IF YOU DON’T LIKE IT, CHANGE IT.

For 60 years, we’ve been working to change the world, and we’re not about to stop. At Monash, we see challenges as opportunities to make things better.

It’s hard to imagine a time when the need to make positive change has been greater than now.

We want you to help us do it.

Whether you want to change your life, your career, your community or the world, your journey starts at Monash.

As a university with a global footprint, we know we have to play our part in solving the problems facing the world.

That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.

You, too, have the opportunity to step up and make a difference.

Are you ready?

Ready to make a change? Click here to learn more.
Monash University is truly a global university. Our main base is in Australia, but our presence extends to locations in China, Malaysia, Indonesia, Italy and India. We also deliver awards in partnership with many international teaching institutions. Through our shared values, experiences and goals, we are more connected now than ever. Each Monash campus has its own personality, and all are friendly, welcoming communities where you’ll feel at home.

**INDIA**

**Mumbai**

Bustling Mumbai is home to the IITB-Monash Research Academy, a collaboration that gives PhD students opportunities to work closely with industry to find solutions to global problems.

**INDONESIA**

**Jakarta**

Research intensive and industry engaged, Monash Indonesia is a postgraduate campus for future leaders – those seeking master’s and PhD degrees, as well as executive programs and micro-credentials.

**ITALY**

**Prato**

In the heart of Tuscany and close to Florence, Prato is our European base where eight of our faculties offer units covering design, law, business and more.

**MALAYSIA**

**Kuala Lumpur**

Monash University Malaysia is our third-largest campus, with more than 8000 students undertaking courses offered across seven schools.

**CHINA**

**Suzhou**

The Southeast University-Monash University Joint Graduate School offers masters and PhD study options in areas ranging from industrial design and IT to business.

**MELBOURNE AUSTRALIA**

**Clayton**

Our biggest campus, home to 38,000 students and nine of our ten faculties. Everything you need is on campus—food outlets, sporting facilities, health services and more.

**Caulfield**

Our Caulfield campus hosts 19,000 students and is our base for Art, Design and Architecture, and Monash Business School as well as some Arts and IT courses.

**Parkville**

Our dedicated Pharmacy and Pharmaceutical Sciences campus hosts 2000 students and is part of Australia’s leading health and biomedical precinct.

**Peninsula**

A coastal home to approximately 4000 students, our Peninsula campus offers courses from the Faculty of Education and select courses from Monash Business School. Partnering with leading players in primary and allied healthcare, we also offer a number of courses from the Faculty of Medicine, Nursing and Health Sciences.

**A WORLDWIDE UNIVERSITY**

- **3** INTERNATIONAL TEACHING LOCATIONS
- **6** CAMPUSES
- **100+** PARTNER UNIVERSITIES ACROSS THE GLOBE
**LIFE-CHANGING RESEARCH**

Monash research strives to make a positive difference in the world.

Even before we became the global university we are today, our researchers looked beyond traditional boundaries, discovering ways of approaching the fields in which they worked. It’s why a Monash education is so respected around the world. Things that we now take for granted wouldn’t exist without the initial work of Monash researchers.

Today, our ambition and optimism are stronger than ever. We have a clear vision of what we want our research to achieve and how we’ll help our researchers make it happen.

---

**Breakthrough blood test detects positive COVID-19 results in 20 minutes**

Monash University led the charge in combating COVID-19 with the development of blood tests that could detect positive COVID-19 cases in approximately 20 minutes. This breakthrough aided governments and health experts with contact tracing and limiting community spread.

---

**eBikes pedal up on safety with EEG technology**

As more cyclists take to the streets, the risk of accidents also increases. Research from Monash University, IBM Research - Australia and the University of Southampton, have developed an eBike prototype that has the ability to “read” a cyclist’s mind and respond to a potentially dangerous situation, providing a much safer and enjoyable ride.

Professor Florian “Floyd” Mueller, Director of the Exertion Games Lab in the Faculty of Information Technology at Monash University and co-creator of this technology, sees this ground-breaking research as an opportunity to further human-computer interaction experiences in real-time, where the rider and the eBike “fuse” together to support each other.

---

**When to send an ambulance**

Triple-0 calls can be intense conversations. The caller is often stressed and unsure about what they’re witnessing. And it can be difficult for the triple-0 operator to collect and sort through all of the key information. This can sometimes cause delays in making the decision to send an ambulance.

AI can help speed things up. Professor Ann Nicholson is working with Monash IT’s Associate Professor Burak Turhan to develop AI technology to improve response times to cardiac arrest. Accordingly to Ambulance Victoria, the development of such a system, could help save up to 185 lives per year.

---

**Monash researcher named Australian Young Water Professional of the Year**

Dr Paul Satur, from the Monash Sustainable Development Institute, has worked to progress the water sector beyond best-practice goals. His passion and focus lie in helping remote, local communities, both in Australia and around the world, to develop the knowledge, tools and influence to ensure access to clean, drinking water.

---

**Breakthrough blood test detects positive COVID-19 results in 20 minutes**

Monash University led the charge in combating COVID-19 with the development of blood tests that could detect positive COVID-19 cases in approximately 20 minutes.

This breakthrough aided governments and health experts with contact tracing and limiting community spread.
If you’re passionate about tackling global challenges and collaborating with some of the brightest minds in your discipline area, then Monash is the place where your ideas and actions can gain momentum.

Our graduate degrees will give you the edge in the employment market and prepare you for the professions of the future, both in Australia and overseas.

Our industry-relevant courses are embedded with the leadership, entrepreneurial and commercialisation skills that will advance your career. You can take a semester at the King’s College London, undertake master’s units at the Monash Centre in Prato, Italy, or complete a double master’s program with one of our international partners.

Globally connected, our alumni network is at the forefront of social and technological progress at many of the world’s best companies. If you aspire to make a positive impact in the world, you’ll find Monash learning is all about discovery, creativity, challenge and opportunity.

GET READY TO SEE THE WORLD

International placements
Choose from a range of international placements – Asia, Africa, Europe and the US.

Overseas internships
Intern at the United Nations, New York, or Shandong Television in China – just two of many options.

Monash Malaysia
Our Monash Malaysia campus offers students the opportunity to spend a semester at Monash University’s third-largest campus which offers a distinctly international and culturally rich environment.

Monash Prato, Italy
Study at the Monash Prato Centre in Italy – offerings include fine art, architecture, Italian and law.

Connect
Connect with 360,000-plus alumni across the globe.

---

1 Due to the Covid-19 pandemic, international travel restrictions are in place at the time of printing. Consequently, our offer of study abroad programs will be dependent on and subject to international travel restrictions. For further information please visit, monash.edu/study-abroad
GET AHEAD WITH MONASH

Click here to find out how a Monash education prepares you for success into the future.

From day one, a Monash education sets you on the path to future career success.

Our programs and platforms are designed to get you career-ready.

Career Connect
Our Career Connect program gives you access to experienced coaches and industry-based professionals. Take part in employability workshops, small-group career conversations and, in your final year, one-on-one coaching.

monash.edu/career-connect

Student Futures
Our Student Futures platform allows you to collate the real-life skills that will show employers you have what they’re looking for, taking into account not just your university activities, but those that are part of your ‘outside’ life – paid work, family responsibilities and contributing to your community.

monash.edu/student-futures

Develop leadership
While studying, you’ll be encouraged to foster the skills for effective leadership that will enable you to positively influence the University, your community and, eventually, the world.

monash.edu/students/leadership

Monash Talent
With our employment service, Monash Talent, you can start your career search without stepping foot off campus. We have a team of recruitment specialists who’ll connect you with reputable employers and match you with jobs that suit your skills and passions.

monash.edu/talent

Mentoring
Throughout your studies here, you have the opportunity to mentor or be mentored. You can share or gain insights about life at university, career planning, building employability, as well as future goals.

monash.edu/mentoring
THE CHOICE IS YOURS

We know that when, where, how and what you study is critical to progressing your career, skills and knowledge.

You might be a professional looking to gain expert knowledge in your current field, or you might be looking for a career change. Or maybe you want to complement your existing knowledge and experience by tackling study in a new discipline so that you develop a competitive edge in your career.

We offer a comprehensive graduate coursework portfolio that includes graduate certificates, graduate diplomas and master’s programs. Our range of graduate course options allows you to choose the qualification level and course duration that suits your needs.

Depending on which path you take, you may be eligible for credit for your prior qualifications and/or experience. This could reduce the duration of your course and lower the overall cost.

**Graduate certificates**
These are our six-month courses, and provide a way to broaden your knowledge base within a shorter period of time. They can give you a sense of what’s involved with graduate coursework studies.

Completing your graduate certificate not only provides you with a qualification, it can also create an opportunity for you to pursue further studies in either a graduate diploma or a master’s degree, and can shorten your study time should credit be available.

**Graduate diplomas**
Through our one-year graduate diploma courses, you could develop a broader understanding in your chosen area of study. Completion of a graduate diploma can also provide a pathway to further studies at a master’s or doctorate level. If you decide to pursue further studies in your chosen field, you may be eligible for credit which would reduce the overall duration.

**Master’s by coursework**
We offer a broad portfolio of master’s by coursework programs, with options available in nine of our faculties. These courses can run from two to four years, and you may receive credit for prior studies and/or experience which would allow you to complete your studies in a shorter time.

Our master’s courses provide opportunities for professionals to further develop specialist knowledge in their chosen field, or for individuals to change their career direction entirely and undertake study in a new discipline.

You can see the full list of our graduate coursework offering on pages 22-23.

Whatever your ambition, Monash can help you get there.
From day one, a Monash education sets you on the path to future career success.

**WORK-INTEGRATED LEARNING**

Our programs and platforms offer work-integrated learning experiences and engagement with industry. You’ll develop an enterprising mindset, hone your employability skills and gain a competitive edge in the graduate employment market.

Incorporate professional experience into your studies through clinical placements, fieldwork, study tours, placements, or internships. Each of our ten faculties offer work-integrated learning options. We’ve listed just a few.

I undertook a clinical placement with Tradelab, a Geneva based non-profit organisation that assists developing countries with trade-related legal matters.

This internship was valuable as it gave me an opportunity to gain practical working experience and at the same time make a meaningful contribution to the future of sustainable infrastructure development.”

**PRATIK AMBANI**
Master of Laws (Juris Doctor), 2019

I chose Monash specifically, because unlike similar programs in other universities, this program offered internship opportunities where we learn to apply our knowledge and skills in a real-life settings.

My internship with Janssen enabled me to seek guidance from people with years and years of experience within the pharmaceutical industry. Janssen arranged an intern engagement program where I had the opportunity to talk with people from different parts of the company each week. They also involved me in meetings where I could observe how different roles work together in a cross-functional team. I gained an understanding of how much science is involved and how it fits within a pharmaceutical company. This experience opened my eyes to a wide range of roles where science is highly utilised.”

**ASSIFA NUR HISANA**
Master of Biomedical and Health Science, 2020

**IT and Engineering**
Both our IT and Engineering faculties have specific Work-integrated Learning opportunities throughout their graduate offering.

**Monash Business School**
Monash Business School offers practical experience with many of their courses, with many of their courses providing accreditation and professional recognition.

**Medicine, Nursing and Health Sciences**
Our school of Medicine, Nursing and Health Sciences have created placement requirements through many of their graduate courses, all designed to maximise your professional development.

Click here to learn more about our work-integrated learning options
In this video, two professors at different universities join forces to demonstrate quantum physics.

At Monash we offer a mix of both in-person and online learning. Some Monash courses are offered fully online, while others provide the opportunity to undertake some studies online and some on campus. We also offer online learning if you’re unable to attend on-campus due to current travel restrictions. While travel restrictions are in place you can commence and continue your studies fully supported by our education technologies and academic staff. Once you’re able to travel you can transition to on-campus programs. Online learning at Monash can look different depending on what course and units are studied. For example, in some units, you’ll be listening to livestreams of lectures, and attending virtual tutorials via Zoom; in others you’ll be watching chemistry prac recorded by our lecturers and teachers.

At Monash we want you to get the most out of your education experience. To achieve this, we use a variety of tools and platforms to support and enable online learning. These include Moodle, Echo360, Panopto, and Zoom.

MOODLE
Moodle is an essential go-to point for:
• Course content
• Reading lists
• Assessment and study requirements
• Assignment uploads
• Discussion forums
• Contact information for tutors and lecturers

ECCHO360 and PANOPTO
You may use Echo360 to watch lecture recordings or Panopto to upload video assignments.

ZOOM
Zoom is a technology used to facilitate meetings and online classes.

These platforms and tools are the main systems in use by Monash to support day-to-day online learning, and are easy to use with plenty of support available to ensure you have access at all times.
ON-CAMPUS ACCOMMODATION

Our on-campus accommodation is supported by live-in staff and student leaders, making campus life a breeze. There’s also 24-hour security on campus, and a thriving events and activities program to help you settle into your new community.

Prices for on-campus accommodation range from $240 to $303 per week.

We also have dedicated graduate wings in our urban community halls exclusively for graduate students. They’re quieter and often include shared spaces to study and to connect with your neighbours.

If you’re a graduate or mature-aged student you’ll be allocated a room within a graduate wing. Applications are free and open in September. You can choose from traditional halls of residence, self-contained studio apartments or shared apartments.

With students from 70 countries and a wide range of facilities on your doorstep, discover why on-campus accommodation is much more than just your room.

monash.edu/accommodation

COST OF LIVING

Before you begin your studies at Monash, it’s a good idea to plan and prepare a budget.

Below are some costs associated with living and studying in Australia, and should be used as an approximate guide. These figures (in Australian dollars) are estimates only, and may vary depending on your location and lifestyle. Rent, for example, is more expensive in some areas of Melbourne than others. You may also need spending money for things like medication and other personal items, such as clothes.

All costs are subject to inflation.

Depending on your chosen course, additional costs may apply for class materials and other requirements. Please make sure you check any additional costs for your course before commencing your studies.

Off-campus accommodation

- Hostels and guesthouses $90 to $150 per week
- Rooming houses $85 to $215 per week
- Private rental $165 to $440 per week
- Boarding schools $11,000 to $22,000 per year

Other living expenses

- Groceries and eating out $80 to $280 per week
- Gas and electricity $35 to $140 per week
- Phone and internet $20 to $55 per week
- Public transport $15 to $55 per week
- Car (after purchase) $150 to $260 per week
- Entertainment $80 to $150 per week

* These fees for living on campus at Monash University vary depending on the type of accommodation. On-campus accommodation cost includes gas, water, electricity, internet, residential parking permit and all meals. Downtown: monash.edu/livingoncampus/pricing
* Prices shown here are based on a typical three-bedroom house.
Our Australian base is a vibrant, multicultural city that offers an abundance of cultural festivities, international sporting events, cafes and restaurants with cuisines from around the world, beautiful parks and beaches, and an eclectic mix of music and arts. You couldn’t pick a better place to live.

As one of the world’s most liveable cities, you can expect excellence in public transport and healthcare, as well as opportunities for casual work while studying. Plus, Melbourne is renowned as a welcoming environment for international students, providing a home away from home.

1 Economist Intelligence Unit 2019.
WE’LL SUPPORT YOU

At Monash, you’re at the centre of everything we do.

We offer you careers counselling, academic support, health and wellbeing services, professional development opportunities and family support. We can even help you find somewhere to live. You can also take advantage of academic support services and modern study facilities designed specifically for graduate students. We recognise the richness and depth of our Monash community, and are committed to diversity and inclusion.

monash.edu/study/student-life

ACADEMIC SUPPORT

During your studies, you can access academic support programs to improve your written and oral expression, reading, listening and note-taking skills. Tutors are available to guide you through research methodologies, conference presentation and the best way of submitting academic papers.

Monash Connect

Monash Connect can advise you on anything from admissions, enrolment, fees, academic support, language support, graduations and scholarships. Student service centres are located on all Australian campuses. We now offer ‘live chat’ to new and existing students. It’s just another way we’re making it easier to find out what you need to study at Monash.

monash.edu/connect

Monash Postgraduate Association (MPA)

As a Monash graduate student, you’ll automatically become a member of the Monash Postgraduate Association, which provides services for graduate students such as social functions, newsletters and publications, advice, advocacy and mediation, and seminars to help you transition from study to a successful career.

mpa.monash.edu

Dedicated learning spaces

We value the work of our research students and have invested in purpose-built facilities that reflect this. The PhD Hub in Building 88, 27 Sports Walk, Clayton campus, is open 24/7 to all graduate research students, while the Graduate Student Hub in Building 89, 21 Sports Walk, Clayton campus, is open from 7am to midnight for our graduate coursework and research students. In addition to these spaces, there are a number of central facilities dedicated to graduate students across our Clayton, Caulfield and Peninsula campuses.

monash.edu/graduate-research/current-students/graduate-spaces

Monash Professional Pathways

Through a combination of classroom-based programs focussed and industry-based learning experiences (Internships), Monash Professional Pathways supports those seeking professional experience and careers in Australia. Through us, graduates are better able to secure employment in their chosen fields and perform to employer expectations in their roles.

monashprofessional.edu.au

PERSONAL SUPPORT

Career guidance

Take advantage of our career development programs and individual career counselling.

monash.edu/careers

Family support

Monash University is proudly committed to supporting staff and students with family responsibilities by providing discounted fees at four quality childcare centres across Clayton, Caulfield and Frankston. Check the centres’ websites for further details, and to organise a tour of the facilities.

monash.edu/childcare

Monash Sport

Monash Sport offers a wide range of group fitness classes, gym memberships, aquatic activities and competitive or social sports.

monash.edu/sport

Wellbeing

Each Monash campus features a health, wellbeing and development hub with counsellors, medical practitioners, student advisors and a team of people from different faith communities to support you in all facets of university life – from accommodation and financial aid to life-balance issues.

monash.edu/health

Disability support services

If you have a disability or medical condition that impedes your study, the Equity and Diversity Centre will help you access services such as learning support, assistive software or equipment loans.

monash.edu/disability

DID YOU KNOW?

Every Monash campus has a security office that’s staffed 24 hours a day. Members of the security team are friendly and always ready to provide help and safety advice. They’re also happy to escort you anywhere on campus at any time of the day or night.

2022 INTERNATIONAL GRADUATE COURSE GUIDE

2022 INTERNATIONAL GRADUATE COURSE GUIDE
Whether you’ve completed undergraduate studies in architecture or another field, the Master of Architecture meets the academic requirements necessary to register as an architect. At Monash, we develop graduates with a vision to design architecture that responds to the dynamic needs of society while also speculating about the future of our built environment. In this project-based studio course, you’ll be guided by industry experts and award-winning Monash academics. This integrated program of study allows you to select from a range of design studios in conjunction with advanced architectural studies.

Professional accreditation
This course meets the academic requirements for professional recognition by the Architects Accreditation Council of Australia and the Australian Institute of Architects. Two years of professional experience is required for registration.

- Sustainable development
- Community development
- Transport planning

Our Master of Urban Planning and Design places you ahead of the competition by integrating design with policy-based knowledge. You’ll develop the technical capabilities and creative capacity to address the big challenges facing our cities. Guided by Monash academics and industry professionals you’ll focus on four project-based learning themes: the compact city, the ecological city, the inclusive city, and planning for metropolitan growth areas. You’ll study in real-world environments and engage in lectures, workshops, seminars, field visits, and have the option for international study tours.

Professional accreditation
Master of Urban Planning and Design is accredited by the Planning Institute of Australia (PIA).
Create a master’s degree that suits you

Our courses offer a unique and nuanced approach to their industry and subject matter, and are underpinned by our guiding principles to be innovative, international and engaged. There are many ways you can make your master’s degree that best suits your interests and career needs:

• Tailor your program by taking specified electives from other coursework of master’s degree offered in the faculty
• Accelerate your studies, taking units over the winter and summer, and complete your degree in less than one year
• Apply for professional internships to develop your professional development and networks
• Go on study tours and gain practical, on-the-ground experience both in Australia and abroad

• Create a pathway to a PhD by completing a research thesis as a prerequisite for future enrolment into a PhD or master’s by research
• Take advantage of leadership opportunities through our Arts Graduate Leadership Program and gain access to professional development workshops

As globalisation continues, the demand for English language experts, teachers and intercultural communicators has significantly increased. The application of linguistic knowledge to professional contexts is at the heart of the curriculum. You’ll have the opportunity to regularly engage with real-world case studies and practical problem-solving as part of your studies. There’s also an extensive fortnightly seminar series where you can engage with guest lecturers from industry and other universities.

Delivered by specialists from the humanities, social sciences, medicine, business, education and law, the Master of International Development Practice offers a broad approach to sustainable development with six specialist streams: democracy, justice and governance; crisis, change and management; gender, peace and security; global migration; sustainable economies; and sustainable resource management.

You’ll learn directly from leading researchers and practitioners, and will combine this academic insight with a high level of industry integration to give you a competitive advantage in the workforce.

You’ll also have the opportunity to be matched with an industry mentor in the field through our many sector partnerships and mentoring programs which match students with a development practitioner from around the world based on shared interests.

Graduates go on to a broad range of occupations at organisations such as:

• Australian government departments (DFAT, Defence, Attorney General)

• International Red Cross departments

• United Nations

1. In equivalent Monash University grading scale terms, a 60% grade is equivalent to a grade 4 (or above) in the United Kingdom grading system.

2. If you are eligible for a shorter course duration, you may elect to complete the longer duration.

3. Specialisation qualification approved by the faculty.

4. Related fields include humanities or social sciences.

5. You must have achieved a pass average (60%) in both qualifications.

6. You will be required to provide a curriculum vitae and a reference from your employer.
Develop a greater understanding of the dynamic world of global politics. You'll develop foundation knowledge of international affairs, grounded in the key debates framing global politics, and address the big questions about global justice, war, peace, social movements and interstate relations.

This course builds essential skills in global leadership, intercultural communication and facilitating positive change in a context characterised by significant levels of global complexity and connectivity. Successful completion of this degree can count towards a Master of International Relations for those who desire further study.

By completing Australia’s most innovative industry-focused tourism program you’ll develop specialised skills in all aspects of the international tourism industry, including tourism marketing and destination management.

This course explores tourism’s potential to be compatible with the development of sustainable organisations, urban and rural regeneration, natural resource management and wildlife conservation, and the diversification of benefits from international and domestic tourism.

This truly global program will see you undertake international field trips, investigate best practice international precedents and study alongside students from around the globe -- helping to build the cross-cultural skills that underpin a successful career path in tourism.

- Advertising and marketing

Studying a degree in sustainable tourism allows you to work in one of the fastest-growing industries, while simultaneously knowing how to reduce the impact of travel on local economies and environments. You’ll develop an understanding of the industry in a global setting, before delving into industry-relevant areas such as marketing and tourism economy for the digital age.

On completion of this course, you’ll be prepared for work in the government or private-sector tourism industry. If you prefer delving deeper into the field through further study, you can use this course as an entry point to the Master of International Sustainable Tourism Management.

1. If you’ve completed relevant units in an Australian bachelor degree (or equivalent qualification) you may be eligible for credit for advanced proponent units or a block of recognition prior learning.
2. In equivalent Monash University grading scale terms, a 70% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table. You’ll be notified and elected based on your written academic record.
If you’re a recent graduate or a professional already working in the finance industry, this course will give you advanced insight into global financial markets, funds management, corporate finance, financial modelling and risk management.

You’ll learn from leading academics in the field of finance as well as industry experts, and the course offers practical ways to apply your knowledge through the trading simulation programs run at Monash (STELLAlab).

You can choose to do a master by coursework degree, which will give you the opportunity to explore FinTech, environmental finance and big data, or, if invited by the Course Director to apply, and subject to a selective interview process, you can pursue a research pathway, which can act as a pathway into a PhD.

Accreditation and professional recognition
This course is accredited by the CFA Institute, the global association for investment professionals, who awards the international Chartered Financial Analyst designation.

In this online master’s degree, you’ll extend your expertise in analytics and gain critical knowledge and skills required to make informed business decisions using complex data.

You’ll gain foundational knowledge in Python programming and data modelling, while also completing specialist units in accounting analytics, data visualisation and data science. As part of your studies, you’ll also have the opportunity to undertake online elective units to broaden your professional development, or specialise further across a range of areas.

This course is ideal if you’re wanting to gain specialised knowledge in analytics or formalise your work experience with a degree from a leading global university. As a graduate, you’ll have the knowledge and skills to work across multiple sectors and industries and this degree will ensure that you’re ready to work in a rapidly changing business environment.

**Monash Business School**

Monash Business School is one of the few business schools in the world to have achieved the esteemed ‘triple accreditation’ of business school accreditations.
Our Graduate Certificate of Business is part of a suite of offerings that will enable you to develop your disciplinary knowledge and skills to advance your career. It requires the completion of only four units from a range of contemporary business themes, including:

• Accounting in business
• Contemporary leadership
• Corporate governance
• Human resources
• Human resource management
• International trade
• Sustainability

There is plenty of choice and it’s a perfect way for business professionals to give their skills a boost, without putting their career on hold.

The Graduate Certificate of Business is a qualification on its own, but it will also bring you a step closer to completing a master’s if you decide to take your study further.

Graduate Certificate of Business

When looking to upskill and advance your career, the key advantage of studying with Monash Business School is our ability to offer choice and flexibility.

Our Graduate Diploma of Business will allow you to explore contemporary business issues, theory and best practice in a discipline of choice. With a wide range of options within the disciplines of marketing, management, accounting, banking and finance, economics or business law, your study at Monash Business School will enable you to develop cutting-edge technical knowledge and skills. You’ll also develop important generic skills valued by employers, such as critical thinking, leadership, communication and team skills.

Many units are offered outside business hours or in block mode, which means you can balance your work and study. But if you choose to do the program full-time, you can graduate with a Graduate Diploma of Business in just 12 months. This program will also give you a taste of graduate study, and can be a pathway to a master’s degree.

Global Executive MBA is an intensive 15-month program for experienced managers, featuring international modules and a series of weekend modules.

Designed for executives in diverse sectors and professions with a minimum of 10 years’ work experience, the program addresses complex, challenging, strategic issues in organisations. The course aims to develop graduates who are global in orientation and who can lead organisations at a senior level. It emphasises contemporary business and organisational challenges, and provides an integrated approach to discipline-based academic content.

The module themes are globalisation, innovation and transformation. The projects, cases and materials are strategic, global and contemporary, and the program has the active involvement of senior industry leaders locally and internationally.

The three international modules are taught by leading business schools in Europe, Asia and America. International business consulting projects by industry leaders locally and internationally.

The module themes are globalisation, innovation and transformation. The projects, cases and materials are strategic, global and contemporary, and the program has the active involvement of senior industry leaders locally and internationally.

This is a future-focused, innovation-led course designed to provide you with the skills needed to navigate regulatory compliance within an increasingly complex corporate environment.

Designed in conjunction with industry experts, this course will equip you to manage beyond compliance, through exposure to international best practice and the latest regulatory technologies. You will also discover how to identify key risks within businesses, and gain an understanding of the contemporary regulatory and compliance environment in which business operates.

You can focus on one discipline or select from a range of discipline-specific regulation orientated electives in the areas of: financial services; sustainability and the environment; employment and human resources; global enterprise; artificial intelligence and new technologies; and ethics and risk management.

1. For detailed information on specialisations visit, monash.edu/studystudies/field-of-study/course-support/education-6002
2. We have listed places in the course. Admission into the course is competitive.
3. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
4. Even if you’re eligible for a shorter course duration, you may elect to complete the longer duration.
5. Related fields include counseling, psychology and social work.
6. Related fields include disciplines relevant to your chosen specialisation.

Ed
cucation and developmental psychologists focus on how people develop and learn throughout their lifetime. They work with individuals, families, groups and organisations, and have varying roles such as school psychologist, guidance officer, and child and adolescent counsellor. They conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults.

You’ll apply theory to practice with 1000 hours of supervised professional experience in a range of settings. In a research thesis, you’ll develop an evidence-based approach to psychology, carrying out reviews and scientific investigations relevant to the theory and practice of educational and developmental psychology.

As a graduate, you’ll be qualified to register as a psychologist with the Psychology Board of Australia (PsyBA). You’ll also meet most requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

Professional accreditation
Our Master of Educational and Developmental Psychology is accredited by the Australian Psychological Accreditation Council (APAC) as a fifth and sixth-year sequence in psychology that prepares you to practice as an educational and developmental psychologist in settings including schools, health and welfare services, care facilities and businesses.

Additional requirements
- complete a supplementary form that demonstrates evidence of suitability for work as a professional psychologist and includes referee reports (one academic and one professional) and relevant work experience (voluntary or paid).
- attend an interview.

Applicants checks:
- Working with Children Check (before placement).
- Provisional registration with the PsyBA before commencing study, and maintain such registration throughout the period of enrolment.
- You must also meet the English language requirements of Monash and the PsyBA. Consult the PsyBA website to ensure you meet their requirements: www.psychologyboard.gov.au

Applicants checks for off-campus professional experience activities
This course requires you undertake mandatory off-campus professional experience activities. In order to do this, you’ll need to:
- submit proof of your registration with the PsyBA
- meet the specific security clearances that apply in whichever state/territory your professional experience is being undertaken
- complete professional experience orientation provided by the faculty.

Monash English language level
Level D (see page 90).

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. You’ll need to have achieved a distinction (70%) in your fourth year of psychology. Attention into the course is competitive and may require a higher overall average than the minimum requirements.
3. Applicants with international qualifications will need to have their qualifications assessed by the Australian Psychological Society.

As a registered psychologist, this course will prepare you to practise as an educational and developmental psychologist in a range of settings including primary and secondary schools, health and welfare services, hospitals, care facilities, clinics and private practice and within business and corporate environments. You’ll develop an advanced ability to think critically and analytically about the processes involved in educational and developmental psychology, and the application of these to professional practice and research.

You’ll have the opportunity to apply theory to practice through 750 hours of supervised professional experience across the course.

### Professional accreditation

The Master of Advanced Educational and Developmental Psychology course is accredited by the Australian Psychology Accreditation Council (APAC). With a further two years of supervised practice in educational and developmental psychology, graduates are currently eligible for endorsement as Educational and Developmental Psychologists with the Psychology Board of Australia (PsyBA).

Graduates also qualify for membership of the Australian Psychological Society, and meet requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

1. In equivalent Monash University grading scale terms, a 100% scale where 50% is a pass. Your prior qualifications need to be accredited to the equivalent Australian level specified in the eligibility requirements table.
2. Even if you were eligible for a ‘higher’ course duration, you may elect to complete the longer duration.
3. Relevant professional experience includes teacher, education or adult函授education – this could be in schools, universities, public sector, private businesses, and community organisations.
4. Relevant fields include education and teaching.
Our Graduate Diploma of Professional Psychology is designed to meet the requirements of the Australian Psychology Accreditation Council (APAC) for a generalist fourth-year in psychology.

This course is suited to those who wish to pursue advanced study in psychology at master’s or doctoral level, or to undertake supervised psychological practice.

By studying our Graduate Diploma of Professional Psychology, you’re offered advanced study of psychology, research training and an introduction to the psychological profession. You’ll be able to choose an elective from topics including developmental psychology and wellbeing, or positive psychology in professional practice. After graduating, you can undertake further training and study needed for professional registration in psychology.

Professional accreditation
Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC). Professional accreditation ensures those graduating from the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

Entry requirements
ELIGIBILITY
Graduate diploma in psychology or equivalent, with a major in psychology from any course accredited by the APAC. Please note that qualifications need to have been completed within the past 10 years.

Monash English language level
Level D (see page 90).

Career options
• General registration as a psychologist (after additional studies to complete the required pathway).
• Private practice, health and welfare services, and business environments.

Monash English language level
Level D (see page 90).

Career options
• General registration as a psychologist (after one year of supervised practice outside of course).
• Private practice, health and welfare services, and business environments.

Our Master of Professional Psychology is designed to meet the requirements of the Australian Psychology Accreditation Council (APAC) and the Australian Health Practitioner Regulation Agency (AHPRA) for a generalist fifth year in psychology.

This course equips selected psychology graduates with the advanced psychoscientific skills required for general registration as a psychologist. It develops your professional capability to apply the theoretical, research, assessment and therapeutic skills involved in psychology.

Following graduation, you’ll be able to undertake a year of supervised generalist practice, then progress to full registration as a psychologist.

Professional accreditation
Our psychology courses are accredited by the Australian Psychology Accreditation Council. Professional accreditation ensures those graduating from the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

ELIGIBILITY
For entry to the Master of Professional Psychology, it is recommended that you have completed one year of full-time study at an equivalent level to a tertiary institution in one secondary teaching area and a second teaching area comprising at least a minor study. See the faculty website for more information, monash.edu/education. Applicants should also indicate that they will accept any teaching area for which they are eligible.

Specialisations
• Early childhood education
  - 0-12 years Clayton 70 days
• Primary education
  - 5-12 years Clayton Peninsular 60 days
• Secondary education
  - 12-18 years Clayton 60 days

Do you have a graduate degree in any discipline, and want a career as a global educator?

Our curriculum combines theory and professional experience, giving you the skills and professional values to become an effective educator.

You can choose to specialise in early childhood, primary or secondary education – or a combination. Through engagement with the latest thinking and practices, you’ll be able to effectively foster the learning of students with various ages and needs.

You’ll complete a minimum of 60 days’ teaching practice with opportunities in urban, rural, remote and international settings and schools.

Professional recognition
Specialisations in early childhood education are accredited by the Australian Children’s Education and Care Quality Authority (ACECQA). All primary and secondary education specialisations are accredited by the Victorian Institute of Teaching (VIT) using the national accreditation standards.

Specialisations
• early childhood education
  - 0-12 years Clayton 70 days
• primary education
  - 5-12 years Clayton Peninsular 60 days
• secondary education
  - 12-18 years Clayton 60 days

1 In equivalent Monash University grading scales terms, a 16% scale where 55% is a pass. Your prior qualifications must be accredited in the equivalent Australian level specified in the eligibility requirements table.

2 Admission into the course is competitive and may require a higher overall average than the minimum. The professional experience admission requirement must be completed within the past 10 years.

3 Not all specialisations are offered at all campuses. Refer to the Specialisations table to find the applicable campus.

4 This can also be studied as an accelerated course, where you’ll be required to undertake one of the standard annual levels of 40 credit points in two years in order to complete the course in 1.5 calendar years. The two quota is based on 40 credit points per year to complete the course in 1.5 calendar years. The two quota is based on 40 credit points per year to complete the course in 1.5 calendar years. You’ll be required to pay a higher fee in one year where more than the 40 credit points is required.

5 If you’re not applying for the specialisation in secondary education, you need to have appropriate discipline studies to qualify for the secondary teaching specialisation in one discipline teaching specialisation area with a minimum study in one secondary teaching area and one second teaching area comprising at least one semester. See the faculty website for more information, monash.edu/education.

6 This requirement applies to students in all specialisations except early childhood education.

7 These requirements only qualify graduates to be registered or employed as teachers.
Master of TESOL

COURSE CODE: D0055  CRICOS CODE: 079104F

RANKED NO. 1 IN AUSTRALIA
Academic Ranking of World Universities, 2020

PROFESSIONAL PLACEMENT – TEACHING OR OBSERVATION
$334,900
2021 fees p.a.
These are per 48 credit points, which represents a standard full-time course load for a year.

This course is suitable for a wide range of educators, prospective educators and other professionals working in the field of English language teaching, and leads to a graduate qualification in TESOL (Teaching English to Speakers of Other Languages).

This course will assist you in understanding the connections between theory and practice, and the importance of developing strong evidence-based principles in English language teaching and learning.

The Master of TESOL has a professional placement in the final semester. You will choose between a teaching or observation placement, to consolidate your learning and gain further understanding of work environments prior to graduating.

This course does not provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching course.

Specialisations

- Biological engineering
- Civil engineering
- Electrical engineering
- Materials engineering
- Mechanical engineering

DEGREE AWARDED
The degree you’re awarded will reflect your chosen specialisation.

Monash English language level
Level A (see page 90).

Career options
- Specialist engineer or consultant within your chosen professional field
- Engineering management role in private or public sector
- Entrepreneur or CEO of your own company

1 In equivalent Monash University grading scale terms, a “100%” scale where 50% is a pass. Your prior qualification must be accredited to the equivalent Australian level specified in the eligibility requirements table.
2 Even if you’re eligible for a shorter course duration, you may need to complete the longer duration.
3 Related fields include linguistics and language studies.
The accreditation process for full recognition by EA has commenced and become a highly employable Monash engineer. Expertise in another specialisation to further your career aspirations, develop the professional skills and confidence to create positive change. Continuous professional development and relevant industry experience theory and practice. You’ll be prepared for a successful career through and professional units and undertake real-world projects, blending practice as an accredited engineer. Whether you’ve completed undergraduate studies in engineering or in another science-related field, the Master of Professional Engineering will provide you with the technical knowledge and hands-on experience to practice as an accredited engineer.

In this course, you’ll specialise in engineering technical, research and professional units and undertake real-world projects, blending theory and practice. You’ll be prepared for a successful career through continuous professional development and relevant industry experience in the Work-integrated Learning program. Gain practical experience and develop the professional skills and confidence to create positive change.

Build on your undergraduate experience, change direction or develop expertise in another specialisation to further your career aspirations and become a highly employable Monash engineer.

**Specialisations**
- Chemical engineering
- Civil engineering
- Electrical engineering

**Professional accreditation**
The Master of Professional Engineering has been designed to meet the stage one competencies for accreditation by Engineers Australia (EA). The accreditation process for full recognition by EA has commenced and currently has provisional accreditation. The master’s degree will be an internationally recognised qualification which allows you to work as a professional engineer in Australia and other Washington Accord signatory countries.

- Lead specialist engineer in your field/s of expertise

**Do you have a Science-related degree?**

If you now pursue a career in engineering at Monash if you have a degree in a STEM-field, such as science, mathematics or pharmacy. A new foundation year has been introduced to provide you with the skills to become an accredited and in-demand engineer.

Artificial Intelligence (AI) has the ability to transform every aspect of our lives – from cars driving themselves to robots performing complex surgery. AI can help to predict the path of bushfires, detect early-stage skin cancers, and counteract fake and polarising information on social media. It informs business decisions, optimises operations, and drives outcomes of leading companies. The potential of AI is infinite.

Monash is the only university among the prestigious Group of Eight to offer a comprehensive Master of AI. This course will equip you with the skills and knowledge to achieve innovative outcomes. Under the guidance of internationally recognised experts, you’ll have an opportunity to apply your knowledge to real-world challenges to influence a range of industries including healthcare, agriculture and manufacturing.

This is the total 2020 fee for this 24-credit-point course.

### Additional requirements
You’ll also need to provide:
- a research proposal (500-1000 words)
- a detailed curriculum vitae listing your qualifications, work experience and details of two recent referees.

### Monash English language level

Level A (see page 90).
This degree satisfies the academic requirements for admission to practice as an Australian lawyer. Our Juris Doctor (JD) is an intensive, graduate-entry law degree designed for non-law graduates. It develops advanced professional skills in problem-solving, critical thinking, research, communication, collaboration, self-management, ethical awareness and professional judgment.

The JD recognises the specific needs of graduate entrants and teaches the skills available only from one of Australia’s leading law schools. The JD recognises the specific needs of graduate entrants and teaches the skills available only from one of Australia’s leading law schools.

Clinical education experience
Monash Law now offers a guaranteed clinical education experience for all students who wish to incorporate a practical component credited towards their Monash Law degree.

Degree awarded
The degree you’re awarded will reflect your chosen specialisation.

Specialisations
- Corporate and commercial law
- Criminal law and forensics
- Dispute resolution
- Global society and human rights
- Health law and community
- Labour and employment law
- Public sector governance and regulation
- Technology and innovation
- Transnational economic regulation.

Entry requirements
You must satisfy one of the following three options:

1. Bachelor's degree (or equivalent) in any field with at least a Grade Point Average (GPA) of 5.0 or a 70% point scale for equivalent credit average. (OR)
2. Incomplete studies in a law or equivalent degree, a minimum GPA of 5.0 or a 70% point scale in the law studies, with no fail result in the final year.
3. Bachelor's degree (or equivalent) in any field with at least a GPA of 4.0 or a 70% point scale and LSAT score of 150+ taken within five years prior to applying for admission.

Monash English language level
Level A (see page 96).

Alternative exit
Graduate Diploma of Legal Studies

1. You'll be assessed on your entire academic record. As a general rule, those who don't have a credit average will need to have at least two years of relevant work experience, although the required period may be shorter where the work experience has been supervised by a relevant body.
2. In equivalent Monash University grading scale terms, a 65% scale where 50% is a pass.
3. Students who wish to incorporate a practical component credited towards their Monash Law degree.
4. Bachelor's degree (or equivalent) in any field with at least a Grade Point Average (GPA) of 5.0 or a 70% point scale in the law studies, with no fail result in the final year.
5. You'll need to complete one or more areas of law.
6. Students who wish to incorporate a practical component credited towards their Monash Law degree.
7. The letter from VLAB must be dated within 12 months of submitting your application for study.

DEGREE AWARDED
The degree you’re awarded will reflect your chosen specialisation.

Our Master of Laws is designed for law students wanting to develop in-depth knowledge of a particular legal area, or to advance their professional expertise in a current area of practice, or to enhance your capacity to undertake independent research. You’ll gain advanced professional skills and knowledge of law developments, practice and scholarship of one or more areas of law.

Specialisations

Master of Clinical Emergency Medicine

*Studies within this course are multi-modal and usually involve both online and face-to-face delivery.

Through our Master of Clinical Master of Clinical Emergency Medicine, you'll advance your career as you join the next generation of leaders in emergency medicine.

Delivered in partnership with the Alfred Hospital, this course will give you an academic framework to develop a range of advanced problem-solving and decision-making skills to achieve best-practice health outcomes for patients.

Specialisations
- Clinical Emergency Medicine

**Entry requirements**

**ELIGIBILITY**

Bachelor of Medical Science and Doctor of Medicine (or equivalent), AND

**Average requirements**

Bachelor of Medical Science and Doctor of Medicine (or equivalent), AND

**Duration**

**Additional requirements**

- Working with Children check

- You’ll also need to meet additional requirements and provide evidence of successful course completion, including all elements of assessment. Please visit monash.edu/study/course/M6023

Monash English language level

Level A (see page 90).

Alternative exit

Graduate Diploma of Clinical Embryology

Career opportunities

Our course is the longest running in the Asia-Pacific region. We’ve received global recognition for producing high-calibre embryologists. As a result, Monash graduates are highly sought after by IVF clinics and are employed as embryologists and lab managers around the world.
**CLINICAL RESEARCH**

**Course Code:** M4028

- **Clayton, Alfred Hospital**
  - **ON-CAMPUS**
  - **February and July**
  - **1 year FULL-TIME**

---

Develop your passion for research, build on your bachelor’s degree and advance your knowledge in a health or science discipline through a combination of coursework and research.

You’ll also undertake research methodology training and carry out an independent research project in your selected discipline, working closely with a supervisor who’ll provide you with guidance and academic counselling. The course also offers a pathway to higher degree research.

**Specialisations**

- **Medicine, Nursing and Health Sciences**
  - Biomedical science  
  - Medical imaging and radiation sciences
  - Nursing
  - Nutrition science
  - Paramedicine
  - Physiotherapy
  - Translational Medicine

---

**Entry requirements**

**Master of DIETETICS**

- **Entry requirements**
  - For example: food science, nutrition science, lifespan nutrition.
  - Or an equivalent GPA as approved by the faculty.

This course integrates academic teaching and learning with clinical, population health, food service, research and management experience, and is carried out in both academic and professional practice placement settings. You’ll complete supervised placements in both clinical and community settings, gaining a breadth of professional experience.

There are also plenty of opportunities to apply your dietetics knowledge outside of the classroom. You’ll learn through simulated patient scenarios, hands-on food activities and by working in Monash’s on-site nutrition clinic.

**Professional accreditation**

This course has been accredited by Dietitians Australia.

**Entry requirements**

**ELIGIBILITY**

- Bachelor’s degree (equivalent) in a related field2  
  - Credit (60%) 2

- Bachelor’s degree (equivalent) in nutrition science2  
  - Credit (60%) 1.5

**Special requirements**

Upon enrolment you’ll be asked to:

- comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements
- obtain a Police Check (annual requirement)
- obtain a Working with Children Check.

**Monash English language level**

Level C (see page 90).

**Alternative exit**

Graduate Diploma of Health Studies

**Career options**

- Consultancy or private practice
- Food industry
- Food service and management
- Patient care

---

**Graduate Certificate of Advanced Healthcare Practice**

This course has been accredited by the Australian Health Practitioners’ Regulation Agency (AHPRA) or an equivalent accredited professional registration body. It’s a minimum of two years full-time equivalent study in a related discipline and evidence of current engagement in clinical practice in the area of specialisation.

**Specialisations**

- Midwifery (M5005)
- Paramedicine (M5006)
- Physiotherapy
- Translational Medicine

**Entry requirements**

**ELIGIBILITY**

- Bachelor’s degree (equivalent) in a related field3  
  - Credit (60%) 2

- A distinction (70%) average in at least 24 credit points in your chosen specialisation.

**Special requirements**

Upon enrolment you’ll be asked to:

- comply with the mandatory immunisation requirements in readiness for clinical/fieldwork placements
- obtain a Police Check (annual requirement)
- obtain a Working with Children Check.

**Monash English language level**

Level A (see page 90).

**Alternative exits**

Graduate Certificate of Advanced Healthcare Practice
This graduate diploma gives you a broad framework to manage clinical healthcare systems, and is accredited by the Australian College of Health Service Management.

The course covers human resource, financial, informational, medico-legal, political, cultural, economic, ethical, industrial, technological and psychosocial issues.

**Professional accreditation**
This course is accredited by the Australian College of Health Service Management (ACHSM).

**Entry requirements**

This three-year integrated program will provide you with the knowledge, skills and clinical practice experience required to work as a physiotherapist, with a particular focus on the development of leadership skills.

Building on an undergraduate degree in foundational sciences, and learning from expert physiotherapists and researchers, the Doctor of Physiotherapy will prepare you to work in public and private hospitals, private practice, sports, aged care and community health, both locally and beyond.

**Professional accreditation**
The Doctor of Physiotherapy course is an approved program of study, accredited by the Australian Physiotherapy Council on behalf of the Physiotherapy Registration Board.

Gain broad knowledge and receive practical training in the applications of reproductive biology in animals and humans, and explore the social and ethical issues these raise.

You’ll be learning from an impressive calibre of guest lecturers. All of our presenters are either academics with clinical backgrounds or currently have active clinical roles in IVF and fertility centres across Victoria, and many have internationally recognised careers.

On completion of the course, you’ll be able to show a thorough theoretical understanding of human and animal reproductive sciences, and develop practical techniques in human clinical and veterinary reproductive sciences.

You may also qualify for admission into the Master of Clinical Embryology or into higher degrees by research.

Humanity is developing at a rate that’s giving rise to widespread environmental, economic and social challenges. If you’re future-conscious and want to transform society through sustainable solutions, this is your chance to learn the skills you’ll need. This course will give you the training, language and tools to be a leader in a rapidly growing field.

Get hands-on, real-world experience through an internship, or an interdisciplinary industry or research project or thesis to help drive innovation, and be taught by experts from multiple disciplines and sectors who are leading the environment and sustainability agenda in Australia and internationally.

Specialisations
• Corporate environmental and sustainability management
• Environment and governance
• Environmental security
• International development and environment
• Leadership for sustainable development.

With continued improvements in DNA sequencing technology, genome-based diagnosis and health management, the healthcare system stands at the gateway to a future where diseases are diagnosed early and precious treatments provided. However, in the absence of enough specialist genome analysts, we cannot translate and expand the discoveries from genome sequencing to the healthcare system, and ultimately improve health.

At Monash, we’ll train you in specific technical and professional skills so that you’re equipped to help the world take the next crucial steps in diagnostics and genomics medicine.

The Master of Green and Sustainable Technologies recognises the increasing demand for graduates with expertise in green chemistry to lead the transformation of chemical and other industries where the chemistry and chemical engineering play a crucial role in delivering the products coming from these industries.

As a student in this program, you’ll have the opportunity to design and implement new products and processes that will highlight the role that chemistry has to play in addressing the UN Sustainable Development Goals.

Entry requirements
- Bachelor’s degree (or equivalent) in either Chemistry or Biochemistry
- Bachelor’s degree (or equivalent) in a related field

Mathematics underpins our way of life and our prosperity. Its importance ranges from fundamental developments enabling new technologies, to theories backing up scientific research, to analyses of our physical and societal environments.

This course is designed for graduates with a bachelor’s degree and a strong foundation in mathematics. You’ll acquire advanced knowledge and skills in mathematics, and the capacity to use them to tackle complex problems in a variety of situations.

Entry requirements
- Bachelor’s degree (or equivalent) with mathematics units
- High credit (65%) average in the completion of eight units in mathematics.

Monash English language level

SCHOLARSHIPS TO UNLOCK YOUR TALENT

At Monash, we believe in unlocking your potential to make a difference in the world.

Monash University is committed to attracting academic high achievers and producing internationally competitive graduates.

MONASH SCHOLARSHIPS

Monash International Leadership Scholarship
Tuition fees are paid for the duration of the course for high-achieving international coursework students. Selection is based on academic achievements, application statement and the student’s potential to be a Monash University ambassador.
monash.edu/new-scholarships

Monash International Merit Scholarship
A$10,000 is paid per year for the course duration to high-achieving international coursework students. Selection is based on academic achievements, application statement and the student’s potential to be a Monash University ambassador.

Monash International Tuition Scholarship
This scholarship covers your course fees as an international graduate research student. Selection is based on academic achievements and eligibility.

Monash Graduate Scholarship
A$28,373* is paid per year for the duration of your research. Selection is based on academic achievements and eligibility.
monash.edu/graduate-research/future-students/scholarships

Graduate research scholarship applications
You can apply to be considered for all scholarships you’re eligible for, together with your application for admission.
monash.edu/graduate-research/future-students/apply

EXTERNAL SCHOLARSHIPS

Australia Awards
Australia Awards are prestigious international scholarships funded by the Australian government, and aim to contribute to the long-term development needs of Australia’s partner countries. Monash offers a range of courses for the next generation of global leaders. To find out more, see the Australia Awards Scholarships information on the Department of Foreign Affairs and Trade website: www.dfat.gov.au

Other external scholarships
Monash has relationships with sponsors from numerous countries worldwide. These scholarships and sponsorships offer a range of benefits to recipients to enable them to study at Monash University.
monash.edu/scholarships

We want as many bright minds as possible to benefit from a Monash education. Click here to learn about our scholarships program.
STUDY GRANTS

At Monash, we’re committed to helping you make change to the world we live in. With International Study Grants valued at up to AUD$10,000, as a credit towards your tuition fees, we’ll help you reach your full potential and achieve your career goals and aspirations.

As an international student applying to study a graduate course at Monash University in Australia, you’ll automatically be assessed for a Monash University International Study Grant offer.

• You’ll need to have a conditional or full offer letter to study at a Monash Australia campus.
• Study Grants are offered at either AUD$5000 or AUD$10,000 (depending on the outcome of your assessment).
• Depending on the offer amount, this is paid in either one or two payments of AUD$5000 per semester (and the value is credited against your tuition fees).
• You must study a minimum 12-credit-point load per semester to maintain your grant.
• You can defer your grant. However, to remain eligible, you must take it up again in the same calendar year it was offered.

Please note that Monash University International Study Grants are limited, so we encourage you to apply early.

AM I ELIGIBLE?

You must first apply for a Monash course. Monash University International Study Grants are awarded based on select eligibility criteria including:

• Study level – new commencing students undertaking graduate degrees are eligible.
• Academic criteria – you must meet our academic entry requirements and have a conditional or full offer letter to study at a Monash Australia campus.
• Citizenship – Monash is committed to providing equitable access to education from under-represented regions and countries. We’re also dedicated to building a diverse student body cohort across our course offering.

For further information, visit monash.edu/study/fees-scholarships/international-study-grants

1 Study grants are offered at the discretion of Monash University Australia. Grants are limited.
2 The amounts, eligibility and conditions specified here are for international students commencing study in 2021. Amounts, eligibility and conditions for entry in 2022 may differ.
3 Please note that these Study Grants are not available for TNE or sponsored students. Some courses may be excluded. Please contact the university to find out more.
4 International Study Grants are offered according to set terms and conditions which are outlined in the grant offer letter.
ENTRY REQUIREMENTS

When you apply to Monash University for a graduate degree by coursework, you must satisfy all of the following requirements:

1. Minimum age requirements
   You must be at least 17 years of age to enrol in a Monash University course. Some exemptions may apply. For further information, visit monash.edu/admissions/age-requirements

2. Academic and additional entry requirements
   All Monash graduate courses require you to have successfully completed a minimum of an Australian bachelor degree (or equivalent) and satisfy the academic entry requirements. Some graduate courses may also have additional and/or special requirements. Refer to the course specific pages to locate these requirements.

3. English entry requirements
   All Monash University graduate courses require you to satisfy English entry requirements. Different English entry requirements apply to graduate courses, as outlined in this guide.

   English entry requirements can be met in one of the following ways:

   Language of instruction
   You can meet the English entry requirements if you’ve completed a minimum of four years of full-time study (equivalent to 48 Monash-credit points) in one of the following qualifications:
   - an Australian bachelor’s degree (or equivalent) that must be taken full-time study (equivalent to 48 Monash-credit points) in one of the educational institutions, by satisfactorily completing one year of communication and assessment for all aspects of study for the whole course.
   - an Australian VET diploma level (or equivalent) that must be taken full-time study (equivalent to 48 Monash-credit points) in one of the following qualifications:
     - Academic IELTS (International English Language Testing System): www.ielts.org
     - Internet/Paper-Based TOEFL (American Test of English as a Foreign Language): www.ets.org
     - Pearson Test of English (Academic): www.pearsonpte.com
     - Cambridge Certificate in Advanced English (CAE) and Cambridge Certificate of Proficiency in English (CPE): www.cambridgeenglish.org

   Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements.

   For more information regarding English entry requirements, refer to the Admission to Coursework Courses and Units of Study Procedures available at monash.edu/admissions-coursework-procedures

   Please note that all entry requirements for Monash University are subject to change.

FEES

We’re committed to providing you with an ever-evolving, modern, student experience where you can take charge of your studies while being guided by highly qualified educators who are informed by, and engaged with, industry and the community.

We’re investing in innovative learning environments to deliver collaborative, contemporary and flexible learning opportunities. We embrace the opportunities offered by technology and innovation, and embed them in our teaching, in order to prepare you for any career you pursue, including those that aren’t yet created.

Our blended learning environment – physical, digital and virtual – prepares you for the workplace, and makes your time at Monash both satisfying and transformative. This underlines our philosophy that the Monash experience extends far beyond university.

In setting our fees, we take into account various factors, including the Consumer Price Index, teaching costs, market trends, demand for expertise, and competitor pricing. We acknowledge that gaining an internationally recognised qualification comes at a cost, but we ensure that the price of our degree programs mirror the true cost of delivering a premium educational experience where you’ll learn from some of the finest minds in the world.

Tuition fees

To study at Monash University, you’ll need to pay tuition fees to the University. As an international student, you’ll be charged full fees. Tuition fees vary depending on the course and the year of commencement. All tuition fees and course durations specified in this guide are in Australian dollars and only apply to courses studied at Australian campuses. The tuition fees quoted are for 48 credit points and are applicable to courses commencing in 2021. Tuition fees for courses commencing in 2022 will be different.

Monash University reserves the right to adjust the annual tuition fees in future years of your course. Any adjustment will be applied on the first day of January each year for teaching periods with a census date thereafter.

Overseas Student Health Cover (OSHC)

It’s a condition of the Student Visa (subclass 500) that you must hold Overseas Student Health Cover (OSHC) for the duration of your stay in Australia. Monash University requires all commencing international students to purchase OSHC for the duration of their visa. If you’re accompanied by immediate family to Australia as dependants on your student visa, you’ll also need to purchase the visa-length OSHC for them.

Your Confirmation of Enrolment (CoE), for student visa purposes, will only be issued:
   - once you’ve accepted your course offer along with payment for OSHC;
   - provided proof of having a valid visa-length OSHC; or
   - you’ve submitted approved documentation for exemption from payment of OSHC; or
   - nominated for Monash to purchase OSHC on your behalf with Monash’s preferred OSHC provider.

**Monash English Bridging (MEB) entry requirements – for Monash University courses**

If your English proficiency test does not meet the Monash University course’s English requirements for direct entry, Monash University English Language Centre offers MEB. Upon successful completion of MEB, students will have met the Monash University English entry requirements. Some graduate courses, however, don’t accept MEB. MEB entry requirements are as follows:

<table>
<thead>
<tr>
<th>Monash English level</th>
<th>Weeks</th>
<th>Academic IELTS</th>
<th>Internet-Based TOEFL</th>
<th>Pearson Test of English (Academic)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Level A</td>
<td>15 weeks</td>
<td>6.5 (no band less than 6.0)</td>
<td>79 (W20, S18, L12 &amp; R13)</td>
<td>94 (W24, S23, L24 &amp; R10)</td>
</tr>
<tr>
<td>Level B</td>
<td>10 weeks</td>
<td>6.5 (no band less than 6.0)</td>
<td>94 (W24, S23, L24 &amp; R10)</td>
<td>65 (W58, S65, L65 &amp; R58)</td>
</tr>
</tbody>
</table>

Monash English Bridging* (MEB) – a course designed to prepare you for the English and academic expectations of graduate study at Monash. The course is only available to students who’ve met the academic requirements for their graduate course but have narrowly missed the English language requirements. Duration of the course is dependent on your current level of English proficiency. When you receive your offer, you’ll receive a packaged offer for 10, 15 or 20 weeks, aligning to the intake of the University semester.

**HELPING YOU GET INTO MONASH**

To succeed at Monash, you’ll need excellent English language skills.

At Monash College, we’re dedicated to preparing students for success at Monash University. By completing an English course at Monash, you’ll gain fluency in English, and confidence in the academic skills required at Monash at a graduate level.

We offer three tailored English language programs designed to meet the specific requirements of the Monash course you’re aiming to enter. When you apply, we’ll assess your current skills and place you in the best program for your level and destination course.

**English language courses**

- **Monash English (ME)** – a course with flexible duration designed to build on your current English proficiency and prepare you for entry into Foundation Year, Monash English Bridging or your preferred graduate degree.
- **Monash English Bridging* (MEB)** – a course designed to prepare you for the English and academic expectations of graduate study at Monash. The course is only available to students who’ve met the academic requirements for their graduate course but have narrowly missed the English language requirements. Duration of the course is dependent on your current level of English proficiency. When you receive your offer, you’ll receive a packaged offer for 10, 15 or 20 weeks, aligning to the intake of the University semester.

**Introductory Academic Program (IAP)** – a five-week course focused on further enhancing the study skills required for success at Monash. To be eligible, you must receive a full offer to study at Monash University.

The benefits of English preparation at Monash

1. Be confident in the Monash teaching and learning style before you commence your degree.
2. Benefit from our student-centric teaching style, giving you access to your tutors for immediate and personalised feedback.
3. Be better-prepared for your Monash studies by learning academic skills essential to all degrees such as:
   - how to write essays and academic reports
   - how to reference your sources
   - how to deliver presentations.
4. Study alongside like-minded students who have the same goal as you – to study at one of the world’s top universities.
5. Live in Melbourne while you study, and immerse yourself in the culture and lifestyle. You’ll improve your academic English by attending class, and your general English by practising during everyday life.
APPLICATION PROCESS FOR INTERNATIONAL STUDENTS

BEFORE YOU APPLY

Use monash.edu/study to check:
- the international entry requirements
- additional entry requirements – for example, details of relevant work experience
- special course requirements
- fees
- closing dates
- when courses start.

When should you apply?
As early as possible. Some courses may close a few months or a year before the start of the course, while others have quotas. Aim to have your online application submitted as early as possible. This allows time for your application to be processed and can help to ensure that you secure a place if your preferred course has limited places. Applying early also gives you time to get your student visa, which can take up to six months for some nationalities and countries.

Defer your studies
If you decide to delay your course commencement date, you have the option to apply to defer your studies. Monash generally allows deferment of study up to a maximum of twelve months, or longer in exceptional circumstances. You can send your deferment request to mu.documents@monash.edu.

Other deferral guidelines apply; refer to: monash.edu/study/how-to-apply/after-you-apply/defer-or-change-your-course

HOW TO APPLY

STEP 1
Apply
All students must apply for a Monash University course online. Please refer to the following website for a step-by-step guide: monash.edu/admissions/apply/online

With your online application, please provide your academic documentation, including academic transcripts, graduation certificate and grading scales (indicating the pass mark and grading requirements if applicable). Alternatively, if you are not yet to complete your qualification or haven’t received your final academic documents, please provide your current transcript and indicate the qualification you are studying in your Monash application, and we may be able to make you a conditional offer. If you’re applying for a course that has additional requirements, please also provide the necessary documentation with your online application.

You’ll be required to provide original or certified academic documentation for other supporting documentation upon request. For further information on certifying documents, visit monash.edu/study/how-to-apply/international-student-applications/certifying-documents

Need help with your application?
Contact us:
monash.edu/study/how-to-apply/enquiries/general-international-enquiry
+61 39903 4788
Chat with Monash
If you’re applying through a Monash agent, please contact them for assistance. Some agents may charge a fee for additional services, so please ask what these costs are before you make an appointment. Please ensure that your agent is an authorized agent by visiting monash.edu/study/how-to-apply/international-student-applications/agents-database

STEP 2
Your application is assessed
When your application is received, Monash University will assess your application according to University entry requirements.

Monash University is obliged to check that you’re genuinely seeking temporary entry to Australia to study. If the University forms the opinion that you’re not a Genuine Temporary Entrant (GTE), it may refuse to accept your application or withdraw an offer of a place, or cancel your confirmation of enrolment.

If your application is successful, you’ll receive a full offer in the form of an International Student Course Agreement (ISCA). Instructions will be supplied on how to accept your offer, including the fees and Overseas Student Health Cover (OSHC) you need to pay.

If we’re not able to make you a full offer immediately, you may receive a conditional offer. A conditional offer means you must submit more information and meet the requirements specified in the ISCA. Usually, the information we need is documentation (for example, official final transcript, graduation certificate or an English proficiency test) to see if you meet the specific entry requirements for the course you’ve applied for. We’ll explain what’s needed in the ISCA. Please submit the documentation to us as soon as possible, or contact us if you need any help.

If you’re not successful for your first preference, your application will be considered for your next preference.

STEP 3
Accepting your offer
To accept your offer, you need to follow the instructions in your ISCA.

You must complete, sign and return Part A of your ISCA, along with payment and a photocopy of the personal details page of your passport to Central Admissions, before the offer lapse date. Your payment should include OSHC, as specified in your ISCA, for the duration of your visa for yourself and any family members accompanying you to Australia.

When making payment it should be noted that:
- Monash University doesn’t accept cash
- dishonoured bank drafts may incur additional bank fees, and
- you may need to notify your bank of large deductions on your account.

Bank drafts will need to be mailed to Central Admissions. Please ensure you include your full name and Monash student ID on the back of the bank draft.

STEP 4
We send you a Confirmation of Enrolment (CoE) and enrolment package
Once you accept your full ISCA or packaged ISCA (with no academic conditions specified), you’ll receive a CoE and an invitation to set up your electronic Monash account and enrol online in units of study.

You’ll need the CoE to apply for a student visa. See below information on how to arrange your student visa.

You need to plan your course and enrol early so that you can get the best possible start. Information about enrolment process and course-specific enrolment and arrival dates are available at monash.edu/get-started

Following this, you’ll receive:
- your welcome letter, and
- Destination Monash – your complete guide to living in Australia and studying at Monash University, and
- a series of emails with useful information and resources to help with your transition to Monash.

STEP 5
Arrange your student visa
The Department of Home Affairs (DHA) is responsible for issuing visas for entry to Australia. In general, as an international student you’ll need a student visa to study at Monash, and under a student visa, you may only enrol in a Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) registered course.

You’re advised not to commence the visa application process until you’ve been issued with your CoE. You must keep in mind that your student visa application may take up to six months or more, depending on your nationality and country of residence. When applying for a student visa, you’ll need to meet all core visa criteria, such as the GTE requirement, good character and health criteria. Financial capacity and English language proficiency documentation may also be required.

Further information can be located at:
- monash.edu/study/how-to-apply/international-student-applications/visa-requirements
- monash.edu/connect/student-visa

STEP 6
Register your arrival and attend orientation
Make your own travel arrangements, aiming to arrive in Melbourne at least two weeks before orientation. Orientation activities at Monash University happen before the semester starts and are designed to help you settle in. Some orientation activities focus on providing more information about your studies, while other activities are designed to help you meet new people and become familiar with our amazing campuses. Use the orientation ePlanner to create a personalised orientation plan. Visit orientation.monash

If you wish to use our airport reception service, you need to complete and return the request form available at monash.edu/study/book-your-airport-reception

If you require help with arranging accommodation, visit monash.edu/study/student-life/accommodation
The information in this brochure was correct at the time of publication (June 2021). Monash University reserves the right to alter this information should the need arise. You should always check with the relevant faculty office when considering a course. Produced by Strategic Marketing and Communications, Monash University.
