Welcome to the University of Auckland

Postgraduate study at the University of Auckland offers the opportunity to fulfil your academic and career potential. Whether you choose one of our taught or research postgraduate programmes, you can expect to challenge your thinking, learn new skills and position yourself for the next step in your career.

As you pursue advanced study, you could be involved in the discovery and development of innovations that improve our social, cultural, economic and environmental well-being. As well as innovation through research, we offer specialised and innovative degrees that meet the demands of an ever-changing world.

1 Times Higher Education and QS World University Rankings 2020
2 Times Higher Education University Impact Rankings 2021
3 QS Graduate Employability Rankings 2020

We offer a wide range of support and opportunities for students, including:
• Over 150 taught and research postgraduate programmes
• $40 million in postgraduate scholarships and awards each year
• Extensive pastoral and learning support

The University of Auckland is also placed at number one in New Zealand for Graduate Employability. When you finish your studies, you’ll be equipped for the next step – what that looks like is up to you. Success with us is just the beginning.

DAWN FRESHWATER
Vice-Chancellor
The University of Auckland
"The academic staff at the University were excellent, supportive and practical. I immediately felt like I was part of a welcoming community."

The world of work is changing rapidly and we understand how important it is to keep up. If you’re thinking about taking your career in a new direction, we have a wide range of postgraduate study options to get you started on your journey. Our programmes can help you to learn relevant, practical skills in the field you want to work in, build your professional network and get the edge you need in an increasingly competitive job market.

Switching careers can feel daunting, but we’re here to make it as easy as possible. We offer plenty of options for people who want to requalify or begin work in a new industry, whether you’ve studied previously or not. We can also support you to find job opportunities that align with your long-term career goals, so you can make the transition with confidence.

Larissa Michelsen

Larissa is a graduate of the Master of Engineering Studies programme, she works as a Product Development Engineer for Fisher & Paykel Healthcare.

If you’re looking to upskill or take your career to the next level, a postgraduate qualification will set you apart and support your future career goals.

Ready for a change?

If you want to take your career to the next level and bridge the gap between where you are in your work life and where you want to be, we can help you get there.

A qualification from the University of Auckland gives you the opportunity to build on your experience and achieve your long-term career goals. You’ll be able to position yourself for the next step in your career by developing your skills and learning from some of the best teachers in the country.

Academic Career Advancement Programme

The Academic Career Advancement Programme (ACAP) prepares mid-phase doctoral candidates for a career in academia. This competitive programme is funded by the Academic Career Advancement Award and hosted by the School of Graduate Studies.

Prepare for your future of work

If you’re looking to upskill or take your career to the next level, a postgraduate qualification will set you apart and support your future career goals.

Returning to study

It’s never too late to go back to university. Further study gives you the opportunity to achieve your academic goals and prepare for your next career move. Whether you choose one of our taught or research programmes, you can expect to build your confidence and challenge your thinking.

Learn new skills

To augment and enhance the skills and knowledge you receive as a postgraduate student, the University offers a variety of courses to develop academic and professional skills, and to help with career planning and professional development.

Academic Career Advancement Programme

The Academic Career Advancement Programme (ACAP) prepares mid-phase doctoral candidates for a career in academia. This competitive programme is funded by the Academic Career Advancement Award and hosted by the School of Graduate Studies.

Career Development and Employability Services (CDES)

Their in-person and virtual support is available from day one, right up to three years after graduation! They bring employers onto campus to connect with students in person and offer a range of interactive workshops, from finding your career direction to job search, interview skills and LinkedIn.

You can access all of their services including exclusive online modules, job board, self-service CV and cover letter checks, plus register for appointments and events via their online career platform MyCDES.

Your in-person and virtual support is available from day one, right up to three years after graduation! They bring employers onto campus to connect with students in person and offer a range of interactive workshops, from finding your career direction to job search, interview skills and LinkedIn.

Doctoral Development Framework

Career advancement comes from careful planning. The Doctoral Development Framework helps candidates plan their development holistically for success within their doctoral programme and beyond.

No.1 in New Zealand for employability*

*QS Graduate Employability Rankings 2020
Take your research to the next level

Postgraduate research is a cornerstone of the University of Auckland. We offer a wealth of opportunities for you to undertake research as a postgraduate student: from small projects to in-depth doctoral theses.

Leading researchers

The University has more internationally and nationally esteemed researchers than any other tertiary institution in New Zealand. This means you could be working alongside internationally respected researchers on a project of global significance, whilst building your international networks and a reputation of excellence.

Renowned research-led University

The University of Auckland has more top quality researchers in more subjects than any other university in New Zealand.* The University supports the work of eight faculties covering a comprehensive range of disciplines, as well as two internationally-renowned Large Scale Research Institutes. The University is also host to four Centres of Research Excellence (CoREs), partner on another four, and hosts two National Science Challenges and is a partner on another eight.

Be part of our research community

As a postgraduate researcher at the University of Auckland, you will be part of a community of like-minded postgraduate scholars that has the largest number of research degree completions in the country.

Find doctoral and masters research opportunities at the University on FindaThesis. Whether you’re searching by area of interest or looking for a specific project, the online database provides detailed information about available projects, potential supervisors and more.

FindaThesis
findathesis.auckland.ac.nz

You can also browse the University’s staff directory to find potential supervisors who research in your area of interest.

unidirectory.auckland.ac.nz

$40 million worth of postgraduate scholarships and awards are on offer each year.

*Quality Evaluation (RAE) – First Results, Ngā Kete (TEC)
From innovation workshops and challenges to supporting a spin-out company, the University has a strong innovation culture, where every student has the opportunity to develop and pursue their entrepreneurial potential.

### Velocity

**Unleash Space: innovation hub and maker space**

Unleash Space is the University’s state-of-the-art innovation hub and maker space. Membership is free for all students and staff at the University. It offers workshops, equipment and seminars to inspire and motivate and help you develop your entrepreneurial capability.

Create what you imagine, design for today and prototype for tomorrow. The space houses 3D printers, laser cutters, routers, electronics, vacuum formers, sewing machines, craft and art supplies, and other tools and machinery.

**Commercialise your research**

The University offers a range of opportunities for postgraduate students to explore the potential to commercialise their research.

Uniservices offer commercialisation workshops that:
- Introduce you to the concepts of entrepreneurship, intellectual property and commercialisation
- Equip you with the tools and skills needed to attract investment
- Help you develop networks and prepare for a career in R&D
- Offer potential investment into new start-ups
- Provide access to expert advisors through Return on Science

**Innovation programmes**

The Business School offers a Master of Business Development and a Postgraduate Certificate in Business Development, both focused on innovation and product management. This unique programme is designed for innovators, researchers and working professionals.

**IP Protection and commercial development**

Uniservices champions research and ideas with the power to change the world. From seeking out and bringing together partners in academic institutions, industry and government to build knowledge and solutions through research, Uniservices and its Intellectual Property Protection and commercialisation teams work closely with the University’s academics to transform their research into intellectual property that can be licensed.

Get a taste of postgraduate study

Meet our academics, explore your study options and see what postgraduate life could be like for you.

**Postgraduate Week**  
17-21 May 2021

Don’t miss out on the chance to attend a range of postgraduate events in 2021, including panel discussions and one-on-one advice sessions. Webinars will also give you detailed insight into some of our postgraduate programmes and the opportunity to ask our academic supervisors any questions. Registrations are essential.

[postgradweek.ac.nz](http://postgradweek.ac.nz)

**Three Minute Thesis**

Could you explain your entire thesis in under three minutes? This fast-paced global competition is an unmissable highlight in the postgraduate calendar, offering participants a unique platform to drive research impact and refine their research communications skills.

[auland.ac.nz/3mt](http://auland.ac.nz/3mt)

**Research Showcase**

Discover the breadth of postgraduate research at the School of Graduate Studies Research Showcase. This annual event is a key opportunity for postgraduates to gain public recognition for their research and to network with peers, academics and industry representatives.

[auland.ac.nz/ugs-showcase](http://auland.ac.nz/ugs-showcase)

**Study 100% online**

Explore our online masters programmes and take the next step in driving your career forward.

Now you can take the next step in your career without ever stepping foot on campus. Auckland Online brings career advancement and professional development within reach of busy people everywhere. The fully online programmes combine the freedom of digital delivery with the exceptional quality of a programme or degree from the University of Auckland. With 100% online course delivery and no on-campus requirements or on-campus block courses, you can study in a way that fully fits your life and location.

“I’m the best teacher I have ever been since attaining my Master of Education Practice.”

“My Māori culture has been my backbone in life. I grew up in a mainstream school, lost in a system that didn’t support my learning style – but I was surrounded by many incredible teachers in my whānau and we became a teacher to make a difference for our Māori tamariki in mainstream school settings – I want them to succeed and reach their potential in all areas of school. I enrolled in the Master of Education Practice to enhance my skills and be an example to my students. I wanted to demonstrate that Māori success is not limited to anything. The University of Auckland has an outstanding School of Māori and Indigenous Education, Te Puna Wānanga, and all of my peers have been really supportive. I used my studies on cultural responsiveness, an area that I think is lacking in Aotearoa New Zealand schools. We live in such a diverse world and, as educators, we need to understand our learners and their whānau to maximise engagement and utilise potential. Thanks to the flexible programme structure, I was able to dedicate myself to both work and study at the same time, and do justice to both.

“The course content was extremely relevant, and I use the skills that I developed during the programme on a daily basis. I now reflect more deeply on my pedagogy and can identify key factors of education that I can change for the betterment of all students. My classroom practice has become more articulate and successful, and I am even more inspired to go further with my studies now. Education is a forever-evolving part of society. This study journey allowed me to dive into the past and analyse the present, in order to prepare for the future in a way that is meaningful for myself, my students, their whānau and communities.”

**Waratah Taogaga**

Waratah is a Master of Education Practice graduate. She works as the Cultural Director at Helensville Primary School.
Postgraduate programmes

Postgraduate study enables you to deepen your understanding, develop specialist skills and knowledge, follow your passion for research, stand out in a competitive job market or change careers. We offer a wide range of postgraduate programmes to help you reach your goals.

Pathways to our postgraduate programmes

- **Bachelors degree**
- **Masters degree**
- **PhD and other doctorates**

Further study

Postgraduate diplomas can provide an alternative pathway to masters programmes and, in some disciplines, can be used as the first year of entry for a two-year masters programme.

**Programme entry**
You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation, typically with a GPA or GPE of 3.0 or 4.0. Some programmes may require higher scores.

**Conversion masters** enable you to study a masters in a different subject to your bachelors degree. To find out if a conversion masters is available in your area of interest, contact the postgraduate adviser for that discipline: auckland.ac.nz/pgadviser

120, 180 and 240-point masters programmes
Some of our masters are available as 120-point (3 year full-time), 180-point (18 month full-time) or 240-point (2 years full-time) programmes, offering options for direct entry with a bachelors degree (to some 180 and 240-point programmes) or a bachelors (honours) or postgraduate diploma (to 120-point programmes).

Further study

A research masters degree can lead to entry to a doctoral programme.

**Programme entry**
You must have completed one year of postgraduate study, following an undergraduate degree, at a recognised university (or similar institution) in a field relevant to your chosen specialisation. Four-year bachelors degrees will be considered where the final year consists of postgraduate-level study.

You will typically require a GPA or GPE of 5.0. If you are applying for the Master of Engineering Studies, a GPA or GPE of 4.0 or higher is required. Some programmes may require higher scores.

180 and 240-point masters
You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation (with the exception of conversion masters), typically with a GPA or GPE of 5.0. Some programmes may require higher scores.

Conversion masters
You will need an undergraduate degree with good passing grades. Requirements vary, so please check the relevant programme details: auckland.ac.nz/programmefinder

Doctoral degrees

A doctorate is the highest level of degree you can achieve. It gives you the freedom to follow your passion and undertake advanced research in your area of interest. You can develop essential transferrable skills as well as specialised research skills, both of which are relevant to a range of careers.

The Doctor of Philosophy (PhD) is available in 100 different subjects and offered in all faculties and large-scale research institutes. The University also offers six named doctorates: Doctor of Clinical Psychology, Doctor of Education, Doctor of Fine Arts, Doctor of Medicine, Doctor of Music and Doctor of Musical Arts.

Calculating your GPA/GPE
Grades or marks achieved at the University of Auckland are given a grade point average (GPA). Grades or marks achieved at other institutions are given a grade point equivalent (GPE). Use our GPA calculator for an indication of your GPE: gpecalculator.auckland.ac.nz

English-language requirements

The minimum requirement is an overall IELTS academic score of 6.5, with no band less than 6.0, or an approved equivalent. Some programmes require higher levels of English proficiency. See: auckland.ac.nz/pg-eng-lang-req

Academic integrity requirement

The University of Auckland requires all students admitted into a programme to complete the Academic Integrity Course in their first semester.

auckland.ac.nz/academicintegritycourse

*Acquire Top 75. Asia’s Most Innovative University 2019

Over 150

postgraduate programmes are on offer across over 500 subjects, including over 100 subjects available for the PhD. Options range from traditional disciplines to emerging cross-disciplinary subjects.

Bachelors (honours) degree

Extend the knowledge you gained in your undergraduate degree with a bachelors (honours) degree. Our honours programmes are a great way to explore an area of interest further in your undergraduate study in greater depth, develop research skills and give yourself an edge in the job market. Honours degrees are also seen as a pathway to further study.

Some honours can be completed as a research-only programme.

Further study

A bachelors (honours) degree can lead into a masters or, if you perform well in your dissertation, some subject areas may allow direct entry to a doctoral programme.

Programme entry

You must have completed a bachelors degree with a GPA or GPE of 5.0 or above. Some programmes may require higher scores.

For the PhD, you will prepare a substantial thesis of original research that contributes significantly to knowledge and understanding in your discipline. Your thesis may include publications you have written under supervision for this degree or, for those in a creative arts or design discipline, you may present a body of creative work for assessment with your thesis. Our doctoral candidates work closely with at least one appointed supervisor and many work in a team of researchers.

We offer a wealth of English-language enrichment opportunities to support your studies. All new doctoral candidates take a Diagnostic English Language Needs Assessment (DELNA) as part of their provisional goals. This helps us allocate you any English-language support you might need to ensure your academic success (see page 56 for more information on English-language support).

Programme entry

Acceptance to our doctoral programmes is based on academic merit. You must be able to demonstrate an ability to carry out independent research and have already completed a significant research project, dissertation or thesis, at university.

If you have New Zealand postgraduate qualifications, you need to have completed a postgraduate bachelor (honours) degree with first class or second class (division 1) honours, or a masters degree with first class or second class (division 2) honours, in a field related to your doctoral studies.

If you have overseas qualifications, you will need to have completed a masters-level qualification in a field related to your doctoral studies. You must have a GPA of at least 5.5. Your acceptance into a doctoral programme is dependent on the availability of appropriate supervision and study facilities.

For more information on studying with us, visit our website at auckland.ac.nz/pgadviser

New Zealand’s most innovative university*

*Reuters Top 75. Asia’s Most Innovative University 2019
Whether you’re exploring an academic interest, taking a new direction or focusing on a career goal, postgraduate study will help you to enrich your skills and your future. Be part of an inspiring community of diverse students and internationally respected academic staff, and take your learning further.

Go deeper

Postgraduate study is a unique opportunity to delve more deeply into the academic interests you enjoyed during your undergraduate degree. It can offer a rich and meaningful source of personal fulfilment with life-long benefits. Advanced thinking, writing, and researching in a subject you are passionate about opens the door to new ways of understanding the world and yourself.

Choose a programme that suits you

You can choose from a wide range of postgraduate taught and research degrees and diplomas. Most of our programmes can be taken part-time, and most can be started in either Semester One or Semester Two. A postgraduate taught programme enables you to acquire further specialist knowledge and theory, and explore new and emerging fields of study. A postgraduate research programme is an opportunity to demonstrate your mastery of a topic, undertake original research and practice, and define and manage a research project.

Change direction

Your undergraduate major(s) may provide a foundation for you to study a different but related area at postgraduate level. For example, a BA in Māori Studies and Sociology would give you a good foundation for a BA(Hons) in Development Studies.

Pursue a professional goal

In addition to the Bachelor of Arts (Honours) and Master of Arts, we also offer profession-specific programmes in the following areas:
- Conflict and terrorism
- Creative writing
- Heritage conservation
- Indigenous studies
- Language teaching
- Public policy
- Translation

Research strengths

Staff in the Faculty of Arts contribute to more informed, imaginative, compassionate and equitable worlds through our research and creative practice in the humanities, social sciences, languages and cultures, and Indigenous studies. We speak truth to power, give voice to the silenced, make art, disrupt myths, guide policy, challenge hypocrisy and stoke curiosity.

Leading researchers

Collaborate with academic staff who are international leaders in their fields, passionate about making a difference. Our community of researchers have interests ranging from cybersafety and political marketing to legal ethics and race relations history. The 2021 QS World University Rankings placed us in the world’s top 50 for English language and literature, Anthropology and Archaeology.

We are also home to a range of specialist and cross-disciplinary research centres.

Explore our wide range of research areas and search for a potential supervisor at arts.auckland.ac.nz/research

Research institutes, centres and groups

Our diverse research communities include:
- Academy of New Zealand Literature
- Auckland History Initiative
- Centre of Methods and Policy Application in the Social Sciences (COMPASS)
- Conflict, Terrorism and Peace group
- Europe Institute
- James Henare Māori Research Centre
- Kōrero: The Centre for Informed Futures
- New Zealand Centre for Latin American Studies
- Ngā Pae o te Māramatanga
- Public Policy Institute

These skills can help distinguish you from others in a crowded job market, equip you for more senior roles, position you for leadership opportunities and help propel you into emerging industries.

Our graduate work in fields as diverse as archaeology, the creative sector, international relations and development, business and marketing, education, government, museums and cultural heritage and policy-making.

Study 100% online

Master of Public Policy

MPP

This programme will provide you with a foundation of the core principles, concepts and methods of public policy research and analysis, and teach you how to develop the skills to solve real-world policy problems. The courses cover Politics, Economics, Sociology and the Quantitative Social Sciences.

You will learn how to connect theory with practice by studying the nature of policy, policy design and policy process through a set of courses which includes an internship designed to facilitate work integrated learning, as well as independent research.

“An Arts degree will prepare you for a fast-paced world with fast-changing trends, while future-proofing your skills!”

Eddie Tuiaivi

Eddie completed a Postgraduate Diploma in Arts in Politics and International Relations and a Master of Public Policy.

Eddie is a Master of Public Policy (MPP) graduate and now works as Senior Advisor Voter Participation at Auckland Council.

“I lead the development and implementation of the Voter Participation initiative, which aims to increase voter participation in local elections. The role addresses the long-term issues that impact the ability of voters and candidates to participate in local elections.

“Both my role and the Voter Participation initiative are a first of their kind in local government. They involve a broad, complex and strategic programme of work, which includes analysis, research, advocacy and engagement with a wide range of stakeholders.

“On two days are ever the same, which provides excitement and positive contrast. I enjoy the numerous opportunities I am presented with to provide expert advice on programming, partnerships and innovative initiatives both within the organisation and in the community.

“The MPP programme gave me a firm foundation in the core principles, concepts and methods of public policy research and analysis, and taught me how to develop the skills to solve real-world policy problems. The courses cover Politics, Economics, Sociology and the Quantitative Social Sciences.

“You will learn how to connect theory with practice by studying the nature of policy, policy design and policy process through a set of courses which includes an internship designed to facilitate work integrated learning, as well as independent research.

1. Part-time study options are generally not available to international students on student visas. International students must be enrolled full-time to meet the requirements of their student visa.

2. 1 December start available for 120-point research masters only, subject to supervisor availability.

3. Based on annual tuition fees for full-time study of 120 points except: programmes that require 60 points to complete (the annual tuition fee for 60 points is shown); Tuition fees are indicative only and the fees for 2022 will be set at the end of 2021. All students will also pay a student services fee. As an indication, this fee is $962.40 for students undertaking a full-time study (including postgraduate students). More information is available at: auckland.ac.nz/feeinformation.

4. International students (NZ$)3

5. Upon the recommendation of the Academic Head and approval from the Board of Graduate Studies, a candidate may present a corpus of creative work for assessment with a written thesis, comprising an integrated whole.

6. New international PhD students will be accorded domestic status for the purposes of tuition fees, subject to supervisory and residency requirements. A new international PhD student is defined as a foreign student enrolled for the first time in an academic philosophy programme at a New Zealand university. New students cannot be enrolled in the International PhD programme for the purposes of tuition fees. New students are subject to supervisory and residency requirements. New students must reside in New Zealand for the duration of your doctoral programme. However, you may undertake research activities overseas during your doctoral programme (for a cumulative total of no more than 12 months).

7. The Master of Arts will be changing to a 180 point programme (three full time semesters) from 2022, subject to regulatory approval.

8. Available in 2022, subject to regulatory approval.

*Tuition fees will be charged at the respective rate for the subject.
Business School

Would you like to launch a career in business, advance your business knowledge and skills, move up in your current field or change professional direction? Are you passionate about research and innovation that addresses some of the world’s biggest challenges? The Business School offers a range of flexible postgraduate study options and pathways to suit your interests, level of experience and career goals.

Our postgraduate taught, research and professional programmes are designed to equip you with industry and practitioner-focused learning, build your professional network and enhance your prospects for career advancement or further study. You will have access to the modern learning and research facilities at the iconic Sir Owen G Glenn Building and an option to take courses at our South Auckland Campus.

We understand how important it is for postgraduate students to balance study with work and personal commitments, so we have designed our programmes to work around you. We offer:

- A broad range of Business specialisations at masters, honours or PhD level, so you can pursue your passion.
- Flexible pathways for you to complete an internationally recognised masters degree that builds on your professional experience, if you do not have a first degree.
- Professional courses within quarter-based teaching terms, in the evenings or weekend blocks to suit working professionals.
- Part-time options for most programmes with multiple entry points.
- A number of fully online qualifications through Auckland Online.
- Flexible delivery using online components to support in-class workshops.
- Shorter Postgraduate Certificate qualifications if you’re not ready to commit to a masters degree.

Our professional programmes are designed for working professionals, from new and recent graduates to the highly experienced, who are seeking to accelerate or pivot their career. You will be equipped with cutting-edge skills and an advanced understanding of your chosen field within a global context.

For Business graduates, our coursework/taught programmes embed applied learning opportunities to build on your qualification and help you launch a business career in your chosen specialisation or apply your skills to a new field. Through our specialist masters, honours and PhD programmes (research programmes), you will develop advanced knowledge, skills and perspectives as well as have the opportunity to conduct independent research with real-world impact alongside internationally renowned academics.

Research strengths

At the Business School, we have an unconditional commitment to quality teaching and research in topics that shape the futures of people and organisations for the benefit of New Zealand and the world.

Our academics are engaged in research that enables people to develop ideas, knowledge and skills that shape their own development, advance New Zealand business, influence the global economy and enhance society. Their projects frequently involve our postgraduate students and collaborations with international colleagues.

The Business School focuses on four strategic research and education themes that align closely with the University’s commitment to research on issues of national and international significance:

- Innovation and value creation
- Succeeding in international markets
- Productivity and sustainable business
- Leadership and governance

Our researchers work in a number of disciplinary areas:

- Accounting
- Commercial Law
- Economics
- Finance
- Information Systems
- International Business
- Management
- Marketing
- Operations and Supply Chain Management
- Property

We also host research institutes and centres that focus on long-term programmes of high relevance, such as building New Zealand’s business connections with Asia, digital enterprise, modern slavery, retirement policy, supply chain management, Māori and Pacific business development, applied economics, and energy and resource use.

Study 100% online

Master of Business Development
Mbusdev

Leverage your professional knowledge, together with our business expertise, to help you grow your organisation’s business.

auckland.ac.nz/online-mbusdev

Master of Property Practice
MPropPrac

This multidisciplinary, practitioner-focused programme will prepare you to enter or progress careers in property.

auckland.ac.nz/newprogrammes

Postgraduate Diploma in Information Governance
PGDipInfGov

Develop the knowledge and skills for effectively managing information privacy, security and compliance within organisations.

auckland.ac.nz/online-pgdipinfogov

Shorter postgraduate certificate programmes are also available for these subjects.

Real-world learning that transforms lives and businesses.

Career opportunities

Business School graduates occupy leading positions in business and professions within New Zealand and around the world. Our taught masters degrees in Commerce (with specialisations in eight subject areas) and Property open up opportunities for specialist careers, which are highly valued in industry and the public sector. Our professional programmes equip graduates to be work-ready in their chosen specialisation, or primed for career progression in leadership or management roles. Our Business Masters programmes prepare graduates for a new career in Business in just 15 to 18 months. Our research masters, honours and PhD programmes lead to changemaking careers in innovation, research and academia.

business.auckland.ac.nz/pg

Benjamin is a Master of Commerce graduate, with a major in Global Management and Innovation. He is currently working as a Research Assistant and completing his dissertation.

“The Global Management and Innovation major allowed me to further my interest in international Business and positions me to research modern slavery, which is something I am passionate about.

I would really like to work more in the area of modern slavery, helping firms understand the risks they play in addressing such an issue. Long-term, I would like to work as a private consultant.

“It’s easy to think of your time at university as preparation years for when the ‘real work’ begins, but I encourage everyone to get involved, ask lots of questions, stop caring so much about what others think of you, and take responsibility and initiative in your studies. Also, remember why you are studying!

“My advice is to make the most of the expertise of your lecturers. The classes are smaller and often more space for discussions, so lectures have time to answer your questions. Ask away!

“I loved the opportunities to engage with the cohort and build a network of not only colleagues but friends. Despite the restrictions brought on by Covid-19, I believe the online learning experience and its challenges brought us together and helped us build resilience.”

Benjamin Robb

Benjamin is a recipient of the Kupe Leadership Scholarship.

#### Research PhD

- Master of Organisational Psychology (MOrgPsych) 10
- Master of Organisational Psychology (MOrgPsych) 18

#### More information

1. Fee rates are based on annual tuition fees for full-time study of 120 points. All students will also pay the domestic tuition fee for domestic students (NZ$)³
2. Domestic students must be enrolled full-time to meet the requirements of their student visa.
3. All international students must be enrolled full-time to meet the requirements of their student visa.
4. All international students must be enrolled full-time to meet the requirements of their student visa.
5. Evening delivery.
6. Part-time only.
7. MBA is delivered in weekend block format—Friday afternoon and all day Saturday.
8. There is an additional cost of approximately $1,000 for an international business trip.
9. New international PhD students will be awarded domestic status for the purpose of tuition fees, subject to supervisory and residency requirements. A new international PhD student is defined as a foreign student enrolled for the first time in a Doctor of Philosophy programme at a New Zealand university. Note that to be eligible for the domestic fee, you must reside in New Zealand for the duration of your doctoral programme. However, you may undertake research overseas during your doctoral programme (for a cumulative total of no more than 12 months).
10. Available in 2022, subject to regulatory approval.

---

2. 2 December start available for 240 point research masters only subject to supervisor availability.
3. Fees are based on annual tuition fees for full-time study of 120 points. All students will also pay a student services fee. As an indication, this fee is $480–9 for students undertaking full-time load of 120 points in 2021. (Students taking fewer than 120 points pay proportionately lower fees. No Business Masters (MCom, MBA, MProp, MProfAcctg) and the MBA are the only programmes with reduced fees, subject to supervisory and residency requirements. A new international PhD student is defined as a foreign student enrolled for the first time in a Doctor of Philosophy programme at a New Zealand university. Note that to be eligible for the domestic fee, you must reside in New Zealand for the duration of your doctoral programme. However, you may undertake research overseas during your doctoral programme (for a cumulative total of no more than 12 months).
4. Late year Term entry in November is only available for the 240 point programme.
5. Evening delivery.

“Dance has been a huge part of my life since a very young age. I was determined to keep it in my life and make a career from doing what I love.”

"I was tossing up between the University of Auckland and another institution, but what helped me make my final choice was the audition process. The space and the vibe were so welcoming and relaxed, and it gave me a sense of whakapapa. This became very important for me as I was moving from my hometown in Whangārei and I didn’t know anyone from my faculty.

"The highlights from studying here are the people and the relationships I have made. Being in a small department has meant that the lecturers know you by name and are able to watch you grow and evolve throughout your degree. These relationships are something that I value and maintain as I continue on through my masters and into my career as a dance practitioner.

"I am currently working as the Tuākana Coordinator for the Faculty of Creative Arts and Industries. This involves working with and providing support and opportunities for our Māori and Pacific students as they complete their study with us.

"Long-term, I would like to continue to work with Māori and Pacific youth, but focusing more on secondary schools. My goal is to run choreographic workshops with Māori and Pacific dance practitioners and visit high schools in smaller towns in Aotearoa where the opportunity for dance is less available."

Postgraduate study at the Faculty of Education and Social Work is centred around creating a better future and inspiring people to reach their potential. With study options in education, social work, counselling, community leadership and professional supervision, our postgraduate students are advancing their knowledge, leadership skills and career opportunities, while creating positive change in their communities.

Eileen Tupou, née Mahe

Eileen (Samoan/Fāvalu/Faleasă’s) Tonga; Fanga’aonga, Ha’apai) is a Master of Social Work graduate.

Watch Eileen speak about her postgraduate experience at auckland.ac.nz/pg-stories

Research strengths

A passion for people is at the heart of research and practice at the Faculty of Education and Social Work. Our postgraduate community is leading research and teaching to address widening education and social justice issues. Here, learning has impact, and our staff and students contribute knowledge vital to the education and wellbeing of communities and our world. Our research harnesses the potential of diversity in education and social justice issues nationally, regionally and globally. Whether you enrol in taught or research programmes, you will be surrounded and supported by world-class academics.

Our collaborative relationships with schools and communities of practice have enabled the faculty to secure significant funding for its research and professional fellowships, along with postgraduate study scholarships for outstanding researchers from New Zealand and around the world.

To suit the needs of working professionals, many of our programmes offer flexible study options, including evening courses, online learning and intensive block courses during school holidays. We also offer extensive academic and personal support services for postgraduate students.

Join the award-winning community of active learners who, like you, are dedicated to finding research-informed solutions that will improve the lives of generations to come.

Research and Professional Development Centres

The faculty is home to internationally recognised research centres and arts exploring a wide range of educational and social science research.

- Woolf Fisher Research Centre
- The Centre for Asia Pacific Refugees Studies
- Centre for Arts and Social Transformation
- The Manic Clay Research Centre
- Centre for Community Research and Evaluation
- Centre for Child and Family Research
- The Richard Tierney Research Unit
- Knowledge and Education Research Unit
- Critical Research Unit in Applied Theatre
- Research Unit in Pacific and International Education
- The Ko Ha Centre

Study 100% online

Master of Educational Leadership

The Master of Educational Leadership can be completed fully online through Auckland Online (a part-time two-year structured online programme). This programme will help you develop the skills to go further in your role and lead improvements that serve diverse communities and learners. You’ll critique and contribute to the educational research that is shaping educational policy and practice, and prepare yourself for leadership roles in schools or centres, specialist education and policy development.

No. 1 University in New Zealand for Education*

*QS World University Rankings by Subject 2021

No. 1 University in New Zealand for Education

Eileen Tupou, née Mahe

“After spending ten years in frontline statutory social work, I wanted to extend my knowledge and challenge myself,” enrolled in the Master of Social Work and it was the best thing I ever did for my personal and professional growth and development.

“The staff created a safe space for us to exchange our experiences and have healthy conversations about our practices across different disciplines. Having a separate entity away from work was really refreshing and good for my wellbeing.

“As an in-class conversation about moral courage inspired me to complete my research topic about how social workers act moral courage when navigating their day-to-day decision making. I wanted to look into how we can hold space for social workers to speak up or go against the status quo when they are ethically conflicted about decisions being made in child protection. My hope is that my findings would better inform practice and service delivery. I’m also researching how primary school teaching staff respond to children who have experienced abuse and trauma.

“I studied while working full-time and raising my young children—it’s a challenge, but when you’re passionate about what you’re doing, it doesn’t feel like work. The programme is designed to suit people who are already in practice so I’m thankful for that support and flexibility.

“I’m also currently on an advisory role in primary health and urgent care. Our organisation is piloting a new integrated service model which is one of the first in Auckland. New Zealand in our field. I am very privileged to be part of an amazing team of pioneers and to be a part of this wellness project in primary health.

“I love that I have the opportunity to give back to people and pay it forward. I am grateful that every day I get to engage with some of our most vulnerable communities and support people in a health context, who might have otherwise slipped through the cracks.”

Eileen Tupou, née Mahe

Eileen (Samoan/Fāvalu/Faleasă’s) Tonga; Fanga’aonga, Ha’apai) is a Master of Social Work graduate.

Watch Eileen speak about her postgraduate experience at auckland.ac.nz/pg-stories

### Counseling

- **Doctor of Philosophy (PhD)** $7,329.60
- **Master of Counseling (MCouns)**

### Education

- **Bachelor of Education (Teaching) (primary/secondary)**
- **Graduate Diploma in Teaching (GradDipTchg) - Early Childhood Education (primary/secondary)**
- **Postgraduate Certificate in Teaching (GradDipTchg)**
- **Postgraduate Diploma in Educational Leadership (PGDipEdLd)**
- **Postgraduate Diploma in Education (PGDipEd)**
- **Postgraduate Diploma in Professional Supervision (PGDipProfSup)**
- **Postgraduate Certificate in Social and Community Leadership (PGCertSCL)**
- **Postgraduate Certificate in Professional Supervision (PGCertProfSup)**
- **Master of Social Work (Professional) (MSW(Prof))**
- **Postgraduate Certificate in Social and Community Leadership (PGCertSCL)**
- **Master of Social Work (MSW)**
- **Postgraduate Diploma in Social Work (PGDipSW)**
- **Master of Social Work (MSW)**
- **Doctor of Philosophy (PhD)**

### Social Work

- **Master of Social Work (MSW)**
- **Postgraduate Diploma in Social Work (PGDipSW)**
- **Postgraduate Certificate in Social Work (PGCertSW)**
- **Postgraduate Diploma in Social Work (PGDipSW)**
- **Postgraduate Certificate in Social Work (PGCertSW)**
- **Postgraduate Diploma in Social Work (PGDipSW)**
- **Master of Social Work (MSW)**
- **Doctor of Philosophy (PhD)**

### Interfaculty degrees and diplomas

- **Master of Professional Studies (MProfStuds) – Education/Mathematics Education**
- **Postgraduate Certificate of Regional Development**
- **Master of Regional Development**
- **Doctor of Philosophy (PhD)**

- **Master of Professional Studies (MProfStuds)** $7,782.00–$9,565.20
- **Master of Professional Studies (MProfStuds)** $4,283.40–$4,730.40

## More information

- [education.auckland.ac.nz](http://education.auckland.ac.nz)
Research strengths

With five departments being home to a broad range of impact driven research, we're covered on most aspects of engineering, from nanomaterials to large structures and the environment. Some of our research areas include:

- Advanced, novel, smart and new materials
- Aerospace and space systems engineering
- Biomedical engineering
- Computational science and engineering
- Disaster management and civil engineering for earthquake mitigation
- Engineering products and processes for sustainability
- Food and bioproducts
- Geothermal and reservoir engineering
- Healthcare and medical devices
- Operations research and analytics
- Manufacturing, automation and Industry 4.0
- Power systems engineering
- Project management
- Robotics and human interaction
- Software engineering
- Structural engineering
- Water engineering

Study 100% online

Master of Engineering Project Management (MEPM)

We're now offering the Master of Engineering Project Management via Auckland Online. Aimed at working professionals; this qualification combines coursework — methodologies and tools necessary for career progress — with hands-on project work that lets you implement your new skills. The latter is a research project supervised by our academic staff and in some cases, industry professionals, and allows you to solve problems directly relevant to industry. It is also available for part-time study.

</table>
"If you are thinking about completing a Master of Laws, you won’t regret obtaining it from Auckland Law School."

Kieran Berry

Kieran is a Master of Laws graduate, who works as Legal and Research Counsel for the Office of the Chief Coroner. He is a recipient of the University of Auckland Dean’s Law Award.

"When I finished my undergraduate studies at the University of Auckland, I went into practice specialising in Equity Capital Markets; first with Chapman Tripp in Auckland and then with Allen & Overy in Sydney."

"Practising law fulfilled me on many levels. However, the nature of private practice does not often offer the opportunity to deeply explore an issue beyond the core legal problem. That’s why I knew I wanted to do postgraduate study."

"As a student with a visual impairment disability, I wanted to study at a world-leading institution that I knew would support me. Auckland Law School was naturally the ideal choice as New Zealand’s leading law school."

"My research considered whether people suffering an incurable psychiatric illness should be eligible for assisted dying in New Zealand. In my role, I am confronted by the psychological suffering of New Zealanders from all walks of life. My research has drastically expanded my knowledge of psychiatric illnesses and how those who suffer from them are treated by the law."

"My role is to assist the Chief Coroner and Coroners of New Zealand with delivering the highest quality decisions to families who have tragically lost a loved one in order to make New Zealand a safer place for all."

"There are not many jobs where I can be a detective, a medical examiner and a judicial officer at the same time. My role is intellectually and personally rewarding, as I know that I am helping to speak for those who cannot."

Law

The University of Auckland Law School is ranked in the 2021 QS World University Rankings by Subject as the best place to study law in New Zealand based on academic reputation, employer reputation and research impact. Auckland Law School offers the largest range of postgraduate law programmes in New Zealand. We are committed to improving access to justice through excellence in teaching, research, service and engagement.

Research strengths
Auckland Law School has a strong international reputation for research. We currently have six research centres:

- The Aotearoa New Zealand Centre for Indigenous Peoples and the Law
- The New Zealand Centre for Environmental Law, Policy and Practice
- The New Zealand Centre for Information and Communications Technology Law
- The New Zealand Centre for Law and Business
- The New Zealand Centre for Legal Theory

Our broad range of research areas include:

- Contract, torts, equity and other areas of private law
- Corporate and commercial law
- Criminal law and justice
- Family and relationships law and policy
- Indigenous peoples and the law
- International and comparative law
- Land and environmental law
- Legal history and theory
- Litigation and dispute resolution
- Public law, including constitutional and administrative law
- Tax and regulations

Career opportunities
A postgraduate qualification from Auckland Law School will form an important step in your career. Investing in postgraduate study will broaden your academic, research and employment horizons while adding value with specialist skills and knowledge.

Postgraduate programmes offered by Auckland Law School include the Doctor of Philosophy (PhD), Master of Laws (LLM) Master of Legal Studies (MLS), Master of Taxation Studies (MTaxS) and a Postgraduate Certificate in Law (PGCertLaw).

Our postgraduate programmes can be undertaken by coursework, research or a combination of both. With over 30 taught courses to choose from you can concentrate your study in particular areas of specialisation or study a broad range of legal subjects.

Postgraduate specialisations
Specialisation is optional but you can choose to have your LLM or MLS awarded in one of our six specialisation areas: Corporate and Commercial Law, Environmental Law, Human Rights Law, International Law, Litigation and Dispute Resolution or Public Law.

For more detailed information, see our postgraduate specialisations page.

law.auckland.ac.nz/specialisations

Flexible study
We understand that personal, family and work commitments are important factors when deciding whether to study, so we offer options to fit with your lifestyle:

- Full-semester courses taught in the early evening once a week
- Half-semester courses taught for six weeks of the semester in the early evening once a week
- Intensively-taught courses over three to five days (usually incorporating a weekend break, ie Weds, Thurs, Fri, Mon, Tue)
- Independent research programmes
Medical and Health Sciences

Our postgraduate programmes have been designed to meet the needs of those aspiring to, or are already involved in, academic, clinical and professional medical and health careers. Whether your goal is to further your learning through taught courses or undertake ground-breaking research, our faculty offers you a wide range of subjects, programmes and courses.

Research strengths

Our postgraduate students are a significant part of the research drive and outputs of the faculty and the wider University. Our graduates are increasingly finding their niches in other prestigious international research institutes, including the universities of Cambridge and Oxford, UCLA, Brunham Institute and Harvard. Some of our research centres and groups where postgraduate students can participate in ongoing research:

- Auckland Cancer Society Research Centre (ACCR)
- Centre for Addiction Research (CfAR)
- Centre for Brain Research (CBR)
- Centre for Longitudinal Research - His Ara ki Mua
- Manukau Institute Centre for Heart Research
- National Institute for Health Innovation (NIHI)
- New Zealand National Eye Centre (NZ-NEC)
- Oxford, UCLA, Burnham Institute and Harvard.
- Tāmāins – Māori Health Research Group
- Tīmata – tāmata – Māori Health Research Group
- Centre for Longitudinal Research – He Ara ki Mua
- Wērī Centre for Child and Adolescent Mental Health

Career opportunities

Our graduates are strengthening the country’s health workforce and medical research spaces in various roles, from clinical care and scientific research to health policy, education and promotion. Many obtain senior roles within hospitals and healthcare centres, while others work internationally with globally competitive research groups and biotechnology industries or find positions within pharmaceutical and health promotion agencies.

Career progression

Postgraduate study may allow you to progress in your current field, or it may allow you to enter a different area of the health workforce. If you're considering switching or accelerating your career options in healthcare, we have study options on offer that are open to applicants from various professional and academic backgrounds. These programmes prepare graduates for a range of clinical and non-clinical roles and welcome applications from diverse backgrounds.

Māori and Pacific Postgraduate Support Services

MAPAS Postgraduate Support provides a supportive environment where students, whānau and staff accept a commitment to academic achievement within a Māori and Pacific context.

MAPAS Postgraduate Support offers a variety of resources, activities and opportunities for students to utilise during their postgraduate study.

To find out more and to check if you're eligible to access MAPAS postgraduate support, see: fmhs.auckland.ac.nz/mapas-support

Our innovatively designed programmes mean our graduates are always in high demand.

fmhs.auckland.ac.nz/pg

“As a Pacific student, the University’s Māori and Pacific Admission Scheme (MAPAS) provides valuable academic and pastoral support that is second to none.”

Julie Winter-Smith

Julie is a recipient of the Ministry of Health Aniva scholarship and the Pacific Health Workforce Awards.

We are a large and diverse faculty committed to improving the health of our local, national and global communities through excellence in teaching, research and service. At the cutting edge of research, we work at the commercial biotechnology interface, in the clinical care setting and in the community.

Our postgraduate programmes have been designed to meet the needs of people aspiring to, or are already involved in, academic, clinical and professional medical and health careers. We offer our students both research and taught programmes, spanning more than 50 different subjects. We have almost 50 programmes on offer, from postgraduate certificates and diplomas to doctoral-level research. Experts in their field teach our programmes and give you the skills and knowledge to work at a high level in the healthcare industry.

We encourage our students to make the most of their postgraduate study at our specialised medical and health sciences campus, based in Grafton near the Auckland Hospital. As well as access to some of the world's best research and researchers, you can also take advantage of the many opportunities to engage, socialise and collaborate with your fellow students through the FMHS Postgraduate Student Association.

Our faculty also offers postgraduate programmes that are entirely online or completed mostly remotely, with a few block courses for teaching for prospective students currently working or residing outside of Auckland.

Research strengths

Science

The Faculty of Science is New Zealand’s largest science faculty producing cutting-edge research across ten schools and departments. Students have access to high quality laboratory and field research facilities, including our recently developed $200 million Science Centre building. The breadth of scientific research is diverse and a variety of outstanding research-based and tuition-based postgraduate qualifications are available.

Science plays a vital role in addressing the key issues that confront us and future generations. The University demonstrated this in spades during 2020, contributing significantly to New Zealand’s successful response to Covid-19. It was also appointed in 2020 as the official hub for Sustainable Development Goal 4. Quality Education, by the United Nations Academic Impact.

We provide a rich research environment for our students. Our faculty benefits from strong collaborations within the global academic community. We have nine science subjects ranked in the World Top 100 and 11 subjects ranked first in New Zealand. Our relationships with commercial industry are an important aspect of scientific research and innovation, and we are proud of our significant links to the Crown Research Institutes of New Zealand.

The faculty also hosts two of the ten national centres of Research Excellence (CoREs), the Maurice Wilkins Centre and Te Pūnaha Matatini. The Maurice Wilkins Centre for Molecular Biodiscovery is a multidisciplinary network that brings together leading biologists, chemists and computer scientists from around the country to target major human diseases with a focus on cancer, metabolic disease and infectious disease.

Te Pūnaha Matatini – the meeting place of many faces – brings together experts from across New Zealand to develop methods and tools for transforming complex data about the environment, economy, and society into knowledge, tools and insight for better decision making. The centre, which involves nearly 80 investigators, has played a leading role in New Zealand’s Covid-19 response – providing timely science-based modelling research used to inform government policy.

Research strengths

Our eight interdisciplinary research themes focus our thinking on how we can best advance knowledge to serve local, regional and global society.

- KNOWLEDGE SCIENCES: Focuses on the representation, modelling, communication and processing of ideas and information, ranging from abstract foundations to concrete designs and representations in computers and in the human mind.
- OUR WORLD-AND-UNIVERSE: Seeks to advance our understanding of our planet and universal, utilizing the nation’s access to space and related resources to further fundamental and applied science.
- AROHA ATU, AROHA MAI – SCIENCE IN SOCIETY: Focuses on connecting our science to Aotearoa and the world.
- HEALTHY PEOPLE, HEALTHY COMMUNITIES: Focuses on understanding human diseases, human disorders and their causes and treatments.
- FOOD, FOOD PRODUCTION AND NUTRITION: Focuses on food, from farm to plate.
- A SUSTAINABLE FUTURE: Focuses on the sustainability of our terrestrial, marine and freshwater environments, our climate, and human resilience.
- FUTURE MATERIALS AND TECHNOLOGIES: Focuses on advanced materials and processes to create a better future.
- COMPUTATIONAL BIOLOGY: Focuses on molecular and computational analysis and understanding of biological systems, spanning the sub-cellular through to population level dynamics.

Career opportunities

Graduates from our postgraduate programmes are highly sought after in a wide variety of careers. Many go on to become researchers and educators at universities across the world. Others are sought after as subject-matter experts in government and policy, well known international companies, charities, and some make the leap into consultancy or entrepreneurship.

Whether you are seeking to boost your career opportunities or pursue a completely new course in life, the Faculty of Science offers a supportive environment and a range of academically challenging science programmes to help you meet your goals. To find out more about career paths our graduates have embarked on, read our graduate stories: science.auckland.ac.nz/graduate-stories

Study 100% online

Explore our two 100% online postgraduate programmes in Applied Psychology and Information Technology

Graduate Diploma in Applied Psychology

GradDipAppPsych

This is an intensive part-time programme that will provide you with a foundational knowledge of psychology to either advance your current career or lead towards postgraduate study.

Graduate: Master of Professional Studies in Data Science

Nishita Balamuralikrishna

“I enjoy programming, databases and also statistics, and wanted a field that would combine all three things that I loved. Data Science was a natural choice. I came to know that the University of Auckland was one of the best in the world for statistics during my search for data science programmes, so that also helped in choosing the course.”

“Since graduation I have been working at EROAD as a Data Analyst/business intelligence developer. One of my favourite parts of the job is dealing with massive amounts of data every day. The MHiDiffs in Data Science taught me how to deal with big data and develop meaningful insights. However, being able to put what I have learned to use in everyday work has been the best part.”

“A career highlight for me so far was the CEO of EROAD appreciating an analysis that I produced, and also seeing my work published as white papers.”

“Career-wise I can see myself moving from a data analyst/business intelligence developer into a data scientist role. In the short term I am working towards getting the AWS Big Data certification, but long term I want to get a PhD specialising in machine learning and database systems.”

“I’m driven by a love for data, programming and solving problems. I hope to help people with the insights and analysis I create. Working for a company like EROAD – who are heavily invested in driver and road safety – means that my insights could help to save someone’s life one day.”

“The University environment was one of the highlights of my programme. I spent a lot of my time using the labs and resources. The professors were helpful for everything from choosing the courses to answering questions before the exam. They were there through the duration of the programme to guide and help.”

Auckland Bioengineering Institute

The ABI is a world-leading research institute that aims to improve the diagnosis and treatment of a range of medical conditions and improve the lives of people with disabilities or injuries. For the past 20 years, we have been breaking boundaries in bioengineering - our focus on research excellence, clinical application, and entrepreneurship is making a difference to society and to the New Zealand economy.

Laura Pedofsky
Laura Pedofsky is in the final year of a PhD in Bioengineering.

The ABI is a world-leading research institute that aims to improve the lives of people with disabilities or injuries. For the past 20 years, we have been breaking boundaries in bioengineering - our focus on research excellence, clinical application, and entrepreneurship is making a difference to society and to the New Zealand economy.

Laura Pedofsky
Laura Pedofsky is in the final year of a PhD in Bioengineering.

Research strengths
- World leaders in computational modeling of the human body
- Innovative medical devices and instrumentation
- Biomechanics and augmented human technologies
- Engineering for clinical technologies
- Internationally-recognised researchers and world-class facilities

Support and facilities
As a postgraduate student, you will be an integral part of the Liggins family, with the opportunity to contribute to all aspects of the institute’s work, access to support in seeking research funding from public good, commercial and even philanthropic avenues and the opportunity to disseminate your research widely, including to the public.

Liggins Institute

The Liggins Institute is a world-leading research centre at the University of Auckland. We are committed to improving lifelong health through excellent research into mothers, pregnancy and early childhood. Our aim is to utilise a wide range of approaches, including genomics, laboratory science and clinical research, to translate rapidly novel findings into care of the mother and her child that promote lifelong health.

Dr Simone Watkins was born in Auckland, and her father is from the village of Mo’ototua in Samoa. After completing a Bachelor of Medicine and Bachelor of Surgery at the University of Auckland in 2011 she went on to train and work as a paediatric doctor. Now she’s back as a doctoral student at the Liggins Institute. Simone’s PhD is funded by a Health Research Council grant.

1. Part-time study options are generally not available to international students on student visas. International students must be enrolled full-time in order to meet the requirements of their student visa.
2. 3 December start available for 120-point research masters only, subject to supervisor availability.
3. Based on annual tuition fees for full-time study of 120 points except:
4. Semester Two start may not be possible for all subjects/majors/specialisations and only if places are available.
5. Upon the recommendation of the Academic Board and approval from the Dean of Graduate Studies, a candidate may present a corpus of creative work for assessment with a written thesis, comprising an integrated whole.
6. New international PhD students will be accorded domestic status for the purposes of tuition fees, subject to residency requirements. A new international PhD student is defined as a foreign student enrolled for the first time in a Doctor of Philosophy programme at a New Zealand university. Note that to be eligible for the domestic fee, a student is defined as a foreign student enrolled for the first time in a Doctor of Philosophy programme (for a cumulative total of no more than 12 months).
7. Part-time only.
8. Professional programme accredited by the relevant professional body.
9. Programme starts on 8 December.
10. Available in 2022, subject to regulatory approval.
11. After completing the initial two years of full-time study a candidate may apply for permission to continue as a part-time student.
12. This programme is offered every two years. The next intake will be 2022.
13. Research only available for Food Engineering and Medical Devices and Technologies specialisations.
14. Full-time study may not be possible for all subjects/majors/specialisations and only if places are available.
15. Part-time study may not be possible for all subjects/majors/specialisations and only if places are available.
16. Must be registered with the Pharmacy Council of New Zealand.
17. Must be registered with the Medical Council of New Zealand.
18. Must be registered with the Nursing Council of New Zealand.
19. Must be registered with the Optometry Council of New Zealand.
20. This programme has a limited intake each year and is open to New Zealand and Australian citizens and permanent residents only.
22. Programme has a limited intake each year and is open to New Zealand and Australian citizens and permanent residents only.
24. Taught option available for a limited range of majors.
25. Late Year Term entry in November is only available for the 240 point programme.
Funding your studies

We believe in investing in our postgraduate students. That’s why we offer postgraduate scholarships, awards and prizes to a total value of over $40 million each year. It pays to investigate funding possibilities as early as possible, so you know what you might be eligible for and when applications are due.

Guaranteed postgraduate scholarships

The University offers guaranteed scholarships to research students who meet grade point average (GPA) thresholds from their qualifying programme. Our guaranteed postgraduate scholarships are some of the most generous scholarships on offer in New Zealand. As a high-achieving domestic research student, you could be eligible for:

- University of Auckland Postgraduate Honours/ PhD/PGS Scholarship
- University of Auckland Māori Postgraduate Scholarship
- University of Auckland Pacific Postgraduate Scholarship
- University of Auckland Research Masters Scholarship
- University of Auckland Doctoral Scholarship

International students

We offer guaranteed University of Auckland Doctoral Scholarships to international PhD applicants who meet GPA thresholds in their qualifying programme from a New Zealand university. For more information, visit auckland.ac.nz/makeithgrade

Other postgraduate scholarships

In addition to guaranteed scholarships, the University offers a range of other postgraduate scholarships, awards and bursaries including:

- Super Leadership Scholarship
- University of Auckland University 21 Doctoral Student Mobility Scholarship
- The Kate Edgar Educational Charitable Trust Award
- In-house Postgraduate Scholarships
- Various faculty and subject-specific scholarships

Our Scholarships website provides a database of scholarships offered through the University of Auckland, as well as information on external scholarships provided. For detailed scholarship information, including criteria, closing dates, online applications and application forms, visit auckland.ac.nz/scholarships

Doctoral scholarships and support funding

University of Auckland Doctoral Scholarships are a generous postgraduate scholarship, paying fees and providing a stipend (living allowance) of $18,500 per annum for three years of full-time doctoral study, which may be extended by a further six months (on application). Doctoral scholarships are awarded to both domestic and international students. There are no closing dates or extra application forms: when you apply, just tick the box to request assessment for the scholarship and we’ll do the rest. Scholarship offers are made alongside offers of places in doctoral programmes. Under a New Zealand Government scheme, new international PhD students who reside in New Zealand during their doctoral study will pay the same annual tuition fees as New Zealand students (NZ$27,339.60; NZ$65,204.02** per annum in 2021), including compulsory health insurance for international students (NZ$567.00; see pg. 54) and the Student Services fee (NZ$265.40) the total fee in 2021 was NZ$29,962.00 (NZ$68,363.02** per annum).

auckland.ac.nz/pg-international-tuition-fees

Employment during study

Advanced postgraduate students are often employed as tutors, laboratory demonstrators or teaching assistants for undergraduate courses. Tutoring is a great way to gain valuable professional and teaching experience during your masters or PhD study. Other opportunities include part-time research assisting, administrative duties or library work. There may be limits on allowable work hours (particularly for scholarship and international students), so you need to check any conditions that may apply. If you are working outside of the University to finance your study, it’s important that you discuss your work commitments with your department’s postgraduate adviser or your supervisor to ensure you can balance your workload realistically.

Student loans and allowances

Student loans and allowances are administered by Studylink, a service of the Ministry of Social Development. New Zealand citizens and permanent residents may be eligible for financial assistance to support them during their studies. studylink.govt.nz

Phone: 0800 88 99 00

School of Graduate Studies

The School of Graduate Studies has overall responsibility for the development and oversight of policies and procedures for graduate programmes and for the promotion of graduate study, and provides advice to all doctoral students and their supervisors.
auckland.ac.nz/graduate

Postgraduate Students’ Association (PSGA)

The PSGA aims to make postgraduate life more enriching and fulfilling, and is the voice of postgraduate students (along with AUTA) within the University and the community. Under the PSGA, you can access a diverse collection of databases, journals and electronic books. Within our libraries, you can access various print, multimedia and recorded materials, including unique manuscripts and archives.

Advise offers research consultations to help you identify appropriate information sources, create search strategies and help you stay current in your field. You can also attend workshops on managing data research, referencing and presenting to assist with your research.

library.auckland.ac.nz/postgraduate

Learning essentials

Postgraduate study at university requires a wide set of academic skills. Our online resources will help you with time management, note-taking and critical thinking. Online resources to support master’s research and thesis writing are also available.
learningessentials.auckland.ac.nz

Study space

Libraries and Information Commons (IC) facilities provide more than 4,000 study spaces, many with computers and access to printers, scanners and photocopiers.

In addition to the plentiful general study spaces, there are quiet study and meeting spaces reserved for you in the postgraduate students’ common. Many faculties, schools and departments also offer dedicated postgraduate workstations or research facilities, such as the Arts Graduate Study Centre in the Faculty of Arts. Check your faculty website for details or request more information from the postgraduate advisor in your department.

South Auckland Campus, Te Papa Ako o Tai Tonga

The South Auckland Campus, Te Papa Ako o Tai Tonga, is available for use by all University of Auckland students. The facility offers various study spaces and services, including a common space with a large communal kitchen. The campus also has a large room for quiet study, as well as meeting rooms that can be booked for private study spaces or meetings.

Students can also borrow laptops, use the printing facilities, WiFi and library services. The campus is a quick two-minute walk from both the Manukau bus and train station.

Doctoral Support

The University offers a variety of resources to support and assist doctoral candidates in two ways: to help candidates refine the transferable, research and academic skills needed to complete a doctorate successfully and in a timely manner; and to help with career planning, preparedness and professional development.

All doctoral candidates are required to attend an induction and complete a development needs analysis with their supervisor.

In 2021 (fees are also covered).

$28,500

The annual tax-free stipend provided by the University of Auckland Doctoral Scholarships in 2021 (fees are also covered).

Postgraduate scholarships

Summer Research Scholarships

Summer Research Scholarships are a great way to gain valuable research experience over the summer months, boost your CV and help you think about pursuing postgraduate study. The scholarships provide a $6,000 tax-free stipend, as of 2020, and are open to high achieving domestic and international students. Applications are especially welcomed from international students, Māori students, Pacific students and students from other New Zealand universities.

Learning essentials

Postgraduate study at university requires a wide set of academic skills. Our online resources will help you with time management, note-taking and critical thinking. Online resources to support master’s research and thesis writing are also available.
learningessentials.auckland.ac.nz

Study space

Libraries and Information Commons (IC) facilities provide more than 4,000 study spaces, many with computers and access to printers, scanners and photocopiers.

In addition to the plentiful general study spaces, there are quiet study and meeting spaces reserved for you in the postgraduate students’ common. Many faculties, schools and departments also offer dedicated postgraduate workstations or research facilities, such as the Arts Graduate Study Centre in the Faculty of Arts. Check your faculty website for details or request more information from the postgraduate advisor in your department.

South Auckland Campus, Te Papa Ako o Tai Tonga

The South Auckland Campus, Te Papa Ako o Tai Tonga, is available for use by all University of Auckland students. The facility offers various study spaces and services, including a common space with a large communal kitchen. The campus also has a large room for quiet study, as well as meeting rooms that can be booked for private study spaces or meetings.

Students can also borrow laptops, use the printing facilities, WiFi and library services. The campus is a quick two-minute walk from both the Manukau bus and train station.

Doctoral Support

The University offers a variety of resources to support and assist doctoral candidates in two ways: to help candidates refine the transferable, research and academic skills needed to complete a doctorate successfully and in a timely manner; and to help with career planning, preparedness and professional development.

All doctoral candidates are required to attend an induction and complete a development needs analysis with their supervisor.

In 2021 (fees are also covered).

$28,500

The annual tax-free stipend provided by the University of Auckland Doctoral Scholarships in 2021 (fees are also covered).
Māori and Pacific student support
We welcome and support Māori and Pacific participation and achievement in all aspects of University life.

Waipapa Marae (City Campus) and Te Aka Mātua o Te Powhiri (Epsom Campus) provide a home away from home for our Māori students and their whānau.

Our Fale Pasifika is the centre of the University’s Pacific community. It houses the Centre for Pacific Studies, and provides a space for discussion and support.

The Pro Vice-Chancellor Māori and Pro Vice-Chancellor Pacific Office’s Wairangia and Pacific Equity Adviser can provide advice and guidance to help ensure our Māori and Pacific students succeed here.

The Offices host networking events for Māori and Pacific students academically and culturally. We specialise in academic learning enhancement through workshops, wānanga and consultations. Our work is underpinned by Kaupapa Māori and Pacific principles.

s.toleafoa@auckland.ac.nz
auckland.ac.nz/leadershipthroughlearning

Leadership Through Learning
Leadership Through Learning is a 12 week programme supporting undergraduate and postgraduate Māori and Pacific students to develop academic skills and leadership capability. It provides a culturally safe environment that normalises leadership and learning success.

auckland.ac.nz/leadershipthroughlearning

Equity - It’s not OK

International student support
The University provides a comprehensive range of support services for international students to help make your transition to life in Auckland as smooth as possible, or to support you with your online study while you are overseas. This includes learning and academic support, English language support and personal support (see pg. 55-56).

international.auckland.ac.nz

Students who are parents
Accommodation
The University offers a limited range of one, two and three-bedroom apartments to postgraduate students with young families (see pg. 53).

accommodation.auckland.ac.nz

Health and counselling service
Your health and wellbeing is key to your success while you’re studying. Our health and counselling service has practitioners who specialise in student needs, offering you quality advice, support and care. Our main centre is at the Kate Edgar Information Commons on the City Campus. Zoom appointments can also be arranged. Students who also register the service as their primary health organisation are eligible for discounted healthcare.

auckland.ac.nz/healthandcounselling

AUSA Advocacy
AUSA Advocacy is a professional service that provides advice to students with a range of academic, administrative and welfare-related issues. All students can access this free, confidential service, which is completely independent from the University.

We provide advice about your rights and responsibilities within the University, in a respectful, non-judgmental and timely manner. Our services include advocacy, support, assistance, information and referrals on any issues that may affect your ability to meet your academic goals. We aim to empower you to negotiate University policy and grievance procedures and to develop an environment where the privacy, dignity and respect of all parties are maintained.

AUSA Advocacy

Personal support
Support for equity-group students

‘Equity’ means fairness. The Equity Offices Ta Aro Taupō - Te Ara Tautika leads the University’s commitment to ensuring everyone who has the potential to succeed at our university can do so. We have a range of initiatives, resources and support for our students and their whānau and families.

Check out the websites below or visit equity.auckland.ac.nz

Student Disability Services provides support for students with a wide range of impairments, both visible and invisible. If you live with an impairment that impacts your studies then contact us for a confidential chat about how we can help you succeed at the university.

Student Disability Services provides ongoing support for students with diagnosed mental health conditions, and can also refer students with learning difficulties through to Inclusive Learning for dedicated learning support.

disability.auckland.ac.nz

Childcare
The University Early Childhood Centres offer assistance with juggling childcare and study. All of our centres follow the New Zealand early childhood curriculum, Te Whāriki.

Childcare
Te Puna Kōhangahunga on the Epsom Campus.
Te Hineteiwaiwa Kohanga Reo on the City Campus.
Two of the centres are Māori medium centres: Hīmatangawhia Kohanga Reo on the City Campus and Te Puna Kōhangahenga on the Epsom Campus.

For further information about these centres, please contact: +64 9 923 2007 ext: 89714

Finding accommodation

As a postgraduate student, you need a living environment that allows you to focus on your studies, while enjoying all the social and recreational opportunities that the University and city of Auckland have to offer.

University-managed accommodation

Furnished, self-catered options
All of our residences offer the opportunity to meet and make new friends with other students from New Zealand and around the world. In residences that house both postgraduate and undergraduate students, postgraduate students are housed close together so that they can form their own community.

55 Symonds
55 Symonds offers modern, air-conditioned studio, studio plus and studio plus double apartments that are suitable for both singles and couples. As well as the amenities offered in your studio, shared facilities include a large communal kitchen and dining area opening onto a spacious courtyard, TV room, lounge and additional study areas.

Carlaw Park Student Village
Located in Parcels, Carlaw Park is only a five minute walk from the City Campus and accommodates 697 students in a combination of two-, three- and four-bedroom apartments spread throughout seven buildings. The two-bedroom apartments are exclusively designated for students with young families. Each building has direct access to shared common areas, including a large study room, games room, large outdoor area and laundry facilities.

Te Tiরohanga o тe Tōangaroa
Located at 128 Anzac Ave, just a five-minute walk from the University General Library on the City Campus, Te Ti로hanga will open for the first time in 2020. This residence offers 488 single rooms, with communal kitchen, dining, study, lounge and games areas as well as access to a rooftop deck with a BBQ.

Waikohanga House
Located at 44 Symonds Street, just a five minute walk from the City Campus, this beautifully refurbished building is the University’s newest accommodation for couples and families. Waikohanga House offers fully-furnished one, two and three bedroom apartments. Residents have access to on-site laundry and printing facilities.

Accommodation for couples and families
We provide a range of accommodation for couples and families. Demand is high for this accommodation and availability is limited, especially if you are applying outside of Semester One. If you are applying in Semester Two or between February and November, we recommend you contact our Accommodation team for assistance in finding accommodation that best fits your needs.

How to apply
You can apply online for a place in a university-managed residence for 2021 at accommodation.ac.nz

UniGuides
As a new student at the University of Auckland it can be challenging to meet new friends, learn about campus resources and services or find out where classes are located. The UniGuide Programme is a free service designed to help make your first semester easier, by connecting you with a student mentor who can show you the ropes. You will meet your UniGuide at your Faculty Orientation Day.

acm.ac.nz/uniguide

Recreation and entertainment

Cafés and bars
Whether you’re lunching with friends or just grabbing a snack, there’s an outlet on campus to suit your needs. Our wide range of retailers and vending machines ensure you don’t need to travel far, giving you time to enjoy the vibrant campus culture.

Sport and recreation
Play sport, get fit and have fun! If you’re keen on sport, we have a wide range of opportunities on offer to you. You could get some friends together and sign up for one of the UNIONS Social Sports Leagues, or represent your faculty in one of 13 sports in the Interfaculty Sports Championship. And if you’re competitive, you could even represent the University of Auckland in the National Tertiary Sports Championship.

Music and culture
You can often enjoy free musical events in the City Campus Quad. 95bFM broadcasts from the City Campus, providing news, views, music, gig guides and an accommodation guide. Visit 95bFM.com for live streaming or to volunteer. Visit the Gus Fisher Gallery to see work by established New Zealand and international artists or try the George Fraser Gallery for a taste of the talent at Elam School of Fine Arts.

Finding accommodation

As a postgraduate student, you need a living environment that allows you to focus on your studies, while enjoying all the social and recreational opportunities that the University and city of Auckland have to offer.
2. Fees are based on the weekly rates for a 52-week period in 2021. Accommodation fees for 2022 will be set in late 2021.

Information for international students

- As a safe and politically stable country with a high standard of living, New Zealand is an ideal place to enjoy your postgraduate study.
- New Zealand enjoys a global reputation for technical innovation supported by its world-class education system and reputation for research excellence.
- Education in New Zealand is not just about imparting knowledge, but also about generating new ideas and fostering independent thinking.
- Studying at the University of Auckland, New Zealand’s leading university, will equip you for the global marketplace with an internationally recognised qualification.

Arriving from overseas

The University of Auckland warmly welcomes students from all over the world. Studying with us offers you a wonderful opportunity to gain an internationally recognised qualification in a stimulating environment. Our diverse student population includes international students from more than 120 countries, so you’ll be part of a genuinely global academic community.

Benefits of studying for a PhD in New Zealand

- As a PhD candidate you have open work rights under the terms of your student visa.
- On completion of your PhD, you can apply for a three-year Post-study Work Visa which allows you to work for any employer in New Zealand.
- Your spouse or partner can apply for a work visa valid for the duration of your PhD programme.
- Your dependent children can attend New Zealand’s primary and secondary schools at the same subsidised rate as New Zealand children.

Domestic fees for PhDs

Under a New Zealand Government scheme, international PhD students who reside in New Zealand during their doctoral study will pay the same annual tuition fees as New Zealand students (N$7,350.40, US$5,304.02* per annum in 2021), including compulsory health insurance.

Advisory service

To help you sort out issues related to your studies from overseas. The Business School also provides an Orientation for its coursework master’s students in Quarters Two and Four. When you arrive, you can sign up for a 10-week – a current student who can answer your questions and help you find your way around campus during your first few weeks.

Pastoral care for international students

Our international student advisers can help you if you need to talk to someone about any difficulties. They offer a free, confidential service to help you sort out issues related to your studies, accommodation, health, budgeting, work, immigration and adjusting to life in New Zealand or remote study challenges.

Scholarships

The University of Auckland administers scholarships that are open to international students wishing to pursue postgraduate study. The International Office also works with external scholarship agencies and government bodies to provide opportunities for international students who meet entry requirements. See the following table for a selection of available scholarships. For a full list, visit scholarships.auckland.ac.nz

Private accommodation

Apart from our University-managed student accommodation facilities, there is a range of apartments and flats around Auckland. The University is located close to the city’s central business district and is served well by public transport from all areas.

If you are interested in seeking accommodation outside of the University residences, our Accommodation Solutions team can assist you with comprehensive information about renting in Auckland, including rental agents, useful websites, tenancy requirements, lease templates, maps, school information and more.

Private accommodation can be difficult to find during January and February, with large numbers of students looking for accommodation. We suggest that you start your search early to secure accommodation. Please note that we do not inspect or guarantee the quality or availability of private accommodation.

Rental

If you rent a house or a flat in a nearby suburb you will need to sign a tenancy agreement with the landlord. City flats or apartments are generally furnished, while those in nearby suburbs are often unfurnished, with just a stove and oven provided.

Homestays

In a homestay you live in a New Zealand family home where you will have a fully-furnished room. Your host will provide breakfast and dinner each weekday and three meals each day during the weekends. Note that most homestays are not usually located within walking distance of the University campuses and may be a bus ride away. We use a homestay agency for placements.

Flattings

Share a house or flat with other students. You are responsible for paying the rent, electricity, gas, insurance, water, garden maintenance and phone charges, according to the details in your tenancy agreement. You will need to provide basic furniture such as a bed and a desk.

Flatting

Accommodation Solutions holds a flatting seminar in February or March. We also run Flattening Week in September, which includes a range of events from one-on-one flatting workshops to opportunities to connect with local accommodation providers.

English language support

If English is not your first language, you will be required to provide proof of your English-language proficiency to be accepted for postgraduate study (see auckland.ac.nz/pg-english-reqs for more information about English-language requirements). The University provides plenty of support to help you further develop your academic English skills during your studies.

DELNA

DELNA (Diagnostic English Language Needs Assessment) is a free service that determines the level of English language support you will need to succeed in your studies. delna.auckland.ac.nz

English Language Enrichment (ELE)

English Language Enrichment (ELE) provides opportunities to develop your academic communication skills through in-person and online workshops as well as individual consultations. You can join language learning groups, participate in Writing in English workshops, meet individually with a language adviser and find language exchange partners. You can also access language-learning materials and tools to help improve your academic English through ELE Online.

library.auckland.ac.nz/ele

Working while you study

If you are enrolled as a full-time student at the University of Auckland, you may be eligible to work during your programme of study. For up-to-date information on work rights while on a student visa in New Zealand please visit immigration.govt.nz/study.

Career Development and Employability Services (CDES)

You don’t need to know what job you want but it’s good to start thinking about your career. At Career Development and Employability Services (CDES), our team is here to support you from day one. We offer online and in-person resources, consultations and host events and workshops that help you identify opportunities, network with employers and become work-ready. CDES also has a specialised careers consultant for international students. Work with us to build knowledge and make connections for life during and after your study. You can use our services during study and for three years after graduation. cdes.auckland.ac.nz

Before you arrive in New Zealand

Immigration

You must apply for a student visa to cover the period you intend to study in New Zealand. You must show evidence that you have been accepted into a programme, have paid your tuition fees and have sufficient funds to cover your costs while in New Zealand. You must apply for your visa before entering New Zealand. Full details on rights to employment in New Zealand while studying are available through Immigration New Zealand, and can be viewed on its website at immigration.govt.nz/study.

International students bring perspectives from over 120 countries to our campuses.

“"I am fortunate that my years at the University of Auckland have provided me with opportunities and experiences that I will carry with me for life.”

Xavier is a Master of Science in Geography graduate. He works as a Poukokiri Rangahau Māori (Senior Librarian, Māori Research) at Auckland Council.

“My postgraduate interests came about in my third year of undergraduate study, helped greatly by having enthusiastic lecturers. I think some of their energy rubbed off on me.

“The people I encountered and the opportunities that came out of that are the main highlights from my time studying. Meeting people and learning about their interests enriched my time at university.

“I am a research librarian specialising in Māori subject matter. My interests span history, arts and crafts, to whakapapa research. I help people with reference enquiries in these areas, as well as undertake my own research.

“The ability to get on with people from various backgrounds has been valuable and has carried me on to my current job. Research work, collecting and analysing information, and looking at different perspectives are also skills that I have developed and am still developing.”

Xavier Forsman

Xavier (Te Rarawa) is a recipient of the School of Environment Māori Masters Thesis Scholarship.
How to apply

Honours, postgraduate certificate, postgraduate diploma and masters programmes

Before you apply
1. Check the entry (auckland.ac.nz/pg-entry-requirements) and English-language (auckland.ac.nz/pg-english-reqs) requirements for your programme.
2. Check the application closing date (pg. 60). We recommend you apply as early as possible. You don’t need to wait to meet the requirements before applying - as long as you meet them before the programme begins.
3. If you are applying for a 1-year masters with a research project, you will need to provide evidence that a member of academic staff has agreed to supervise you. See FindaThesis (findathesis.auckland.ac.nz), the research webpages for your area of interest or contact the postgraduate adviser for your programme/Faculty for potential supervisor details.

Ready to apply?

New to the University of Auckland or a former student?
1. Apply for admission online: apply.auckland.ac.nz

Current student?
1. Make an Add/Change programme request online: apply.auckland.ac.nz

2. You will receive an acknowledgement email listing the supporting documents we require, and a Student ID number for logging on to your Application for Admission. You can check your application status online and see what supporting documents you will need to provide. Your application will be assessed once we receive sufficient information (such as uploaded transcripts, other academic results, references or a portfolio) or you have attended an interview.

2. We will assess your application and inform you of the outcome via email. The status will show on the ‘Your applications’ section of the Application for Admission.

3. Accept (or decline) your offer online at apply.auckland.ac.nz. If you have a conditional offer, you should accept your offer straight away. There is no need to wait to meet the conditions before accepting your offer. We encourage you to submit the required information to meet the conditions as soon as you are able.*

4. Enrol in your courses. The postgraduate enrolment process is faculty-specific. See auckland.ac.nz/pgenrolment

Applying for a Graduate School of Management programme

For information on how to apply to a Graduate School of Management programme, visit gsm.auckland.ac.nz

Need help applying?
Find answers to frequently asked questions:
askauckland.ac.nz
Email: postgradinfo@auckland.ac.nz
Phone: 0900 61 62 65
Find a postgraduate adviser:
auckland.ac.nz/pgadviser

*Conditional offers
Conditional offers are made when your place in a programme is subject to one or more conditions. For example, you may need to supply final results or complete a prerequisite course.
When you receive a conditional offer:
1. Accept (or decline) the offer.
2. Meet the conditions.
3. Submit evidence that you have met the conditions.

PhD or named doctorate

Before you apply
1. Read the academic entry requirements: auckland.ac.nz/doctoralentry
2. Decide on, and clarify as much as possible, your potential research topic or area of research. Check that we have active research in your preferred research area by exploring faculty or department websites, FindaThesis (findathesis.auckland.ac.nz) and the University Directory (unidirectory.auckland.ac.nz).
3. Check the English-language requirements for your programme: auckland.ac.nz/pg-english-reqs
4. If you are applying for the Doctor of Clinical Psychology or Doctor of Education, check the application closing date (pg. 60). Applications for all other doctoral programmes may be submitted at any time of the year.
5. Have electronic copies of the following ready:
   - Relevant academic transcripts
   - Statement of Research Intent
   - Approved English language test scores from within the last two years
   - Academic CV or résumé
   - Evidence of research activity (including a thesis or dissertation)

Arrange for two referees to support your doctoral application. Doctoral referee reports must be submitted directly from your referees.

You can download a Statement of Research Intent form, a Doctoral Referee Report form, and follow our step-by-step guide for doctoral applications, admissions and enrolment at auckland.ac.nz/applydoctorate

Ready to apply?

1. Apply for admission online: apply.auckland.ac.nz

2. You will receive an acknowledgement email with your Application for Admission login details. You can use these details to keep track of your application status. You can also check online to see if you need to supply any additional supporting documents. Assessment of your doctoral application can take eight weeks or longer.

3. When a decision is made, the status will show on the ‘Your applications’ section of your Application for Admission and we will inform you of the outcome via email. If you indicate in your application that you would like to be considered for a University of Auckland Doctoral Scholarship, you will be informed of the outcome in the same email.

4. Accept (or decline) the offer online.

5. When you accept an offer of place, you are admitted to your programme. We will acknowledge your acceptance by email with information on how to enrol. Domestic applicants have 3 months to enrol, international applicants have 6 months to enrol.

International applicants
Follow the guidelines on pages 58–59.
Read the entry requirements for non-doctoral programmes for international applications: auckland.ac.nz/pg-entry-requirements
We recommend you apply as early as possible to allow sufficient time to apply for visas. We have a number of official agents and overseas representatives who can help you with the application process in person; see auckland.ac.nz/findanagent
Applications to Law postgraduate programmes may be submitted at any time of the year.

If you wish to apply to begin your study in Semester Two 2022, you should check with your faculty to see if there are specific closing dates for the programme you wish to study.

Please make careful note of the application closing dates listed below. Applications submitted after the closing date will be considered if places are available.

Information for international students

The Education (Pastoral Care of International Students) Code of Practice: The University of Auckland has agreed to observe and be bound by the Education (Pastoral Care of International Students) Code of Practice: nzqa.govt.nz/the-code

Immigration: To complete enrolment, students must have a current valid visa that permits them to study at the University of Auckland.

Full details of visa requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available through the New Zealand Immigration Service, and can be viewed on their website at immigration.govt.nz/study

Eligibility for health services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health and can be viewed on their website at health.govt.nz

Medical and travel insurance

All international students are legally required to have appropriate health and travel insurance. The University of Auckland’s recommended policy is Studentsafe Inbound University, a scheme that meets New Zealand government requirements. When you enrol you will automatically be covered by Studentsafe Inbound University, a scheme that meets New Zealand Medical and travel insurance

All international students are legally required to have appropriate health and travel insurance. The University of Auckland’s recommended policy is Studentsafe Inbound University, a scheme that meets New Zealand government requirements. When you enrol you will automatically be covered by Studentsafe Inbound University and the insurance premium will be added to your student account. You will receive details with your offer of admission letter from the University of Auckland terms used in this prospectus. These regulations, requirements and policies.

Disclaimer

Although every reasonable effort is made to ensure accuracy, the information in this document is provided as a general guide for students and is subject to alteration. All students enrolling at the University of Auckland must consult its official document, the current Calendar of the University of Auckland, to ensure that they are aware of and comply with all regulations, requirements and policies.

Costs

All costs are shown in New Zealand dollars and are expressed inclusive of New Zealand Goods and Services Tax if applicable.

Privacy

The University of Auckland undertakes to collect, store, use and disclose your information in accordance with the provisions of the Privacy Act 1993. Further details of how the University handles your information are set out in a brochure available from the AskAuckland Central student information centre or by phoning 0800 61 62 63.

Auckland terms used in this prospectus. These regulations, requirements and policies.

Glossary

This is a quick guide to common University of Auckland terms used in this prospectus. These are not intended to be legal definitions, refer to the University Calendar when interpreting these terms.
calendar.auckland.ac.nz

Application for Admission

The first step in the application process is to apply for admission to the University and your postgraduate programme:
apply.auckland.ac.nz

Course

The basic component of your programme of study. Courses are normally taught and assessed over one semester or two consecutive semesters in the same academic year. A course is sometimes referred to as a “paper” at other universities.

Enrolment

Once you have applied and been admitted to the University and your programme, you will need to enrol in the courses that will make up your programme of study (see pg. 58).

Faculty

There are eight faculties at the University: each offers and administers programmes within their discipline or group of disciplines. In addition, you can undertake postgraduate programmes at one of our large-scale research institutes:

Auckland Bioengineering Institute and Liggins Institute

Programme

A programme is a prescribed set of one or more courses or other work (such as a thesis). A certificate, diploma or degree is awarded on the successful completion of the programme.

University of Auckland Calendar

You will find regulations and requirements for all of our postgraduate programmes in the University Calendar, available in print and online:
calendar.auckland.ac.nz
