It’s hard to imagine a time when the need to make positive change has been greater than now.

At Monash, we see challenges as opportunities to make things better. We know we have to play our part in solving the problems facing the world. That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.

You, too, have the opportunity to step up and make a difference.

Whether you want to change your life, your career, your community or the world, your journey starts at Monash.

**IF YOU DON’T LIKE IT, CHANGE IT.**

Are you ready?

[CLICK TO WATCH.](#)
With a presence on three continents, partnerships and study abroad programs around the world, Monash is truly international. Our global reach gives you access to more research collaborations, more global partnerships, and a greater choice of overseas opportunities.
CLOSER TO HOME

As a student at Monash University Malaysia, you’ll experience the best of both worlds with outstanding education in a supported, flexible and culturally-rich environment.

Access the same resources and global connections as your peers in Australia.

Graduate with a prestigious Monash University degree recognised by the Ministry of Higher Education Malaysia and quality assured by Monash University Australia and the Australian Tertiary Education Quality and Standards Agency.

Enjoy significantly lower tuition and living expenses than you would studying and living in Australia, the US or UK.

Immerse yourself in a multicultural student population in a dynamic, cosmopolitan and moderate Muslim environment.

Be in proximity to countries in the Indian subcontinent and Asian regions.

UNDERGRADUATE PROSPECTUS 2022
LEARN WITH MONASH, WHEREVER YOU ARE

At Monash we offer a mix of both in-person and online learning.

Online learning at Monash can look different depending on what course and units are studied. For example, in some units, you'll be listening to livestreams of lectures, and attending virtual tutorials via Zoom; in others you'll be watching practicals recorded by our lecturers and teachers.

We want you to get the most out of your education experience. To achieve this, we use a variety of tools and platforms to support and enable online learning.

**Moodle**
Moodle is an essential go-to point for:
- Course content
- Reading lists
- Assessment and study requirements
- Assignment uploads
- Discussion forums
- Contact information for tutors and lecturers.

**Echo360 and Panopto**
You may use Echo360 to watch lecture recordings or Panopto to upload video assignments.

**Zoom**
Zoom is a technology used to facilitate meetings and online classes. These platforms and tools are the main systems in use by Monash to support day-to-day online learning, and are easy to use with plenty of support available to ensure you have access at all times.

**What if I can't come to campus?**
We also offer online learning if you’re unable to attend on-campus due to current travel restrictions. While travel restrictions are in place you can commence and continue your studies fully supported by our education technologies and academic staff. Once you’re able to travel, you can transition to on-campus programs.
GET AHEAD

From day one, a Monash education sets you on the path to future career success. Our programs and platforms offer work-integrated learning experiences and engagement with industry. You’ll develop an enterprising mindset, hone your employability skills, and gain a competitive edge in the graduate employment market.

SOME OF OUR NOTABLE ALUMNI

**Professor Emeritus Dato’ Dr Khalid Abdul Kadir** spearheaded landmark studies in diabetes and endocrinology, paving the way for new treatments and national strategies to combat the disease. He was the recipient of the Merdeka Award in 2008, National Science Award Malaysia in 1997 and the Tun Abdul Razak Research Award in 1986.

**Tricia Yeoh** is the CEO of IDEAS, an independent public policy think tank. She formerly served as Research Officer to the Chief Minister of Selangor and as the Director of the ASLI Centre for Public Policy Studies. She was conferred the Meritorious Service Medal by the Sultan of Selangor in 2011.

**Joel Neoh** is the founder of Groupon Malaysia and Fave. He was recognised with the Malaysian Service Medal by the Prime Minister in 2013 and named one of Asia’s Top 10 entrepreneurs and Young Global Leader by the World Economic Forum.

**Safaath Ahmed Zahir** is a leading women’s rights activist in Maldives. She is the founder of Women and Democracy and co-founder of Women on Boards. She was named one of Forbes’ 30 Under 30 in Asia and recognised by the United Nations for her work. She received the Queen’s Young Leaders Award in 2016.

**Kimberly Wan** is a figure skater and national ice hockey player. She is the Malaysia Book of Records holder for the ‘Youngest female to achieve the highest skating level’ and the first Malaysian linesman to officiate the IIHF Women’s Challenge Cup of Asia tournament. She is also the co-founder and CEO of Otomate Me.

Gain **hands-on experience** through clinical placements, fieldwork, study tours, placements, or internships that are built into your studies.

Get **professional support** from our career experts.

Stay connected after you graduate with lifelong access to our alumni programs and career-related events.

**Monash job portals.**

Develop your **employability and leadership skills** with Leap into Leadership Online modules.

Show employers that you have what they’re looking for with our award-winning Student Futures platform.

Access **local and international work opportunities** through Monash job portals.

Receive **career advice and insights** from experienced alumni.

## SCHOLARSHIPS TO UNLOCK YOUR TALENT

At Monash, we believe in unlocking your potential to make a difference in the world.

*All scholarships listed here apply only for study at Monash University Malaysia, unless stated otherwise.*

### MONASH HIGH ACHIEVER AWARD

- **For new students**
  - Completed an Australian Year 12 qualification or an international senior secondary qualification accepted by the University with an outstanding Australian Tertiary Admissions Rank (ATAR) or equivalent, as deemed by the University.
  - Met the minimum academic results of:
    - AUSMAT ≥ ATAR 98
    - GCE Advanced Level ≥ 3 As
    - CIMP ≥ 95%
    - MUFY ≥ 89%
    - IB ≥ 38
    - SMA-3 Indonesia ≥ 9.5/GPA 3.66
    - AISSC India ≥ 90%
    - ISC ≥ 85%
    - UEC ≥ 6 As
    - STPM ≥ 11 points
    - Senior SSC/State Board ≥ 95%
    - Monash College Diploma Part 2* ≥ WAM 80.
  - Applicants who’ve already commenced tertiary studies or are transferring with credit exemptions and/or advanced standing aren’t eligible to apply. *From Jakarta International College and University College Lanka.*
  - **Benefits**: RM5000 per semester, subject to maintaining satisfactory academic progress.
  - **Availability**: All undergraduate courses except the Bachelor of Medical Science and Doctor of Medicine, and Bachelor of Pharmacy (Honours).

- **For continuing students**
  - Candidates are nominated by their schools based on their outstanding academic achievements (top 1% of the current undergraduate population of the school). Nominees must have completed one year of study (equivalent to two continuous semesters with a minimum of 48 credit points) at Monash University Malaysia without failing any units and having achieved an average score of 80% or more.
  - **Benefits**: RM5000 per semester, subject to maintaining satisfactory academic progress.
  - **Availability**: All undergraduate courses except the Bachelor of Medical Science and Doctor of Medicine, and Bachelor of Pharmacy (Honours).

### JEFFREY CHEAH FOUNDATION – MONASH EQUITY SCHOLARSHIPS

- **Eligibility**: Met the minimum admission requirements for the course. Available only for Malaysian citizens and permanent residents.
  - **Benefits**: 100% tuition fee and associated fees waiver, a one-off laptop allowance of RM2000, plus a stipend of either:
    - RM700/month and single accommodation at Sunway Monash Residence, or
    - RM1300/month if no accommodation is required at Sunway Monash Residence.
  - **OR**
    - 50-100% tuition fee waiver and a one-off laptop allowance of RM2000.
  - **Availability**: All undergraduate courses except the Bachelor of Medical Science and Doctor of Medicine, and Bachelor of Pharmacy (Honours).
  - Supports financially deserving students.

</table>
| **SIBLING DISCOUNTS**                    | All undergraduate courses except honours degrees.                             | • All siblings must be enrolled concurrently in at least a standard (full) study load of 24 credit points (typically four units) in the semester in a full-fee-paying undergraduate course.  
• The sibling paying the higher tuition fee will be eligible for a 10% semester tuition fee waiver. A sibling enrolled in the Bachelor of Medical Science and Doctor of Medicine or Bachelor of Pharmacy (Honours) course will be eligible for a maximum waiver of RM5000 per annum (RM2500 per semester).  
• If one sibling is a recipient of the Monash High Achiever Award for new/continuing students in the same semester, his/her sibling(s) are eligible for a 10% semester tuition fee waiver, provided all other criteria of the scheme are met.  
• Students who obtain other external scholarships or financial assistance (except PTPTN Loan) at any point of their studies won’t be eligible for the scheme. The sibling without any other scholarships or financial assistance (except PTPTN Loan) is eligible to apply for the sibling discount.  
• If a student discontinues or intermits from the course, the scheme will no longer be applicable. |  |
| **GRADUATE RESEARCH PATHWAY SCHOLARSHIP** | All honours degree courses.                                                   | Distinction average in prior study from a recognised university, and met all other entry requirements. Selection is based on academic achievement for each discipline. | 100% or partial tuition fee waiver. |

The availability of scholarships and financial assistance are subject to terms and conditions, which may be reviewed by the University from time to time. All scholarships are mutually exclusive and can’t be combined. Students with other external scholarships or financial assistance (except PTPTN Loan) will not be eligible. Please visit monash.edu.my/scholarships for more details, including application deadlines, or to make an appointment with our Scholarships and Study Loan Office.
MALAYSIA

Malaysia is a wonderfully unique country that has captivated generations with its natural beauty, cultural diversity and the warmth of its people. It’s a great destination for learning and adventure.

Located in the economic pulse of Southeast Asia, Malaysia is the leading tourist and commercial destination in Asia. It’s politically stable, geographically safe and has a warm tropical climate. And with a diverse population of various ethnicities, cultures and backgrounds, Malaysia offers no shortage of flavoursome cuisine, vibrant festivals and heritage traditions. You’ll always have places to go, people to meet and treasures to discover.

Studying in Sunway
Sunway City is a friendly and safe township where you’ll have everything you need within reach. Eateries, hotels, banks, a medical center, a shopping mall, and even a water theme park are all easily accessed using a monitored elevated pedestrian walkway or public transport.

Want to go farther? From Sunway City, you’re less than an hour away by train to the Kuala Lumpur city centre where you can visit iconic landmarks and attractions such as the Petronas Twin Towers, Central Market, Islamic Arts Museum, KL Bird Park and more.

Cost of living
Before you begin your studies at Monash, it’s a good idea to plan and prepare a budget. Below are some costs associated with living and studying in Malaysia, and should be used as an approximate guide. These figures (in Malaysian Ringgit) are estimates only, and may vary depending on your personal lifestyle choices. Generally, Malaysia is an affordable country.

- Accommodation: RM330 to RM1500 per month
- Phone and internet: RM30 to RM80 per month
- Groceries: RM50 to RM80 per trip
- Eating out: RM6 to RM50 per meal
- Clothing: From RM30
- Entertainment: From RM12 per event

monash.edu.my/living-costs
Getting to Monash
Our campus in Sunway is well connected with great transport links. Whether you choose to drive or take public transport, getting to uni is incredibly easy.

**Operation hours**
Monday to Saturday: 7.00am to 10.15pm
Sunday: 9.00am to 10.15pm

- Pyramid Tower Hotel
  (Sunway Pyramid and Sunway Lagoon)
- Sunway Resort Hotel & Spa
- Sunway Metro (bus stop)
- Sunway Lagoon BRT Station
- Sunway Geo Residences
- Bay Rocks
- A Marine/Nautica
- La Costa
- Monash Residence
- Sun-U Monash BRT Station
- Sun-U Residence
- Sunway Medical
- Lagoon Club (bus stop)

**WITHIN SUNWAY CITY**
Take the BRT electric bus service to key locations within Sunway City, or opt for the free shuttle bus service that runs every hour.
A VIBRANT STUDENT LIFE

Live your life to the fullest at Monash. When you’re on campus, immerse yourself in the exciting events and opportunities available all year round to create memories and connections that’ll last a lifetime. Here’s a glimpse of what you can do.

CELEBRATE DIVERSITY

Having a diverse student population on campus means coming together to celebrate various cultures and festivals around the world. Don’t miss events such as the One World Festival and Cultural Night.

REPRESENT YOUR PEERS

Run by reps elected by the student body, the Monash University Student Association is responsible for supporting and protecting the interests of fellow students.

LEARN SOMETHING NEW

Engage with high-profile thinkers, leaders, policymakers, academics and experts on a wide variety of topics at events such as the Sir John Monash Lectures and more.

CHECK OUT THE BAZAARS

Fill up on delicious local dishes and delicacies at food bazaars or get yourself a bargain at flea markets organised by various clubs and societies.

JOIN A STUDENT CLUB (OR TWO... OR THREE)

Choose from around 60 student-run clubs and societies to meet like-minded friends or try something new. If you can’t find a club that you like, we can help you start a new one.

STAY ACTIVE

No matter your level of fitness or commitment, we’ve got you. The Monash Sports Centre offers an open field and courts for badminton, futsal, basketball, handball and more. You’ll also find a gym and a rock climbing wall.

GO FOR GOLD

The Monash Cup is an annual multi-sports event where four houses compete in about 20 sporting games and activities ranging from badminton, chess to cheer.

SIGN UP FOR WORKSHOPS AND COMPETITIONS

Gain even more learning opportunities by attending workshops and challenges organised by schools, clubs and industry partners. This is a great way to build on the skills you’ve learnt in the classroom.

SEE THE WORLD

When you choose to study overseas, it’s more than your surroundings that change – you’ll experience new cultures and enhance your global perspective. Take the leap and broaden your mind.

International exchange
Choose from more than 140 partner universities around the world, and graduate with a degree that’s studied in different continents — all while paying your regular course fees to Monash University Malaysia.

Try Australia
Because you’re already a Monash student, studying at our Australian campuses is the easiest way to see the world. The Global Intercampus Program lets you spend a semester in Melbourne with no added costs to your regular course fees.

Go on an Italian adventure
Spend two to eight weeks at the Monash Prato Centre in Italy, one of our most popular faculty overseas program destinations. This is ideal if you want a taste of adventure before deciding if you’re ready to go abroad for a full semester.

Seize the day
Use your semester breaks to go on short study tours overseas, typically around two to four weeks, at selected partner universities.

Go global
Build a professional network while you’re still studying. Our Global Discovery Program taps into the expertise of some of our brightest alumni — students have previously travelled to cities such as London and New York. monash.edu/global-discovery

Unique research opportunities
Work with world-renowned professors on cutting-edge research projects and experience life in a leading research laboratory overseas.

CLICK TO LEARN MORE.
WE’LL SUPPORT YOU

Academia may be a major part of your student life but we recognise what happens around you can matter just as much. From providing general guidance to specialised support, we are here to help you make the most out of your university experience.

**Campus security**
Our security team works round the clock to ensure a safe and secure campus environment.
monash.edu.my/security

**Library and Learning Commons**
Find the latest resources for your learning and research needs, or sign up for workshops to develop your study skills.
monash.edu.my/library

**Research and learning**
Our Learning Skill Advisers can help you improve your academic performance and study approaches.
monash.edu.my/learning-skills

**Counselling services**
Our counsellors are here to help you through difficulties, dilemmas or anxieties. No issue is too big or too small.
monash.edu.my/wellness

**Religious facilities**
There are many places of worship within Sunway City including mosques, temples, churches and other religious centres. At Monash, there’s a Muslim prayer room and a multi-faith centre.
monash.edu.my/religious-facilities

**Health and wellness**
A registered nurse is on campus to treat minor illnesses and injuries. For serious medical treatment, the Sunway Medical Centre is minutes away.
monash.edu.my/wellness

**Disability support services**
If you have a disability, medical or mental health condition, you can access specialised support services from assistive technology to alternative assessment arrangements.
monash.edu.my/disability

**Airport pick-up**
We welcome all new international students with a free airport pick-up service to take you to your accommodation.
monash.edu.my/airport-arrival

**International student advisers**
Moving to a new country can be difficult. Our student advisers can assist you with accommodation, medical insurance, places to eat and other general support to help you settle in.
monash.edu.my/international-students
BE AT HOME

Start with a short stroll to class before lunch. Stay at the library until closing time. The gym, sports fields and even restaurants – they’re all on your doorstep if you live on campus.

SECOND YEAR MONASH MALAYSIA* • Arts and Social Sciences • Business • Information Technology • Science • Engineering*

---

1. Progression to Diploma of Higher Education Studies subject to approval.
2. Subject to meeting Monash University entry requirements and subject prerequisites.
4. Available only for Monash College Diploma Part 2 students.
DIPLOMA OF HIGHER EDUCATION STUDIES

You can still study for an undergraduate course through an alternative pathway if your pre-university/Year 12/equivalent scores fall below the normal entry requirements. Upon successful completion of this course, you may be eligible to transfer into the second year of the following Monash degrees:

**Arts and Social Sciences**
- Bachelor of Arts and Social Sciences
- Bachelor of Digital Media and Communication.

**Business**
- Bachelor of Business and Commerce.

**Information Technology**
- Bachelor of Computer Science
- Bachelor in Computer Science in Data Science.

**Science**
- Bachelor of Science
- Bachelor of Food Science and Technology
- Bachelor of Medical Bioscience.

**At a glance**
- **Duration:** 1 year (full-time)
- **Intakes:** February, July and October
- **Fees:**
  - Malaysian student:
    - RM34,821 (non-science stream)
    - RM39,326 (science stream)
  - International student:
    - RM39,061 (non-science stream)
    - RM43,990 (science stream)

**Benefits**
- Pathway to undergraduate degrees in arts, business, computer science and science
- Develop important academic literacy skills such as strategic and critical reading in higher education, sound academic writing competencies, and insight into the world of academic research
- Transition successfully to a Monash degree through a gradual and supportive approach to university learning
- Acquire lifelong learning skills.

**Academic literacies development**
This course is designed with units to help you adapt to important academic and research skills. You’ll be taught academic reading, writing and research competencies through two compulsory units: Learning in Higher Education and Academic Literacies.

Choose the stream you’d like to study

Successfully complete your studies

Progress to the second year of the corresponding Monash degree

GENERAL STUDIES

General Studies units equip you with knowledge and soft skills such as philosophy, arts and communication to encourage intellectual, balanced and holistic development. General Studies comprises units from four broad categories:

- **MPU U1:** Appreciation of philosophy, values and history
- **MPU U2:** Mastery of soft skills
- **MPU U3:** Broadening of knowledge in Malaysia
- **MPU U4:** Practical management of community project.

All international and Malaysian undergraduate students enrolled at Monash University Malaysia are required to complete and pass General Studies, as prescribed by the Ministry of Higher Education Malaysia and the Malaysian Qualifications Agency. This is a prerequisite for the award of an undergraduate degree.

monash.edu.my/general-studies

---

I learnt so much in the first semester itself. My lecturers are really helpful and the course provides me with an important range of knowledge that will be useful when I undertake my undergraduate degree. I’m excited for what’s to come over the next few years at Monash.”

KANIZ ALAM
Diploma of Higher Education Studies

---

1 Pass each unit in the diploma on the first (and only) attempt and achieve the minimum average mark required for the destination course. Students are required to meet a minimum weighted average mark (WAM) 50 to qualify for progression to the Arts and Social Sciences, Business and Science courses and WAM 60 for Information Technology.
IMPROVE YOUR ENGLISH

If you’ve met our academic requirements but narrowly missed the English language requirements, Monash English Bridging is for you. This 20-week course prepares you for the English language and academic expectations of Monash, giving you the skills needed to succeed in your studies.

Monash English Bridging was a great start to my university life. It helped prepare me for university and gave me time to adapt to the environment and learn more about the cultures around me.”

RAZAN WALEED ZAHER ABDELATI (center)
Egypt

At a glance
- Duration: 20 weeks
- Intakes: February and August
- Fees: RM9991 Malaysian student  RM10,185 International student

FIRST 10 WEEKS
Four hours a day with a total of 20 hours a week.

SUBSEQUENT 10 WEEKS
Four hours a day with a total of 20 hours a week.

20 WEEKS
Total of 400 hours.

What will you gain from this course?
- Be better prepared to meet the English standards required for pursuing a Monash University degree.
- Gain confidence in academic skills from the improvement of English proficiency.
- Expand social skills and be part of an international community.
- Study with like-minded students with similar destination courses.
- Feel more supported through a personalised learning plan and the ability to track your own progress via the Learning Management System.

What skills will you develop?
- Communicate effectively in social conversations, academic discussions and presentations.
- Improve your grammar, vocabulary and pronunciation.
- Improve your writing, reading and listening skills.
- Understand, apply and explain theories in your degree program.
- Write summaries and short reports in an academic style.
- Understand and apply academic integrity.
- Learn how to respond to feedback.
- Become an independent learner.

AT A GLANCE

WORK INTEGRATED LEARNING UNITS
Gain industry exposure and internship opportunities that will equip you with the necessary leadership, communication, problem-solving and critical-thinking skills to transition smoothly to the working world.

ALTERNATIVE FILM SCREENINGS
Enjoy challenging films produced by independent filmmakers, and meet some of these storytellers whose critical storylines reflect themes from your course.

STUDY TRIPS
Explore cultural, economic, social and political environments, issues and policies in Malaysia and across countries within the Asia-Pacific region.

JOB MARKET VERSATILITY
Our flexible degrees, which combines breadth with depth, will give you the kind of versatility valued by employers. You’ll be able to compete in a variety of jobs and industries, including those typically populated by graduates from other disciplines.

CLICK TO VIEW THE COURSE GUIDE.
monash.edu.my/sass

My time at Monash definitely helped me develop a cosmopolitan outlook, in part due to the breadth of topics and issues I was exposed to, and also because of the international exposure it accorded me in terms of travel opportunities and meeting people from different parts of the world. This was extremely useful to me when living and working abroad.”

HELEN SNEHA JAMBUNATHAN
Bachelor of Arts and Social Sciences
Bachelor of Arts (Honours)
Associate Insight Director at Canvas8, London
Learn to think critically, apply reason and solve complex problems.

This course exposes you to important skills that can be transferred to your future workplace. You’ll hone your capabilities to access reliable sources of information and to critically evaluate important facts, opinions and key debates, which you’ll then communicate through critical writing.

You’ll develop awareness of important issues in areas such as gender and sexuality, politics, contemporary global challenges, new developments in media and communication practices, and more.

Areas of study
- **Communication** – critically analyse media industries and the links between politics, culture and communication.
- **Film, television and screen studies** – study historical, textual and critical approaches to film and television, and related new screen technologies.
- **Gender studies** – uncover gender biases and other discriminatory practices in this homegrown major with a dedicated focus on Asia.
- **Global studies** – explore the global political, economic, social and cultural developments that continue to shape our world.
- **Psychology** – understand human cognition and behaviour with this broad scientific discipline.
- **Public relations (minor)** – master tactical communication skills to build strategic relationships and manage the reputation of organisations.
- **Writing (minor)** – discover a range of contemporary writing, techniques and experiments.

During your studies, you’ll complete at least one credit-bearing Work Integrated Learning unit. These units teach you how to apply the academic knowledge you’ve learned to real-world, practical situations and allow you to experience the kind of work environments and tasks you’re likely to encounter when you enter the workforce.

**Task Force: Responding to global challenges**
You’ll work under guidance in multi-disciplinary project teams, or task forces, to produce policy recommendations or other relevant output to address issues and problems of contemporary relevance.

**A world in crisis: Multilevel responses to global emergencies**
Put your research, negotiation and problem-solving skills to the test in a fast-paced international crisis simulation. You’ll use your team’s knowledge of global politics and the media to manage the crisis and achieve your objectives.

**Workplace learning internship**
Integrate academic knowledge with practice to gain first-hand experience of working in the industry. Our students have interned with a variety of companies and organisations, both in Malaysia and abroad.
**BACHELOR OF DIGITAL MEDIA AND COMMUNICATION**

KPT/JPT (R2/220/6/0012) 01/25 - MQA/SWA0104

**Course structure**
The course develops through three themes:
- **A core digital media studies component** provides you with a firm grasp of digital communication practice and research. You'll learn about the history of the internet and the workings of social media platforms, how to construct and analyse digital objects such as memes, and how to design and execute a digital media research project.
- **A component that provides a broader grounding in communication and media studies** will teach you the key concepts and developments in media studies. This ensures that you'll graduate with knowledge of how pre-digital and digital media systems are distinct from one another.
- **A professional practice component** allows you to apply your knowledge of digital and non-digital media systems to real-world situations calling for teamwork, policy design and advanced oral communication skills. You'll also gain valuable work experience by applying for an internship through our extensive network of industry partners.

**Areas of study**
- Communication
- Global studies
- Gender studies
- Film, television and screen studies
- Psychology.

With the increasingly intersectional nature of these categories, there's truly no limit to the topics that you can work on as part of your dissertation.

**Progression to further studies**
The honours degree also prepares you to pursue a research degree such as a Doctor of Philosophy (PhD).

**CAREER PATHS**
This course equips you with a skill set and knowledge that is future-oriented and adaptable to a wide range of industries. You'll be especially suited to senior positions in:
- public relations
- corporate communications
- marketing and advertising
- policy development
- human relations and management
- research
- editing and writing.

**CLICK FOR MORE COURSE DETAILS.**

---

**BACHELOR OF ARTS (HONOURS)**

KPT/JPT (R3/220/6/0018) 12/26 - MQA/SWA0106

**Areas of study**
- Communication
- Global studies
- Gender studies
- Film, television and screen studies
- Psychology.

With the increasingly intersectional nature of these categories, there's truly no limit to the topics that you can work on as part of your dissertation.

**Progression to further studies**
The honours degree also prepares you to pursue a research degree such as a Doctor of Philosophy (PhD).

**CAREER PATHS**
Due to the highly practical nature of this course, there are no shortages of rewarding career opportunities available to you. Our graduates have found careers in:
- academia
- management consulting
- international trade
- human resources
- corporate research and analysis.

**CLICK FOR MORE COURSE DETAILS.**
If you love numbers as I do, you’ll enjoy the challenges in accounting and financial management. Monash prepared me well for the corporate world, and the skills I’ve learnt have been highly applicable and essential to my current job. Monash has taught me so much and the University’s motto Ancora Imparo continues to inspire my continuous learning spirit. I am still learning and will not stop learning.”

VISHAAKUMAR KUMARASAMY
Audit Associate, Ernst & Young LLP Singapore
Bachelor of Business and Commerce
Recipient of the Jeffrey Cheah Foundation – Monash Equity Scholarship
Ranked second ACCA Top Affiliate in Singapore 2021

monash.edu.my/business
BACHELOR OF BUSINESS AND COMMERCE

Understand how the key elements of today’s business environments work together to make a company or organisation successful.

This is a wide-ranging course designed to give you the skills and experiences you’ll need for a career in business. You’ll be able to create a study course that best suits your employment goals and discipline interests, which means you’ll focus on specialised areas of study while building sound knowledge of major business disciplines.

Areas of study
- Accountancy
- Applied economics
- Banking and financial management
- Business analytics
- Business law and taxation
- Econometrics and business statistics
- International business management
- Management
- Strategic marketing.

Professional recognitions
If you’ve completed the required units, you’ll qualify for exam exemptions from:
- CPA Australia
- The Association of Chartered Certified Accountants (ACCA)
- Chartered Accountants Australia and New Zealand (CAANZ)
- The Chartered Institute of Management Accountants (CIMA)
- The Malaysian Institute of Certified Public Accountants (MICPA)
- The Institute of Chartered Accountants in England and Wales (ICAEW).

Industry placement
This degree offers an industry placement unit that you can take either as a capstone or elective unit. You’ll work on approved projects for an organisation, which will allow you to apply academic knowledge to practical work situations. Our students have worked with organisations such as Unilever, Nestlé, L’Oréal, Citibank, Accenture and KPMG.

Double degree
A double degree is a great way to enhance your main degree with a complementary skill set and expand your employability in the workforce. Turn to page 41 to learn more. Only the Bachelor of Business and Commerce is accredited by AACSB.

DID YOU KNOW?
If you graduate with the Professional Accounting Sequence Major in Accountancy, you’ll obtain the maximum possible exemptions from ACCA and CIMA*.  
* Please refer to ACCA and CIMA’s official websites for your exemptions.

BACHELOR OF BUSINESS AND COMMERCE (HONOURS)

This additional one-year course offers advanced study in one of the specialist Business areas.

This course is designed for the high-achieving students in pursuing advanced study in a specialised area of business. Through a rigorous research training, this course develops you as a critical scholar and a specialist in your field of professional interest.

If you plan to pursue a research degree, completing the course with first- or second-class (upper) honours may fast-track you into the Monash Doctoral Program (PhD) without having to first complete a master’s degree by research.

Professional recognitions
If you’ve completed the required units, you’ll qualify for exam exemptions from:
- CPA Australia
- The Association of Chartered Certified Accountants (ACCA)
- Chartered Accountants Australia and New Zealand (CAANZ)
- The Chartered Institute of Management Accountants (CIMA)
- The Malaysian Institute of Certified Public Accountants (MICPA)
- The Institute of Chartered Accountants in England and Wales (ICAEW).

Specialisations
- Accountancy
- Applied economics
- Banking and financial management
- Business analytics
- Business law and taxation
- Econometrics and business statistics
- International business management
- Management
- Strategic marketing

CAREER PATHS
Graduates will have a highly respected qualification that positions them well for employment in multinational corporations, government and non-governmental organisations, and universities. Successfully completing this course will also provide you with the critical foundation necessary to pursue a PhD.
The whole campus experience, from having such a diverse and globalised campus environment to having a solid coursework with great lecturers, prepared me for my career. I had friends and course mates from a wide variety of backgrounds and that helped to give me a global mindset and perspective. The coursework promoted self-learning and encouraged a self-starting attitude together with valuing teamwork and collaboration. All these formed a solid foundation for me to carry into the working world.”

MUHAMMAD HAFIZ RAMLI
Bachelor of Mechanical Engineering (Honours)
Lead Field Service Engineer at GE Aviation, South Korea

Hafiz supports GE Aviation’s GEnx-powered fleet at Korean Air by ensuring that the engines continue to run smoothly and any fleet reliability issues are resolved. He believes that engineers don’t just need to solve problems but have the responsibility to promote environmentally sustainable practices. His goal is to contribute towards that target in the aviation industry for a greener future.
Engineers are collaborative and creative problem-solvers who design technology and develop innovative solutions to make things work better.

Their work is key to meeting the world’s sustainable development goals, including advancing technologies for clean water, green energy, high-speed communications and transportation, advanced healthcare devices, reliable autonomous systems and safe, smart sustainable products, homes and cities, and more. As an engineer, you’ll apply maths and science in a practical way, and work in teams to develop new technologies and improve existing ones.

The Bachelor of Engineering (Honours) has a common first year, allowing you to experience a range of disciplines before deciding on a specialisation in your second year. It focuses on the role of the engineer in the future while developing your foundational skills for engineering.

**A total learning experience**

At Monash, you’ll have access to some of the world’s finest facilities, including the Smart Lab for Engineering Design and laboratories supporting cutting-edge research in micro and nanodevices, intelligent lighting, robotics and more.

You can get involved in the Student Leaders Network, design competitions, volunteering opportunities, or join one of the many student clubs to develop your strengths and passions, and become a well-rounded engineer.

On graduation, you’ll be known for your creative thinking, problem-solving and ability to excel in team-based environments, and be highly sought-after across many industries. As a Monash graduate, you’ll leave prepared for leadership, success and, most importantly, life.

**First Year Course Structure**

**Core units**
- Computing for engineers
- Engineering mathematics
- Engineering design: Lighter, faster, stronger
- Engineering design: Cleaner, safer, smarter
- Engineering mobile apps

**General studies unit**
- Leadership and innovation

**Elective units**
Select two units from:
- Foundation physics
- Foundation mathematics
- Chemistry 1 advanced
- Spatial communication in engineering
- Engineering design C: Automated, integrated and connected world
- Discrete mathematics for computer science
- Physics for engineering
- Computer organisation and programming
- Digital systems
- Introduction to computer science for engineers
- Mechanics of fluids
- Introduction to systems engineering
- Programming fundamentals in java
- Introduction to computer systems, networks and security.

**Professionally accredited**
- Engineering Accreditation Council Malaysia
- Engineers Australia
- Australian Computer Society (Bachelor of Software Engineering (Honours) only).

**INDUSTRY PLACEMENT**

You’ll complete 12 weeks of approved engineering work in an industry-based environment after your third year. This will help you to apply what you’ve learnt to real-life situations, work closely with industry professionals, and enhance the technical and professional skills that will give you an edge in the competitive employment market.

Our students have interned with British Telecommunications, Carrier, ExxonMobil, F&N, Intel, Goodyear, HICOM, IBM, Malaysia Airlines, Shell, Maxis, Dyson, ABB, Gamuda, and more.
BACHELOR OF CHEMICAL ENGINEERING (HONOURS)
KPT/JPT (R2/524/6/0045) 03/27 - MQA/FA4650

Chemical engineers play a leading role in the development of renewable energy technologies and creating more sustainable processes and products.

Many everyday items involve chemical engineering during some stage of their production – electronic devices, food and beverage, petrol, paper, pharmaceuticals, cosmetics, to name just a few.

As a chemical engineer, you’ll invent, develop, design and improve processes that convert raw materials into useful products, with minimal environmental impact. Whether you focus on developing future energy solutions, controlling pollution or protecting our environment, your future as a chemical engineer is bright.

At Monash, practical work is an essential part of many units, and management studies are introduced to provide you with adequate knowledge on how to manage projects. You’ll also have the opportunity to integrate industrial experience or time at a university abroad with your studies.

Course highlights
- Monash is the first in Malaysia and Australia to introduce fourth industrial revolution concepts and practices in the undergraduate curriculum for chemical engineering.
- Address global challenges with a degree that responds to changing food, energy, environment and water needs.
- Enhance your employability with hands-on experience at Monash’s pilot plant facility.

Recommendation
Complete Chemistry 1 advanced at level one.

BACHELOR OF CIVIL ENGINEERING (HONOURS)
KPT/JPT (R/520/6/0039) 01/23 - MDA/FA8848

Civil engineers design and improve infrastructure systems and processes that significantly improve our daily lives while ensuring the sustainability of the environment around us.

We rely on civil engineers to construct and maintain the infrastructure of modern society. For example, they design and build transportation systems, construct commercial and industrial complexes, and create water supply and pollution control structures. Civil engineers also innovate efficient, sustainable and cost-effective ways to repair or replace civil infrastructures such as roads, bridges and buildings.

At Monash, we help you prepare for your civil engineering career early, with a focus on the fundamentals and a taste of industry experience through opportunities in the major fields.

Course highlights
- Delve into industry-driven and research-oriented projects.
- Advance society with knowledge on sustainable design and construction of infrastructures.

Recommendation
Complete Spatial communication in engineering at level one.
BACHELOR OF ELECTRICAL AND COMPUTER SYSTEMS ENGINEERING (HONOURS)

This course is a unique blend of electronics, computer systems, electrical power and telecommunications engineering.

Electrical and computer systems engineering is an extremely diverse field, encompassing biomedical, computer systems, electronics, electrical power, AI, robotics and telecommunications. As an electrical and computer systems engineer, you’ll develop next-generation communication technologies, electronic sensors and devices, and smart solutions for various industries.

At Monash, you’re not limited to your core subjects. You can broaden your skill set in other exciting areas such as programming, artificial intelligence and machine learning. This will complement your capstone unit where you’ll design and build a robot by integrating your knowledge in electronics, electro-mechanical systems, and microcontroller programming.

Course highlights
- A multifaceted degree unlike any other in Malaysia.
- Your research and final-year projects will be supported through four specialised labs where you can focus on deep learning, Internet of things, intelligent lighting, and micro and nano devices.

Recommendation
Complete Computer organisation or Digital systems at level one.

CAREER PATHS
You could work in a wide range of industries, including:
- power generation
- industrial and power electronics
- automation systems
- computer systems
- robotics
- healthcare
- telecommunications
- software engineering
- semiconductor technology
- technology consultancy.

BACHELOR OF MECHANICAL ENGINEERING (HONOURS)

Mechanical engineering is about the efficient use of energy in the design and function of all types of mechanisms, from the simplest to the most complex.

It covers the generation, conversion, transmission and use of mechanical and thermal energy, and includes the design, construction and operation of devices and systems. Growth industries include advanced manufacturing, smart buildings, renewable energy, medical engineering and consulting practice.

Mechanical engineers are increasingly engaged in the design and operation of devices that require skills that cross traditional discipline boundaries. You might design automatic control systems, or create efficiently heated and cooled buildings. You could manage the water supply for a whole state, take charge of the operation of a smart building, design wind turbines or highly efficient, low-cost products for the developing world.

You might be called on to optimise the aerodynamics of trucks and trains, work with the medical profession to create robots that can operate with greater precision than a human, or be at the cutting edge of advanced manufacturing using 3D printers to create aircraft parts with elegance and function.

Course highlights
- Participate in external design competitions for a greater learning experience.
- Choose from locally developed elective units that are aligned to current industry needs, such as reliability engineering, non-destructive testing, industrial noise and control, biomedical engineering and healthcare system, clean energy materials, and more.
- Challenge yourself with master’s-level elective units in the area of applied engineering including energy and sustainability.
- Be better prepared for the workplace with industry-based final-year projects.

Recommendation
Complete Mechanics of fluid at level one.

CAREER PATHS
Graduates would be able to deploy their skills in a wide range of industries, including:
- research and development
- product and process design
- technical sales and support
- manufacturing
- field and test engineering
- project management
- systems design
- power plant operations and quality control.
BACHELOR OF ROBOTICS AND MECHATRONICS ENGINEERING (HONOURS)

Robotics and mechatronics is where mechanical and electrical engineering meet, employing computer science and control systems to make devices smarter and more efficient.

As a robotics and mechatronics engineer, you could design the control systems for a myriad of applications ranging from autonomous vehicles to miniature robots for use in medical applications. Or you might take an everyday household product and turn it into a truly clever device.

Robotics and mechatronics engineers design devices and the programs that control those devices. They’re adept at handling vast amounts of data and creating systems that make sense of data in real time so that a fully automated manufacturing facility can operate safely and efficiently, or a car can drive completely autonomously.

The applications of this field are virtually unlimited. With the knowledge and skills you’ll have when you graduate, you’ll be able to design, develop, manufacture and operate the intelligent products and complex systems of today and tomorrow.

Course highlights
- Designed in response to the fast-paced and growing needs of the industry and our lifestyle.
- Be uniquely positioned to seize opportunities in the field of robotics, automation and artificial intelligence.
- Offers a choice of specialisation in automation or AI that’ll prepare you with the essential knowledge and skill sets to redefine success for your future organisation.

Recommendation
Complete Introduction to systems engineering and Digital systems at level one.

BACHELOR OF SOFTWARE ENGINEERING (HONOURS)

Software engineering is a field that’s constantly evolving as new technologies emerge. As an engineer in this area, your skills will be critical across many functions – from dispensing life-saving medicine to controlling flight paths.

The world’s major companies, governments and organisations depend on smartly designed and well-built software. And they rely on the expertise of skilled software engineers to make it happen.

As a software engineer, you’ll apply engineering principles to systematically analyse, develop and improve software to ensure it runs effectively, safely and securely. You’ll acquire high-level programming expertise, but software engineering goes well beyond writing code.

Most modern IT systems are so complicated that teams of people must work together to create them. This specialisation’s emphasis on collaborative studio-based learning will give you strong skills in teamwork, project management and communication.

Course highlights
- Accredited by the Australian Computer Society.
- The only software engineering program accredited by Engineers Australia.
- Emphasises practice-based learning through studio projects and internships.
- Apply for the School of IT’s Industry Based Learning program to complete a half-year placement with leading Malaysian and global organisations. The placement counts towards your course and is supported by a scholarship.

Recommendation
Complete Programming fundamentals in Java or Introduction to computer systems, networks and security at level one.
I’m glad I made the decision to study at Monash. I met many inspiring students from around the world and was exposed to a wide range of research projects, which eventually helped to shape my interest in artificial intelligence. With the wealth of opportunities offered by both Australian and Malaysian campuses, Monash was all that I’d expected and more. It gave me invaluable knowledge and experiences, and moulded me into a well-rounded individual.”

THUNG HUI LING
Bachelor of Computer Science
Software Engineer, Strands

While at Monash, Hui Ling was an international student volunteer in Cambodia where she collaborated with Code.org to host the Hour of Code campaign. Under the Industry Based Learning program, she worked as a developer intern for Configura and was later recommended to intern at MIMOS Berhad, a national research and development centre.

Hui Ling was also selected for Monash CURIE’s prestigious undergraduate research program. Her research on using sentiment analysis to detect depression on social media and subsequently help prevent suicide attempts was published in an international journal and presented at a global conference.
INFORMATION TECHNOLOGY

Computer scientists drive everything, from search engines and weather reports to security and research.

The Bachelor of Computer Science is a degree that could take you anywhere. Flexible and practical, this course will teach you how to think creatively and analytically in equal measure. You’ll also graduate with the skills needed to design algorithms and data structures – creating software that will benefit people around the world.

**Professionally accredited**

This course is accredited by the Australian Computer Society.

---

**Areas of study**

We offer the following subjects on demand:

- Algorithms and data structures
- Deep learning
- Data analytics
- Entrepreneurship
- Cybersecurity
- Image processing
- Artificial intelligence
- Malicious AI and dark side security
- Mobile application development.

**Related courses**

You may be interested in our Bachelor of Software Engineering (Honours), offered in collaboration with the School of Engineering. Refer to page 27 for details.

---

**Industry-based learning (IBL)**

The IBL program lets you apply the skills you’ve learnt in the classroom in the corporate world. You’ll be placed in a leading IT organisation for a 22-week industrial placement, which will help you gain valuable professional and business experience. To top it off, the host organisation will award you with a scholarship throughout the duration of your placement. The program is formally assessed and credited towards your degree.

**Internship**

As an alternative to the IBL program, you’ll be required to go for a 12-week internship in an industry-based environment after your second year. This internship will give you a strong foundation and framework for experiential learning. Popular industrial collaborators include Astro, Axiata, Intel, Mimos Berhad and Petronas.

**Student Leaders Network (SLN)**

SLN is a one-year program that offers you the opportunity to engage with industry professionals through workshops, industry site visits, networking evenings, and a student-organised leadership summit. This experience will help you to develop critical employability skills, such as leadership, teamwork and communication, that are highly regarded by employers.

**Other opportunities**

As a Monash student, you’ll have special access to career talks and panel discussions with invited industry guests, industry competitions, as well as professional certification programs.

BACHELOR OF COMPUTER SCIENCE IN DATA SCIENCE
KPT/JPT (N/481/6/0817) 09/24 - MQA/PSA 12435/A/SWA0106

This is the era of big data and artificial intelligence.

Data science represents a cutting-edge discipline which applies scientific methods, mathematics, algorithms and artificial intelligence to extract and visualise intelligent insights from huge volumes of data.

In the fast-progressing world of the Information Age these insights, whether delivered via autonomous integrated systems or in traditional reports, have the potential to fuel innovation and transform decision making. Data scientists deal with the challenges of big data – its interpretation, management and use – in fields as diverse as marketing, information systems, engineering, finance, arts, humanities, science and medicine.

Monash brings a breadth of expertise to bear on issues relating to big data. If you aspire to solve real-world problems based on the information challenges of big data, then specialising in data science will equip you with the practical skills to excel in your chosen career.

Areas of study
- Mathematical statistics
- Principles of data science
- Modelling for data science
- Business intelligence and data warehousing
- Data analytics and visualisation
- Big data management and processing
- Deep learning and artificial intelligence
- Malicious AI and dark side security.

BACHELOR OF COMPUTER SCIENCE (HONOURS)
KPT/JPT (N/481/6/0783) 10/22 - MQA/SWA12120

Discover the world of digital research and development.

This honours version of the Bachelor of Computer Science is for high achieving students with a research focus. You’ll undertake an independent research project on your selected topic, working closely with a supervisor who’ll provide you with individual guidance and academic counselling. The course offers a pathway to higher level research in computer science.

Progression to further studies
Graduating with honours won’t just enhance your employment opportunities. It also means that you’ll gain a pathway degree equivalent to a master by coursework, and you’ll be well prepared to pursue a PhD.
MEDICINE AND HEALTH SCIENCES

AT A GLANCE

INTERNATIONALLY RECOGNISED
Our medical course is accredited by the Australian Medical Council. This means you can practise in Australia and New Zealand without having to sit for additional examinations.

RESEARCH EXCELLENCE
Our advanced research labs are spearheading multidisciplinary research in diabetes, molecular medicine, toxicology and oncology.

INNOVATIVE LEARNING ENVIRONMENT
We use specialised resources, modern technologies and elite learning suites to enhance the teaching and learning process.

CLINICAL EXPOSURE
As a medical student, you’ll complete postings at healthcare facilities in Malaysia and a three-month attachment in Australia.

Good medical knowledge and sound clinical skills are the fundamentals of a competent doctor. Junior doctors are expected to possess certain skill sets and Monash has certainly prepared me for that. With two years of non-clinical and three years of clinical years, the curriculum delivered a right balance of opportunities for me to acquire sufficient knowledge and work experience before graduation.”

DR KEVIN CHOW
Bachelor of Medicine and Bachelor of Surgery (Honours)
Resident Medical Officer at Ballarat Health Services, Australia

Kevin is a junior doctor in training currently working in regional Australia. As part of a team consisting of junior doctors, senior registrars and consultants, he ensures that patients receive optimal medical therapy.

QS World University Rankings by Subject 2021

monash.edu.my/jcsmhs
**MEDICINE**

**BACHELOR OF MEDICAL SCIENCE AND DOCTOR OF MEDICINE**

KPT/JPT (R2/721/6/0026) 08/25 - MQA/FA5833

Our course lets you commence your medical studies from day one and equips you with the knowledge, skills and attributes to begin your career as a medical practitioner.

With a comprehensive and interdisciplinary approach to medical training, this course is equivalent to that offered at Monash University’s Australian campus. The selection criteria, learning objectives and assessments are identical.

This course draws on Monash’s world-leading expertise in medical practice and research, and our school’s particular strengths in the cardiometabolic field, infection and immunity, global public health and neuroscience. Many of our graduates have gone on to practise in Australia.

**Professionally accredited**

This course is accredited by:
- Malaysian Medical Council
- Australian Medical Council
- Sri Lanka Medical Council
- Medical Council of Thailand
- National Medical Commission (India).

**Areas of study**

- Molecules, cells and tissues
- Human development and growth
- Genomics
- Musculoskeletal system
- Cardiovascular system
- Respiratory system
- Renal and endocrine systems
- Gastrointestinal system
- Neurosciences
- Reproduction
- Human behaviour
- Nutrition
- Geriatrics
- Immunology
- Infectious disease
- Reflective practice
- Research and statistics
- Determinants of health
- Quality assurance
- Public health and population health
- Health systems and health economics
- Patient safety
- Communication skills
- Ethics and law
- Teamwork and leadership
- Professionalism.

**Where you’ll be**

**YEAR 1**

Sunway City campus

You’ll start with the basic medical and behavioural sciences within interdisciplinary units, with a major focus on clinical issues through problem-based cases and visits to clinical sites.

**YEAR 2**

Sunway City campus

You’ll continue to learn the basic medical and behavioural sciences, while participating in community placements and working with clients of welfare agencies. You’ll also spend time in the hospital and clinics at Segamat.

**YEAR 3**

Clinical School Johor Bahru

You’ll study integrated medicine and surgery, which will be taught using a series of problem-based learning and bedside teaching sessions in clinical settings.

**YEAR 4**

Clinical School Johor Bahru and Sultanah Aminah Hospital

You’ll engage with core clinical rotations in women’s and children’s health, general practice, and psychological medicine.

**YEAR 5**

Clinical School Johor Bahru, Sultanah Aminah Hospital, and in Australia

Your final year is structured as a series of pre-intern placements, where you’ll complete your degree by gaining wider experience in important disciplines and specific areas of interest through a range of urban, rural and overseas settings.

---

**YOUR INTERVIEW**

We’re not just looking for students with the highest test scores. We’re also looking for students with qualities essential for a successful medical career like critical thinking, empathy, ethical reasoning and motivation. For that, Monash uses the Multiple Mini Interview format to assess your potential. The process involves four sequential interviews taking about 10 minutes each. For more information, visit monash.edu.my/mmi

**RELATED COURSES**

After completing this course, you can opt to study an extra year for the Bachelor of Medical Science (Honours). Learn more on page 33.

**CLICK FOR MORE COURSE DETAILS.**
BACHELOR OF MEDICAL SCIENCE (HONOURS)

Gain an appreciation of the way in which research informs the practice of medicine.

This course offers medical students and graduates an in-depth understanding of research in a variety of areas such as biomedical science, public health, clinical medicine and medical education. You can choose from an array of research streams and match your interest to the respective projects.

CAREER PATHS

You’ll be embedded in a research setting with renowned researchers, and exposed to various technologies and research methodologies from a wide range of clinical and laboratory settings. You’ll learn skills relating to data analysis and the communication of scientific ideas in oral presentations and a written thesis.

There are many advantages in opting for this additional year. Graduates have felt their knowledge increased exponentially and their ability to practice evidence-based medicine improved.

BACHELOR OF PSYCHOLOGICAL SCIENCE

A psychological science degree opens up an extraordinary range of career options.

Our graduates develop knowledge and skills that are transferable to a variety of workplaces. Some become professional psychologists and researchers, while some work in fields where their degree can be useful like human resources or marketing.

You’ll study psychology, cognition, emotion, society and the self, and how you can apply your knowledge in these areas to help people improve their lives. Expect to also develop relevant interpersonal and communication skills, and master essential research design procedures, statistical analyses and methods of written and oral communication.

CAREER PATHS

You can have a career in a diverse range of fields, including:

• research
• clinical psychology
• human resources
• community services and counselling
• education
• health services.

General education pathway

Pre-university/Foundation (1–2 years) >> Psychology degree (3 years) >> Honours degree in psychology (1 year) >> Master’s degree in a specialised field (1–2 years) >> Registered psychologist

Employment in non-psychologist roles
BACHELOR OF PSYCHOLOGICAL SCIENCE AND BUSINESS
KPT/JPT (R3/311/6/0008) 12/26 - MQA/SWA0125

If you want to apply your psychological training in a business environment, this course is for you.

You’ll gain a fundamental understanding of the major principles of psychology and be exposed to a broad cross-section of topics relevant to applied and professional psychology. You’ll also acquire a basic knowledge of core business disciplines and specialised knowledge in one business area of your choosing, and develop an understanding of psychology in a business environment.

Professionally accredited
This course is accredited by the Australian Psychology Accreditation Council.

Areas of study
- Psychology
- Plus one of the following majors:
  - Accountancy
  - Applied economics
  - Business analytics
  - Banking and financial management
  - Business law and taxation
  - Econometrics and business statistics
  - International business management
  - Management
  - Strategic marketing.

Course structure
The course develops through three themes:

- **Psychology and business fundamentals and foundational skills** will develop your understanding of core areas of psychology, including knowledge of the theoretical and empirical basis of our current understanding of human psychology. You’ll also develop a broad foundation in business studies that will prepare you for your chosen area of business practice.

- **Research methods and critical thinking** will help you develop an understanding of the scientific method and use this knowledge in order to critically evaluate contemporary and historical claims relating to human behaviour and mental processes and to apply this knowledge to the generation of new research questions.

- **Psychology in business practice** is the component of the course through which you’ll develop further skills and knowledge in psychology together with advanced understanding of your chosen area of business practice.

BACHELOR OF PSYCHOLOGICAL SCIENCE (HONOURS)
KPT/JPT (R2/311/6/0067) 10/25 - MQA/SWA0131

Extend your studies for an extra year after completing your bachelor’s degree to broaden your understanding of the psychological science discipline.

This course aims to increase your understanding of theoretical and methodological aspects of research, to develop your analytic, research and communication skills, and to provide you with advanced knowledge in specific areas of the science and practice of psychology.

You’ll complete coursework components designed to expand your knowledge of statistics and the ethics of psychological research and practice, and undertake a supervised research project that will train you in discipline-specific and generic research skills. The research project forms the basis of a literature review and research paper presented at the end of the course.

Professionally accredited
This course is accredited by the Australian Psychology Accreditation Council.

Progression to further studies
This course also prepares you to pursue a research degree such as a Doctor of Philosophy (PhD) or Doctor of Philosophy (Clinical Psychology), as well as Master in Psychology courses. If you have an honours degree in psychology from Monash University Malaysia, you’ll be able to apply directly for entry into higher degree by research programs.
AT A GLANCE

INTERNATIONAL STANDARDS
The Bachelor of Pharmacy (Honours) uses the same robust, current and evolving curriculum offered at the Parkville campus in Australia.

21ST-CENTURY LEARNING
The School is at the forefront of a revolution in university teaching. Your studies emphasise critical thinking and analysis, and are supported by innovative and intelligent use of learning technology.

STUDY ABROAD
Meet the requirements and you may be able to transfer to the Parkville campus at the end of your first (one plus three) or second (two plus two) year.

PRACTICAL EXPERIENCE
You’ll go on experiential placements where you’ll integrate classroom learning with real-world experience and develop your professional skills.

Monash laid a solid foundation for me. The four years of study gave me strong clinical knowledge and understanding of the pharmacokinetic and pharmacodynamics of drugs. The work attachments I completed during my final years exposed me to several healthcare settings, which ultimately helped set my career path.”

LOOI ZHI LING
Bachelor of Pharmacy (Honours)
Field Medical Lead, Novartis Corporation

As field medical lead for Novartis’s cardiovascular, renal and metabolic portfolio, Zhi Ling engages medical experts in supporting disease management and the quality use of medicine.

She is also responsible for implementing clinical and educational strategies in shaping the treatment landscape, supporting clinical research to optimise trial execution, organising national-level medical education activities, and ensuring compliance of all activities.

monash.edu.my/pharmacy
Essential works, supporting healthier communities.

Now more than ever, the world needs pharmacists. As the experts in medicines and the way they interact with the body, pharmacists play a vital role in healthcare teams. Not only do pharmacists help patients understand and use medication, they're also involved in drug development and innovation.

This course covers the applied pharmaceutical sciences, enabling sciences, clinical and therapeutic sciences, and pharmacy practice. It equips you with the professional skills and attributes required of a pharmacist. You’ll have the knowledge, experience and expertise you need to make a difference for people in hospitals, aged-care facilities and local communities from the moment you graduate.

Job prospects are bright

As the global population grows and ages, and as medicines become more complex, the demand for pharmacists increases. If you’re looking to become a healthcare professional within a highly in-demand profession – and also love the idea of making a true difference to people’s lives – then a career as a pharmacist might be for you.

Real world experience

As part of the program you’ll undertake work placements in government and private hospitals, rural clinics and community pharmacies, practicing your new skills in different environments. You’ll also undergo an in-house industrial training program to enhance your knowledge on how drugs are developed, produced and marketed.

Changing how you learn

Technology moves fast, but we move faster. Monash is the only university in Asia using MyDispense, an award-winning online simulation tool that allows you to develop confidence and skills in learning how to dispense medicines.

You’ll also be studying in our cutting-edge professional practice suite, purpose-built to support new formats of teaching and practice in a virtual environment and the first of its kind in Malaysia.

Course structure

This course covers six fundamental themes:

A. STRUCTURE AND FUNCTION OF THE BODY (HOW THE BODY WORKS)

These studies will provide you with the foundational understanding and knowledge of the human body, including studies of anatomy, physiology and biochemistry relevant to pharmacists.

B. DRUG STRUCTURE, DISPOSITION, AND ACTION (HOW MEDICINES WORK)

You’ll learn the important aspects for a molecule to become a medicine, and how medicines produce their effects. This will include studies of medicinal chemistry, pharmacology, pharmaceutics and pharmacokinetics/pharmacodynamics.

C. PROFESSIONAL PRACTICE (WHAT PHARMACISTS DO)

These studies will equip you with the sociocultural context in which the pharmacist and the client operate, social and health practice issues, ethical, legal context of pharmacy, and relevant professional and social values necessary for practice.

D. COMPREHENSIVE CARE

Through these studies, you’ll acquire knowledge about diseases and disorders and their management. You’ll understand the relationship between pathophysiology and the design and use of drugs in treating various health conditions.

E. INQUIRY AND INNOVATION

These studies will build upon problem-solving and innovative thinking skills developed in previous units. You’ll apply these skills to conduct a project and explore innovative solutions in a laboratory, clinical, social or business environment.

F. PROFESSIONAL EXPERIENCE

You’ll participate in work-based training and experiential programs in a variety of settings to develop and give context for your skill development.

General education pathway

- Pre-university/Foundation (1–2 years)
- Pharmacy degree (4 years)
- Pharmacist training (1 year)
- Compulsory service (1 year)
- Your career begins
SCIENCE

AT A GLANCE

GLOBALLY RELEVANT
Our courses have a strong regional focus with a global perspective. Many of our units are identical to those offered at Monash’s Clayton campus, and are in disciplines where there is a demand for quality graduates in Malaysia and beyond.

HIGH EDUCATION STANDARDS
You’ll develop academically and personally in a dynamic and stimulating environment, and have access to brilliant minds and exceptional facilities.

DIVERSE SPECIALISATIONS
Our degrees offer flexibility and choice. You can choose from a wide range of specialisations, from applied microbiology, genomics to tropical environmental biology – all taught by academics who are leaders in their scientific disciplines.

PRACTICAL EXPERIENCE
Build your professional experience with an internship in the science industry. Work placements are embedded in our Food Science and Technology and Medical Bioscience degrees, and are credited.

IN THE WORLD
FOR CHEMISTRY

TOP 100
IN THE WORLD
FOR BIOLOGICAL SCIENCES
+
ENVIRONMENTAL STUDIES

QS World University Rankings by Subject 2021

RECOGNISED BY
Public Service Department in Malaysia
Study science at Monash and learn from leading experts whose research is shaping the world’s future.

This course provides you with a broad science education in your first year to let you explore your interests before you specialise in one or more areas that inspires you in your second year. This flexibility allows you to explore new areas, further develop your strengths in science, and pursue your interests beyond the area in which you specialise.

Science graduates have diverse and interesting careers. The flexibility of the training and interdisciplinary approach nurtures greater adaptability in our science graduates. Our graduates are scientists, analysts, journalists, environmental advocates, and some are attached to corporate companies as procurement, marketing and corporate personnel.

Get ready for the real world
Build your professional experience with a science-related internship, offered as an elective unit to Bachelor of Science students. This is a great way to prepare yourself for the demands of the real world. Leveraging on the industry partnerships across the country and region, we’ve worked with multinational companies throughout the years to place our students.

Areas of study
Applied microbiology
Study microorganisms such as bacteria, fungi, parasites and viruses. You can prevent food spoilage, stop the spread of infectious diseases, or solve environmental problems by removing pollutants.

Biotechnology
Utilise biological systems and/or living organisms to develop new technologies and processes of value to the healthcare industry, agricultural and industrial sectors, and the environment.

Genomics and bioinformatics
Study the total genetic makeup of organisms and the diverse range of analytical methods and tools applied to genomic data. These allied fields contribute to superior healthcare, enhanced food security and more.

Medicinal chemistry
Study the design, development, biological activities and properties of drugs. You’ll learn how to seek new active chemical compounds from natural products such as rainforest plants, and design novel synthetic compounds.

Psychology
Study the human mind, mental processes and resulting behaviour. This is a broad scientific discipline that includes investigations of the brain, memory, perception, reasoning, and mental health and wellbeing.

Tropical environmental biology
Study the behaviour of living systems with a strong focus on ecological and environmental issues of global importance such as climate change, biodiversity and conservation.

Chemistry (minor)
Study the science of matter and energy, how atoms and molecules react and interact, and how that behaviour can be harnessed to transform materials, medicine and technology.

Genetics and genomics (minor)
Study the structure, function, transmission and evolution of genes. Genetics underpins many exciting areas such as biomedical science, conservation biology and forensics.

CAREER PATHS
Graduates of this course can find employment in areas such as:
- clinical trials coordination
- intellectual property management
- biomedical product industry
- drug discovery and development
- water management
- conservation and marine biology
- environmental management
- analytical/biomedical chemistry
- biotechnology
- quality control
- science journalism
- process control
- microbiology.

Follow our students into the rainforest as they take a close-up look at the biology of terrestrial tropical ecosystems in Southeast Asia.

Click for more course details.

Internship
(Optional)

1 Available as a minor.
This is your opportunity to positively impact the health and wellbeing of future generations.

Food science involves the biological, physical and chemical aspects of food and its composition, beginning with harvesting, followed by preparation and ending with consumption. Food technology is the application of food science to the processing of biological materials into food products.

The course focuses, firstly, on helping you to develop a greater understanding of the fate of agricultural raw materials as they’re processed and formulated before being presented to the consumer and, secondly, on the technology of food such as preservation, processing, packaging and distribution to ensure that food is safe, nutritious and wholesome.

Accredited
This course is accredited by the International Union of Food Science and Technology.

Areas of study
• Biochemistry
• Biology
• Chemistry
• Food microbiology
• Human nutrition
• Laboratory management
• Strategic food quality management
• Food product development and innovation
• Food processing, preservation and packaging
• Food chemistry
• Microbiology
• Bioprocess technology
• Functional foods
• Statistics.

Internship
You’ll undergo an internship of at least eight weeks, which will give you an opportunity to integrate the various strands of your learning in the workplace. Our students have completed industrial placements with Nestlé, Guiness, Lee Kum Kee, Yeo Hiap Seng, Sushi King, Flatec Biosystem, Gardenia, Polar Ice Cream, Ace Canning, and more.

What does it take to change the world?
BACHELOR OF MEDICAL BIOSCIENCE

Delve into the science at the centre of healthcare.

This course provides a strong foundation in understanding the human body, its structure and function in processes that underpin human health and disease.

You’ll study a wide range of interrelated life science topics including anatomy, biochemistry, cellular metabolism, immunology, medical microbiology, human physiology, pharmacology, toxicology and pathology. You’ll have access to well-equipped laboratories to support your studies and the development of research skills, with facilities for DNA sequencing, mass spectrometry, confocal microscopy, flow cytometry, high performance liquid chromatography, microbiology and tissue culture. In the final year, you’ll have the option to pursue a research project on a medical bioscience unit of your interest.

This course also equips you with transferable and employability skills for employment in both public and corporate/private sectors where the emphasis is on skills such as data collection, analysis and interpretation, presentation and communication, and teamwork.

Internship
You’ll undergo a minimum of eight weeks work-based training in hospitals and medical research centres, where you’ll have the opportunity to integrate the various strands of your learning in a real workplace. Our students have completed industrial placements with Sunway Medical Centre, Pantai Hospital, Assunta Hospital, Tawakal Hospital, Pantai Premier Pathology, Ace Labsystem, and more.

BACHELOR OF SCIENCE (HONOURS)

Gain a higher level of experience in independent analysis and research in your chosen field of expertise.

You can choose to pursue this additional one-year degree after the first three years of your undergraduate study.

Look forward to a rich intellectual experience and to developing a range of transferable skills for enhanced career opportunities. This course is also a stepping stone towards higher research qualifications in science, such as the Master of Science or Doctor of Philosophy.

Areas of specialisation
- Biotechnology
- Food science and technology
- Medical bioscience
- Medicinal chemistry
- Psychology (February intake only)
- Tropical environmental biology

CAREER PATHS
Our graduates work in:
- the drug and pharmaceutical industry
- food manufacturing processes and development
- product commercialisation and business development
- biotechnology product development
- biomanufacturing
- clinical genetics
- clinical science and research management
- environmental consulting and management
- intellectual property management
- research and development.

CAREER PATHS
Our graduates find employment in:
- clinical laboratories
- forensic science
- medical, healthcare and insurance industry
- regulatory affairs and quality assurance
- biomedical equipment and pharmaceutical industry
- infectious disease/histopathology research
- science journalism
- clinical trial management
- clinical nutrition.
If you’re feeling the pull to explore more than one discipline, a double degree could be the right move. Studying towards two degrees at the same time also allows you to keep your options open and to develop expertise in different but complementary areas. Requiring just one extra year of study, this is a great way to build your skills and expand your employability.

**BACHELOR OF BUSINESS AND COMMERCE AND BACHELOR OF DIGITAL MEDIA AND COMMUNICATION**

Broaden your career options by combining business and commerce with digital media and communication.

This double degree offers a world-class education in the economic, political, legal, social, cultural and technological principles that exist around the world, while giving you a strategic and critical understanding of the role of mediated communication in society.

You’ll gain all the benefits of each degree course, and be fully equipped to pursue a career in either field or to combine your knowledge from both to gain a competitive edge in today’s interconnected industries.

**Accreditation**
The Bachelor of Business and Commerce is accredited by AACSB.

**Areas of study**

**BUSINESS AND COMMERCE**
- Accountancy
- Applied economics
- Banking and financial management
- Business analytics
- Business law and taxation
- Econometrics and business statistics
- International business management
- Management
- Strategic marketing.

**DIGITAL MEDIA AND COMMUNICATION**
- Media studies
- Communication technologies and practices
- Contemporary media theory
- Freedom and control in the media
- Internet studies
- Digital media and society
- Youth and mobile media
- Research methods in the social sciences.

**CAREER PATHS**

Graduates can explore many roles in:
- financial analysis
- human resources
- public relations
- marketing
- accountancy
- international trade
- administration
- advertising
- journalism
- publishing
- editing
- writing
- corporate communications
- multimedia
- tourism.

**Double degree**

- 4 years
- February, July and October
- $RM38,213 Malaysian student
  $RM43,680 International student
- Professionally accredited
- Work placement program

**In today’s workforce, a fresh graduate with a range of knowledge and skills is a huge asset to any hiring employer. Alongside my interest to study and hone my skills in journalism and communications, I also understood the importance of equipping myself with business know-how. Monash was the only university that provided the double degree suited to my needs.”**

**KOH JIAWAY**

Bachelor of Business and Bachelor of Communications
Associate Director, Business Angel Network of Southeast Asia (BANSEA)

Based out of Singapore, Jiaway manages relationships between startups from around the world, government agencies, accelerators, incubators and individuals with an interest to invest in early-stage companies. Her goal is to help startups with novel ideas and solutions to real-world issues succeed.
ENTRY REQUIREMENTS

You must satisfy the following when applying to Monash University for an undergraduate course:

- Academic entry requirements
- Minimum age requirements
- English entry requirements
- Prerequisites and additional requirements.

GUIDE TO UNDERGRADUATE ENTRY REQUIREMENTS

The methods for calculating entry scores for our undergraduate courses are based on a range of international senior secondary school, pre-university and foundation year qualifications.

The entry requirements published is correct at the time of publication. Please refer to monash.edu.my for the latest entry requirements.

Methodology key

The course-specific pages in this guide outline the academic entry scores for the listed qualifications that apply to each undergraduate course.

1. GCE A Level

Total score of a maximum of the best 3 A Level subject examinations completed within two years*.

- Score A Level grades as follows: A*(a*) = 5, A(a) = 5, B(b) = 4, C(c) = 3, D(d) = 2, E(e) = 1, U = 0.
- N (Narrow failure) and U (Unclassified) not to be included in the calculation.
- A maximum of 1 bonus point is offered when achieving A* in an A Level Subject.

* Subject examinations completed within two years may include more than one sitting. For example subject examinations in June 2012 until June 2014 are acceptable.

- Minimum English language requirement met by:
  - C grade or score of 4 in one of the following IGCSE subjects: Literature in English OR Literature (English) OR English Literature OR First Language English (subject code 0522/0627/0990) OR World Language OR English Language OR English Language A OR English Language B OR C grade in Cambridge IGCSE First Language English 0500 with a grade 3 or lower in Speaking and Listening, OR
  - B grade or score of 5 in IGCSE English as a Second Language, OR
  - C grade or score of 4 in one of the following GCSE/GCE O Level subjects: English Language OR Literature in English OR English Literature OR English OR English Language (Syllabus B), OR
  - C grade in one of the following GCE AS Level subjects: General Paper OR General Studies OR English Language OR Language and Literature in English (previously known as Language and Literature) OR Literature in English OR English Literature OR English Language and Literature, OR
  - E grade in one of the following GCE AS Level subjects: General Paper OR General Studies OR English Language OR Language and Literature in English (previously known as Language and Literature) OR Literature in English OR English Literature OR English Language and Literature.

- Higher English language requirement met by:
  - B grade or score of 5 in one of the following IGCSE subjects: Literature in English OR Literature (English) OR English Literature OR First Language English (subject code 0522/0627/0990) OR World Language OR English Language OR English Language A OR English Language B, OR B grade in Cambridge IGCSE First Language English 0500 with a grade 3 or lower in Speaking and Listening, OR
  - A grade or score of 7 in IGCSE English as a Second Language, OR
  - B grade or score of 5 in one of the following GCSE/GCE O Level subjects: English Language OR Literature in English OR English Literature OR English OR English Language (Syllabus B), OR
  - B grade in one of the following GCE AS Level subjects: General Paper OR General Studies OR English Language OR Language and Literature in English (previously known as Language and Literature) OR Literature in English OR English Literature OR English Language and Literature, OR
  - D grade in one of the following GCE AS Level subjects: General Paper OR General Studies OR English Language OR Language and Literature in English (previously known as Language and Literature) OR Literature in English OR English Literature OR English Language and Literature.

Monash University only accepts IGCSE First Language English (Subject Code 0500) which has the compulsory Listening and Speaking component in meeting the English language requirements.
2 **Australian Year 12 ATAR**
Final ATAR as awarded by the relevant Australian state Year 12 authority.

3 **Hong Kong Diploma of Secondary Education**
Total of the best five subjects* (Category A and C only – Category B not to be used in calculation) as awarded on the official final academic transcript issued by Hong Kong Examinations and Assessment Authority (HKEAA). Scores grades as follows:
- Level 1 = 1, Level 2 = 2, Level 3 = 3, Level 4 = 4, Level 5 = 5
- A = 5, B = 4, C = 3, D = 2, E = 1.

A maximum of 1 bonus point is offered when achieving Level 5** or Level 5* in a HKDSE Category A subject.
- Minimum English language requirement met by successful completion of HKDSE English Language with an achievement of Level 4 or above
- Higher English language requirement met by successful completion of HKDSE English Language with an achievement of Level 5 or above.
*The highest grade will be used in the calculation in the event where individual subject examinations have been sat in multiple sittings.

4 **Indian School Certificate Examination**
Overall average of percentage grades for the best four academic subjects (excluding Physical Education) and result indicated as ‘PASS CERTIFICATE AWARDED’ as awarded on the official final statement of marks.
- Minimum English language requirement met by successful completion of ‘English’ with an overall average of 60% or above.
- Higher English language requirement met by successful completion of ‘English’ with an overall average of 70% or above.

5 **All India Senior School Certificate Examination**
Overall average of percentage grades (refer to ‘TOTAL’ column) for the best four academic subjects (excluding Physical Education) issued by the Central Board of Secondary Education (CBSE). Evidence of successful completion is satisfied where ‘Result’ indicated as ‘PASS’ is awarded on the official final ‘Marks Statement’.
- Minimum English language requirement met by successful completion of ‘English Core’ with an overall average of 60% or above.
- Higher English language requirement met by successful completion of ‘English Core’ with an overall average of 70% or above.

6 **SMA3, Indonesia**
Meet Monash University’s minimum entry requirements based on the calculation guidelines of both the Malaysian Qualifications Agency (MQA) and Monash University.
All documents submitted must be translated and untranslated.
English language requirements met by submission of an IELTS or equivalent English test with the required scores.

7 **International Baccalaureate Diploma (IB Diploma)**
Total points as issued on the official final academic transcript. Evidence of successful completion of diploma is also required.
- Minimum English language requirement met by:
  - 4 in one of the following SL subjects: English A: Literature, or English A: Language and Literature, or Literature and Performance, OR
  - 3 in one of the following HL subjects: English A: Literature, or English A: Language and Literature, OR
  - 5 in one of the following SL subjects: English AB, or English B, OR
  - 4 in the following HL subject: English B.
- Higher English language requirement met by:
  - 5 in one of the following SL subjects: English A: Language, or English A: Language and Literature, or Literature and Performance, OR
  - 4 in one of the following HL subjects: English A: Language, or English A: Language and Literature, OR
  - 6 in one of the following SL subjects: English AB, or English B, OR
  - 5 in the following HL subject: English B.

8 **STPM, Malaysia**
Total of the best 3 subjects (refer to ‘Nilai Gred Mata Pelajaran’ column) excluding Pengajian Am (General Studies) as awarded on the official final academic transcript issued by Majlis Peperiksaan Malaysia (Malaysian Examinations Council). The translated and untranslated final STPM result slip issued by Majlis Peperiksaan Malaysia must be submitted.
- Minimum English language requirement met by C grade in GCE O Level English Language – 1119 (SPM)
- Higher English language requirement met by B grade in GCE O Level English Language – 1119 (SPM)
9. UEC, Malaysia
Overall average of the best 5 subjects awarded on the Unified Examination Certificate (Senior Middle Level), issued by the United Chinese School Committees Associate of Malaysia. Only grades A1, A2, B3, B4, B5 and B6 to be included in the calculation. C7, C8 and F9 cannot be included in the calculation. Scores grades as follows: A1 = 1, A2 = 2, B3 = 3, B4 = 4, B5 = 5, B6 = 6. It should be noted that a score of A1 is the highest score. English language requirements met by submission of an IELTS or equivalent English test with the required scores.

10. Program Matrikulasi (Matriculation Program), Malaysia
Final Cumulative Grade Point Average as awarded on the official final academic transcript awarded by the Ministry of Education Malaysia. Evidence of successful completion must be provided.

• Minimum English language requirement met by successful completion of Bahasa Inggeris (English) with an overall average of C grade or above.

• Higher English language requirement met by successful completion of Bahasa Inggeris (English) with an overall average of B grade or above.

Overall average of percentage grades for the best six academic Grade 12 subjects* (excluding workplace preparation courses and open courses) as awarded on the Ontario Student Transcript issued by the Ontario Ministry of Education. Students must achieve a minimum total of 30 credits and complete Community Involvement. Evidence of successful completion must be provided.

* The grade 12 subjects must be taken from the most recent completed Ontario Student Transcript issued by the Ontario Ministry of Education.

• Minimum English language requirement met by successful completion of Grade 12 ‘English (course code ENG4C)’, OR ‘English University Preparation (course code ENG4U)’ with an average overall of 50% or above.

• Higher English language requirement met by successful completion of Grade 12 ‘English (course code ENG4C)’, OR ‘English University Preparation (course code ENG4U)’ with an overall average of 60% or above.

12. Sri Lankan General Certificate of Education (Advanced Level)
Total score of a maximum of the best 3 A Level subjects taken in one examination sitting.* The official final GCE A Level official statement issued by the Democratic Socialist Republic of Sri Lanka must be submitted. Score A Level grades as follows: A = 5, B = 4, C = 3, S = 1, F = 0.

* A minimum of 3 subjects are taken in one examination sitting.

English language requirements met by submission of an IELTS or equivalent English test with the required scores.

13. High School Diploma, Vietnam
Overall average of all Grade 12 subjects (refer to the whole year/ CN column) as awarded on the official final transcript issued by individual senior secondary school in Vietnam. The temporary/provisional high school graduation certificates (Giay Chung Nhan Tốt Nghiep THPT (Tam thoi)) issued by the relevant provincial education and training department OR official Vietnamese High School Diploma graduation certificate (BẰNG TỐT NGHỊP TRƯNG HỌC PHỔ THỌNG) must be provided as evidence of successful completion. All documents submitted must be translated and untranslated.

English language requirements met by submission of an IELTS or equivalent English test with the required scores.

14. Monash University Foundation Year (MUFY)
Overall average of the best eight units plus any bonus points that may apply.

• Minimum English language requirement met by successfully completing MUFY English with an overall average of 65% or above.

• Higher English language requirement met by successfully completing MUFY English with an overall average of 75% or above.

The undergraduate entry requirements published in this guide are for students who commenced the MUFY program in 2021.

15. UNSW Foundation Studies
Final grade point average as awarded on the official final academic transcript issued by University of New South Wales. Evidence of successful completion must be provided.

• Minimum English language requirement met by C grade in Academic English.

• Higher English language requirement met by B grade in Academic English.

16. Foundation in Arts, Sunway College
Overall average of all subjects (refer to the Marks (%) column) as awarded on the final ‘official transcript’ issued by Sunway College. Evidence of successful completion must be provided.

• Minimum English language requirement met by successful completion of the three compulsory English subjects during the Foundation in Arts (Language and Communication, Communication: Audience and Context & Language and Knowledge) with an overall average of 65% or above.

• Higher English language requirement met by successful completion of the three compulsory English subjects during the Foundation in Arts (Language and Communication, Communication: Audience and Context & Language and Knowledge) with an overall average of 75% or above.

17. Foundation in Science and Technology, Sunway College
Overall average of all subjects (refer to the Marks (%) column) as awarded on the final ‘official transcript’ issued by Sunway College. Evidence of successful completion must be provided.

English language requirements met by submission of an IELTS or equivalent English test with the required scores.

18. Diploma of Higher Education Studies
Complete and pass eight units and achieve a minimum average required for the corresponding degree.

19. Monash College Diploma
To calculate the average mark required for the Monash University destination degree refer to the relevant Diploma program information available at: monashcollege.edu.au/courses/diplomas/destination-degrees

The Monash College Diploma Part 1 and Part 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2022.

Other international qualifications entry requirements can be found at monash.edu/prior-study
ENGLISH LANGUAGE REQUIREMENTS

When you apply for a Monash University undergraduate course you must satisfy English entry requirements. Different English entry levels apply to undergraduate courses. If you have completed several measures of English proficiency over a period of time, the highest valid measure will be accepted as long as it has been taken within the time limitations specified below. English requirements can be met in one of the following ways:

1. English (Australian Year 12 equivalent): students must complete an English subject that is equivalent to units 3 and 4 of VCE English and also meet the required prerequisite score for the Monash University course they have applied for. The equivalent English subject must be taken within two years prior to the Monash course commencement date (other time limitation periods may apply).

2. English is the language of instruction, communication and assessment for the entire institution: You can meet the English language requirements if you have undertaken studies at an institution where English is the language of instruction, communication and assessment for all aspect of study for the whole of the educational institution by satisfactorily completing a minimum of 48 Monash credit points (one year of full-time study) or equivalent in one of the following qualifications:
   - an Australian VET diploma level (or equivalent) which must be taken within two years prior to the Monash course commencement date, OR
   - an Australian bachelor degree (or equivalent) which must be completed and taken within five years prior to the Monash course commencement date.

Documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

3. English Proficiency Tests: the following English proficiency tests are accepted by Monash University:
   - Academic IELTS (International English Language Testing System). For more information visit, www.ielts.org
     The University’s minimum English language requirement is an Academic IELTS overall band score of 6.5 with no band less than 6.0.
   - Internet/Paper-based TOEFL (American Test of English as a Foreign Language). For more information visit, www.ets.org
     The University’s minimum English language requirement is an Internet-based TOEFL total score of 79 with 12 in Listening, 13 in Reading, 21 in Writing and 18 in Speaking OR
     A certified Paper-based TOEFL with a total score of 550 with TWE of 4.5
   - Pearson Test of English (Academic). For more information visit, www.pearsonpte.com
     The University’s minimum English language requirement is a Pearson Test of English Academic overall score of 58 with no Communicative Skills lower than 50.
   - Cambridge Certificate in Advanced English (CAE), Cambridge Certificate of Proficiency in English (CPE) and Cambridge Linguaskill General. For more information visit, www.cambridgeenglish.org
     The University’s minimum English language requirement is a minimum overall score of 176 in CAE, CPE and Linguaskill General with no skill score lower than 169.

In order for the above English proficiency tests to be considered they must be taken within 36 months prior to the course commencement date.

4. GCE O Level English Language – 1119 (SPM): It must be taken within three years prior to the course commencement date.
   - The University’s minimum English language requirement is met by C grade in GCE O Level English Language – 1119 (SPM)

Higher scores are required for the Bachelor of Medical Science and Doctor of Medicine. The following English proficiency tests are accepted by Monash University:

   - Higher score in English (Australian Year 12 equivalent)
   - GCE O Level or SPM 1119 English: B grade
   - IELTS: An overall score of 7.0 or greater with no individual band less than 6.5
   - Internet/Paper-based TOEFL: An overall score of 94 or greater with 20 in Listening, 19 in Reading, 20 in Speaking and 24 in Writing
   - Pearson Test of English (PTE): An overall score of 65 or above with no Communication Skills lower than 58
   - Cambridge Certificate in Advanced English (CAE) and Cambridge Certificate of Proficiency in English (CPE): An overall score of 185 with no skill score lower than 176
   - Higher score in GCE A Level English.

MONASH ENGLISH BRIDGING

Monash University Malaysia also offers Monash English Bridging (MEB) for students who do not meet the undergraduate or graduate English entry requirements. Upon successful completion of MEB, you will gain the proficiency needed to succeed at Monash University. Some Monash University courses do not accept MEB.

For more information visit, monash.edu.my/english-bridging

For more information regarding admission to coursework courses and units of study procedures please refer to the following link: monash.edu/admissions-coursework-procedures

Monash University reserves the right to ask you to undertake an approved English proficiency test to meet the English course requirements.

The published scores are based on Monash University’s English requirements and subject to change.

In addition to the University’s English requirements, the Malaysian Government has set English requirements for each course. When you apply, you will be advised if you have met those requirements.

MINIMUM AGE REQUIREMENTS

You must be at least 17 years of age to enrol in a Monash University undergraduate course. Some exemptions may apply. For further information, visit monash.edu.my/requirement-age
HOW TO APPLY
Are you ready to apply to Monash University Malaysia? The application process is quick and easy. Follow these simple steps to get started.

1. **Apply**
   - monash.edu.my/apply-online

2. **Your application is assessed**

3. **Accept your offer**
   - monash.edu.my/accept

**Malaysian students**

4. **Arrange for accommodation (if required)**

5. **Participate in orientation**
   - monash.edu.my/orientation

**International students**

4. **Submit your student pass application**

5. **Your student pass is approved**

6. **Apply for single entry visa (if required)**

7. **Arrange for accommodation and fly to Malaysia**

8. **Participate in orientation**
   - monash.edu.my/orientation

**Step 1**

**Application**
Check and ensure you meet the entry requirements. For your application to be successful, you must satisfy the academic performance, English language proficiency standard and be at least 17 years of age at your time of enrolment.

An online application should take between 15 and 30 minutes if you have all your details and documentation ready.

1. To make an online application, visit monash.edu.my/submit
2. You must provide a copy of all documents:
   - Attached copy of your IC/Passport information page.
   - Attached copy of all academic transcripts and/or work experience.
   - If documents are in a language other than English, English-translated copies must also be provided.
   - Applications will only be processed once all the required documentation is received.

**Application fees**
An application fee of RM100 (non-refundable) must be paid when you submit your online application. Your application won’t be processed unless you’ve paid this fee.

Your payment options are:
- credit card
- online banking/Interbank Giro (please upload proof of payment to the online portal.)

For more information, visit monash.edu.my/apply-online

**Need help with your application?**
**Contact us:**
- mum.enquiry@monash.edu
- +60 3 5514 6000
- Live Chat (Weekdays from MYT 9am to 5pm) ask.monash.edu.my

If you’re an international student applying through a Monash agent, please ensure that your agent is an authorised agent by visiting monash.edu.my/agents.

**Step 2**

**Application assessment and outcome**
1. Once a completed application has been received by Admissions and Student Pass, it’ll be assessed according to the University’s entry requirements.

2. Following the assessment of your application, you’ll receive either one of these notifications:

* Please refer to the Education Malaysia Global Services’s website for more information on SEV required countries: visa.educationmalaysia.gov.my/guidelines/sev-required-countries.html
**Letter of Offer**
If you meet all the conditions for entry, a Full Offer will be issued. The Letter Offer will confirm the details of the offer being made, namely: course title and start date, length of course, fee information and any conditions that may apply. The Offer Letter will be sent to you and your agent by email only and acceptances must be made by the offer lapse date stated in your Offer Letter.

**Conditional Offer**
This letter will inform you that the offer is made with conditions which need to be satisfied. Evidence must be shown that you’ve met the conditions before a conditional offer can be converted to a full offer, such as:

i. **Other conditions**
   This generally occurs because you haven’t submitted all the required documentation in your application. Other reasons may be stated in your letter. Your admission won’t be confirmed until you satisfy all conditions, which means arranging for all outstanding documents to be submitted to Admissions and Student Pass, Monash University Malaysia.

ii. **English language requirement condition**
   In the event the English language requirement isn’t met, you’ll need to re-sit for the necessary English language qualification and submit the results to meet the requirements. The campus offers the Monash English Bridging (MEB) program, which runs for 20 weeks. You can write to mum.admissions@monash.edu to enrol in the program.

iii. **Deadlines for meeting your conditions**
   There are deadlines by which you must satisfy the conditions of your offer. In the event that you fail to satisfy the conditions by the lapse date, the conditional offer shall immediately become null and void and of no further force or effect. You’ll have to reapply for admission at the next available intake.

**Rejection letter**
A rejection letter will be issued if you’re unsuccessful in meeting Monash University’s entry requirements.

**Step 3**
**Accepting the offer**
To secure a place at Monash University Malaysia, you must accept the offer before the deadline stated in your Offer Letter with relevant payment of fee. Failing to do so will cause the offer to lapse. Details on how to accept the offer will be provided in your Offer Letter. For more information, visit monash.edu.my/lets-begin

**Step 4 (For international students)**
**Student pass application**
You’ll be advised on whether:
* you should apply directly via the Education Malaysia Global Services portal at visa.educationmalaysia.gov.my/customer/account/login/
* Monash will submit on your behalf.

For more information, visit monash.edu.my/student-pass

**What’s next?**
**Orientation Week**
You’re encouraged to participate in the Orientation Program, which is specifically designed to help you adjust to life at Monash University Malaysia. You should arrive at the University in time for this program, which starts one week before the new semester commences. For more information, visit monash.edu.my/orientation

**Tuition fees**
Tuition fees vary depending on the course and the year of commencement. All tuition fees and course durations specified in this guide are in Malaysian Ringgit and only apply to courses studied at the Malaysian campus. The tuition fees quoted are based on a standard full-time load (48 credit points) unless otherwise stated and are applicable to courses commencing in 2022. Monash University Malaysia reserves the right to adjust the annual tuition fees in future years of your course. Any adjustments will be applied on the first day of January each year.

**General fees for 2022**
- Application (once only) RM100
- Registration (once only) RM200
- General amenities (per semester) RM100
- International student pass Visit monash.edu.my/student-pass

**Letter of Offer**
If you meet all the conditions for entry, a Full Offer will be issued. The Letter Offer will confirm the details of the offer being made, namely: course title and start date, length of course, fee information and any conditions that may apply. The Offer Letter will be sent to you and your agent by email only and acceptances must be made by the offer lapse date stated in your Offer Letter.
