At Monash, we see challenges as opportunities to make things better.

It’s hard to imagine a time when the need to make positive change has been greater than now.

We want you to help us do it.

Whether you want to change your life, your career, your community or the world, your journey starts at Monash.

As a university with a global footprint, we know we have to play our part in solving the problems facing the world. That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.

You, too, have the opportunity to step up and make a difference.

Are you ready?

IF YOU DON’T LIKE IT, CHANGE IT.
WHY CHOOSE US?
• Our global community
• Closer to home
• Life-changing research
• Learn with Monash, wherever you are
• Get ahead
• Scholarships
• A vibrant student life
• Live in Malaysia
• See the world
• We’ll support you
• Be at home

WHAT CAN YOU STUDY?
• Improve your English
• Our courses

MORE INFORMATION
• English language requirements
• How to apply
• A summarised guide
With a presence on three continents, partnerships and study abroad programs around the world, Monash is truly international. Our global reach gives you access to more research collaborations, more global partnerships, and a greater choice of overseas opportunities.
As a student at Monash University Malaysia, you’ll experience the best of both worlds with outstanding education in a supported, flexible and culturally-rich environment.

Access the same resources and global connections as your peers in Australia.

Graduate with a prestigious Monash University degree recognised by the Ministry of Higher Education Malaysia and quality assured by Monash University Australia and the Australian Tertiary Education Quality and Standards Agency.

Enjoy significantly lower tuition and living expenses than you would studying and living in Australia, the US or UK.

Immerse yourself in a multicultural student population in a dynamic, cosmopolitan and moderate Muslim environment.

Be in proximity to countries in the Indian subcontinent and Asian regions.

LIFE-CHANGING RESEARCH

If you’re passionate about tackling global challenges and collaborating with some of the brightest minds in your discipline, then Monash is the place where your ideas and actions can gain momentum.

Our researchers are driven by a singular goal: to change lives. It’s why they’re constantly questioning the answers, looking beyond traditional boundaries, and discovering ways of addressing some of society’s most pressing challenges. Think about the change you want to see in the world and let’s make that happen.

Monash’s platform for scholarly engagement with Southeast Asia

EMPOWERING INDEPENDENT LIVING FOR OLDER ADULTS

Leveraging near-field communication technology, Professor Teh Pei Lee’s smart home system allows older users to control their electrical appliances using a photo interface. Whether it’s their lights, A/C, dishwasher or TV, all they have to do to turn it on is to place their smartphone over a photo of the appliance to launch the app, and tap.

CLICK TO WATCH.
COMBATING DENGUE
Dengue is a mosquito-borne virus that infects millions of people every year. Researchers at Monash’s Southeast Asia Community Observatory worked closely with the Ministry of Health in Malaysia to develop a mobile application that can be used to geo-locate, tag and photograph potential breeding sites as well as the location of dengue cases. This application is helping health officials to better manage their resources and conduct targeted fogging.

REVISING DRUG DOSES
Our genes affect how our bodies respond to medicine, yet most drug dosages on the market are tailored to the caucasian body. Professor Gan Siew Hua’s study was the first to learn that Malaysians have increased difficulty metabolising certain antidepressants, antihypertensives and analgesics, leading to more side effects. By adjusting drug doses based on genetic differences, we can ensure that all patients are receiving the best treatment possible.

IMPROVING ACCESS TO CLEAN WATER
Kickstarted by engineering student Maziyar Makaremi as part of Monash’s Undergraduate Research Opportunity program, a portable filtration device was developed in collaboration with the Sri Lanka Institute of Nanotechnology and Newcastle University. The filter can be fitted to a water bottle and produced at a fraction of the cost of other similar water filters.

ALLEVIATING TRAFFIC CONGESTION
Traffic congestion costs Malaysia RM13 billion yearly in lost productivity, wasted fuel and environmental damage. Dr Susilawati’s research is looking into coordinating traffic signals to reduce up to 100 seconds in travel time for each driver. She’s part of a multidisciplinary research team at Monash that is developing an intelligent transportation ecosystem to ease traffic congestion and reduce carbon emissions.

DETECTING HARMFUL POLLUTANTS
A team led by Associate Professor Narayanan Ramakrishnan is working on an advanced sensor that can detect harmful environmental pollutants. The sensor will be able to function without a power supply and can be manufactured into wearables like watches, rings and belts. This invention will make an enormous difference for people living in polluted cities.

SECURING OUR DATA PRIVACY
Most of us don’t think twice about connecting to a public Wi-Fi network, and that’s what hackers are counting on. Associate Professor Wong Kok Sheik is working on encrypting content to prevent hackers from accessing personal information from intercepted files, so you’ll be able to enjoy your coffee and free Wi-Fi with peace of mind.

LEARN WITH MONASH, WHEREVER YOU ARE

At Monash we offer a mix of both in-person and online learning.

Online learning at Monash can look different depending on what course and units are studied. For example, in some units, you’ll be listening to livestreams of lectures, and attending virtual tutorials via Zoom; in others you’ll be watching practicals recorded by our lecturers and teachers.

We want you to get the most out of your education experience. To achieve this, we use a variety of tools and platforms to support and enable online learning.

**Moodle**
Moodle is an essential go-to point for:
- Course content
- Reading lists
- Assessment and study requirements
- Assignment uploads
- Discussion forums
- Contact information for tutors and lecturers.

**Echo360 and Panopto**
You may use Echo360 to watch lecture recordings or Panopto to upload video assignments.

**Zoom**
Zoom is a technology used to facilitate meetings and online classes. These platforms and tools are the main systems in use by Monash to support day-to-day online learning, and are easy to use with plenty of support available to ensure you have access at all times.

What if I can’t come to campus?
We also offer online learning if you’re unable to attend on-campus due to current travel restrictions. While travel restrictions are in place you can commence and continue your studies fully supported by our education technologies and academic staff. Once you’re able to travel, you can transition to on-campus programs.
GET AHEAD

From day one, a Monash education sets you on the path to future career success. Our programs and platforms offer work-integrated learning experiences and engagement with industry. You’ll develop an enterprising mindset, hone your employability skills, and gain a competitive edge in the graduate employment market.

- **Get professional support** from our career experts. monash.edu.my/career-services
- **Attend internship fairs**, employer networking sessions, career seminars and workshops.
- **Show employers** that you have what they’re looking for with our award-winning Student Futures platform. monash.edu/student-futures
- **Develop your employability and leadership skills** with Leap into Leadership Online modules. monash.edu/students/leadership
- **Access local and international work opportunities** through Monash job portals.
- **Stay connected** after you graduate with lifelong access to our alumni programs and career-related events.

Show employers that you have what they’re looking for with our award-winning Student Futures platform.

monash.edu/student-futures
At Monash, we believe in unlocking your potential to make a difference in the world.

*All scholarships listed here apply only for study at Monash University Malaysia, unless stated otherwise.*

A VIBRANT STUDENT LIFE

Live your life to the fullest at Monash. When you’re on campus, immerse yourself in the exciting events and opportunities available all year round to create memories and connections that’ll last a lifetime. Here’s a glimpse of what you can do.

STAY ACTIVE
No matter your level of fitness or commitment, we’ve got you. The Monash Sports Centre offers an open field and courts for badminton, futsal, basketball, handball and more. You’ll also find a gym and a rock climbing wall.

CELEBRATE DIVERSITY
Having a diverse student population on campus means coming together to celebrate various cultures and festivals around the world. Don’t miss events such as the One World Festival and Cultural Night.

CONNECT WITH YOUR PEERS
Be part of an active postgraduate community on campus. The Monash University Postgraduate Association hosts a variety of activities from orientations, workshops and seminars to social gatherings, offering you every opportunity to build a social support system.

LEARN SOMETHING NEW
Engage with high-profile thinkers, leaders, policymakers, academics and experts on a wide variety of topics at events such as the Sir John Monash Lectures and more.

GO FOR WORKSHOPS AND CONFERENCES
Gain even more learning opportunities by attending workshops and seminars or presenting at conferences. This is a great way to build your confidence, further develop your knowledge, and expand your network.

CHECK OUT THE BAZAARS
Fill up on delicious local dishes and delicacies at food bazaars or get yourself a bargain at flea markets organised by various clubs and societies.

Photos contributed by the Monash Gazette.
Malaysia is a wonderfully unique country that has captivated generations with its natural beauty, cultural diversity and the warmth of its people. It’s a great destination for learning and adventure.

Located in the economic pulse of Southeast Asia, Malaysia is the leading tourist and commercial destination in Asia. It’s politically stable, geographically safe and has a warm tropical climate. And with a diverse population of various ethnicities, cultures and backgrounds, Malaysia offers no shortage of flavourful cuisine, vibrant festivals and heritage traditions. You’ll always have places to go, people to meet and treasures to discover.

Studying in Sunway
Sunway City is a friendly and safe township where you’ll have everything you need within reach. Eateries, hotels, banks, a medical center, a shopping mall, and even a water theme park are all easily accessed using a monitored elevated pedestrian walkway or public transport.

Want to go farther? From Sunway City, you’re less than an hour away by train to the Kuala Lumpur city centre where you can visit iconic landmarks and attractions such as the Petronas Twin Towers, Central Market, Islamic Arts Museum, KL Bird Park and more.

Cost of living
Before you begin your studies at Monash, it’s a good idea to plan and prepare a budget. Below are some costs associated with living and studying in Malaysia, and should be used as an approximate guide. These figures (in Malaysian Ringgit) are estimates only, and may vary depending on your personal lifestyle choices. Generally, Malaysia is an affordable country.

- Accommodation: RM330 to RM1500 per month
- Phone and internet: RM30 to RM80 per month
- Groceries: RM50 to RM80 per trip
- Eating out: RM6 to RM50 per meal
- Clothing: From RM30
- Entertainment: From RM12 per event

SEE THE WORLD

When you choose to study overseas, it’s more than your surroundings that change – you’ll experience new cultures and enhance your global perspective. Take the leap and broaden your mind.

CLICK TO LEARN MORE.

International exchange
Choose from more than 140 partner universities around the world, and graduate with a degree that’s studied in different continents — all while paying your regular course fees to Monash University Malaysia.

Try Australia
Because you’re already a Monash student, studying at our Australian campuses is the easiest way to see the world. The Global Intercampus Program lets you spend a semester in Melbourne with no added costs to your regular course fees.

Seize the day
Use your semester breaks to go on short study tours overseas, typically around two to four weeks, at selected partner universities.

Unique research opportunities
Work with world-renowned professors on cutting-edge research projects and experience life in a leading research laboratory overseas.
WE’LL SUPPORT YOU

Academia may be a major part of your student life but we recognise what happens around you can matter just as much. From providing general guidance to specialised support, we are here to help you make the most out of your university experience.

Campus security
Our security team works round the clock to ensure a safe and secure campus environment.

IMPROVE YOUR ENGLISH

If you’ve met our academic requirements but narrowly missed the English language requirements, Monash English Bridging is for you. This 20-week course prepares you for the English language and academic expectations of Monash, giving you the skills needed to succeed in your studies.

At a glance
• Duration: 20 weeks
• Intakes: February and August
• Fees: RM9991 Malaysian student  RM10,185 International student

FIRST 10 WEEKS
Four hours a day with a total of 20 hours a week.

SUBSEQUENT 10 WEEKS
Four hours a day with a total of 20 hours a week.

20 WEEKS
Total of 400 hours.

What will you gain from this course?
• Be better prepared to meet the English standards required for pursuing a Monash University degree.
• Gain confidence in academic skills from the improvement of English proficiency.
• Expand social skills and be part of an international community.
• Study with like-minded students with similar destination courses.
• Feel more supported through a personalised learning plan and the ability to track your own progress via the Learning Management System.

What skills will you develop?
• Communicate effectively in social conversations, academic discussions and presentations.
• Improve your grammar, vocabulary and pronunciation.
• Improve your writing, reading and listening skills.
• Understand, apply and explain theories in your degree program.
• Write summaries and short reports in an academic style.
• Understand and apply academic integrity.
• Learn how to respond to feedback.
• Become an independent learner.

monash.edu.my/meb

Monash English Bridging was a great start to my university life. It helped prepare me for university and gave me time to adapt to the environment and learn more about the cultures around me.

RAZAN WALEED ZAHER ABD ELATI (center) Egypt

POSTGRADUATE PROSPECTUS 2022
Graduate study can be the foundation to a great career, turn an existing career into something brilliant, help you change careers or aid in pursuing your passion. There are two ways to study for a graduate degree – by coursework or by research.

**Coursework**
These courses enable you to extend expertise gained through your undergraduate degree, or add breadth to your knowledge and skills within a new or complementary field. A master’s degree by coursework can take between one to two years of full-time study while a postgraduate diploma may be completed in a year.

**Research**
Research-based courses offer you the opportunity to pursue your passion in a supportive environment while working with some of our brightest minds. A graduate research degree can take between one and four years of full-time study.

Many Japanese companies conduct business with Malaysian companies, so I wanted to study in Malaysia to get to know the country and to experience its cultural diversity. I chose Monash because it is one of the best universities in the world, and their students and professors are top-notch. I had many opportunities to improve my skills, which will give me an edge in my career.”

DAIKI MORITA
Master of Communications and Media Studies

How will the course help advance your career?
The course will prepare you for an exciting career in a range of industries. You’ll graduate with advanced written, communication and analytical skills and a thorough understanding of the place of communications and media in politics, public policy and business. The strong academic and research focus of the course will empower you with the intellectual confidence to succeed within a competitive industry environment.

Progression to further studies
Completion of this course with a distinction average will provide a pathway to a research degree.

CAREER PATHS
- Journalist
- Public relations consultant
- Tourism marketer
- Brand marketing manager
- Communications advisor
- Digital media strategist.
DOCTOR OF PHILOSOPHY
KPT/JPT (R1/210/6/0016) 03/27 - MQA/SWA0117

Undertaking a PhD at Monash is one of the most challenging and rewarding experiences we can offer you. Be part of a proud tradition of research excellence.

The program consists of an extensive, independent research project in your discipline of choice, supported by a minimum of two academic supervisors throughout your candidature. Your study will result in a research thesis which makes a valuable contribution to the current body of knowledge on your chosen topic.

Areas of research
- Anthropology (visual and urban)
- Communications
- Critical Asian studies
- Cultural studies
- Development studies
- Film and television studies
- Gender and sexuality studies
- History
- Human geography
- International political economy
- International relations
- Internet studies
- Literary studies
- Media studies
- Migration studies
- Politics/political science
- Religious studies
- Sociology
- Theology
- Urban studies.

Monash has established itself as a university that celebrates diversity in research, and fosters real growth, creativity, and life-long learning. It has opened my eyes to the various possibilities in my area of research and afforded me the academic and financial opportunities to seek them out.”

STEPHANIE TAN
Doctor of Philosophy

The support provided by Monash has been wholesome and second to none. The open and forward-thinking culture within the university, as well as quality supervision it offers, allow me to feel at ease despite the challenging nature of pursuing doctoral research. And with a first-class infrastructure, access to wonderful academicians and admin staff that really have the best interest of their student researchers, I know that I have made the right decision to enroll in Monash for my final academic journey.”

TENGKU ZAHASLAN
Doctor of Philosophy
I chose to study the Master of International Business because of its versatility. You can tell just by looking at the program structure that it’s geared towards creating professionals, and that it integrates well with other disciplines. The lecturers are also extremely qualified. Academically, I don’t think there’s any match for Monash.”

JUNAID AHSAN
Master of International Business
Junior Project Leader at Mindvalley.

Business

BUSINESS

Advance your business knowledge and gain the skills to operate from a global perspective.

Specifically designed for recent graduates and those in the early stages of their career, this course will build on your undergraduate credentials and further strengthen your business skills.

This course has a business-oriented focus, seeking to advance your knowledge of the international environment in which firms and their managers operate, considering issues such as international trade and the internationalisation of operations. You’ll develop expertise in communicating and negotiating across cultures, and enhance your capacity for advanced analysis of firm internationalisation, corporate strategy, and more.

Experiential learning

Study tour
Go on local and international site visits to gain a better understanding of the impact of that location’s environment on business and its implications for management. Our students have been to China, Japan, Hong Kong, India and Korea where they’ve visited companies such as Boeing, Crédit Agricole, Hewlett-Packard and Samsung.

Applied business project
Get more hands-on experience by working on a project assigned by our industry partner. You’ll be guided through the processes of proposal writing, data collection and analysis, project implementation, business planning, and project reporting.

Progression to further studies
This degree offers a research pathway to the Monash Doctoral Program (PhD). Opt to complete research-based electives to qualify.

Prior qualifications
This course caters to students from a variety of backgrounds. If you already have a degree in a relevant discipline1, you can accelerate your study with an exemption from preparatory units.

CAREER PATHS

Career opportunities are extensive, including strategy planning and analysis, strategic management, consultancy, international business, and export-import strategy within businesses and industries that have an international focus. Graduates will also be suitably trained for employment by multinational corporations.

1 Relevant disciplines include any major within management, business, and economics with approval from the course coordinator.
Enrich your business and commerce knowledge, and give your career a boost. This is a research-centred course with a focus on a number of highly valued key skills within the industry and in academia. You’ll be guided to approach practical problems from a broader intellectual perspective.

This course can lead you to a research degree. If you graduate with first-class honours, you may be able to enter the Monash Doctoral Program (PhD) without first completing a master’s degree by research.

Areas of study
- Accountancy
- Applied economics
- Banking and financial management
- Business analytics
- Business law and taxation
- Econometrics and business statistics
- International business management
- Strategic marketing.

(*Coursework and Research*)

LAUNCH YOUR BIG IDEA
Monash’s Entrepreneurship and Innovation Hub (eIHUB) collaborates and partners with university clubs, industry and the community to support students in building achievable and sustainable startups and social enterprises. Students can access incubation rooms and a lounge for informal discussions, and participate in brainstorming sessions to develop innovative and entrepreneurial solutions to real business issues. eIHUB also runs regular speaker series, workshops, seminars, bootcamps and networking sessions.

MASTER OF PHILOSOPHY

Join the global conversation about the most prominent theories and ideas in your field through the independent investigation of research questions that you have formulated.

The degree allows you to develop in-depth knowledge, expertise and skills through the application of research to business challenges, with support from a minimum of two supervisors throughout your enrolment. You’ll gain experience in the design and implementation of research and make a contribution to an existing body of knowledge by applying, clarifying or interpreting that knowledge.

Areas of research
- Accounting
- Business law and taxation
- Management
- Marketing
- Specialist streams in economics.

Progression to further studies
Complete relevant coursework in a particular discipline area and achieve a minimum score of 70 per cent to upgrade to a PhD.

DOCTOR OF PHILOSOPHY

- Management
- Marketing.

I chose Monash because of its reputation and experienced researchers. With their guidance, I had the opportunity to engage in high-impact research that could potentially be expanded on a larger scale to benefit society.”

HWANG LI-ANN
Doctor of Philosophy

Li-Ann’s research focused on ICT and education for vulnerable communities. Students from such communities face challenges in accessing quality education and measures must be taken from the earliest level of education to prepare them for an information-driven society. She hopes that her findings would offer insights to key stakeholders and policymakers in developing effective strategies and policies to provide a more holistic technology-enabled education approach for students.
Monash incorporated the latest technological advances in my course, which enhanced my employability when I entered the job market. The education structure also gave a lot of importance to the concept of learning by practice, and that helped me to improve my self-learning and decision-making skills. I believe Monash laid a solid foundation of technical, leadership, communication and people skills that prepared me for the working world."

ARUNI ALAHAKONE
Master of Engineering Science (Research)
Lead Engineer at Zebra Technologies, Sri Lanka.

Monash incorporated the latest technological advances in my course, which enhanced my employability when I entered the job market. The education structure also gave a lot of importance to the concept of learning by practice, and that helped me to improve my self-learning and decision-making skills. I believe Monash laid a solid foundation of technical, leadership, communication and people skills that prepared me for the working world."

ARUNI ALAHAKONE
Master of Engineering Science (Research)
Lead Engineer at Zebra Technologies, Sri Lanka.

This course offers an inspiring study and learning experience that will elevate you to a domain expert in your chosen specialisation.

Whether you’re a working professional looking for a competitive edge or a recent graduate, you’ll greatly benefit from this future-focussed course. You’ll learn through hands-on experience with process and technology in our finest facilities, as well as practical work from our industry partners.

When you graduate, you’ll be fully equipped with the knowledge and skills to solve Industry 4.0-related challenges and meet UN Sustainable Development Goals.

Areas of specialisation
- Energy and sustainability
- Oil and fats processing
- Industrial and robotics engineering.

Prerequisite program
Do you have a science-related degree? You can now pursue a career in engineering. A prerequisite program will give you the engineering knowledge needed for this course.

You’ll also need to undertake this program if you have a 3-year engineering qualification. You may be eligible for credit for prior learning, subject to approval, which can reduce the number of units and duration required to complete the prerequisite program.

Bursaries
Bursaries are available for this course, including for the prerequisite program. Please turn to page 8 for details.
MASTER OF ENGINEERING SCIENCE (RESEARCH)

This research degree is a truly global qualification that provides you with the grounding to delve deeply into engineering challenges and create solutions for the future.

During your candidature, you’ll develop specialised knowledge and skills in your chosen area that will enable you to address national issues and global needs, and improve the way of life in local communities.

Whether you want to get ahead in your career faster or improve your knowledge, this Monash postgraduate degree will give you a distinct advantage.

Areas of study
- Advanced materials
- Artificial intelligence
- Bioprocess engineering
- Biomechanics
- Bioinspired systems
- Critical infrastructure
- Energy
- Engineering in medical and healthcare
- Environmental engineering
- Food and pharmaceutical processing
- Future wireless access technologies
- Intelligent lighting
- Management of natural resources and phenomena
- Nanotechnology
- Nanoelectronics
- Optical communications and photonics
- Process modeling, simulation and optimisation
- Smart manufacturing and industry 4.0
- Sustainable drainage and flood management
- Sustainable transportation engineering
- Thermal management
- Waste management.

DOCTOR OF PHILOSOPHY

Undertaking a PhD at Monash is one of the most challenging and rewarding experiences we can offer you. Be part of a proud tradition of research excellence.

The program consists of an extensive, independent research project in your discipline of choice, supported by a minimum of two academic supervisors throughout your candidature. Your study will result in a research thesis which makes a valuable contribution to the current body of knowledge on your chosen topic.
Teaching excellence and outstanding reputation are my main reasons for choosing Monash. I am able to access world-class education with an affordable course fee. With MBIS, I’m prepared to enter the IT industry with a strong IT foundation and exposure to the latest technology trends.”

TAN YI WEN
Master of Business Information Systems

Information drives businesses. Without it, they cease to function. Whether for day-to-day operations or strategic decision-making, there is an imperative to record, manage and use information. This course prepares you for careers in big data analytics, business intelligence, systems design, planning and management, as well as knowledge and information management. You’ll gain the expertise to design solutions to business information problems, and to offer strategic guidance to organisations that will enhance their management and governance.

Professionally accredited
This course is accredited by the Australian Computer Society.

Experiential learning
You can opt for an industry experience or research as part of the degree. Choose between:
* a program of coursework involving advanced study and an industry experience studio project.
* a minor thesis research program, consisting of a research project and a research methods training unit. If you’re using this master’s course as a pathway to a higher degree by research, you should take this option.

Prior qualifications
This course caters to students from a variety of backgrounds. If you do not have previous training in IT, the course includes preparatory units that will give you the IT knowledge needed for the remainder of the course. However, if you already have a degree in IT, you may be able to accelerate your study with an exemption from these preparatory units. This means that you can graduate in 1.5 years on full-time study.
Join the global conversation about the most prominent theories and ideas in your field through the independent investigation of research questions that you have formulated. The degree allows you to develop in-depth knowledge, expertise and skills through the application of research to business challenges, with support from a minimum of two supervisors throughout your enrolment. You’ll gain experience in the design and implementation of research and make a contribution to an existing body of knowledge by applying, clarifying or interpreting that knowledge.

**Areas of research**
- Artificial intelligence
- Cybersecurity
- Data science
- Digital health
- Software engineering.

**Progression to further studies**
If you have demonstrated exceptional progress, and your project has sufficient depth and breadth to meet the requirements of a PhD, you may apply to transfer into a PhD as part of your research master’s confirmation milestone. Any decision to approve your transfer from a research master’s degree to a PhD ultimately resides with the Milestone Review Panel and Graduate Research Committee.

**I chose Monash because it emphasises the real-life contributions of research. I am genuinely passionate about research, but what I truly strive for is conducting research that is impactful and brings value to society. In addition, I assumed that pursuing a PhD at a world-class university such as Monash means that I will have access to excellent research opportunities and facilities, and I was right.”**

HISHAM AL-WARD
Doctor of Philosophy

The Internet of Things (IoT) is projected to connect up to 30 billion devices by 2025, and such a massive number of connections is certain to generate huge amounts of data and present a challenge to the core network. Hisham is working on developing new optimisation solutions to improve the reliability and performance of IoT networks.
Completing this course was one of my best decisions! I have always found joy in being a listening ear for others and with my training, I am able to fulfill my calling more effectively. It was at Monash where I met my co-founders of our counselling centre, and it has been a blessing to be able to pursue my passion with people I truly enjoy working and growing with.”

GENEVIEVE WONG
Master of Professional Counselling
Co-founder and Director, BAE Counselling and Therapy Centre

If you’re passionate about helping people and want to make a positive difference in the lives of others, this is the course for you.

This skill-based course is taught by leading academics with extensive experience working as counsellors and psychologists. It offers a combination of theory and professional experience, providing you with the knowledge and skills to begin a rewarding career as a counsellor. This degree is also suitable if you’re already in a profession that needs counselling skills, such as teaching, social work or human resources.

Work placement
A distinctive aspect of this course is its focus on preparing students to be culturally competent counsellors. You’ll complete 768 hours of clinical placements, comprising 300 hours of client contact and 468 hours of non-contact placement activities.

Professionally accredited
This course is fully accredited by the:
- Malaysian Board of Counsellors
- Australian Counselling Association
- Psychotherapy and Counselling Federation of Australia.

CAREER PATHWAYS
Upon completing this course, you should be able to work as a counsellor with an advanced level of knowledge, and be cognisant of the professional issues involved in undertaking counselling as a profession in Malaysia and the region. You’ll be able to work in settings such as community mental health clinics, schools, health centres, workplaces and in private practice.
MASTER OF BIOMEDICAL SCIENCE

Make a significant contribution to the knowledge and understanding of key areas in medicine and health sciences.

This research degree may be undertaken in any of the school’s principal research areas and strengths. You’ll be supported by a supervisory team and under their guidance, develop a thorough understanding of relevant research techniques. It’s expected that your research will make a contribution to the discipline in which you’re enrolled by applying, critiquing, analysing or interpreting that knowledge in ways that facilitate pathways for further learning.

Areas of study
- Biomedical sciences
- Psychology
- Public health
- Clinical sciences
- Pharmaceutical sciences.

Progression to further studies
You can apply to transfer to a PhD candidature after a defined period (usually 9-12 months enrolment full-time or equivalent), provided that satisfactory progress has been made and certain conditions are met.

POSTGRADUATE DIPLOMA IN BIOMEDICAL SCIENCE

If you want to pursue a research degree but do not hold an honours degree or equivalent, this course can be your qualifying degree.

In this course, you’ll undertake approved research projects for a specified period under the supervision of at least two academic staff members.

Areas of study
- Biomedical sciences
- Psychology
- Public health
- Clinical sciences
- Pharmaceutical sciences.
Monash is one of the best universities in Malaysia with a supportive research environment. My supervisor is a renowned researcher in the field of nanomedicine, which influenced me to pursue my postgraduate degree at Monash. Studying at Monash was one of the best decisions in my life.”

DR NABILAH IBNAT
Doctor of Philosophy
Research Investigator at the International Centre for Diarrhoeal Disease Research, Bangladesh.

Malaysia has the highest rate of diabetes in Asia, with seven million expected to be diagnosed with the chronic disease by 2025. Professor Dato’ Dr Khalid Abdul Kadir is exploring compound acids as a sugar substitute and an antioxidant to reduce diabetic complications.
Monash supports a unique environment filled with diverse, energetic and talented people who are extremely motivated. I was inspired to innovate and collaborate while developing my skills and expertise.

DR SHAFI ULLAH KHAN
Doctor of Philosophy (in the area of Medicinal Chemistry)
Associate Professor in the Department of Pharmacy at Abasyn University Peshawar, Pakistan.

Shafi’s graduate research tackled chemotherapy resistance, a major challenge in breast cancer treatment. Using a hybrid virtual screening, synthesis, and biological evaluation method, he identified a few compounds that could be used in treatment. He also synthesised a new and potentially cost-effective fluorescence probe for breast cancer screening.

Areas of research
• Anticancer therapeutics
• Clinical pharmacy
• Complementary and alternative medicine
• Digital health
• Drug delivery
• Drug discovery and development
• Health economics
• Health policy
• Medicinal chemistry
• Microbiology
• Neuropharmacology and medical biochemistry
• Organic and biomolecular chemistry
• Pharmaceutical analysis/Pharmaceutical sciences
• Pharmacogenomics
• Pharmacoepidemiology and evidence synthesis
• Pharmacognosy
• Pharmacology
• Pharmacy practice
• Public health.

3-4 years (full-time)
6-8 years (part-time)*
Your PhD research project is to be conceived from the outset as clearly achievable within three years equivalent full-time, and you’re expected to complete your degree within three to four years equivalent full-time.

Throughout the year
(subject to availability of supervision)

RM42,333 Malaysian student
RM46,556 International student
2022 fees per year

Research

*Part-time study is not available for international students.
Monash has provided me with various interesting opportunities ranging from participating in international research conferences or workshops, going on multiple research field trips, as well as a part-time teaching position on campus. These opportunities have allowed me to widen my knowledge not just in research-related skills but also to broaden my perspectives in life by simply allowing me to travel, meet and learn from people all around the world.”

DR CHERYL ONG SUE PENG
Doctor of Philosophy
Research & Advisory Manager, Roundtable on Sustainable Palm Oil (RSPO)

MASTER OF SCIENCE (RESEARCH)

This degree allows you to pursue independent research in a specific area of science over a shorter period of time than a PhD.

If you’re unsure whether a PhD is right for you, this course can give you the experience of what studying for a doctorate might be like, while developing your skills and earning a degree that will enhance your employment prospects. If you decide that you’re passionate about your research, the option of upgrading to a PhD after your first year is possible.

This research degree may be undertaken in any of the school’s principal research areas and strengths. Your work will be expected to make a significant contribution to the knowledge and understanding of your chosen field of study and demonstrate your capacity to carry out independent research.

Areas of study
- Biodiversity and conservation
- Biotechnology
- Chemistry
- Food science and technology
- Genetics, genomics and bioinformatics
- Infectious disease
- Medical bioscience
- Microbiology
- Natural products and drug discovery
- Tropical and environmental biology

Progression to further studies
You can apply to transfer to a PhD candidature after a defined period (usually 9-12 months enrolment, full-time or equivalent), provided that satisfactory progress has been made and certain conditions are met.
I knew Monash was the right place for me to develop the research skills and professional attributes I needed to make an impact in the world of academia, and I was not disappointed. My experience at Monash has been nothing short of exceptional.”

DR DIANE SUNIRA DANIEL
Doctor of Philosophy
Antimicrobial Resistance Research Officer in the Department of Microbiology and Immunology at University of Melbourne, Australia.

Diane’s research at Monash proposed a framework for the development of new strategies to prevent and treat Enterococcus faecalis infections, as well as highlight the need of health care settings and industries in Malaysia to strictly regulate the use of antibiotics to curb the emerging threat of multi-drug resistant enterococci. She continues to expand on her research interest in her current role, where she conducts phenotypic and molecular research on antimicrobial resistance of bacterial pathogens deemed important by international agencies.

Professor Qasim Ayub is studying the genetic diversity of human hosts and pathogens, and how our immune systems respond to parasitic infections to change the way we treat them.

Areas of research
- Biodiversity and conservation
- Biotechnology
- Chemistry
- Food science and technology
- Genetics, genomics and bioinformatics
- Infectious diseases
- Medical bioscience
- Microbiology
- Natural products and drug discovery
- Tropical and environmental biology.
ENGLISH LANGUAGE REQUIREMENTS

When you apply for a Monash University postgraduate course you must satisfy English entry requirements.

Different English entry levels apply to postgraduate courses. If you have completed several measures of English proficiency over a period of time, the highest valid measure will be accepted as long as it has been taken within the time limitations specified below. English requirements can be met in one of the following ways:

1. **English is the language of instruction, communication and assessment for the entire institution**: You can meet the English language requirements if you have undertaken studies at an institution where English is the language of instruction, communication and assessment for all aspects of study for the whole of the educational institution by completing the following qualifications:
   - an Australian bachelor’s degree (or equivalent), which must be completed and taken within five years prior to the Monash course commencement date
   - an Australian master’s degree (or equivalent), which must be completed and taken within two years prior to the Monash course commencement date.

   Documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

2. **English Proficiency Tests**:
   - **Academic IELTS (International English Language Testing System)**. For more information visit, [www.ielts.org](http://www.ielts.org)
     - The University’s minimum English language requirement is an Academic IELTS overall band score of 6.5 with no band less than 6.0.
   - **Internet/Paper-Based TOEFL/TOEFL IBT Special Home Edition** (American Test of English as a Foreign Language). For more information visit, [www.ets.org](http://www.ets.org)
     - The University’s minimum English language requirement is an Internet-based TOEFL/TOEFL IBT Special Home Edition total score of 79 with 12 in Listening, 13 in Reading, 21 in Writing and 18 in Speaking or
     - A certified Paper-based TOEFL with a total score of 550 with TWE of 4.5
   - **Pearson Test of English (Academic)**. For more information visit, [www.pearsonpte.com](http://www.pearsonpte.com)
     - The University’s minimum English language requirement is a Pearson Test of English Academic overall score of 58 with no Communicative Skills lower than 50.
   - **Cambridge Certificate in Advanced English (CAE), Cambridge Certificate of Proficiency in English (CPE) and Cambridge Linguaskill General**. For more information visit, [www.cambridgeenglish.org](http://www.cambridgeenglish.org)
     - The University’s minimum English language requirement is a minimum overall score of 176 in CAE, CPE or Linguaskill General with no skill score lower than 169.

In order for the above English proficiency tests to be considered they must be taken within 36 months prior to the course commencement date.

**Monash English Bridging (MEB)**

Monash University Malaysia also offers Monash English Bridging (MEB) for students who do not meet the undergraduate or graduate English entry requirements. Upon successful completion of MEB, you will gain the proficiency needed to succeed at Monash University. Some Monash University courses do not accept MEB.

For more information visit, [monash.edu.my/english-bridging](http://monash.edu.my/english-bridging)

For more information regarding admission to coursework courses and units of study procedures please refer to the following link:

[monash.edu/admissions-coursework-procedures](http://monash.edu/admissions-coursework-procedures)

Monash University reserves the right to ask you to undertake an approved English proficiency test to meet the English course requirements. The published scores are based on Monash University’s English requirements and subject to change.

In addition to the University’s English requirements, the Malaysian Government has set English requirements for each course. When you apply, you will be advised if you have met those requirements.

**Caption**

Team Monash Green Lab is the first runner-up of a nationwide competition to create a sustainable solution to revitalise the Kerayong river. The team will have the opportunity to implement their ideas at a commercial level with the help of GreenTech Malaysia, Malaysian Global Innovation & Creativity Centre, and other parties.

From left: Lim Fang Sheng, PhD in Mechanical Engineering; Saima Islam, Bachelor of Arts (Honours); Arshia Fathima, PhD in Chemical Engineering; Dr Arshad Salema, School of Engineering; Ng Jia Yi, Bachelor of Arts and Social Sciences; and Istiaq Jamil Siddique, PhD in Mechanical Engineering.
ENGLISH LANGUAGE REQUIREMENTS

When you apply for a Monash University postgraduate course you must satisfy English entry requirements. Different English entry levels apply to postgraduate courses. If you have completed several measures of English proficiency over a period of time, the highest valid measure will be accepted as long as it has been taken within the time limitations specified below.

English requirements can be met in one of the following ways:

1. English is the language of instruction, communication and assessment for the entire institution:
   - You can meet the English language requirements if you have undertaken studies at an institution where English is the language of instruction, communication and assessment for all aspects of study for the whole of the educational institution by completing the following qualifications:
     - an Australian bachelor’s degree (or equivalent), which must be completed and taken within five years prior to the Monash course commencement date
     - an Australian master’s degree (or equivalent), which must be completed and taken within two years prior to the Monash course commencement date.
   - Documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

2. English Proficiency Tests:
   - the following English proficiency tests are accepted by Monash University:
     - Academic IELTS (International English Language Testing System). For more information visit, www.ielts.org
       The University’s minimum English language requirement is an Academic IELTS overall band score of 6.5 with no band less than 6.0.
       The University’s minimum English language requirement is an Internet-based TOEFL/TOEFL IBT Special Home Edition total score of 79 with 12 in Listening, 13 in Reading, 21 in Writing and 18 in Speaking
       OR
       A certified Paper-based TOEFL with a total score of 550 with TWE of 4.5
     - Pearson Test of English (Academic). For more information visit, www.pearsonpte.com
       The University’s minimum English language requirement is a Pearson Test of English Academic overall score of 58 with no Communicative Skills lower than 50.
     - Cambridge Certificate in Advanced English (CAE), Cambridge Certificate of Proficiency in English (CPE) and Cambridge Linguaskill General. For more information visit, www.cambridgeenglish.org
       The University’s minimum English language requirement is a minimum overall score of 176 in CAE, CPE or Linguaskill General with no skill score lower than 169.

In order for the above English proficiency tests to be considered they must be taken within 36 months prior to the course commencement date.

MONASH ENGLISH BRIDGING

Monash University Malaysia also offers Monash English Bridging (MEB) for students who do not meet the undergraduate or graduate English entry requirements. Upon successful completion of MEB, you will gain the proficiency needed to succeed at Monash University. Some Monash University courses do not accept MEB.

For more information visit, monash.edu.my/english-bridging

For more information regarding admission to coursework courses and units of study procedures please refer to the following link: monash.edu/admissions-coursework-procedures

Monash University reserves the right to ask you to undertake an approved English proficiency test to meet the English course requirements.

The published scores are based on Monash University’s English requirements and subject to change.

In addition to the University’s English requirements, the Malaysian Government has set English requirements for each course. When you apply, you will be advised if you have met those requirements.
HOW TO APPLY

Are you ready to apply to Monash University Malaysia? The application process is quick and easy. Follow these simple steps to get started.

1. Please refer to the Education Malaysia Global Services’s website for more information on SEV required countries: visa.educationmalaysia.gov.my/guidelines/sev-required-countries.html

COURSEWORK DEGREE APPLICATIONS

1. Apply
   monash.edu.my/apply-online

2. Your application is assessed

3. Accept your offer
   monash.edu.my/accept

Malaysian students

4. Arrange for accommodation (if required)

5. Participate in orientation
   monash.edu.my/orientation

International students

4. Submit your student pass application

5. Your student pass is approved

6. Apply for single entry visa (if required)

7. Arrange for accommodation and fly to Malaysia

8. Participate in orientation
   monash.edu.my/orientation

1. Please refer to the Education Malaysia Global Services’s website for more information on SEV required countries: visa.educationmalaysia.gov.my/guidelines/sev-required-countries.html
Step 1
Application
Check and ensure you meet the entry requirements. For your application to be successful, you must satisfy the academic performance, English language proficiency standard and be at least 17 years of age at your time of enrolment.

An online application should take between 15 and 30 minutes if you have all your details and documentation ready.

1. To make an online application, visit monash.edu.my/submit
2. You must provide a copy of all documents:
   - Attached copy of your IC/Passport information page.
   - Attached copy of all academic transcripts and/or work experience.
   - If documents are in a language other than English, English-translated copies must also be provided.
   - Applications will only be processed once all the required documentation is received.

Application fees
An application fee of RM100 (non-refundable) must be paid when you submit your online application. Your application won’t be processed unless you’ve paid this fee.

Your payment options are:
- credit card
- online banking/Interbank Giro (please upload proof of payment to the online portal.)

For more information, visit monash.edu.my/apply-online

Need help with your application?
Contact us:
- mum.enquiry@monash.edu
- +60 3 5514 6000
- Live Chat (Weekdays from MYT 9am to 5pm)
  ask.monash.edu.my

If you’re an international student applying through a Monash agent, please ensure that your agent is an authorised agent by visiting monash.edu.my/agents.

Step 2
Application assessment and outcome
1. Once a completed application has been received by Admissions and Student Pass, it’ll be assessed according to the University’s entry requirements.
2. Following the assessment of your application, you’ll receive either one of these notifications:

Letter of Offer
If you meet all the conditions for entry, a Full Offer will be issued. The Offer Letter will confirm the details of the offer being made, namely: course title and start date, length of course, fee information, and any conditions that may apply. The Offer Letter will be sent to you and your agent by email only and acceptances must be made by the offer lapse date stated in your Offer Letter.

Conditional Offer
This letter will inform you that the offer is made with conditions which need to be satisfied. Evidence must be shown that you’ve met the conditions before a conditional offer can be converted to a full offer, such as:

i. Other conditions
   This generally occurs because you haven’t submitted all the required documentation in your application. Other reasons may be stated in your letter. Your admission won’t be confirmed until you satisfy all conditions, which means arranging for all outstanding documents to be submitted to Admissions and Student Pass, Monash University Malaysia.

ii. English language requirement condition
   In the event the English language requirement isn’t met, you’ll need to re-sit for the necessary English language qualification and submit the results to meet the requirements. The campus offers the Monash English Bridging (MEB) program, which runs for 20 weeks. You can write to mum.admissions@monash.edu to enrol in the program.

iii. Deadlines for meeting your conditions
   There are deadlines by which you must satisfy the conditions of your offer. In the event that you fail to satisfy the conditions by the lapse date, the conditional offer shall immediately become null and void and of no further force or effect. You’ll have to reapply for admission at the next available intake.

Rejection letter
A rejection letter will be issued if you’re unsuccessful in meeting Monash University’s entry requirements.

Step 3
Accepting the offer
To secure a place at Monash University Malaysia, you must accept the offer before the deadline stated in your Offer Letter with relevant payment of fee. Failing to do so will cause the offer to lapse. Details on how to accept the offer will be provided in your Offer Letter. For more information, visit monash.edu.my/lets-begin

Step 4 (For international students)
Student pass application
You’ll be advised on whether:
- you should apply directly via the Education Malaysia Global Services portal at visa.educationmalaysia.gov.my/customer/account/login/
- Monash will submit on your behalf.

For more information, visit monash.edu.my/student-pass

General fees for 2022
Application (once only)  
RM100
Registration (once only)  
RM200
General amenities (per semester)  
RM100

What’s next?
Orientation Week
You’re encouraged to participate in the Orientation Program, which is specifically designed to help you adjust to life at Monash University Malaysia. You should arrive at the University in time for this program, which starts one week before the new semester commences. For more information, visit monash.edu.my/orientation
HOW TO APPLY

1. Check your eligibility
2. Find your supervisors
3. Submit your Expression of Interest
4. Receive an invitation to apply
5. Prepare your documentation
6. Lodge a formal application
   monash.edu.my/apply-graduate-research
7. Your application is assessed
8. Accept your offer
Step 1
Check your eligibility
You’ll need to have met the minimum entry requirements for graduate research. Check that you have the necessary academic qualifications and English language proficiency, and are at least 17 years of age at the time of enrolment. Please contact the respective school’s Research Management Office for additional faculty-based requirements.

ARTS AND SOCIAL SCIENCES

SCIENCE
Dr Tan Wooi Boon
Research Manager
E tan.wooi.boon@monash.edu
W monash.edu.my/science

Step 2
Find your supervisors
Graduate research degrees involve the independent investigation of a research problem formulated in consultation with a minimum of two supervisors. Visit the school’s website (available in Step 1) to start searching for potential supervisors.

Step 3
Submit your Expression of Interest
Once you have identified supervisors in the research area of your choice, submit the Expression of Interest (EOI) form and the supporting documents as specified. Please reach out to the respective school’s Research Management Office for a copy or link to the form.

Step 4
Receive an invitation to apply
If your EOI is successful, you’ll receive an invitation to apply for a research degree.

The Research Management Office receives a high volume of enquiries from potential students and it may take up to four weeks to process your EOI.

Step 5
Prepare your documentation
When completing your application, you’ll be asked to upload copies of documents which include at least:
* academic curriculum vitae
* academic transcripts
* proof of citizenship
* proof of meeting the University’s English language proficiency requirement
* referee reports
* research proposal.

Step 6
Lodge a formal application
You’re ready to submit your application once you have an invitation to apply and supporting documents.

If you wish to be considered for a competitive, merit-based scholarship simply indicate this on the application form. There is no need to submit a separate application form. For more information on the scholarships available, please get in touch with the respective school’s Research Management Office.

Step 7
Your application is assessed
Applications can take between six to eight weeks to process. Once the assessment process is complete you will be formally notified of the outcome. If you have applied for a scholarship, your school’s Research Management Office will get in touch with you.

Step 8
Accept your offer
If you receive an offer of admission and/or an offer of scholarship support, you are required to formally accept or decline the offer(s).
A GUIDE TO COURSES, FEES AND ENTRY REQUIREMENTS

TUITION FEES

Tuition fees vary depending on the course and the year of commencement. All tuition fees and course durations specified in this guide are in Malaysian Ringgit and only apply to courses studied at the Malaysian campus. The tuition fees quoted are based on a standard full-time load unless otherwise stated and are applicable to courses commencing in 2022. Monash University Malaysia reserves the right to adjust the annual tuition fees in future years of your course. Any adjustments will be applied on the first day of January each year.

---

1 Part-time studies are not available for international students.
2 Students with a prior 3-year engineering or a science qualification will need to undertake a prerequisite program, which will incur additional fees of RM6250 per unit for up to 8 units. Three-year engineering graduates may be eligible for credit for prior learning, subject to approval. This can reduce the number of units and duration required to complete the prerequisite program. Bursaries available.
Entry Requirements

monash.edu/my/english-bridging

- An Australian bachelor's degree (or equivalent) in a cognate discipline including humanities or social sciences with at least credit (60%) average, or equivalent qualification and experience approved by the faculty; or
- An Australian bachelor's degree (or equivalent) and an Australian graduate certificate (or equivalent) in a cognate discipline including humanities or social sciences with at least a 60 percent average in both qualifications; or equivalent qualification and experience approved by the faculty.
- Meet the English language requirements of the University (Monash English Bridging is accepted).

Applicants with an average between 50%-60% may be considered if they have at least five years of work experience in a relevant field, as required by the Malaysian Qualifications Agency for applicants with less than CGPA 2.50 (equivalent 60% average).

Applicants will be expected to provide a Curriculum Vitae and reference from their employer to be assessed for relevant work experience as part of the application process. An employee would generally be required to undertake work that requires a level of autonomy and accountability. Employees would be expected to exercise a range of professional capabilities, including strong communication skills, the ability to apply initiative and sound judgment and analytical and critical thinking skills.

- CAE/CPE/Cambridge Linguaskill General: overall score of 162 with no score lower than 154; or
- IELTS: overall score of 5.5 with no band lower than 5.0; or
- Paper-based TOEFL: overall score of 471, with a TWE score of at least 4.0; or
- Internet-based TOEFL: overall score of 52, with a minimum score of 15 in writing, score of 14 in speaking, score of 5 in reading and score of 5 in listening; or
- PTE Academic (Pearson Test of Academic English): overall score of 42, with a writing communicative skills score of at least 36 and no PTE communicative skills score below 36.

Any other qualifications or requirements recognised by Monash University and the Malaysian Government.

The published scores are based on Monash University’s English requirements and subject to change.

Additionally, the Malaysian Government has set an English requirement for each course, which may be higher than the University’s. When you apply, you will be advised if your qualification(s) have met the Malaysian Government’s requirement.

- An Australian undergraduate degree (or equivalent) with at least a WAM of 60 or equivalent or a qualification deemed equivalent by the Faculty and with a minimum of 5 years relevant employment.
- Meet the English language requirements of the University (Monash English Bridging is accepted).

- An Australian undergraduate degree (or equivalent) with a distinction (70%) average or above in 24 points of studies at level three in the relevant area of business; or
- Minimum average grade of 60% of a postgraduate degree in the relevant area of business; and
- Meet the English language requirements of the University.

monash.edu/my/engineering

Entry level 1: Up to 96 points to complete (with the prerequisite program) | Duration: Up to 2 years full-time, 4 years part-time

- An Australian bachelor degree in engineering, science, applied science, IT, or equivalent qualification approved by the Faculty.
- A minimum WAM 60 or equivalent.
- Meet the English language requirements of the University (Monash English Bridging is accepted).

Entry level 2: 48 points to complete | Duration: 1 year full-time, 2 years part-time

- An Australian bachelor honours degree (or equivalent) in the engineering discipline.
- A minimum WAM 60 or equivalent.
- Meet the English language requirements of the University (Monash English Bridging is accepted).

- A degree in Bachelor of Engineering with upper H2B (a mark of 65 or above) in an honours year in a relevant field, or
- Qualifications or experience that Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above.
- Meet the English language requirements of the University.

Entry requirements are subject to change. Please refer to monash.edu/my for the latest updates.

¹ Part-time studies are not available for international students.
Entry Requirements

- An Australian undergraduate degree (or equivalent) with at least a WAM of 60 or equivalent.
- Meet the English language requirements of the University (Monash English Bridging is accepted).
- Submit a CV and two referee reports from academics.
- Pass an interview that will assess the student’s motivation to undertake the degree and their personal and professional suitability. The interview will consist of a multi-station assessment process.
- Meet the English language requirements of the University (Monash English Bridging is not accepted).

- A bachelor’s degree requiring at least four years of full-time study which includes a significant research component in the fourth year, leading to an honours degree class 1, 2A or upper 2B (with an overall mark of at least 65%) from a recognised tertiary institution; or
- Completion of Postgraduate Diploma in Biomedical Science with honours degree class 1, 2A or upper 2B (with an overall mark of at least 65%); or
- A master’s degree in a related discipline, including a significant research component, at least equivalent to an Australian honours degree. It is expected that at a minimum, a grade of upper 2B (with an overall mark of 65 or above) has been obtained for the research thesis; or
- Qualifications deemed equivalent by Monash University; and
- Meet the English language requirements of the University.

- Graduates who have completed their bachelor’s degree from a three-year full-time program in a relevant field and who have not attempted honours in that field. Applicants must have an average of 60% or higher in at least 24 points of third-year-level relevant units; or
- Qualifications deemed equivalent by Monash University; and
- Meet the English language requirements of the University.

- Either a bachelor’s degree requiring at least four years of full-time study, and which normally includes a research component in the fourth year with upper H2B (a mark of 65 or above) in an honours year in a relevant field; or
- A master’s degree in a relevant field that entails work, normally including a significant research component, at least equivalent to an honours degree (a “significant research component” in a master’s degree will vary from discipline to discipline), it is normally expected that at a minimum, a grade of upper 2B (with an overall mark of at least 65 or above) has been obtained for the research thesis or project. Where ungraded, examiners’ reports will be taken into account; or
- Have qualifications which in the opinion of the Graduate Research Committee are deemed equivalent.
- You must also satisfy the University’s minimum English language proficiency requirements for admission to this research degree.

School of Business
- A bachelor’s degree in a related discipline from Monash University requiring at least four years of full-time study, which normally includes a research component in the fourth year, leading to an honours degree at H1 or H2A level; or
- A course leading to a masters preliminary qualification at a level rated by the relevant department, school and committee as equivalent to an honours class 1 or 2A degree; or
- A master’s degree in a related discipline, including a significant research component, at least equivalent to an Australian honours degree (a full-time year of research and an examined thesis).

School of Information Technology
- A bachelor’s degree with honours class 1 or 2A; or
- Qualifications which in the opinion of the Monash Graduate Research Office (MGRO) are equivalent or a satisfactory substitute. Prospective research candidates are expected to have identified a certain research area of interest prior to applying. They are required to discuss the proposed research project, as well as availability of supervision and facility to conduct research with the school.
- Meet the English language requirements of the University.

Entry requirements are subject to change. Please refer to monash.edu.my for the latest updates.
