built research vessel Yolla, which houses one of the most advanced sonar systems in the world. The data they collect plays a key role in supporting fishery and conservation management of marine environments.

The global aquaculture industry is also being supported by our experts, investigating sustainable aquaculture feeds, innovative raw materials and novel physiological and biotechnological approaches for adapting to climate change and ocean warming. In the agricultural sphere, teams of experts are focusing on solving productivity problems. In consultation with farmers, Deakin scientists are developing sophisticated lab-on-a-chip technology to optimise livestock health. Water management solutions have been provided to farmers, governments and rural planners, both in Australia and around the world.

Applying for a research degree at Deakin

You can use Deakin’s online Higher Degree by Research application form to apply for a research degree. You will need to attach proof of citizenship, academic transcripts, a research proposal, references and other certified documents. Please note that some Faculties and Institutes will require you to first submit an Expression of Interest Form before being approved to submit an online application.

If you are looking to complete a PhD you must demonstrate evidence of research ability. This can be shown through an honours year, a research masters degree, or a coursework masters degree with a substantial thesis. deakin.edu.au/research/became-a-research-student
Prepare for your future career

Deakin is dedicated to preparing you for the future. Experience practical, real-world learning, and be ready to progress your career with confidence.

Deakin TALENT

Deakin TALENT is our graduate employment division and is dedicated to providing expert career guidance. Deakin TALENT can help you to:
- identify and communicate your personal brand
- create a LinkedIn profile that stands out
- develop an effective resume and cover letter
- manage interview nerves
- excel at networking and connect with employers.

Visit deakin.talent.deakin.edu.au to learn more.

Respected program

Australian employers have voted Deakin TALENT the most popular university career service in Australia four years in a row.

FreelancingHUB

The FreelancingHUB is an exciting initiative designed to develop job-ready graduates through work experience opportunities. The HUB positions you in not-for-profit or community organisations where you work to develop a skill set that employers are looking for, and help you connect with and present confidently to employers. The program provides opportunities to network with Deakin alumni and - if you are returning home after your degree – DISC also helps you to connect with your home employment market.

Deakin TALENT International Students’ Careers (DISC) program

DISC has been designed specifically for international students and graduates. It offers a suite of workshops to help you understand the workplace, learn what employers are looking for, and help you connect with and present confidently to employers. The program provides opportunities to network with Deakin alumni and - if you are returning home after your degree – DISC also helps you to connect with your home employment market.

EEExpo

The DeakinTalent Experience and Employment Expo (EEExpo) brings over 100 employers to Deakin in Trimesters 1 and 2. It is a great way to meet, network and gain insights from a range of employers. You will learn about opportunities such as internships, vacation work, volunteering, international experiences and graduate programs.

Internships as part of your degree

Many Deakin degrees offer the opportunity to complete an internship as part of the program. With the help of our dedicated work integrated learning team, you can find a short-term work opportunity in a local organisation where you can gain exposure to real-life projects. Deakin students have worked in advertising firms, sporting organisations, local hospitals and wildlife parks – just to name a few. The experience gained as part of these internships adds to your portfolio of work, which you can present to future employers.

Academic admission requirements

Each Deakin postgraduate degree has its own eligibility and academic entry requirements that you will need to meet in order to gain entry.

Masters by coursework

Deakin masters by coursework programs are typically 12 months to two years full time, or up to four years part time. Many degrees allow you to choose a ‘specialisation’ – the area of study from which you choose the majority of your units. Studies are completed mainly through coursework, with a thesis or major project completed in the last part of the degree.

Admission requirements

Applicants are required to have completed at least a bachelor degree, or comparable, or an acceptable standard from an approved university or other educational institution. Some degrees may have additional entry requirements, which you can find on the course pages in this guide. Masters degrees by coursework that include a research stream may provide a possible pathway to PhD candidature.

Graduate certificates and graduate diplomas

Graduate certificates are usually one trimester in duration and are designed to add practical and vocational skills to your undergraduate degree, diploma or previous work experience. Graduate diplomas are usually two trimesters in duration. They are designed to build on the understanding and skills developed during a graduate certificate, or from work experience.

Admission requirements

Applicants seeking entry into a graduate certificate or graduate diploma program must have successfully completed:
- an approved undergraduate degree, or comparable, from an approved university or other educational institution; or
- comparable qualifications gained by examination or relevant professional or industry experience.

Additional requirements may exist for certain degrees.

Masters by research

A Deakin masters by research program takes two years full time to complete, and can serve as a prerequisite to applying for PhD studies. For a masters by research degree, you will be allocated a dedicated research supervisor.

Admission requirements

Applicants must hold a bachelor degree with honours (lower second class and above), or equivalent, from a recognised tertiary institution in an appropriate discipline. You must also have demonstrated capacity to undertake significant research in the proposed field for which Deakin can provide the required supervisory expertise.

Doctoral programs (PhD)

Doctoral programs are between two and four years full time and are the highest degree available in academia. PhD students conduct original research in order to progress their chosen field. People choose to do PhDs if they want a career in academia or if they want to reach higher levels in their non-academic jobs.

Admission requirements

Applicants must hold a bachelor degree with honours (upper second class and above) or a masters degree by research from a recognised tertiary institution in an appropriate discipline. They must also demonstrate their capacity to undertake significant research in the field for which Deakin can provide the required supervisory expertise.

More information about higher degrees by research

To enquire about completing a higher degree by research degree with Deakin, email deakin-int-hdr@deakin.edu.au.

Your pathway to business studies at Deakin

Some international undergraduate programs do not meet Deakin’s academic standards for postgraduate study. This is why Deakin College – Deakin University’s pathway provider partner – offers the Masters Qualifying Program (MQP). The MQP is an alternative pathway into postgraduate business degrees at Deakin University.

deakin.edu.au/pg-mqp
English Language requirements

To enrol in a Deakin degree, you will need to be able to read, speak, write and listen in English at a certain level. Different Deakin programs have different English language requirements.

How to meet English language requirements

All students must prove that they can meet Deakin’s English language requirements. You will be able to provide evidence of your English language skills if you have:

- met the required scores in a recognised English language test, such as IELTS or TOEFL
- completed university (tertiary) or high school (secondary) studies taught in English
- lived and worked in an English-speaking country for at least five years.

Other accepted English language tests

- C1 Advanced (formerly Cambridge English Advanced CAE)
- C2 Proficiency (formerly Cambridge English: Proficiency CPE)
- English language test for healthcare professionals (DET)
- Pearson Test of English Academic (PTE Academic)

English language in this guide

This guide uses IELTS exam scores as the standard for English language requirements. If you have taken a test other than IELTS you can find equivalent requirements in the below table.

Improve your English at Deakin

If your current English level does not meet Deakin’s English language requirements, or you want to improve your English before starting your degree, the Deakin University English Language Institute (DUELI) can help you prepare for your studies at Deakin.

Meet Deakin’s English language requirements

DUELI can help you meet the English language requirements for your Deakin University degree. Successful completion of DUELI’s English for Academic Purposes (EAP) pathway programs can provide you with entry into most degrees at Deakin University. DUELI also has specialised English programs for teaching.

The DUELI advantage

DUELI is recognised as one of the best English language centres in Australia. DUELI will do more than improve your English. It will give you the chance to improve your study skills and become familiar with studying at an Australian university. Courses start every five weeks.

What can you study?

- English for Academic Purposes (EAP)
- IELTS Preparation
- Intensive Academic Preparation (IAP)

IELTS Preparation

This is a special five-week IELTS preparation program at Deakin’s official IELTS Test Centre. The program has been designed to equip students with the knowledge and skills to succeed in an IELTS exam.

Entry requirements: Minimum IELTS score of 5.5 or equivalent.

Intensive Academic Preparation (IAP)

The IAP program is a five-week program for students with IELTS scores of 6.5 or above. The IAP program is designed to develop the writing, reading, listening and speaking skills needed to achieve success at university. This is for students who wish to excel in their degree and for Australia Award scholarship students.

DUELI is a part of Deakin

DUELI is more than an English language centre; it is part of Deakin University. As a DUELI student you will have access to all of Deakin University’s facilities and services, including the library, health services, and sport facilities.

deakin.edu.au/pg-dueli
How to apply

1. Find your course
   Browse the many exciting postgraduate courses we have on offer throughout this guide, and choose the degree you wish to study.

2. Understand the entry requirements
   It is important that you understand the entry requirements for your degree before you submit your application to Deakin. Entry requirements for each Deakin degree differ and also depend on your country of residence. The minimum academic entry requirements for our postgraduate degrees can be found by visiting the course pages within this guide.

3. Understand the English language requirements
   All applicants need to meet Deakin’s English language requirements to the level necessary for their course. Minimum International English Language Testing System (IELTS) scores are included on the course information pages of this guide. For more information see page 12.

4. Gather supporting documents
   When you apply to study at Deakin it is important to attach all required supporting documentation, otherwise your application could be delayed or rejected. Most documents need to be certified before they are submitted to Deakin, so give yourself plenty of time to get organised. Certified copies must include: award certificates, academic transcripts and formal identity papers (e.g. your passport). Documents must be translated into English.

5. Submit your application
   You can submit your application to study at Deakin using a variety of methods:
   - Through a Deakin authorised agent: One of Deakin’s friendly agents can assist you to submit your application and ensure you have all the necessary documents ready. Visit deakin.edu.au/pg-reps to search for a Deakin authorised agent located near you.
   - Direct to Deakin: You can apply directly to Deakin through Deakin’s StudyLink Connect platform. Here you will be guided through each step of the application process. deakin.edu.au/pg-apply

Applying to Deakin
You can apply to Deakin at any time throughout the year, and Deakin’s international admissions team is always ready to quickly process applications and assist with any questions you may have. Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway.

Find your degree

The rest of this guide explores Deakin’s postgraduate degrees. Identify the entry requirements and learn about our state-of-the-art facilities, work experience opportunities, accreditations and more.

Campuses
- Melbourne Burwood Campus
- Geelong Waurn Ponds Campus
- Geelong Waterfront Campus
- Cloud Campus (online)

Trimester Intakes
Deakin University uses a trimester system. Two trimesters are still equal to a full academic year.
- T1: Trimester 1 (March)
- T2: Trimester 2 (July)
- T3: Trimester 3 (November)

Course duration
- Course duration in years

Course code
- Every Deakin degree has a corresponding course code for easy reference and identification.

Course fees
Example: A$30,000
The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change. All fees are listed in Australian dollars.

For more information about fees visit deakin.edu.au/pg-fees.

English requirements
Example: IELTS score 6.5/6
IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/highest band score). Deakin also accepts the results of other English language tests. For more information about English language requirements see page 12.

Course structure
Unit
A unit is normally one trimester long and must have a value of 1 or 2 credit points.

Credit point
For each unit you successfully complete, you will receive the credit point value of that unit towards your studies. You must complete a specified number of credit points to obtain your degree. Most masters degrees require 12 or 16 credit points.

Specialisation
A specialisation is a group of related units on a particular area or field of study within a degree. A successfully completed specialisation may be listed on your academic transcript.

WAM
You will see this term regularly in the entry requirements sections of this guide. It represents the weighted average mark required.

Visit our website
The course information throughout this guide is designed to be used as a companion to the Deakin website, which contains more detailed information. We encourage you to visit deakin.edu.au/pg-international or email us with any questions you might have at study@deakin.edu.au.
Deakin degrees

Architecture and Construction Management
- Master of Architecture [M700] 2 2 T1, T2 $36,000 6.5/6 21
- Master of Construction Management (Professional) [M703] 2 2 T1, T2, T3 $38,600 6.5/6 22

Business
- Master of Business (Arts and Cultural Management) [M095] 33 3 T1, T2 $39,400 6.5/6 28
- Master of Business Administration [M090] 33 3 T1, T2, T3 $43,600 6.5/6 31

  - IELTS score required: 6.5
  - Page number: 48

- **Master of International Relations (International)**
  - Course code: A704
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $32,000
  - IELTS score required: 6.5
  - Page number: 48

- **Master of Politics and Policy**
  - Course code: A704
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $31,000
  - IELTS score required: 6.5
  - Page number: 49

## Information Technology
- **Master of Applied Artificial Intelligence (Professional)**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2
  - Trimester intake: T1, T2
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 50

- **Master of Business Analytics**
  - Course code: S748
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 52

- **Master of Cyber Security (Professional)**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 51

- **Master of Data Science**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 52

- **Master of Information Systems**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 53

- **Master of Information Technology**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 53

- **Master of Information Technology (Professional)**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 53

- **Master of Information Technology Management**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 54

- **Master of Information Technology Management (Professional)**
  - Course code: S726
  - Years full-time: 1
  - Campus: T1, T2, T3
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $36,400
  - IELTS score required: 6.5
  - Page number: 54

## Law
- **Master of Laws**
  - Course code: M704
  - Years full-time: 1
  - Campus: T1, T2
  - Trimester intake: T1, T2
  - 2022 annual course fee (AU): $41,000
  - IELTS score required: 6.5
  - Page number: 55

## Medicine
- **Master of Medicine (MD)**
  - Course code: H703
  - Years full-time: 5
  - Campus: Geelong Waurn Ponds Campus, Cloud Campus (online), Melbourne Burwood Campus, Warrnambool Campus
  - Trimester intake: T1, T2, T3
  - 2022 annual course fee (AU): $73,000
  - IELTS score required: 7.0
  - Page number: 56

## Nursing
- **Master of Nursing Practice**
  - Course code: H703
  - Years full-time: 1
  - Campus: T1
  - Trimester intake: T1
  - 2022 annual course fee (AU): $35,200
  - IELTS score required: 6.5
  - Page number: 57

- **Graduate Certificate of Diabetes Education**
  - Course code: H703
  - Years full-time: 1
  - Campus: T1
  - Trimester intake: T1
  - 2022 annual course fee (AU): $11,960
  - IELTS score required: 6.5
  - Page number: 57

### Online Professional Practice degrees

If you are a professional with extensive experience in your field, a Deakin Professional Practice degree could allow you to gain a professionally recognised qualification using the knowledge and skills you have already gained in the workplace.

Students undertaking these programs gain their degree through a combination of credentialing and coursework units. Credentialing is about showcasing the skills and knowledge you already have through a portfolio of evidence. Deakin offers the following professional practice degrees:

- Master of Information Technology Leadership
- Graduate Certificate of Information Technology Leadership
- Master of Leadership
- Graduate Certificate of Leadership
- Master of Digital Learning Leadership
- Graduate Certificate of Digital Learning Leadership
- Master of Professional Practice (Engineering)

Whether you want to create sustainable design concepts for cities or project manage commercial developments, a postgraduate architecture or construction management degree will allow you to take your career in the right direction.

Take the next step in your career
Studying architecture at Deakin means you will gain hands-on experience from the first day of your degree. You will build models, examine professional architects’ projects, and develop drawing and digital design skills. Our construction management students also experience practical learning in all aspects of industry, including cost estimation, project management, construction methods, contracts and scheduling.

At Deakin, architecture and construction management students work together. This unique interdisciplinary approach gives you an industry advantage – experience working with allied professions, just like you will in the real world.

Inspiring learning environments
The School of Architecture and Built Environment has undergone major refurbishment, resulting in a creative learning space. Originally built as wool stores in the 19th century, Deakin’s award-winning Geelong Waterfront Campus is a modern, impressive campus located right on the foreshore in the heart of Geelong. The space features an open and engaging learning environment that strengthens the school community and enhances our students’ learning experience. Facilities include a well-equipped workshop with 3D printers, CNC routers and 2D laser cutters; and an extensive design studio accessible 24 hours, seven days a week.

Professional recognition
Deakin’s postgraduate architecture program is accredited by leading industry bodies. These include the Australian Institute of Architects (AIA), Architects Accreditation Council of Australia (AACA) and the Architects Registration Board of Victoria (ARBV). Our Master of Construction Management (Professional) is also professionally accredited by the Royal Institution of Chartered Surveyors (RICS), the Australian Institute of Quantity Surveyors (AIQS) and the Australian Institute of Building (AIB).

Master of Architecture
Explore the design of physical environments – from residential to commercial to industrial. Deakin’s Master of Architecture will develop your skills and knowledge in architectural design research, urban ecologies and contexts, project evaluation, and performance-measured sustainable design. All of these skills are expected in modern professional practice. You will also undertake advanced studies in cultural, technological, design, environmental, and theoretical knowledge. Plus, you will study the ethical and evaluative frameworks that underpin the architecture field.

Course information
Course code: S700
Years (full time): 2
Campus: Geelong
Intake: T1 (March), T2 (July)
2022 annual fee: A$36,000
IELTS score: 6.5/6

Internationally recognised
This course has also been validated and recognised by the Board of Architects Malaysia (Lembaga Arkitek Malaysia).

Obtaining registration
Graduates will be required to complete an additional two years of work experience under the supervision of a registered architect in order to present for registration with the Architects Registration Board of Victoria and the Australian Institute of Architects.

Structure
16 credit points, including:
- 10 core units (totalling 13 credit points)
- 3 course-grouped electives
- 2 zero-credit-point units on safety induction and academic integrity.

Minimum entry requirements
- Bachelor degree in architecture with a WAM (or equivalent average grade indicator) of 65 or higher, OR
- Bachelor degree in architecture with a WAM (or equivalent average grade indicator) between 55 and 64, AND portfolio of relevant work and personal statement OR Evidence of academic capability judged to be equivalent.
Master of Construction Management (Professional)

Open the door to postgraduate construction management education and professional careers by completing this degree. You will explore project feasibility, professional and commercial business practice, construction measurement, cost planning and cost management, risk management, and construction procurement.

Course information

Course code: S792
Years (full time): 1
Campus: Warrnambool, Geelong (T1), T2 (July), T3 (November)
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: A$38,600
IELTS score: 6.5/6

Structure

16 credit points, including:
• 13 core units (totalling 14 credit points)
• 2 elective units
• 3-credit-point units.

Minimum entry requirements

• Bachelor degree in a related discipline with a minimum WAM of 60%, OR
• Bachelor degree in any discipline with a minimum WAM of 60%, plus 5 years of relevant professional work experience, OR
• Completion of Graduate Diploma in Construction Management or equivalent.

Related programs

• Graduate Diploma of Construction Management
• Graduate Certificate of Construction Management

Career opportunities

Graduates may find career opportunities in the fields of quantity surveying and construction management. There are a wide range of potential employers, including construction companies, quantity surveying, project management and construction consultants.

Business

Gain the skills to reach your full career potential with one of Deakin’s world-class business programs. You will develop valuable connections and extend your portfolio through opportunities in both the classroom and in industry.

Our postgraduate business degrees

Deakin’s postgraduate business degrees fall across three categories. From pages 26-31 you can explore programs in:
• Accounting and Finance
• Business
• Business Administration

Gain practical, real-world experience

Deakin’s business courses offer work experience opportunities known as work-integrated learning. These include business internships, community-based volunteering, industry-based learning, work-based learning, as well as a range of opportunities offered by industry partners in Australia and overseas.

deakin.edu.au/business-wil

Get a recognised education

Deakin is ranked in the Top 3% of universities worldwide for Accounting and Finance, Business and Management Studies, Economics, and Econometrics (QS). Deakin Business School is accredited by EQUIS and AACSB. These prestigious accreditations are awarded to business schools that meet strict standards of quality, academic and professional excellence, and demonstrate a commitment to ongoing improvement and innovation in their courses. A hallmark of excellence, these accreditations place Deakin Business School in the top three in Victoria, top 10 in Australia and Top 1% of business schools worldwide.

Dual degree options

Deakin Business School offers multiple dual degree programs that allow you to graduate with a degree from two universities in the following disciplines:
• Master of Commerce specialising in marketing with Deakin University and Master of Science in International Strategic Management with Lund University in Sweden
• Master of Marketing with Deakin University and Master in Management – Consumer Goods Marketing with Ecole Supérieure des Sciences Commerciales d’Angers (ESSCA) in France.

deakin.edu.au/pg-ddp

Choose your specialisation

If you are studying a postgraduate business degree, you have the opportunity to choose a business specialisation. Undertaking a specialisation allows you to tailor your degree to align with your career aspirations. You can find a detailed list of the specialisations offered on the next page of this guide.
Business Specialisations

Studying a postgraduate business degree with Deakin means you will have access to a new suite of specialisations. These specialisations have been specifically designed to align with the changing needs of industry and to meet the growing needs of skilled professionals in various fields.

Academic research
Make your contribution to a field of study of your choice by undertaking an independent research project under the guidance of an expert supervisor.

• Research Project

Accounting
Get started in the accounting industry with this specialisation. You will be provided with a thorough understanding of key accounting principles and practices, and offered a choice of units to expand upon your areas of interest and hone in on your career goals.

• Accounting
• Accounting for Management

Additional units to suit your career goals.

Artificial intelligence for business
Find your place in the highly demanded specialty of implementing Artificial Intelligence (AI) in business strategy with this innovative and specialisation.

• Artificial Intelligence for Business
• Foundation Skills in Data Analysis

Plus 2 credit points from:

• Financial Accounting
• Corporate Auditing
• Accounting Systems and Analytics
• Principles of Income Tax Law

Business analytics
The ability to manage, interpret, and advise based on data of various types and scales can be invaluable to any business. This specialisation allows you to apply the technology and skills to excel in this area.

• Descriptive Analytics and Visualisation
• Predictive Analytics

Plus 2 credit points from:

• Foundation Skills in Data Analysis
• Decision Modelling for Business Analytics
• Marketing Analytics

Cyberlaw
Cyberlaw is quickly becoming the new frontier of legal issues facing businesses, and preparing for it requires both specialised knowledge and a foundational understanding of law. Help protect businesses and clients from cyber crime with this specialisation.

• Foundations of Law
• Data Law, Policy and Cybercrime
• Analytics for Security and Privacy
• Cyber Security Management

Digital transformation
As the world becomes more digital, so does business. Learn to adapt to the new challenges facing businesses today, with a creative and innovative approach.

• Managing Digital Transformation
• Value of Information
• Ethics of Digital Transformation
• Design Thinking for Innovation

Financial planning
Start your Financial Planning career with this comprehensive specialisation, featuring 3 FASEA approved core units, and 3 elective units for you to choose from. All core units are also available as three-day intensive programs to accelerate your learning.

• Ethics for Financial Services
• Financial Behaviour and Decision Making
• Financial Advice Regulation

Plus 1 credit point from:

• Financial Planning and Economic Fundamentals
• Business Law
• Principles of Income Tax Law

Human resource management
Develop skills in human resources with this specialisation. Learn to strategise your approach to staff management and gain a thorough understanding of human resource practices and ethics in a national context.

• Human Resource Strategy
• Strategic Staffing
• Performance Management and Reward
• Employment Relations for Organisational Effectiveness

Leadership
This specialisation is designed to build your confidence as a leader, by arming you with practical and applicable knowledge. You will have the opportunity to practice communication skills and develop your leadership potential in a business context.

• Organisational Development and Change
• Managing Innovation
• Leadership in the Real World
• Contemporary Issues in Leadership

Event Management
Specialise your skills for a career in managing cultural projects and events.

• Managing Cultural Projects and Events
• Project Management
• Marketing, Positioning and Consumers

Plus 1 credit point from:

• Design Thinking and Problem Solving
• Design Thinking for Innovation

Information systems
Data is vital to running a business, and the strategy you use to gather, manage and visualise it is critical to how decisions are made. This specialisation will provide an understanding of the technology, ethics, and applicable skills this area of expertise demands.

• Business Requirements Analysis
• Enterprise Information Management
• Security
• Foundation Skills in Data Analysis
• Value of Information

International trade and business
This flexible specialisation will prepare you for the challenges of operating a business within an international context. Learn strategy, ethics and best practices to guide your career in trading, marketing or management.

One unit from:

• The Economic Environment
• Economics for Managers

Plus 1 credit point from:

• International Marketing
• International Business Management

Leadership
This specialisation is designed to build your confidence as a leader, by arming you with practical and applicable knowledge. You will have the opportunity to practice communication skills and develop your leadership potential in a business context.

• Organisational Development and Change
• Managing Innovation
• Leadership in the Real World

Accounting and Finance degrees

Complex global markets and reporting requirements mean accounting and finance has never been a more dynamic and exciting profession. Businesses and individuals increasingly rely on accounting and finance professionals to assess their business strategy and guide decision making. Deakin offers a number of accounting and finance degrees to cater for your career goals.

Graduate job-ready
At Deakin we understand that professional experience, particularly for postgraduate students, plays a critical role in helping you take the next step for your career goals.

Leading the way
Deakin is one of the Top 150 universities in the world for Accounting and Finance (QS).

Master of Professional Accounting
This degree is open to graduates from both accounting and non-accounting backgrounds. It covers areas such as corporate and management accounting, commercial law, corporations law, accounting theory, economics and finance. Students are introduced to research tools in the core unit component of the degree where they learn analytic skills and the practical application of those skills in professional contexts.

Course information
Course code: MPRO
Years (full time): 2
Campus: [ ]
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: $39,400
IELTS score: 6.5/6

Structure
16 credit points, including:
• 11 core units
• 5 elective units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree or other qualification in any discipline with a minimum WAM of 65.
• Evidence of academic capability judged to be equivalent.

Related programs
• Graduate Diploma of Professional Accounting
• Graduate Certificate of Professional Accounting

Master of International Accounting – ACCA
This program is designed to lead to two qualifications: A masters degree from Deakin and a professional qualification from one of the largest global body for professional accountants, the Association of Chartered Certified Accountants (ACCA). Master degrees by an ACCA approved tuition provider are offered for all units embedding the ACCA papers at no additional cost. All learning resources, including textbooks and revision and practice books are also included. You will study subjects such as introductory accounting, strategic business reporting, business law, corporate auditing, financial accounting, and principles of income tax law.

Course information
Course code: MINT
Years (full time): 2
Campus: [ ]

2022 annual fee: $39,400
IELTS score: 6.5/6

Structure
16 credit points, including:
• 13 core units
• 3 elective units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree or other qualification in any discipline, with a WAM of 65, OR
• Bachelor degree in any discipline and completion of minimum three ACCA fundamental units, OR
• Successful completion of Deakin’s Masters Qualifying Program with a minimum overall average of 65.

Minimum entry requirements
• Bachelor degree or other qualification in any discipline, OR
• Successful completion of Deakin’s Masters Qualifying Program, OR
• Evidence of academic capability judged to be equivalent.

Related programs
• Graduate Diploma of International Finance
• Graduate Certificate of Commerce

Master of International Finance
Deakin’s Master of International Finance focuses on international finance and financial markets. You will gain an understanding of the modern financial techniques underpinning investment, financial and risk management of multinational companies. You will cover international financial markets, corporate governance, derivative securities and international portfolio management. You will also be exposed to new knowledge areas such as fintech, business analytics and artificial intelligence. The degree content is designed to meet industry needs and prepare graduates for a diverse range of local and international careers in corporations, financial institutions, managed funds and audit companies.

Course information
Course code: MFIN
Years (full time): 2
Campus: [ ]
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: $39,400
IELTS score: 6.5/6

Structure

• Bachelor degree or other qualification in any discipline, OR
• Successful completion of Deakin’s Masters Qualifying Program, OR
• Evidence of academic capability judged to be equivalent.

Related programs
• Graduate Diploma of International Finance
• Graduate Certificate of Commerce

Master of Financial Planning
This degree is designed to meet the requirements of Australia’s financial planning standards body. It will train you to provide innovative financial planning solutions by combining ethical decision-making with modern financial advice strategies. You will study how to apply advanced principles to meet client needs as well as the technical skills needed to utilise the latest digital tools. The program will further your understanding of investment management in relation to different asset classes, and introduce you to superannuation and retirement planning.

Course information
Course code: MFIN
Years (full time): 2
Campus: [ ]
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: $39,400
IELTS score: 6.5/6

Accreditation
The Master of Financial Planning is approved by the Financial Adviser Standards and Ethics Authority (FASEA). This means graduates will be eligible to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® (CFP®) Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner (FCFP®) designation offered by the Association of Financial Advisers (AFA). Successful completion of this degree will also provide advanced standing into these two certification programs.

Structure
12 credit points, including:
• 11 core units
• 1 elective unit
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree in a related discipline, OR
• Bachelor degree in any discipline, plus two years relevant work experience, OR
• Evidence of academic capability judged to be equivalent.

Related programs
• Graduate Diploma of Financial Planning
• Graduate Certificate of Financial Planning

* A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience.
* Visit the course page on the Deakin website for more details.
* Students may choose to use their elective units to undertake a business specialisation (see pages 24-25 for further information).
* To complete all requirements to complete units in the required sequence, Trimester 3 is a compulsory study period for this course.

Which Deakin accounting degree is right for you?

Master of Professional Accounting
This degree is open to graduates from both accounting and non-accounting backgrounds. It provides a pathway to gain entry into Certified Practicing Accountants (CPA), Chartered Accountants Australia and New Zealand (CA ANZ), and the Institute of Public Accountants (IPA), as well as exemptions from Association of Chartered Certified Accountants (ACCA).

Master of International Accounting – ACCA
This degree provides six intensive hours of classroom teaching each week. There is also a special one week masterclass by an ACCA approved learning provider for any four of the six professional level ACCA examinations. Additionally you will gain exemption from all nine ‘fundamental’ level ACCA papers.
Deakin offers a range of postgraduate business degrees in areas including arts and cultural management, commerce, human resources, marketing, and property.

### Master of Business (Arts and Cultural Management)

Deakin’s Master of Business (Arts and Cultural Management) combines both the theory and practice of arts and cultural management through a combination of reading, research and practical assignments. It provides art leaders and managers with a tailored business education that emphasises management, marketing and finance skills.

There is also the opportunity to take part in an internship project where you can apply the theory learned in class to hands-on industry experience. Through this project, you will learn from professionals who are experts in their fields, gaining knowledge and valuable contacts while you study.

### Master of Human Resource Management

Deakin’s Master of Human Resource Management meets the needs of all managers who take on responsibilities in human resource development and management. It is a specialised course that provides enhanced qualifications for graduates in business, government and industry. Human resource (HR) management is no longer regarded as the sole responsibility of a specialised department. An understanding of HR management is now an essential requirement of managers in all organisations.

This degree helps to enhance the skills that current HR professionals are utilising. It offers specialist units in organisational development and change, employment relations, human resource strategy, and analytics.

### Additional business degrees

Deakin also offers a Master of Business (Sport Management), Master of Business Analytics and Master of Information Systems. You can learn more about these degrees in the Sport (page 63) and Information Technology (page 52) sections of this guide.
Deakin’s Master of Business Administration (MBA) programs are some of the most highly regarded in Australia, and are recognised around the world. We offer a number of different MBA programs, and what you study depends on your previous experience as well as your career goals. Let us help you find the right MBA for you.

Refined qualification
Deakin has been offering MBA programs for more than 30 years. As a result our programs are refined, relevant and prepare graduates for a range of business careers. You will learn from some of the best in the business. Deakin’s MBA teaching staff are recognised experts in their fields, and they not only teach but also publish in quality international journals and serve as consultants for industry organisations.

Which Deakin MBA is the right one for you?
Deakin offers three MBA programs: Master of Business Administration; Master of Business Administration (International); and Master of Business Administration (Healthcare Management). Your previous professional or managerial experience, as well as the industry you wish to work in upon graduating, will determine which MBA is right for you. The diagram below provides a general guide as to which degree you are best suited and eligible for.

Master of Business Administration (MBA) degrees

Deakin Business School is in the Top 1% of business schools globally by holding both AACSB and EQUIS accreditations. These prestigious accreditations are awarded to business schools that meet strict standards of quality, academic and professional excellence, and demonstrate a commitment to ongoing improvement and innovation in their courses, ensuring our graduates are employable worldwide.

Minimum entry requirements
The Deakin MBA and MBA (Healthcare Management) have the following entry requirements:
- Bachelor degree in any discipline AND three years relevant work experience*, OR
- Successful completion of Deakin’s Masters Qualifying Program AND three years relevant work experience*, OR
- Graduate certificate qualification in a related discipline AND five years relevant work experience*, OR
- Graduate diploma equivalent (professional pathways).

Deakin’s MBA (International) has the following entry requirements:
- Bachelor degree or other qualification in any discipline, with a minimum weighted average mark (WAM) of 65, OR
- Successful completion of Deakin’s Masters Qualifying Program, OR
- Evidence of academic ability judged to be equivalent.

* Must be in a managerial or professional role. Applicants must demonstrate decision-making responsibility in a range of areas, such as budgeting, staffing, project management, financial management, or other relevant professional experience. For MBA (Healthcare Management), further work experience considerations may apply. Visit the course pages on the Deakin website to learn more.

Master of Business Administration
The Deakin MBA equips you with knowledge, real-world skills, and business and management best practice. Whether you are seeking a promotion or looking for a new career direction, an MBA demonstrates that you are an aspiring employee who is prepared to invest in your career.

Course information
Course code: MBA
Years (full time): T1, T2, T3
Campus: CD
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: $43,600
IELTS score: 6.5/6

Specialisations
You will have the option to tailor your MBA by choosing a business specialisation. Refer to pages 24-25 for further information.

Related programs
- Graduate Diploma of Business Administration
- Graduate Certificate of Business Administration

Master of Business Administration (International)
The MBA (International) focuses on business for those currently working or seeking to work in an international context. The MBA (International) is for those who may not have experience as a business manager, but have aspirations to move into management. Highly achievers can move directly from undergraduate studies to postgraduate MBA (International) studies. You will study a broad range of business and management disciplines and develop the creative, analytical and interpersonal capabilities that are key to successful business leadership. There is also a compulsory work experience unit where you will gain industry exposure through an approved placement.

Course information
Course code: MBA
Years (full time): T1, T2, T3
Campus: CD
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: $43,600

*QS Online MBA Rankings 2021. Equal third in the world for “class experience”, which is defined as “a variety of experience indicators evenly weighted including physical meet ups, the share of live classes, regular synchronous classes, live group discussions, access to learning app available on mobile/tablet, and engaged tech support”.

A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience.
Communication and Media

A Deakin degree in communication and media can help you further your career in film and television, journalism, public relations, visual communication design or digital media. Learn to use technologies and insights to create messages that cut through the crowded media and communications landscape.

Gain real-life experience
Deakin’s communication and media programs all offer the opportunity to work with professionals in an industry setting. Get an internship with an advertising, digital media or public relations agency; a newspaper, radio or television station; or allied media organisations. You will then follow up with classes to build on your experience, refine your CV and advance your networking and interview skills. Graduate as a more valuable job applicant with work-ready skills.

Use industry-leading equipment in dedicated facilities
Develop your skills and build a portfolio of professional work in our impressive facilities, including:
- creative media labs
- collaborative news production area with an editorial hub
- design studios with printing and finishing facilities
- editing booths for audio and audiovisual editing, and recording interviews
- editing and grading suites
- green screen studio
- high-definition television broadcast studio with live streaming capacity.

Among the world’s best
Deakin has been ranked in the Top 150 universities globally for Communication and Media Studies by prestigious university rankings organisation QS. That is in the Top 1% worldwide!

Professional recognition
If you choose to specialise in public relations as part of the Master of Communication, you may be eligible for accredited student membership with the Public Relations Institute of Australia (PRIA). This membership can create a point of difference for you when applying for jobs.

Master of Communication
Deakin’s Master of Communication is suited to those looking to upskill in their careers, as well as those wanting to break into a new industry. Taught by industry experts, it offers flexibility in focus and structure: you have the opportunity to undertake intensive studies by choosing a specialisation. This specialisation, in combination with core units, ensures you graduate with a versatile skill set for the jobs of the future.

The degree also includes a capstone program of study. For this, you can complete either a research project relevant to industry practice or an academic research project, which offers a potential pathway into PhD studies. A focus on hands-on learning is further supported through access to state-of-the-art facilities and internship opportunities.

Course information
Course code: XCDN
Years (full time): 1, 2
Campus: S (March), T2 (July), T3 (November)

IELTS score: 6.5/6

Specialisations
Digital media
Journalism
Public relations
Visual communication design

Structure
16 credit points, including:
• Core Communication Program (4 credit points)
• Four 1-credit-point specialisation-specific units selected from one of five specialisations (Digital Media; Journalism; Public Relations; or Visual Communication Design); and
• A 4-credit-point professional capstone program, including a work-based internship and an applied research project to boost your career prospects
• Electives (4 credit points)
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree in any discipline, OR
• Other evidence of academic ability judged to be equivalent.

Related programs
• Graduate Diploma of Communication
• Graduate Certificate of Communication

Master of Film and Television
The Master of Film and Television will help you develop your production skills within emerging media forms. You will explore a wide range of film and television methods and theories, including screen production, storytelling, television studio production, documentary production, screen visual effects, and much more.

From the first year you will work towards completing a major folio project. You will establish the soft skills required for success in media industries, such as teamwork and collaboration, problem-solving, and a high level of personal organisation. You will also learn how to present your folio and achievements, which will prepare you for future employment opportunities.

Course information
Course code: XCFV
Years (full time): T1, T2, T3
Campus: S (March), T2 (July), T3 (November)
2022 annual fee: $32,600
IELTS score: 6.5/6

Practical experience
Practical experience is a core component of this degree. You will undertake a minimum of 100 hours in industry, gaining professional work experience with an approved host organisation. Internships may be undertaken across a broad range of industry sectors, corporate/government/community organisations, associations or with practitioners involved in the fields of film, video, television, sound, animation and communications and digital media.

Structure
16 credit points, including:
• 12 credit points of core units
• 4 credit points of elective units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree in any discipline, OR
• Other evidence of academic ability judged to be equivalent.

Related programs
• Graduate Diploma of Film and Television
• Graduate Certificate of Film and Television

Career opportunities
Master of Communication graduates have found work as public relations practitioners, media advisers, journalists, project officers in government communications offices and coordinators, technical writers, producers, and more.

Master of Film and Television graduates are well placed for a successful career in media production, from filmmaking, advertising, sports media, and broadcast television to the production of online content.

* A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience. Visit the course page on the Deakin website for more details.
Creative Arts, Writing and Literature

Use your creativity to further your career by studying creative arts, writing and literature at Deakin. Take advantage of top industry connections and research opportunities to ensure you graduate with the knowledge and skills that employers are looking for.

Innovative programs
Deakin’s creative arts, writing and literature programs are regularly updated to ensure the best fit between critical study, professional preparation and a great student experience. You will benefit from the broad range of disciplines on offer, allowing for interdisciplinary exploration and inspiration.

Build real-world skills
Deakin’s creative arts, writing and literature programs offer varied practical experience opportunities where you can learn in real-world settings. In the Master of Creative Arts there are many sought-after internships on offer that allow you to improve your creative skills and work on industry-relevant creative projects.

Deakin’s Master of Arts (Writing and Literature) gives you exposure to industry work, trends and opportunities that will better prepare you for the current and future needs of the sector. You can take advantage of our industry partnerships to secure internships at well-known publications and have your work published in Deakin’s Verandah Journal, an annual student-run publication, showcasing the best work of emerging writers and artists.

Learn from published authors
Our academics have extensive industry experience and are actively involved with prominent writing festivals. In the Master of Arts (Writing and Literature) you are paired with an academic staff member who is working and recognised in their specialist field. You will get one-on-one mentorship developing your work with author-academics including Antonia Pont, Jodi McAlister and Indigo Penny.

Master of Arts
(Writing and Literature)

Improve your skills in writing and literature and gain practical tools in critical analysis, editing and research. Whether you want to develop the skills to analyse literary works, build your creative writing practice, or create publishable pieces of professional writing, the Master of Arts (Writing and Literature) will help you achieve your career goals.

Education and Teaching

With a career in education and teaching, you have the opportunity to shape young people’s lives and influence their future. Deakin’s education and teaching degrees focus on leadership, communication and organisational skills, providing a solid foundation for you to start or further your career in the sector.

Education and teaching ranked 31st in the world
Deakin is ranked 31st in the world for its education courses, based on the QS World University Rankings. These are informed by academic and employer reputation, as well as research impact.

Hands-on experience
As a teaching student you will undertake a professional experience program that will give you real-life teaching experience and study credit for your degree. You will undertake up to 90 days of supervised professional experience, packing your resume with practical know-how and sought-after skills that employers look for.

Links with the education sector
Deakin maintains close links with the education sector – like the Victorian Department of Education and Training (DET), Australian Children’s Education and Care Quality Authority (ACECQA) and Victorian Institute of Teaching (VIT) – to ensure our programs are developed and reviewed with industry and professional input. Deakin also has several school alliances, meaning there is more opportunity for you to get the placement you want.

Learn from experts
You will be taught by academic staff with experience in the sector that are recognised as leaders and innovators in their fields. Deakin staff have strong partnerships with education communities, governments and research institutions that you can benefit from.

Master of Education
Deakin’s Master of Education is a leading course for teachers and other education professionals. It brings together advanced learning, professional education, inclusive education, and international education through coursework and research. The course provides graduates with the skills and knowledge to tackle the challenging and dynamic nature of education, as well as providing a rigorous research pathway to a PhD in education.

Course information
Course code: E771
Years (full time): 2 yrs
Campus: E771
Intake: T1 (March), T2 (July)
2022 annual fee: A$30,400
IELTS score: 6.5/6

Specialisations
Professional education and training
Inclusive education
International education

Structure
12 credit points in one of the following configurations:
Option 1: Dual Specialist Strand
• 2 credit points of core units
• 4 credit points of research units
• 4 credit points of electives from a single specialist strand
• 2 credit points of electives from another specialist strand
• 0-credit-point academic integrity unit.

Option 2: Research Intensive Strand
• 2 credit points of core units
• 6 credit points of research units
• 4 credit points of electives from a single specialist strand
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree in a related discipline, OR
• Bachelor degree in any discipline plus two years relevant work experience, OR
• Other evidence of academic capability judged to be equivalent.

Related programs
• Graduate Certificate of Education
• Graduate Certificate of Education Business Leadership
• Graduate Certificate of Education Research

Graduate Certificate of Teaching English to Speakers of Other Languages

Master of Teaching English to Speakers of Other Languages (TESOL)
The Master of Teaching English to Speakers of Other Languages (TESOL) responds to a growing local and international demand for higher levels of knowledge and skill in the provision of TESOL education programs. The degree will appeal to prospective students who are seeking to advance their employment in youth and adult learning contexts within Australia and abroad.

Course information
Course code: E704
Years (full time): 2 yrs
Campus: E704
Intake: T1 (March), T2 (July)
2022 annual fee: A$32,000
IELTS score: 6.5/6

Partnerships
Deakin has strong partnerships with education communities, governments and research institutions in Australia and overseas, particularly in Europe, the Asia-Pacific region and Latin America. The Centre for Teaching and Learning Languages (CTaLL) is a research group within the TESOL/Languages team at Deakin that develops these connections and serves as a forum for our students.

Structure
8 credit points, including:
• 0-credit-point academic integrity unit
• 6 core units
• 2 course elective units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor honours degree in a related discipline, OR
• Bachelor degree in related discipline, PLUS two years relevant work experience, OR
• Graduate Certificate or Graduate Diploma in related discipline, OR
• Evidence of academic capability as judged equivalent.

Related programs
• Graduate Certificate of Teaching English to Speakers of Other Languages

Note: A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience. Visit the course page on the Deakin website for more details.
Master of Teaching (Primary)

If you are passionate about nurturing young, inquisitive children from pre-grade 6 and are motivated to make a genuine impact on future generations, Deakin’s Master of Teaching (Primary) is for you. With a focus on dynamic skills and communication, you will graduate as a highly capable educator and leader with a set of adaptable techniques. The program provides a range of professional learning experiences through at least 60 days of supervised professional experience (70 days for Primary Extended Curriculum).

Course information
Course code: 17M6
Years (full-time): 3
Campus: D
Intake: T1 (March)
2022 annual fee: A$30,200
IELTS score: 7/7

Structure
16 credit points, including:
• 11 core units (12 credit points)
• 2 zero-credit-point academic integrity unit

Minimum entry requirements
• Bachelor degree in a different discipline, OR
• Degree in Primary or Secondary Teaching.

Career opportunities
Teaching is a rewarding career that offers creativity, flexibility and opportunities beyond the classroom. Our graduates have gone on to have successful careers in education both in Australia and internationally with many moving into senior leadership roles within schools, early childhood agencies, higher education, government and consultancy. Deakin’s teaching degrees also prepare you with skills that allow you to explore roles in other sectors, including youth work, corporate learning and development, NGOs, media and community-based organisations.

Master of Teaching (Secondary)

If you are unsure whether to study primary or secondary teaching, there is no need to decide – you can do both. Deakin’s Master of Teaching (Primary and Secondary) provides you with the qualifications to work at any level in any school. Learn from highly experienced, passionate teachers who understand first-hand the importance of recognising all students as people first. You will discover how to build well-balanced relationships in the classroom to ensure students build positive connections with their peers, in turn promoting an environment to thrive. The degree includes 80 days of professional placement to prepare you for the classroom.

Course information
Course code: 17N6
Years (full-time): 3
Campus: D
Intake: T1 (March)
2022 annual fee: A$30,200
IELTS score: 7/7

Structure
16 credit points, including:
• 13 core units (12 credit points)
• 2 curriculum study units in a first teaching method area
• 2 curriculum study units in a second teaching method area
• 0-credit-point academic integrity unit
• 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Minimum entry requirements
Bachelor degree in a different discipline, including successful completion of major and minor studies in at least two curriculum areas recognised by Deakin.

The CASPer test
All Master of Teaching applicants must complete an additional selection tool for non-academic attributes. Deakin uses the CASPer test. Learn more at deakin.edu.au/ap-casper.
Engineering

Change the world and the way we live with a postgraduate degree in engineering. Deakin engineering students develop the expertise to design roads, generate power or build complex systems, and gain a competitive edge by tackling real-world engineering problems.

Master of Energy System Management
Study Deakin’s Master of Energy System Management to develop the skills needed to design, manage and maintain new distributed energy grid systems. This one-year course work program extends your knowledge in energy management systems and will equip you with the knowledge and skills to tackle problems associated with energy systems, including efficiencies, renewable and alternative solutions, and policy, all while considering environmental impacts.

Course information
- Course code: S756
- Years (full time): 1
- Campus: Geelong
- Intake: T1 (March), T2 (July), T3 (November)
- 2022 annual fee: A$38,600
- IELTS score: 6.5

Structure
- 8 credit points, including:
  - 3 engineering core units
  - 3 zero-credit-point units relating to career tools for employability, safety and academic integrity.

Minimum entry requirements
- Four-year bachelor degree in a related engineering discipline.
- IELTS score: 6.5

Master of Energy System Management (Professional)
The Master of Energy System Management (Professional) extends the Master of Energy System Management and provides students with the opportunity to complete specific research units and a research project in their final year of study. With ambitious renewable energy targets around the world, there is an increasing demand for graduates both in Australia and internationally. As a graduate of this course you will have the skills and knowledge to lead society’s energy changes and represent both business and government.

Course information
- Course code: S757
- Years (full time): 2
- Campus: Geelong
- Intake: T1 (March), T2 (July), T3 (November)
- 2022 annual fee: A$38,600
- IELTS score: 6.5

Structure
- 16 credit points, including:
  - 7 core units (totaling 8 credit points)
  - 1 six-credit-point specialisation
  - 2 credit points of course-grouped electives units, which may be selected from the list of course-grouped electives
  - 3 zero-credit-point units relating to career tools for employability, safety and academic integrity.

Minimum entry requirements
- Four-year bachelor degree in a related engineering discipline.
- IELTS score: 6.5

The right degree for you
The degree you choose to study depends on your prior experience and future aspirations. The Master of Energy System Management (Professional) has extended discipline knowledge and essential skill development in research and project delivery. In addition, studying this two-year degree could mean you are eligible for post-study work rights in Australia.

Master of Engineering (Professional)
This degree will develop your technical skills, a positive approach to problem-solving and the ability to work as part of a team, while focusing on practical experience. And through a supervised research or industry project you will be provided with advanced project management skills required to tackle complex, industry-focused problems head on.

Course information
- Course code: S99
- Years (full time): 3
- Campus: Geelong
- Intake: T1 (March), T2 (July), T3 (November)
- 2022 annual fee: A$38,600
- IELTS score: 6.5

Specialisations
- Additive manufacturing
- Civil engineering
- Electrical and renewable energy engineering
- Mechanical engineering design
- Mechatronics and control engineering

Minimum entry requirements
- Four-year bachelor degree in a related engineering discipline, OR
- Membership of Engineers Australia, or equivalent professional body.

Highly ranked
Deakin is ranked in the Top 1% worldwide for Engineering and Technology by Times Higher Education, which is a reflection of the University’s high-quality engineering programs.

World-class facilities
As a Deakin engineering student, you will have world-class facilities and equipment at your fingertips. You will experience state-of-the-art laboratory facilities, including the AusNet Services electrical engineering lab, 3D printing laboratory, and virtual reality (VR) laboratory, and more. You will have access to infrastructure facilities for the design of buildings, transportation networks, water and wastewater systems. The Geelong Future Economy Precinct (GFEP) is home to many innovative research centres and provides unique resources and facilities for research and industry cooperation and research application.

In high demand
Demand for professional engineers continues to increase, and employers are looking for graduates who are fully equipped with advanced engineering, project management and interpersonal skills. Our engineering degrees aim to strengthen, build and extend your understanding of the engineering principles required for successful engineering careers in Australia and overseas.
Master of Infrastructure Engineering and Management

Study the Master of Infrastructure Engineering and Management and you will gain the skills to tackle significant infrastructure projects on regional and metropolitan profiles. This one-year coursework program extends your knowledge in infrastructure engineering through a blend of engineering and architecture units. Graduate with the skills to engineer significant infrastructure projects through the consideration of technological, economic and social impacts in both regional and metropolitan profiles.

Course information
Course code: S758
Years (full time): 1
Campus: B  C  D
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: A$38,600
IELTS score: 6.5/6

Structure
16 credit points, including:
• 8 core units
• 3 zero-credit-point units relating to career tools for employability, safety and academic integrity.

Minimum entry requirements
Four-year bachelor degree in a related engineering discipline.

Master of Infrastructure Engineering and Management (Professional)

The Master of Infrastructure Engineering and Management (Professional) extends the Master of Infrastructure Engineering and provides students with the opportunity to complete specific research units and a research project in their final year of study. You will acquire the critical thinking, innovative problem-solving and entrepreneurial skills that employers are looking for. Upon graduation, you will be equipped with the skills to plan, manage and engineer significant infrastructure projects.

Course information
Course code: S759
Years (full time): 2
Campus: B  C  D
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: A$38,600
IELTS score: 6.5/6

Structure
15 core units (totalling 16 credit points)
• 3 zero-credit-point units relating to career tools for employability, safety and academic integrity.

Minimum entry requirements
Four-year bachelor degree in a related engineering discipline.

Learn to preserve our planet for generations to come. When you study a Deakin postgraduate environment degree you will gain the knowledge, skill set and experience to develop solutions to the environmental issues we face on a national and international scale.

Master of Sustainability

With globalisation, population growth and climate change affecting economies around the world, issues of sustainability become increasingly critical to address. Deakin’s Master of Sustainability will allow you to specialise in either Environmental Management or Sustainable Regional Development. It has been structured to increase the breadth and depth of your knowledge, and the application of skills necessary to develop and implement sustainability strategies for a range of sectors. You will also have the opportunity to learn to examine environmental impacts and why they occur, and how to develop appropriate solutions to managing these impacts.

Course information
Course code: S721
Years (full time): 2
Campus: B  C  D
Intake: T1 (March), T2 (July)
2022 annual fee: A$37,600
IELTS score: 6.5/6

Specialisations
Sustainable regional development  B  C
Environmental management  D  E

Structure
The course comprises a total of 16 credit points, including:
• 2 core units
• 1 four-credit-point specialisation
• 2 elective units
• 8-credit-point research pathway or industry practice pathway
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree in same discipline with a minimum WAM of 60%, OR
• Graduate certificate in the same discipline, OR
• Bachelor degree in any discipline PLUS 3 years relevant work experience.
Deakin’s postgraduate health degrees are designed to give you the knowledge, skills and experience needed to become an expert in the health sector. Our programs will prepare you for a range of professional positions, and are ideal for graduates from various fields who are interested in a broader approach to health.

Research that makes a difference
The Faculty of Health places high emphasis on solutions-led research. Our three research institutes and numerous strategic research centres and specialist units work closely with industry partners and the government to put findings into practice. We encourage our staff to share and employ their knowledge across the University. By working together and collaborating with external organisations, researchers can provide expertise to projects, programs and initiatives that complement and support health and wellbeing.

Industry relations and partnerships
By undertaking a postgraduate health degree at Deakin, you can benefit from our extensive range of partnerships with federal and state government departments, national and international research institutes, universities, and large not-for-profit organisations. These include Cancer Council Victoria; Headspace; Oxford University; Pacific Research Centre for the Prevention of Obesity and Non-Communicable Diseases (C-PONDO); World Health Organization; Melbourne Health; and many more.

Master of Disability and Inclusion
Follow your passion for human rights and equality, and learn how to respond to legislative changes in the disability sector. This degree will allow you to positively influence social change through your developed knowledge of disability systems, high-level communication skills, and community-capacity building skills.

Course information
Course code: H904
Years (full time): 1
Campus: D
Intake: T1 (March), T2 (July)
2022 annual fee: A$32,200
IELTS score: 6.5/6

Structure
12 credit points, including:
• 3 core units
• 2 elective units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree or higher in a related discipline, OR
• Bachelor degree or higher in any discipline and two years relevant work experience, OR
• Evidence of academic capability judged to be equivalent.

Related programs
Graduate Certificate of Disability and Inclusion

Master of Health and Human Services Management
Deakin’s Master of Health and Human Services Management is suited to those interested in working in the sector in a senior management or leadership position, as well as those who currently hold senior positions in the industry. You will develop skills for leadership and strategic planning, health service needs assessment and evaluation, health service planning, monitoring and financing, human resource and project management, communication, and negotiation.

The degree allows you to choose elective study options that align with your career aspirations and interests. Elective units can be chosen from speciality areas, such as public health, health economics, disability and inclusion, business administration and research. You will also choose whether to focus on a research or coursework project, enabling you to construct a study program that best meets your interests.

Course information
Course code: H908
Years (full time): 1
Campus: D
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: A$53,400
IELTS score: 6.5/6

Structure
16 credit points, including:
• 10 core units
• 6 specialisation units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree or higher in any discipline, OR
• Evidence of academic capability judged to be equivalent.

Related programs

Advance your career
The unique combination of units in the Master of Health and Human Services Management – from public health, economics, management and business administration – will help you develop your leadership and management skills in health. These skills are relevant in diverse areas, from hospitals through to disability services, and will give you an advantage when applying for jobs.

Master of Health Economics
If you are a health professional or someone interested in turning data into evidence-based decisions that influence positive change in the healthcare system, then this is the degree for you. Join the largest health economics team in Australia and begin to understand the complexities of economics of health. The program prepares graduates from a range of areas – from nursing and pharmacy to commerce and public health – with specialist training in the application of health economics to health policy, health technology assessment and the healthcare system.

Course information

Who we work with
Deakin has partnerships with local, state, national and international health authorities and organisations. These connections will give you access to cutting-edge health promotion practice, enhance your health promotion skills, and help you to develop attributes valued by employers, such as critical analysis, creativity, reflective practice and lifelong learning.

Some of our partnerships include:
• Barwon Health
• Cancer Council Victoria
• Country Fire Authority
• Diabetes Australia
• Heart Foundation
• Oxfam
• VicHealth
• YMCA Australia.

Highly ranked
Deakin’s public health programs are among the world’s best. We are ranked in the Top 1% of universities in the world for Public Health, according to ShanghaiRankings Global Ranking of Academic Subjects.

Structure
16 credit points, including:
• 8 core units
• 8 elective units (several capstone options are available including a project, practicum, internship or study tour)
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor degree or higher in any discipline, OR
• Evidence of academic capability judged to be equivalent.

Related programs
Graduate Certificate of Epidemiology Intelligence

Master of Public Health
You will develop an understanding of global public health challenges and learn strategies and practical techniques to take action on these challenges, prevent diseases, and promote the conditions that improve population health. The flexible structure of this program allows you to tailor your degree to suit your interests and career aspirations. Depending on the electives you choose, the degree offers career pathways in seven areas: health promotion, health economics and management, public health practice, applied research, disability and inclusion, humanitarian assistance, and public health nutrition.

Many students study this course to progress in their current roles or to obtain senior positions. The degree is ideal for both clinical and non-clinical health professionals, as well as graduates from other fields who are passionate about improving the health of individuals, communities and populations.

**Humanities and Social Sciences**

**Master of Cultural Heritage and Museum Studies (Professional)**

Develop the knowledge, research skills and practical experience to make a difference in the cultural heritage sector. Whether you want to work with collections, manage a museum or heritage site, or protect and interpret significant sites, landscapes or intangible cultural heritage, specific pathways through this degree mean you can create a program that is right for you.

**Course information**

- **Course code:** A544
- **Years (full time):** 3
- **Campus:** Geelong (G)
- **Intake:** T1 (March), T2 (July)
- **2022 annual fee:** A$31,400
- **IELTS score:** 6.5/6

**Dual award program**

Deakin partners with Brandenburg University of Technology (BTU) in Cottbus-Seftenberg, Germany, to deliver a dual-award program — meaning, you can apply to graduate with BTU’s Master of World Heritage alongside your Deakin masters, highlighting the global reputation of our course. This dual award offers overseas study opportunities and valuable professional experience.

**Structure**

- 16 credit points, including:
  - 6 core units
  - Up to 6 credit points of elective units
  - 2 credit points of Work Integrated Learning (WIL) units
  - A minimum 2 credit point research capstone
  - 0 credit point academic integrity unit.

**Minimum entry requirements**

- Bachelor degree or higher in any discipline, OR
- Evidence of academic capability judged to be equivalent.

**Related programs**

- Graduate Diploma of Cultural Heritage and Museum Studies
- Graduate Certificate of Cultural Heritage and Museum Studies

**Master of Humanitarian Assistance**

Make a real difference to the lives of those impacted by war, natural disasters and climate change through the Master of Humanitarian Assistance. Humanitarian aid professionals use their technical skills or generalist management skills to implement programs with United Nations agencies, non-government organisations and governments.

This degree incorporates practical experience throughout, and there is the opportunity to complete an internship in Australia or another country. There is also an option to complete an exchange experience at a European university through the Network of Humanitarian Action (NOHA) masters program.

**Course information**

- **Course code:** A547
- **Years (full time):** 2
- **Campus:** Geelong (G), T2 (July), T3 (November)
- **Intake:** T1 (March), T2 (July)
- **2022 annual fee:** A$28,600
- **IELTS score:** 6.5/6

**Partnerships**

This program is co-developed and delivered by Deakin University in collaboration with the Centre for Humanitarian Leadership (CHL). CHL is a collaborative venture between Deakin University and Save the Children that seeks to enhance the skills, knowledge and behaviours required of humanitarian leaders, contribute to the professionalisation of the sector, and improve the capability of humanitarian professionals, NGOs and other agencies in responding to humanitarian disasters.

**Structure**

- 8 credit points, including:
  - 4 credit points of core units
  - 4 credit points of a combination of research and elective units
  - 0 credit point academic integrity unit.

**Minimum entry requirements**

- Bachelor honours degree in a related discipline, OR
- Bachelor degree in a related discipline, PLUS two years relevant work experience, OR
- Graduate certificate or graduate diploma in a related discipline, OR
- Evidence of academic capability judged to be equivalent.

Master of Politics and Policy

In the 21st century the world faces many complex political problems: climate change, disease pandemics, ethnic and religious conflict, refugee crises, and new forms of populism and authoritarianism. Deakin’s Master of Politics and Policy provides students with the knowledge and practical skills needed to understand these complex global challenges and develop policy that will bring about positive social change. You will gain real-world skills that reflect current industry practices, such as how to prepare policy briefing papers and how to develop political communication strategies. You will also explore how differing political perspectives shape the dynamics between government, the private sector and community.

*Depending on your research selection the duration of this degree is either one year full time (research paper) or two years part time (minor thesis).
As a Deakin information technology student, you will graduate ready to further your career in a variety of fields – from information systems to cyber security, computer science, data analytics, artificial intelligence and virtual reality.

Use state-of-the-art facilities
Deakin regularly invests in facilities so that our students have access to some of the best learning spaces, equipment and technology that the Australian university sector has to offer. This means you will have the opportunity to gain experience with the same equipment that is used in industry.

Highly ranked
Deakin is ranked in the Top 100 universities worldwide for Computer Science and Engineering by ShanghaiRankings.

A growing industry
Artificial intelligence (AI) is making a huge impact across many industries and is redefining how organisations operate. It allows businesses to use the power of machines to implement intelligent automation and eliminate time-consuming manual processes. Organisations are now looking to take advantage of AI technology and this is creating a demand for skilled professionals.

Master of Applied Artificial Intelligence
Artificial intelligence is being used every day to help improve healthcare operations, national security, defence, social media, manufacturing and much more. The Master of Applied Artificial Intelligence will develop your understanding of the technology and processes that are used in AI, including deep learning, reinforcement learning, and the application of these algorithms in computer vision and speech processing.

Course information
Course code: S734
Years (full time): 1
Campus: Geelong, Warrnambool, Ballarat
Intake: T1 (March), T2 (July)
2022 annual fee: $36,400
IELTS score: 6.5/6

Accreditation
The Master of Applied Artificial Intelligence is provisionally accredited with the Australian Computer Society (ACS).

Structure
16 credit points, depending on your professional experience and previous qualifications.

Minimum entry requirements
- Bachelor degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

Information technology or data science?
Business analytics involves the analysis of data in order to make key business decisions for an organisation. A business analyst investigates business trends in order to present business simulations and assist in business planning.
Data science is the study of any data that can provide insights. Data scientists use machine learning and deep thinking to answer questions presented by big data. A data scientist’s key skills are in coding, mathematics and critical thinking.
The right degree for you

The degree you choose to study depends on your prior experience. The Master of Information Technology Management (Professional) is ideal for those without a computing background and provides the opportunity to undertake a period of industry-based learning or a research project. The Master of Information Technology Management is for those without a computing background who are looking to gain industry experience.

Master of Information Technology Management

Deakin’s Master of Information Technology Management will equip you with knowledge and skills necessary to lead and manage information technology projects and people within enterprise. This course is ideal for students without a computing background, as well as those who would like to bolster their industry experience with a recognised academic qualification. The Master of Information Technology Management will develop your understanding of the many aspects of IT including networking, cyber security, operations, and enterprise systems.

Course information

Course code: M726
Campus: Deakin University, Waurn Ponds Campus

**Medicine**

Founded on exceptional purpose-built facilities and strong industry links, a medical degree with Deakin can lead to a long and rewarding career. From clinical management through to paediatrics and surgery, the opportunities are limitless.

**A respected qualification**

Deakin’s medicine program is among the best in the world at meeting industry demands and is well respected by employers. Deakin doctors are highly sought after for internship positions with healthcare providers in Australia and abroad.

**Clinical placements**

You will study at Deakin’s Geelong Waurn Ponds Campus for the first two years, learning through problem-based seminars and practical classes. You will have clinical exposure in laboratories, hospitals and other health services.

During Year 3 most students undergo intensive clinical training within health services based at public and private hospitals and general practices in Geelong, Warrnambool, Ballarat or Melbourne. A small cohort will attend Deakin’s Rural Community Clinical School (RCCS), where they will be based in general practice clinics in South West Victoria. In Year 4, students continue clinical training within the health services, complete the research scholar program and finish the year with a capstone pre-internship rotation.

**The themes of the Deakin MD**

Our Doctor of Medicine has four major themes that underpin your study across the four years of the course:

- **Medical Science and Clinical Practice:** The biological and behavioural sciences underpinning the practice of medicine, along with the skills required for effective person-centred healthcare practice.
- **Public Health Medicine:** Healthcare from a community and societal perspective, encompassing epidemiology, population health, health systems, and the ways in which healthcare practitioners can support better health outcomes from the individual to the global scale.
- **Ethics, Law and Professionalism:** The foundational and applied concepts required for the ethical basis of health, the social and legal frameworks of medicine, and the professional practice of medicine.
- **Indigenous Health:** The physical, mental, social and cultural aspects of health, from an Indigenous perspective.

**Doctor of Medicine (MD)**

**Studying an MD at Deakin** prepares you for a career in all areas of medicine. It is a four-year graduate entry program for students wishing to qualify as medical practitioners. With a rural and regional medical focus, you will learn about anatomy, physiology and pathology, plus clinical procedural skills, public health issues and managing chronic diseases. There is also a focus on the early development of clinical, communication and procedural skills; diagnosis and management of chronic diseases; and multidisciplinary teamwork.

**Course information**

Course code: M003

Years (full time): 4

Campus: [ ]

Intake: M1 (January) 2022 annual fee: A$73,000

IELTS score: 7/7

**Structure**

32 credit points. All units are core units.

**Minimum entry requirements**

International applicants are selected on the basis of the following factors:

- Academic performance in an approved Bachelor, Honours, Graduate Certificate, Graduate Diploma or Masters by coursework.
- A final GPA (weighted) of 5.0 or greater.
- The GPA is calculated on the most recent three full-time, equivalent years (FTE) of study.
- Performance in the GAMSAT or MCAT.
- Performance in an interview.

---

1. This information was under review at the time of publishing, please visit the Doctor of Medicine page of the Deakin website for the most up-to-date information on entry requirements at deakin.edu.au/medicine/doctor-of-medicine-international.

2. The Doctor of Medicine operates on a medicine semester system.

3. Degree must have been awarded within 10 years of the projected commencement date of the Doctor of Medicine. Applicants whose degree was completed outside this 10 year period may be considered if they have completed relevant further higher education study. The institution must be recognised by the Australian Qualifications Framework (or equivalent overseas institution determined by Deakin).

4. GAMSAT or MCAT score must be obtained within two years preceding the year of application.

5. Score based on performance at the interview in which applicants must achieve a minimum overall score of 50%.

**Nursing**

When you study with one of the largest nursing schools in Australia, you can be confident that you will graduate with a respected qualification that will help progress your career. Our courses are centred on evidence-based practice and reflect current industry trends.

**Highly ranked**

Deakin is ranked 30th in the world for Nursing (QS Subject Rankings). This prestigious ranking is based on academic reputation, employer reputation and research impact, and showcases the strength of Deakin’s School of Nursing and Midwifery and its programs.

**Celebrating over 30 years**

The School of Nursing and Midwifery was established in 1987 and has grown to be one of the largest nursing schools in Australia. Over this time, the School has developed strong and long-lasting partnership networks with healthcare organisations.

**Master of Nursing Practice**

- **Strengthen your knowledge of nursing and progress your career as a registered nurse**.
- **Studying at the masters level will further develop your nursing skills and allow you to solve complex problems, think critically, and take on new roles**.
- **Deakin’s Master of Nursing Practice was designed in response to industry and professional demand to increase the number of masters-qualified registered nurses in the workforce**.
- **The program aims to broaden the knowledge and skills of registered nurses who work in a variety of healthcare settings**.
- **It recognises that graduates should be able to practise in ways that extend beyond the technical and practical concerns of nursing to include research-based practice**.
- **The degree is designed to allow you to choose from a range of study pathways that support your career aspirations in nursing management and governance, and clinical education and leadership**.

**Course information**

Course code: N717

Years (full time): 12

Campus: [ ]

Intake: T1 (March), T2 (July) 2022 annual fee: A$35,200

IELTS score: 6.5/6

**Structure**

12 credit points, including a 0-credit-point academic integrity unit and one compulsory coursework unit in research methods, designed to ensure students develop research skills. Students have the option of completing a masters by Minor Thesis or Coursework.

**Minimum entry requirements**

Bachelor of Nursing or equivalent, AND registration as a registered nurse with relevant statutory registration/licensing body with no conditions or restrictions.

Applicant must have six months clinical experience as a registered nurse.

**Graduate Certificate of Diabetes Education**

- **Develop the skills, knowledge and attributes to educate people with diabetes**.
- **As one of the fastest-growing public health issues in the world, diabetes is a field in need of more qualified health professionals and subject matter experts**.
- **The Graduate Certificate of Diabetes Education is considered a benchmark course in the health sector, preparing health professionals for specialty practice in diabetes education**.
- **The degree addresses both disease prevention and disease management**.
- **The degree is solution-focused with the goal of transferring knowledge gained from research findings to inform policy, practice and teaching**.

**Course information**

Course code: H771

The coursework units in this program are delivered on FutureLearn -- a highly flexible, easy-to-use online learning platform that connects you with Deakin students and practitioners from all corners of the world.

**Structure**

4 credit points, plus a 0-credit-point academic integrity unit. All units are core units.

**Minimum entry requirements**

Bachelor degree (or equivalent) in a related discipline.
Nutrition and Dietetics

Issues related to food and health are increasing around the world as we face challenges such as obesity, mental illness and disease. Food and nutrition play a huge part in human health, so there is high demand for qualified professionals to educate the community about how to live a healthy life.

Key industry partnerships

Deakin’s nutrition and dietetics research and teaching is done in collaboration with major industry and non-government partners. The School of Exercise and Nutrition Sciences also has numerous clinical and community dietetics placement partnerships. These ensure that you have access to some of the largest and most well-respected teaching hospitals in Melbourne.

Strong links to industry

Through Deakin’s strong connections with industry and opportunities to complete work placements, you will learn from leading professionals in healthcare and food settings. This experience will enable you to build your network from early on in your career, which will prove useful when you begin your job search.

Over 40 years teaching dietetics

Deakin was one of the first universities in Australia to offer a course in dietetics, and has been proudly offering Dietitians Australia accredited courses for more than 40 years.

Master of Dietetics

Help people understand the relationship between healthy eating and the prevention and treatment of illness and disease. The Master of Dietetics will enable you to work in areas such as hospitals, private practice, public health, and sport. It is a professional training program that builds on your undergraduate knowledge in nutrition, physiology and biochemistry to develop skills in dietary management of individuals and groups in both health and disease.

Course information

Course code: H714
Years (full time): 1.5
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: A$44,600
IELTS score: 7.0

Accreditation

The Master of Dietetics is accredited by Dietitians Australia (DA). Graduates are eligible for full membership of DA and the Accredited Practising Dietitian (APD) program, and to work in all areas of dietetics.

Structure

12 credit points. All units are core units.

Minimum entry requirements

Three-year bachelor degree or equivalent in a relevant cognate area (for example: science, science, nutrition, food science, exercise science, biomedical science, allied health or nursing) completed within the last 10 years.

Students who have completed an undergraduate degree in a relevant cognate area must demonstrate learning in Human Biociences and Food and Nutrition Science as described below:

- Biochemistry content with Chemistry (0.25 EFTSL) followed by Biochemistry (0.25 EFTSL);
- Human Physiology content with Human Biology (0.25 EFTSL) followed by Human Physiology (0.25 EFTSL).

Applicants are also required to have completed at least 4 units (equivalent to 4 Deakin credit points) of nutrition and food science study covering content relating to principles of nutrition, lifespan nutrition, diet and disease, and food science.

Master of Human Nutrition

Learn the skills to work effectively as a nutritionist in a range of employment settings. Deakin’s Master of Human Nutrition draws on multiple disciplines, including food science, physiology, epidemiology, psychology and sociology. You will develop an advanced understanding of the role of nutrition and diet in the health of individuals and the population. You will also learn about the biological, social and policy-related aspects of human nutrition, along with skills to evaluate the findings of human nutrition studies and undertake research.

In this degree you can choose from a diverse range of 17 different electives, giving you the ability to pursue topics that align with your interests and career goals.

Course information

Course code: H718
Years (full time): 1.0
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: A$37,400
IELTS score: 6.5

Accreditation

As a Master of Human Nutrition graduate, you may be eligible for registration as an associate nutritionist through the Nutrition Society of Australia (NSA). Following three years of relevant work experience, associate nutritionists are able to apply for registered nutritionist status.

Structure

12 credit points, including 6 core units, PLUS one of the following options:

Option A:
- Research Practice in Human Nutrition
- 5 elective units.

Option B (research focus):
- Nutrition Research Project Part A (2 credit points)
- Nutrition Research Project Part B (2 credit points)
- 2 elective units.

Minimum entry requirements

- Bachelor degree or higher in any discipline, OR
- Evidence of academic capability judged to be equivalent.

Related programs

- Graduate Diploma of Human Nutrition
- Graduate Certificate of Human Nutrition

Master of Nutrition and Population Health

If you are interested in helping communities through improved nutrition, this is the degree for you. Advance your qualifications and equip yourself with the skills and knowledge required to work across a range of government, industry and community health sectors, with a focus on nutrition and how it relates to public health.

This advanced degree draws content from related disciplines, such as public health, food science, biochemistry, physiology, epidemiology, psychology, sociology, and politics and policy. You will complete 16 diverse units, and will develop an understanding of the biological, social and policy-related aspects of human and public health nutrition.

Course information

Course code: H748
Years (full time): 1.5
Intake: T1 (March), T2 (July)
2022 annual fee: A$37,400
IELTS score: 6.5

Accreditation

As a graduate of this program you may be eligible for registration as an associate nutritionist through the Nutrition Society of Australia (NSA). Following three years of relevant work experience, associate nutritionists are able to apply for registered nutritionist status.

Structure

16 credit points. All units are core units.

Minimum entry requirements

- Bachelor degree or higher in any discipline, OR
- Evidence of academic capability judged to be equivalent.

Related programs

- Graduate Certificate of Human Nutrition

1. Unlike most Deakin courses, the Master of Dietetics operates on a semester system.
2. EFTSL refers to a full-time study load for a single term. 0.25 EFTSL is typically equivalent to two units of study.
3. Registration with NSA does not authorise registrants to obtain provider numbers with Medicare or private health insurers.
4. Up to 2 elective credit points may be chosen from postgraduate units offered by any faculty of the University.
5. Students are required to undertake units in Trimester 1.
Australia, you can apply for registration as a psychologist if you meet the additional requirements of the Psychology Board of Australia. You will learn advanced skills in research design, implementation, analysis and reporting, as well as developing your understanding of professional responsibilities, standards of performance, and ethical issues.

Course information
Course code: H800
Years (full-time): 2
Intake: T1 (March), T2 (July)
2022 annual fee: A$34,600
IELTS score: 6.5/6

Structure
10 credit points. All units are core units.

Minimum entry requirements
Bachelor degree in any discipline.

Further studies
- Master of Psychology (Clinical)
- Master of Psychology (Organisational)
- Master of Psychology (Clinical) (Advanced)
- Graduate Diploma of Psychology (Advanced)

Minimum entry requirements
Bachelor degree (with an APAC accredited psychology course or equivalent) OR a three-year psychology degree in just three trimesters of study (with the skills required for accreditation and registration, and for employment in one of the many organisations employing psychologists).

Course information
Course code: H750
Years (full-time): 4
Intake: T1 (March)
2022 annual fee: A$37,000
IELTS score: 7/7

Structure
16 credit points. All units are core units.

Minimum entry requirements
Four-year tertiary program with a psychology major from an APAC accredited program completed in the last 10 years with a minimum of a Honours 2A average or equivalent, AND eligibility for registration as a provisional psychologist with the Psychology Board of Australia.

Course information
Course code: H800
Years (full-time): 2
Intake: T1 (March), T2 (July)
2022 annual fee: A$34,600
IELTS score: 6.5/6

Structure
10 credit points. All units are core units.

Minimum entry requirements
- Bachelor degree with a psychology major from an APAC accredited program completed in the last 10 years with a minimum of a Honours 2A average or equivalent, AND eligibility for registration as a provisional psychologist with the Psychology Board of Australia.

Further studies
- Master of Psychology (Clinical)
- Master of Psychology (Organisational)
- Doctor of Psychology (Clinical)

Professional recognition
On completion of this course, graduates may apply to the Psychology Board of Australia for registration as a psychologist and to the Australian Psychological Society (APS) for full membership. To obtain endorsement in the clinical area of specialisation, graduates are required to complete a two-year registrar program and fulfil professional development requirements (after registration as a psychologist with the Psychology Board of Australia).

Get your Deakin pathway options
If you have already completed an approved three-year bachelor degree in psychology and are looking to go on to complete an additional fourth year of psychology study to pursue provisional registration, Deakin’s Graduate Diploma of Psychology (Advanced) is for you. If you have already completed a degree in another area of study and now wish to pursue psychology but do not want to start another three-year degree, Deakin’s Graduate Diploma of Psychological Science is the degree for you. This program will enable you to fast-track your psychology studies and complete the equivalent of a three-year psychology degree in just three trimesters of study. You can then go on to complete your fourth year of study before progressing to postgraduate study in pursuit of general registration.

Your Deakin pathway options

Minimum entry requirements
Four year tertiary program with a psychology major from an APAC accredited program completed in the last 10 years with a minimum of a Honours 2A average or equivalent, AND eligibility for registration as a provisional psychologist with the Psychology Board of Australia. Applicants with international qualifications must have these assessed as equivalent by the Australian Psychological Society.

Professional recognition
This degree qualifies you to register as a generalist psychologist with the Psychology Board of Australia, and for full membership of the Australian Psychological Society (APS). Graduates will be eligible to apply for membership of the College of Organisational Psychologists and endorsement as an organisational psychologist following the completion of an approved registrar program with the Psychology Board of Australia.

Deakin’s Doctor of Psychology (Clinical)
Another pathway to obtaining general registration as a psychologist is through Deakin’s Doctor of Psychology (Clinical). This four-year degree provides the same coursework elements as the Master of Psychology (Clinical), as well as further opportunities for clinical placements and research. deakin.edu.au/dr-psych
At Deakin, you will gain more than a degree when studying science. Our hands-on, practical and flexible approach – along with industry collaboration and expert teaching staff – will help you successfully progress your career.

Industry connections

Industry connections are an integral part of the Master of Biotechnology and Bioinformatics. They ensure you will have opportunities to gain an industry perspective and establish professional networks prior to graduation. Industry partners, in conjunction with Deakin, work together to ensure students have access to real-world experience and are prepared for the demands of the workforce.

Career opportunities

As a graduate of the Master of Biotechnology and Bioinformatics, you will be uniquely positioned to commence a PhD or actively pursue research roles in industry, education and teaching, government, policy developments and teaching. Depending on your chosen area(s) of expertise, you may choose to seek employment as a bioinformatician, animal scientist, botanist, chemist, food scientist, material scientist, metallurgist, molecular biologist, communications specialist, researcher or science journalist. Potential employers include CSIRO, government research institutes and departments, private research institutes, health sector, private commercial companies, industrial research companies, universities, schools, agriculture and food sector, local councils and public service.

A biotechnology qualification is also highly relevant and extremely versatile in Research and Development (R&D) roles within both public and private sector research institutes.

Further studies

Following successful completion of the Master of Biotechnology and Bioinformatics graduates may choose to pursue further research through a PhD, or seek employment in industry or government roles.

Master of Biotechnology and Bioinformatics

This cutting-edge course provides experience of the latest techniques in biotechnology and bioinformatics research, including up-to-date bio-processing and production technologies. Throughout the Master of Biotechnology and Bioinformatics, you will gain experience operating analytical equipment similar to those in industrial-scale production facilities. You will cover a wide range of emerging topics and applications in biotechnology and bioinformatics, in both research and industry settings. In addition, there will be the opportunity to develop valuable research management and business skills.

Highly ranked Deakin’s School of Exercise and Nutrition Science is ranked number three in the world, and number one in Australia, for Sport Science by the prestigious ShanghaiRanking’s Global Ranking of Sport Science Schools and Departments. These rankings recognise academic excellence and industry-leading research.

According to the prestigious SportBusiness Postgraduate Course Rankings 2020 – which has three times named Melbourne the sporting capital of the world – Deakin is ranked number one in Australia and in the world’s top 40 for sport management education.

Centre for Sport Research

The Centre for Sport Research (CSR) focuses on improving the health and performance of people and organisations participating in sport. As well as promoting sport and exercise, CSR conducts research that informs Deakin’s sport programs, meaning the curriculum is current, relevant and will prepare you for the diverse career you hope to pursue or progress.

World-class facilities

From Deakin’s Elite Sports Precinct, to our new $33 million specialised indoor sport and exercise science building, teaching labs, and extensive equipment, our facilities are world-class. They will support your training and help you gain a better understanding of sport science.

Minister of Business (Sport Management)

Underpinning the multi-billion dollar sports industry are business professionals who provide direction and leadership to sporting organisations. There are significant opportunities for those who want to work in sport management, whether it is at elite, semi-elite or recreational level. This degree integrates business disciplines such as strategy, financial management, marketing, and development to provide you with effective management and direction skills.

Master of Clinical Exercise Physiology

Exercise is known to have a positive impact on chronic health problems, such as cancer or mental ill-health. Study clinical exercise physiology and develop the knowledge and expertise to prevent and treat many medical conditions, improve wellbeing and maximise physical capacity. As part of Deakin’s Master of Clinical Exercise Physiology you will undertake study and hands-on experience in a clinical setting. You will learn in the award-winning Deakin Clinical Exercise Centre, as well as the Baker Heart and Diabetes Institute.

Course information

Course code: [ ]

Years (full time): 1

Campus: [ ]

Intake: T1 (March), T2 (July)

2022 annual fee: AS$37,000

IELTS score: 6.5/6

Accreditation

This was the first exercise physiology course in the Australian state of Victoria to be accredited by Exercise and Sports Science Australia (ESSA). Students are eligible to apply for accreditation as Accredited Exercise Physiologists upon graduation. They are then eligible for a provider number with Medicare Australia and patients can claim the cost of their service through Medicare and private health insurance.

Structure

12 credit points. All units are core units.

Minimum entry requirements

Bachelor degree in relevant area with eligibility for Exercise Scientist accreditation from Exercise and Sports Science Australia (ESSA) and completion of 540 hours of exercise science service delivery for apparently healthy clients.
